RACE HORSES SEIZED UNDER AN EXECUTION

High Sheriff Levied on Billy Woods and Walter P. Some Time Ago—Hackfeld & Co. Secured Judgment.

Billy Woods is in hoc. Not Billy Woods the amiable exponent of healthy athletic exercise and incidentally the popular turnkey at the city prison, but Billy Woods the crack harness race horse. The horse was levied upon several weeks ago by the High Sheriff to satisfy a judgment obtained by H. Hackfeld & Company against Prince David Kawanakoa for \$169 and costs. Walter P., another well known race horse, was seized at the same time. The horses had not been in training for some time before being seized and were not in such fine condition as their admirers would have liked had the animals been entered in a race.

BIG PART OF A MILLION FOR HAWAII

DELEGATE KALANIANA'OLE CABLES GOVERNOR CARTER THAT THE RIVER AND HARBOR BILL TO BE REPORTED BY THE COMMITTEE WILL CARRY ITEMS OF \$400,000 FOR HONOLULU HARBOR AND FOR THE SURVEY OF HILO HARBOR.

Washington, D. C., January 24, 1905

Governor Carter, Honolulu: Committee will report general Harbors Bill carrying four hundred thousand dollars for Honolulu also for survey Hilo harbor.

KUHIO

Governor Carter this morning sent the following reply to Delegate Kuhio's cable announcing the successful outcome of the attempt to get Hawaii on the appropriation bill for harbors:

"Kuhio, Washington: Congratulations. All interested should now redouble efforts toward final passage.

"CARTER."

The welcome news contained in the above cable from Delegate Kuhio was received by Governor Carter shortly after ten this morning being timed at 11:45 in Washington. While it does not mean that the amount asked for by Hawaii will actually be appropriated, it does mean that about 75 per cent of the fight has been won. The general Rivers and Harbors bill which is referred to in the cable is the bill fathered by Senator Burton who is chairman of the Rivers and Harbors Committee. It may be taken as sure that if the bill is not slaughtered towards the end of the session it will pass in its entirety and the much needed expenditure here in Hawaii will then be assured.

Governor Carter asked for an expenditure of \$250,000 on Honolulu harbor, for a refund of \$172,000 spent by the Territory since annexation on the harbors and lighthouse service and also for an appropriation for making a survey of Hilo harbor with a view to the building of a breakwater there. Thus it will be seen that practically all asked for has been given so far as those at present in charge can give it.

It will be remembered that the statement was made by Secretary Atkinson in one of his letters that Chairman Burton had asked him to wait in the East to consult with him on harbor matters. Kuhio in his recent letter to the press pooh-poohed the idea of anything of the kind and it will be interesting to watch who gets the credit.

BET SUGAR ALARMED

(Associated Press Cable to The Star).

WASHINGTON, D. C., Jan. 24.—Secretary Palmer of the American Beet Sugar Association appeared today before the Ways and Means Committee of the House and spoke in opposition to the bill which proposes to reduce the duty on Philippine sugar.

PRICE OF SUGAR.

SAN FRANCISCO, Jan. 23.—The New York price of 96 degree test centrifugals this day is 5.25 cents a pound or \$104 a ton. The last previous quotation was January 18, 5.2375 cents a pound. The quotation a year ago was 3.33 cents a pound.

SAN FRANCISCO, Jan. 23.—The London price of 88 analysis beets this day is 15 shillings, 9 pence. The last previous quotation was January 20, 16 shillings, 1 1-2 pence. The quotation a year ago was 7 shillings, 10 1-2 pence.

Is The Psychological Moment Here?

THE HUMORISTS OF THE SITUATION ASK IF THIS IS NOT THE TIME TO FLOAT SOME NEW PROPOSITION WITH LOW PRICED STOCK SO THAT EVERYBODY CAN CUT IN ON THE UPWARD TREND.

The excitement in the stock market and the evident fact that a great deal of the activity is of a purely speculative character, has led the humorists of the situation to suggest that this would be a good time to float some new scheme with a low priced stock.

The strong upward tendency of the market has run stocks up so high that the man with only a small bank account can't deal in any quantities. For instance to buy a thousand shares of Hawaiian Commercial now, with the idea of scalping the market for a profit of a dollar a share, would require a capital of nearly \$90,000, and there are said to be some people anxious to speculate in stocks who haven't that much ready money.

Even McBryde has got up to a figure now where it takes \$14,000 and upwards to swing a block of a thousand shares. Olan is looming up now, and at ten dollars a share, it begins to take ready money to buy even that in any quantity. There are those who profess to believe that the reason some of the lower priced stocks have gone up as high as they have is that there are so many anxious to cut in on the present boom movement who can't raise enough money to deal in the higher priced stocks, that competition among these has driven stocks up.

At any rate, some seem to think that almost anything would go now if the price of stock were started low enough, say \$5 a share, or even a dollar, like they start mining and oil companies in California.

DYNAMITE IN COURT ROOM

ENOUGH HIGH EXPLOSIVE INTRODUCED IN EVIDENCE TO PUT JUDGE DE BOLT'S TRIBUNAL PERMANENTLY OUT OF EXISTENCE—OPENING OF THE LUPINI-GOMEZ CASE—THE SHORT AND SIMPLE SCANDALS OF THE POOR.

Policeman Hubbell entered Judge De Bolt's court room this afternoon with a sack in his hand and placed it gingerly beside Attorney General Andrews' chair. This was at the opening of the trial of Lupini Gomez, the Portuguese charged with illegally using explosives in an alleged attempt to blow up the house of his neighbor Halao at Kaaawa on September 10 last.

"Is that dynamite you have in that sack?" asked His Honor betraying a decided interest as a pale reporter stepped over towards a seat and nearly stepped on the sack.

"It is your honor," replied Attorney General Andrews, "but I am informed that it requires a force of eighty pounds to the square inch to explode it, so that there was really no danger."

Judge De Bolt looked relieved but on his suggestion that there might be some danger if the dynamite were left for the chance of a careless foot, it was moved beyond the dead line where none of the heavy weights would be apt to venture.

As stated by the prosecution the case against Gomez is that he stole Halao's wife from him last year. She lived with the Portuguese for a time and then her wayward affection cooled. She went back to her husband and he forgave her for her wandering from the well marked path of wifely devotion, but Gomez considered himself aggrieved. On the morning of September 9, Halao found a can, with a half stick of dynamite inside already attached to a primed fuse, outside his house, and the next morning, while he was out, the front of his house was blown up apparently by the use of the same explosive.

Gomez was suspected of the outrage and on search nine more sticks of dynamite were found in his house. This was the stuff produced in court today.

With joyous disregard of the high explosive nature of fulminate of mercury, Attorney General Andrews swung the primed fuse round as he produced it for identification, but up to the time of going to press there has been no explosion and Judge De Bolt's court is still intact.
