

Easter Display of Trimmed Hats

Our Easter showing has eclipsed anything heretofore on view. If you have not seen the beautiful display come now. It is not too late. We wish to call particular attention to our line of Children's trimmed hats, all at exceedingly low prices.

Ladies' and Children's Hosiery at Almost Half Price

This is a startling statement but nevertheless true. We are changing lot numbers on our stock, hence the great cut in prices. We have placed on our counters odd lots and broken sizes and have cut the prices nearly in half. The lines are all good and every pair of hose warranted. Who can afford to miss this opportunity?

THE LEGISLATURE

THE WORK DONE IN THE HOUSE THIS MORNING—THE COMPOSITE
LEPROSY BILL PASSES THIRD READING—THE SENATE BILL FOR THE PROTECTION OF FOOD FISHES IS RECEIVED AND PASSED FIRST READING—OTHER WORK DONE.

There were thirteen vacant seats in the House this morning when Speaker Knudsen took the chair so that the missing thirteen did not have the benefit of the prayers of Rev. W. D. Westervelt.

The reading of the report of President Pinkham of the Board of Health in connection with the outbreak of sickness at Pelekunu and Halawa, Molokai, was read and placed on file.

A number of Senate communications were received notifying the House of the passage of bills in that chamber. Governor Carter notified the House that the concurrent resolution regarding coffee had been forwarded to the President of the United States, the President of the Senate, Speaker of the House and Territorial Delegate with the request that the resolution be properly placed before Congress.

The Senate notified the House that it had passed the following concurrent resolution:

Resolved: That all committees and sub-committees having in hand the matter of loan appropriations be requested to make a final report within five days.

The House adopted the resolution. The Senate's amendments to House bill relating to vehicles carrying lights at night adding automobiles to the list and making the "rider and user" of a bicycle liable, were concurred in.

Delegate Kalaniana'ole entered the hall and was asked to take a seat beside the Speaker.

The Health Committee recommended the tabling of Coelho's resolution for an appropriation for a home for non-leprosy male children of leprosy parents, on the ground that it would cost \$4,000 for buildings and \$500 a month for maintenance. The report was adopted.

The committee on public lands and internal improvements recommended the tabling of the petition of Mrs. Luahini for a title to two acres of land in Pepeekeo plantation. The claim to the land was recognized as being tenable but the power of granting a title does not lie with the House. Adopted.

The Public Lands committee recommended that W. K. Keobe be granted \$100 for alleged damage to a family burial plot at Kipahulu. Adopted.

Official Report Of The Relief Expedition

PRESIDENT PINKHAM SENDS TO THE HOUSE THIS MORNING A DETAILED STATEMENT INCLUDING THE OFFICIAL REPORT OF DR. JOHN D. YOST OF WHAT WAS DONE BY THE LIKELIKE ON THE TRIP TO PELEKUNU VALLEY.

President Pinkham this morning sent the following report of the Likelike relief expedition to Pelekunu Valley, Molokai, to the House of Representatives. The President of the Board of Health expresses his thanks to all who rendered service in this most important relief expedition.

The report of the expedition by Dr. Yost is in more formal shape the information published by the Star yesterday in an interview with him.

Honolulu, Hawaii, March 25, 1906. Honorable Eric A. Knudsen, Speaker of the House of Representatives, Honolulu, T. H.

Sir:—I have the honor to report in connection with House Resolution and the House Concurrent Resolution of March 25th, 1906, as follows:

On receipt of the latter I immediately telegraphed to Dr. Dinegar of Maui to secure the tug "Baldwin" and proceed at once to Pelekunu and Halawa, Molokai, to relieve the sick. About 6 p. m. I received a reply that it was impossible to secure the "Baldwin" and abandoned any attempt to secure immediate relief from Maui.

The "Likelike" was the only available boat. It was after 6 o'clock Saturday, the crew was scattered and the expense of making a special trip was not justified as we could not save twenty-four hours over the regular sailing, which it was arranged would be direct to Pelekunu Monday evening.

I arranged with Dr. Judd to take two nurses and supplies intending to establish them one in each valley. Dr. Judd giving medical attendance during the three days he would be ashore.

During the morning of the 27th I was called to the Executive Chamber and found Dr. Yost of the United States Army had kindly tendered his services. It was believed the "Iroquois" could be secured and going direct could take the sick and bring them to Honolulu for treatment which would be very advantageous. Dr. Yost and Secretary Atkinson volunteered their services and they were accepted.

While Dr. Yost and Secretary Atkinson were arranging transportation I attended to securing nurses and supplies. We were finally obliged to secure the steamer "Likelike" running on her regular schedule. In addition to the above there were engaged three men from the hospital corps of the United States Military Hospital and two men from the Artillery Camp who volunteered to go as nurses and litter bearers, and who were given permission by Col. McClellan. Two female nurses also went with the party.

After an absence of some thirty-six hours the expedition returned this morning at 5 a. m. Dr. Yost reports as follows: Medical and other supplies were furnished by the Board of Health from lists made out by Dr. Judd when ex-

pecting to accompany the expedition including a few additions, such as mattresses, pillows, blankets, etc.

We arrived at Halawa about 11 o'clock a. m. on the 28th, and went ashore immediately. We found the refugees from Pelekunu living in a small house about three-fourths of a mile from the shore. There was no attempt at segregation.

We were told that Dr. Mouritz had visited them on the date of their arrival at Halawa, the 25th inst, and that he had prescribed for them.

There were eight persons, five adults and three infants in all. Of these three have been or were ill. One, an adult, convalescent had been sick since March 15th, and gave such a history that, in connection with the fact of his early recovery, led to the diagnosis of malaria. Two infants had been ill since March 11th but were at this time well. Their history was that of a mild attack of malaria.

At the same time an adult presented herself stating she had had an attack identical with those above mentioned, and that she had never been out of Halawa. Her history was that of a typical case of malaria.

These patients were well housed and comfortable, and all convalescent or convalescing. No drugs were left here, but one-fifth of the food supplies were placed in charge of the school teacher for distribution.

We then boarded the "Likelike" bound for Pelekunu at about 1 p. m. and arrived at about 2 p. m.

All supplies were landed here as we received word from the shore there was much sickness in the village.

The first case seen was that of a boy of thirteen, who showed most typical symptoms of typhoid fever in a severe form. His two brothers had died two days previous and their history was that of typhoid fever in a most virulent type.

Two children were then seen who were said to have been ill, but the history was too vague for diagnosis. They were apparently well.

The next patient seen was a male adult whose symptoms were such as might be found early in a severe case of typhoid. He was living in a house in which there had been a death on February 1st, after an illness typical of typhoid.

A woman was then seen who was ill with chills and fever, but whose history and symptoms were indicative of malaria and not of typhoid.

The boy mentioned above, as being so very ill, was advised to accept transportation to Honolulu and his parents gladly assented.

The adult mentioned above as being probably an early case of typhoid was invited to accept transportation to Honolulu and gladly accepted.

SENATORS IN DOUBT

THREE AGAINST OVERRIDING THE GOVERNOR'S VETO OF THE SUNDAY BILL. THREE WHO ARE CLASSED AS DOUBTFUL AND NINE READY TO PASS THE BILL—RECONSIDERATION MAY BE BROUGHT UP TOMORROW.

There are at least three votes in the Senate which are regarded as certain against overriding the governor's veto of the Quinn Sunday law, and there are three others in doubt. As six are enough to kill the bill, there is considerable doubt regarding the prospect of getting it safely passed the veto. Senator Dickey of Maui, Senator Paris of Hawaii and Senator Wilcox of Kauai are the three who are counted on as ready to sustain the veto.

Senator Bishop of Honolulu is on the doubtful list, but has been classed among those favorable to the bill. Yesterday his attitude, in view of the veto, was not certain. He was not thought to be ready to disregard the veto, though a supporter of the bill.

GERMAN BARK SAILING.

The German bark Antuco is to sail today for Newcastle. She takes coal from Newcastle to Iquiqui and at that place she loads nitrates for Hamburg.

BEAR BACK FROM KAUI.

The revenue cutter Bear arrived off the port last night from a cruise about Kauai and Niihau. The vessel was reported as being a foreign steamer. She came into the harbor this morning. The vessel's engines are in need of repairing. She made slow progress up from Kauai in the face of the strong trades that have been blowing for the last two days.

BATTLESHIP OHIO IS COMING.

The battleship Ohio was to have sailed from San Francisco March 25 for Honolulu and the Asiatic station. Admiral Whiting said however that perhaps she might not get away until April 1 as the pumps that work the hydraulic steering apparatus were being overhauled.

Miss Birch Fanning leaves on the Manchuria next Friday en route to New York where she will take a four years' course in medicine.

in the first place. Senator Achi and Senator Brown of Hawaii are both classed as doubtful. There is considerable speculation as to Achi's course, but he has not made any definite promises. Brown is expected to sustain the veto.

The other nine senators are all regarded as sure to vote to override the veto. Among them is Senator Hayes of Maui, who will not be present until the Monday session. The postponement of consideration to that time was on account of his absence, but there is talk now of a reconsideration tomorrow. The friends of the bill will bring it up tomorrow if assured that they have enough votes without that of Hayes.

BUOY IS SINKING.

Buoy No. 9 in this harbor has a hole in it and is in a sinking condition. Captain Niblack the lighthouse and buoy inspector has had to have the can buoyed up. Rust has eaten a hole in the can. The buoy will be replaced by a new one.

CUMMINS ON MARINE RAILWAY.

The steamer J. A. Cummins went on the marine railway this morning.

HALEIWA.

The Haleiwa Hotel, Honolulu's famous country resort, on the line of the Oahu Railway, contains every modern improvement and affords its guests an opportunity to enjoy all amusements—golf, tennis, billiards, fresh and salt water bathing, shooting, fishing, riding and driving. Tickets, including railway fare and one full day's room and board, are sold at the Honolulu Station and Trent & Company for \$5. For departure of trains, consult time table.

On Sundays, the Haleiwa Limited, a two hour train, leaves at 8:22 a. m.; returning, arrives in Honolulu at 10 p. m.

KIHEI MEETING HAS BEEN CALLED

WILL CONSIDER THE PROPOSAL TO CHANGE THE DENOMINATION OF THE SHARES FROM \$50

A special meeting of the stockholders of Kihel plantation has been called for April 10, to discuss the proposition to change the denomination of the shares of the company from \$50 each to \$10 each. A petition to the directors asking for this change was circulated some days ago as was announced exclusively in the Star at the time.

KAUAI GETS A GOOD RAINFALL

EVERY PLACE HAS SHOWERS EXCEPT MAKAWELI AND WAIMEA. SHOWERS IN HANAIEI HILLS.

The drought about Kauai has been broken. With practically two exceptions, every place about the Garden Isle has been enjoying rain. In the Hanalei hills the rainfall has been quite copious. At almost every other place about the island showers fell at intervals during the day. The McFlyde plantation got some good showers.

The rain began yesterday and continued throughout the day. Only Makaweli and Waimea did not catch any of the rain.

News of the rainfall was brought this forenoon by Purser McNamara of the steamer Keaouhu which arrived from Kauai ports shortly after 10 o'clock.

TELL-TALE LETTERS

The hearing of the Maage divorce case ended last night before Judge Robinson, with the granting of a decree to F. W. Maage, on statutory grounds. The case has been on trial for a couple of weeks and has been replete with sensational charges and testimony. The letters produced as evidence have attracted the attention of the United States Attorney, and it is said that there will be prosecutions in the federal court for sending obscene matter through the mails.

ARRIVING.

Wednesday, March 29. Strmr. Noeau, Pederson, from Waimea at noon with 4,300 bags sugar.

Thursday, March 30. Strmr. Keaouhu, Tullett, from Kauai ports at 10:15 a. m. with 1,127 bags of sugar.

NEW ADVERTISEMENTS.
