# WHAT NEW PROCESS GAS RANGES

Are Doing For Others, They Will Do For You

## Time - Money - Patience

If you can save a little of each of these, to say nothing of comfort and convenience, by using a NEW PROCESS GAS RANGE, isn't it worth your while?

WHEN YOU ARE READY

The gas range is ready; as much heat or as little as you like, no more no less and for as long a time as required. If a hot fire is desired on top and a slow fire in the oven, you may have both sorts, simultaneously. You do not BURN FUEL BEFORE AND AFTER, consequently there is no expense incurred except during the actual operation of cooking.

## CUBAN SUGAR CROP REVIEWED

MILL OWNERS THERE WILL ENLARGE THEIR PLANTS AND IMPROVE THEIR FACILITIES.

The Cuban sugar crop, which at the beginning of the present grinding season was estimated at about 1,250,000 tons, will fall below those figures, due principally to the protracted cold, dry spells in January and February, which caused a considerable reduction in the quantity of saccharine matter, and another factor has been the scarcity of labor in some districts during the latter part of the season says Dun's Review. While in many sections the cane fields have been cut out, in others there is quite an amount of cane standing. Of the 183 mills which have grown this year about 100 have shut down for the season, owing to the lack of cane, but a much greater number are in operation than at this time last year, when work was largely suspended on account of the early beginning of the rainy season. Receipts at the ports up to April 30 have been 950,817 tons, as compared with 824,150 tons last year, and these figures do not bear out the prediction of many that the crop of this season will be smaller than last, it being fair to presume that this year's production will not be less than 1,100,000 tons. Owing to heavy decline in quotations during the past six or seven weeks few shipments have been made, and owners are holding for higher prices. Stocks on hand at port on April 30th were 385,238 tons, as against 266,915 on the same date of last year.

Cane growers who sell to the mills have made enormous profits this season and the mills have also realized large returns on their investment, some of the mills having secured cash advances last fall under contract to sell a portion of their crops at prices considerably below the market at time of delivery. On the whole, the season has been an eminently satisfactory one to cane planters and mill owners, and the industry is in a much more prosperous condition than for many years past. The season thus far has been propitious for new cane, which is reported to be in good condition.

Many mill owners will enlarge and improve their plants this year, and there will probably be a larger number of mills in operation next year than this. The acreage will be larger, as there has been considerable cane planted during the past two or three months. Work is being actively prosecuted on a new sugar estate near Nipe Bay, owned by an American company, which, it is claimed, will have the largest sugar house in the world, its capacity being

5,000 bags per day. Work is also being pushed on another large new estate on the line of the Cuba Railroad, and other projected estates are learned of.

### SCOTLAND VS. THE WORLD.

### GARNISHEE ANSWERS.

In the assumption suit of W. W. Bruner vs. Kamalo Sugar Co., defendant, and David Dayton, J. Alfred Magoon and J. Lightfoot, garnishees Dayton and Magoon each answers and says he has not now any goods or effects of the defendant company in his hands and is not indebted to it.

### CONTRACTED NEURALGIA DURING THE WAR.

"I had a bad case of neuralgia which I contracted during the war. I tried several kinds of medicine but they did me no good until a friend of mine recommended Chamberlain's Pain Balm which gave me immediate relief. I have had no trouble since and must say that I find Chamberlain's Pain Balm a fine liniment. I have since used it for other troubles and always with good results."—J. Viljoen, Jacobsdal, Transvaal.
