## WEEKLY CROP BULLETIN

For the Week Ending August 19, 1905.  
Honolulu, T. H., August 21, 1905.

### GENERAL SUMMARY.

Warm weather and strong trade winds have continued throughout the past week. Good showers have fallen over all portions of the group except the lower levels of the Kau district of Hawaii and the leeward districts of Maui and Oahu.

On the whole, the weather has been very favorable for all agricultural interests. No damage to cane by high winds was reported, and conditions otherwise were quite favorable for rapid growth, although considerable hoeing has been necessary to keep down the weeds during the past two weeks. The preparation of cane lands and planting for the 1907 crop continue, and the grinding of 1905 cane is still in progress at a few of the mills. The original estimate of the summer crop of pineapples will be exceeded in central Maui, and harvesting in the Wahiawa district of Oahu will be practically completed during the next ten days. Coffee is doing nicely in all sections, and sisal is reported as in good condition. Young rice is growing well, although a few small patches in the Hanalei district of Kauai were washed out during the night of the 15th by an overflow of the river due to the exceptionally heavy rains. Pastures generally have been much benefited by the recent showers, but still need rain in some leeward localities.

## HOW NEILSON MET HIS DEATH

E. H. HARRIMAN'S RELATIONSHIP STIRS UP INTEREST IN AN ALMOST FORGOTTEN TRAGEDY.

Considerable interest has been aroused locally over the remarkable fact that the secretary of King Kamehameha IV, who was murdered by the king's own hand, was an uncle of E. H. Harriman, the multi-millionaire railroad man who was a visitor in Honolulu yesterday on his way to the orient. That "the king can do no wrong" was as much an established fact in Hawaii in 1859 as it was in the realm of England until 1649 when the head of Charles I fell beneath the headman's axe, or as it was in France until 1793 when Louis XVI the last of the order of Divine right, paid the penalty which his ancestry had imposed upon him.

Judged from later standards, the killing of H. A. Neilson by Kamehameha IV was a murder, causeless and without possible justification. Times have changed so that it would be hard to conceive what would happen if such an occurrence took place at the present time.

According to those who knew Neilson (not Nelson, as the name was given yesterday), he was a bright young American who had been appointed to the position of private secretary to the king for the express purpose of aiding his majesty in the performance of the purely clerical portion of his work. Kamehameha IV, it must be remembered, was only twenty-one years of age when he assumed the crown in 1855 and it was a year later that he espoused Emma Rooke, revered to memory now as Queen Emma.

That Queen Emma took an interest in Neilson is not even disputed. He was a bright young man, unquestionably much brighter than the king, but not even the slightest suspicion of any guilty relation between them was ever entertained. That the king was jealous of Neilson was apparent but the jealousy was caused, it is said, entirely by a realization that he had not the talents of his servant. Kamehameha IV was a drinking man and it was while in his cups that he used to give way to his jealous dislike. When sober he used to be bitterly repentant and he would freely acknowledge his error. However that may be, it was in a fit of drunken frenzy that the king committed the crime which darkened the remainder of his life.

## MAUNA LOA BROUGHT PASSENGERS

ARRIVED THIS MORNING FROM REGULAR RUN—PLENTY OF WATER IN KAU—SHOWERS IN KONA

The steamer Mauna Loa arrived this morning on time from her run to Maui and Hawaii ports, with a large crowd of passengers and a large assortment of freight. She brought 4,119 bags of sugar, 30 head of cattle and 369 bags of coffee in addition to other stuff.

Purser Conkling reports that there has not been any rain in Kau since the last report but there is plenty of water from mountain sources. Showers have prevailed in the Kona district. Good weather was experienced during the trip.

**HALEIWA.**  
The Haleiwa Hotel, Honolulu's famous country resort, on the line of the Oahu Railway, contains every modern improvement and affords its guests an opportunity to enjoy all amusements—golf, tennis, billiards, fresh and salt water bathing, shooting, fishing, riding and driving. Tickets, including railway fare and one full day's room and board, are sold at the Honolulu Station and Trant & Company for \$5. For departure of trains, consult time table.

On Sundays, the Haleiwa Limited, a two hour train, leaves at 8:22 a. m.; returning, arrives in Honolulu at 10 p. m.

## SCHOOLS AND BISHOP ESTATE

(Continued from page one.)

last year's report and a decrease of 7 tenancies. Rents (including taxes) charged for the year aggregated \$140,714.41, showing a falling off of \$1,059.85. During the year the estate wharves have accommodated vessels aggregating a net registered tonnage of 64,664, producing revenue of \$3,357.69, which is \$651.03 less than last year.

The report shows receipts during the year of \$222,777.95, including a cash balance on hand at the beginning of the year, amounting to \$1,922.86. The receipts during the year exceeded the expenditures by \$17,294.62.

The following figures show the value of property of the estate in the hands of the trustees:

Real Property.	
Oahu, Kona	\$1,542,565.97
Koolapoko 1	13,355.99
Koolapoko 2	28,000.00
Koolauloa	28,000.00
Waialua	154,941.30
Ewa	145,944.50
	\$1,914,807.77
Hawaii Island	\$ 228,722.07
Molokai	18,216.90
Kauai	23,939.00
Mau	6,855.59
	\$287,733.56
Total real estate	\$2,202,541.33
Personal property	602,412.29
Grand total	\$2,804,953.62

During the year William F. Allen retired as trustee and was succeeded by E. Faxon Bishop. The report makes the following reference to the change:

"It is with regret that the Trustees report the resignation of their honored colleague, the Hon. William F. Allen, whose failing health made it imperative for him to retire from active business. His advice in the deliberations of the Board will be greatly missed. The Trustees take this occasion to record their sincere appreciation of the valuable service by him rendered to the Estate and to bear testimony to the harmonious and cordial relations which have ever existed between him and his Co-trustees during the many years of his connection with the Trust. Mr. Allen's resignation took effect upon the date of appointment of his successor, the Hon. E. Faxon Bishop, by the Justice of the Supreme Court, on the 15th of December, 1904."

Regarding the Kamehameha schools the report says:

"A general plan for the reduction of expenses has been adopted, whereby it is hoped to make a material saving next year by cutting out minor Departments and dispensing with some of the teachers, which it is thought might be done without seriously crippling the work of the Schools.

"The attendance of pupils will be cut down next year from 301 to 270 the number accommodated for the past few years being more than the Schools are at present designed to accommodate."

The suggestion was advanced, says the report, that the Secretary of War at Washington be asked to detail an army officer to give military instruction at the school, but a committee of the school reported against it, partly on the ground that it would divide authority now concentrated. The committee said: "The education of the Hawaiian is a duty peculiar to itself; there are no precedents, no general scheme of instruction that would apply in its entirety to the peculiar duty which is upon the Trustees. Your committee feel that were there not objections in the nature set forth to this course, that there is still a greater objection to pronouncing the military feature of the instruction with the Hawaiians. We think it would rather detract from the interests of the manual side of the school, which is the most important side."

Principal Horne's report contains a different recommendation as to the military department. He says that it has been in charge of Sergeant Clifford, of Camp McKinley, during the year, but that he has not achieved results sufficiently good to warrant retaining him. Kaima Hanchett is to be in charge, and will have the advantage of being a regular responsible teacher and therefore able to command more authority. Professor Horne recommends that, as soon as finances permit, that the department be placed in charge of a commissioned officer, or retired officer.

The report of the principal, accompanied by reports from department heads, shows a very satisfactory year in the schools. Horne took charge in August, 1904, and the trustees say that he has successfully and harmoniously managed the schools. On his accession he was made head of all the schools, the title of "President of the Kamehameha Schools" being created. The management has been economical, the report states, the expenses having kept well within the monthly allowance of \$3,000, so that there are \$11.00 of the allowance unused.

The department reports show special attention paid to practical studies, manual trades, agriculture, etc., and the teachers are generally commended for an excellent year, both by the principal and by the trustees.

## HARRIMAN PARTY HAD AN ELEGANT TIME

WERE KEPT ON THE GO DURING ENTIRE STAY IN HONOLULU—WILL ENJOY RETURN HERE.

President Harriman and party departed by the S. S. Siberia last evening for Yokohama, after passing a most delightful day in Honolulu. From the time that they came ashore from the steamer in the morning until they went aboard last evening the members of the party were the recipients of attention.

W. Pfofenhauser and F. W. Klebahn of H. Hackfeld & Company met the party outside of the harbor, as did Collector Stackable, P. M. Bechtel of the Immigration service and others. The entertainment of the party which was conducted under the direction of the Hackfeld people, was perfectly carried out and every minute of the time passed enjoyable. Automobiles were ready at the wharf to take the party to the Park. A swim was enjoyed at the Annex later and then W. Pfofenhauser presided at an elaborate luncheon at the Young Hotel where President Harriman and Manager Schwerin were the special guests. Mrs. Harriman and the remainder of the party took luncheon at the Hotel Annex at Waikiki. After a visit to the Aquarium the party went in swimming a second time. President Harriman expressed himself as delighted with the entertainment and expressed the intention to remain longer on the return trip of the Siberia.

200 acres of the same subdivision, desired for coffee and pineapple culture. Forest fires occurred on the estate lands of Koolahou, Kahaluu and Honoum in March last, covering an estimated area of from 100 to 125 acres, mostly in the fern and scrub Ohia belt; but prompt action on the part of our local agent prevented the fires from spreading and the damage was comparatively slight.

"On the 10th of February last representatives of parties interested, in conjunction with Government superintendent of Forestry Hosmer, established the official forest boundary from Moanalua, to Waialua, district of Ewa, which is a line through the Ahupuaas of Halawa, Aiea, Kalaupana and Waialua at an approximate elevation of 985 feet, and somewhat lower than the existing forest limits, which it is considered should be extended makai."

A committee has been appointed to confer with the Board of Agriculture regarding reserves wanted in Hawaii and the report says: "Incidentally, in this connection, it is mentioned that the estate now reserves more land for forest purposes than does the government and though these reserves are not completely fenced as required by law to entitle them to exemption, the lands are none the less reserved for the public good and it is thought taxes should be waived in these cases."

"The Trustees are adverse to giving up entire control of their forest lands, and disapprove of any permanent transfer to the government for forest purposes, but they appreciate the importance of forests, and are prepared to meet the government half way in any efforts made to increase their extent."

Typhoid fever is reported as prevalent in Waipio valley, Hawaii.

## MORE ARRESTS IN COINING CASES

(Continued from page one.)

and Private Thomas Hillson, both of the Coast Artillery, who since the counterfeiting expose have been living at Camp McKinley detained by order of the Federal authorities as witnesses in the case.

It will be remembered that the men originally arrested were Privates John T. Cooper, W. R. Bolton and James Jackson. All three are now in Oahu prison awaiting trial. Cooper was the Christian Endeavor young man who had church societies as his long suit. He also had a silver and gold plating plant in his possession and when he was arrested for having made \$20 and \$10 gold pieces out of babbitt metal he acknowledged that the work was his and that he was ready to serve his time for his transgression.

Bolton who also is under arrest, is supposed to have been one of the "shovers" or circulators of the spurious coin and James Jackson, who is a Russian and whose real name is unknown, is seemingly held as a witness. Bolton's wife, by the way, was also detained for a time but was released.

Cooper, the admitted manufacturer of the bogus money, has come in for a in which he mixed up in church matters in which he mixed up in church matter while all the time he was conducting a most nefarious pursuit, but if the suspicions of the authorities are correct, he shows up in a brighter light than was at first thrown on him. Forger and hypocrite he is admittedly, but he stuck to those he thought were his friends and by neither sign nor sound did he give any indication that they were as guilty as was he himself until they played him false.

Only this morning Cooper was told that the men who had been and were assisting in piling up the evidence against him were Corporal Hamilton and Private Hillson. Corporal Hamilton was a sort of Beau Brummell among the gunners out at Camp McKinley. He had good clothes of the civilian pattern and, being a tall good-looking young man of superior manners he could not fail to make a good impression. When Hamilton was first brought in as a witness he rode in to town with a Star representative and was seemingly much amused over the whole business but now, according to Cooper's story, it was Hamilton who was the brains of the whole criminal affair. Hillson, too, instead of being the unconscious passer of a phoney eagle, was also one of the chief men in the conspiracy, according to Cooper.

United States Marshal Hendry and District Attorney Breckons went to Camp McKinley, shortly after noon today, and arrested both Hamilton and

Hilston. They were brought to town and will be up for hearing before United States Commissioner Maling this afternoon.

## BREAKWATER FOR KAHULUI

WORK WILL BE COMMENCED NEXT MARCH—HARBOR IS TO BE DREDGED TO 7 FEET.

The contract for the construction of a breakwater at Kahului harbor has been let by Alexander and Baldwin. The Hawaiian Dredging Company is to do the work. The company will commence work about the latter part of next March and expects to have the work finished within six months' time. The breakwater will be 2,000 feet in length and will be built so as to protect the harbor from the strong north-east blows. The harbor is to be dredged out to a depth of 33 feet and this debris will be used to construct the breakwater. It may be necessary to first build a retaining wall of stone back of the debris wall. This stone will be taken from the plantations about Kahului.

**THE KRUSE ESTATE.**  
Judge De Polt this morning approved the final accounts of E. L. Hoogs as administrator of the estate of the late Thomas E. Kruse, and granted the administrator's petition for discharge.

**FOR ATTORNEY'S LICENSE.**
