WHAT ATTRACTS THE IDLE CROWD

A WHITE BRICKLAYER WORKING AMONG CHINESE IS AN UNUSUAL SIGHT AND MANY SEE IT

The Fishmarket has a rival in its attractions for the crowd. A short way Walkiki of the King street fishmarket a new building is being erected, and it is there that the crowd is attracted. The building is one that was started a long while ago. Its foundations are ten or twelve feet below the street level, on the coral rock. Japanese built the foundations, which are of stone.

Now the superstructure, which is of brick is being built by Chinese. Chinese bricklayers are at work trowel in hand, and calling out the Chinese equivalent of "mort" to the Chinese hod carriers when they want more mortar. But it is not these facts or circumstances that attract the crowd. The crowd is attracted and held by the fact that among the Chinese bricklayers is one white man working away laying brick. The unusual sight has kept a crowd in front of the place all morning.

MAY NOT POSTPONE.

The baseball teams scheduled to play on Saturday September 2 have decided that they will not postpone their games until Monday September 4, Labor Day, unless business firms agree to close at noon that day.

MAHUKONA.

Arriving August 25.—Am. schr. H. C. Wright, Nielsen, 18 days from San Francisco.

SUGAR ON HAWAII.

Admiral Beckley of the steamer Kinaiu, reports the following sugar on hand at various Hawaii plantations, ready for shipment:

Olaa, 6600 bags; Waialea 12000; Hawaii Mill 500; Waialea 16200; Omoia, 12000; Pepeekeo 6145; Hakaluu 2300; Honoakaa 2000; Kukuahele 700; Honoakaa, 2380.

MONGOLIA BRINGS CHANGED MAN

A cablegram received today announced the departure of the S. S. Mongolia this afternoon from San Francisco for Honolulu and the Orient. Governor George R. Carter, the "Changed Man," is probably a passenger.

LAHAINA NOTES.

In honor of the incorporation of the Wo Hung Kong See Association, the club house on Main street was decorated with flags and streamers on Thursday and Friday. There was a lively celebration on Thursday night, and the gongs and cymbals kept "foreign devils" at a distance. During the past year considerable charitable work has been done among needy Chinamen.

A rifle club will soon be organized in this town.

JUDICIAL SALES TODAY.

There were two sales of real estate made by James F. Morgan at the judicial building at noon today. Property at Kahawili, Kapalama, owned by S. K. Pua, Adelaide Pua, Manuel Carlos and Maria Carlos was sold under foreclosure by the Bank of Hawaii for \$1800 and other property at Kalihl owned by J. K. Prendergast, M. J. Carlos and M. D. Carlos was sold for \$970. Abram Lewis Jr., attorney for the bank was purchaser of both, to order.

SALES AT MORGAN TODAY.

Considerable interest was attached to the sale of bonds and stocks at Morgan's today, but the sale was postponed for a week as some prospective investors are expected to arrive by the next steamer from San Francisco. The Con Sterling property on Pensacola street and Wilder avenue, sold under foreclosure, was bought by H. Holmes to order for \$2900. This purchase was subject to the widow's right of dower. A portion of the Waterhouse property on the mauka side of School street was purchased by F. M. McGrew for \$3,675.

CIRCULATING LIBRARY.

Mrs. Maud Taylor of Kohala has established a circulating and exchange library at that place.

SHERIFF HENRY LIVES IN JAIL

HIGH SHERIFF AS WARDEN HAS AGAIN TAKEN RESIDENCE IN THE JAIL.

High Sheriff Henry has taken up his home in Oahu Prison—not by any means as an inmate, but because he is the warden of the prison and is supposed to look after it. He has moved into his old quarters and will make the jail his home as before.

Before he became High Sheriff, Henry lived at the jail, being warden, but he moved away when his new duties began. Under the law as it now exists, the high sheriff is warden and Henry practically has his old duties again. He has therefore made his home in the jail again.

BANANA INDUSTRY NEED A GUARDIAN

IMPERFECT BUNCHES SENT TO SAN FRANCISCO—NEED OF FRUIT STEAMERS.

"It seems to me," said Charles Furneaux, "that there is every reason why the banana industry should be encouraged and no reason why it should not. I have heard the rumor that thousands of bunches of the fruit were thrown overboard because of the heat having cooked them but even with that setback the prices obtained were satisfactory, and I do not believe the loss of these bunches will induce the growers to give up the industry."

Mr. Furneaux is an enthusiastic farmer and his place at thirteen miles, Olaa, has the finest of fruits and coffee growing. Directly across the road from his home is a Japanese who has been very successful in the cultivation and shipping of fruits and his returns have, in the main, been satisfactory.

A gentleman now in San Francisco, writes to a shipper in Hilo: "I have been thoroughly over the banana situation and feel more encouraged today than ever before. The great trouble in selling the fruit here is the fact that unprincipled grovers in the neighborhood of Hilo have tried to save freight at the cost of the industry for it now appears that so many packages of two bunches each, supposed to contain only one, have been received here that the average dealer turns his back on the fruit known to come from Hilo. They buy the packages unwrapped and find they have been swindled in the size of the bunches. The dealers pay more for Honolulu fruit, on the steamer at that port, than they do for Hilo fruit on the wharf in San Francisco for that reason and until they are educated into a way of sending only the best fruit they grow and not try to palm off an inferior sort, they will be sure losers."

HAWAII HERALD.

The Japanese company which leased fourteen hundred acres of land from the Olaa Sugar Co. began operations on the land back of fifteen and three-quarter miles, Olaa. The hui is well organized and has backing in the Orient. Included in the deal to cultivate the land is a provision by which the conduct of the Olaa Company's store at Mountain View passes to the hands of the Japanese planters. Former manager, E. L. Rockliffe, now has a position with the Hilo Railroad Co. at Mountain View.—Hawaii Herald.

OLAA PLANTERS

Thomas E. James, who injured his hand at the Volcano House two months ago, is still under the doctor's care in Honolulu. It is reported in the Honolulu papers that Mrs. James' is on her way from Paris having been called here by the seriousness of her husband's condition.—Hawaii Herald.

WOOD NOT TO SUCCEED SPENCER

NO FOUNDATION FOR THE ANNOUNCEMENT THAT H. P. WOOD IS TO SUCCEED SPENCER.

The announcement that H. P. Wood, who is to be the new secretary of the Promotion Committee, is also to be secretary of the Chamber of Commerce, is without foundation. The meeting which was held yesterday and which authorized the engagement of Mr. Wood for the Promotion Committee work was a meeting of representatives of the Chamber of Commerce and of the Merchants' Association, and had nothing whatever to do with the secretaryship of the Chamber of Commerce.

James G. Spencer, who has been for so many years the secretary of the Chamber of Commerce, has just been re-elected for a year. No doubt he would resign if the Chamber intimated to him that it desired he should. But it is thought hardly likely that it will. So that it will be practically a year before Mr. Wood could be made secretary of the Chamber of Commerce in the ordinary course of events.

ROCKEFELLER ON HUNT FOR HEALTH

BAREFOOTED HE STRIVES TO GET THE RELIEF FROM THE EARLY MORNING DREWS.

CLEVELAND, August 16.—John D. Rockefeller has decided to try the Knipp cure. After scientists and medicine have failed to restore his health, he has turned to nature for relief. Today he took his first treatment.

It was after dawn, when the lawn was still wet with dew, that Mr. Rockefeller was seen to come from the kitchen door of his Forest Hill home and step out upon the lawn. Around his sum he drew a bath robe and he shivered as the chill morning air swept about his skirts and displayed two bare feet. Plunging boldly on, Mr. Rockefeller walked through the grass, his figure resembling a restless spirit as he strode back and forth and around his house.

Mr. Rockefeller did not seem to care who saw him. Possibly he thought that the early hour would prevent curious eyes from prying, but he neglected to count upon the milkman, the news carrier and a few belated pedestrians, who stopped on their way to witness the spectacle of the wealthiest man in the world parading upon the lawn with a "look of firm determination upon his face."

Although Mr. Rockefeller was once a barefooted lad his feet had long grown tender by their incase in modern footwear and he was heard once or twice to murmur "Ouch" as he stepped upon rough places. This convinced interested spectators that Mr. Rockefeller was not walking in his sleep, as was suggested by a "night hawk" cabman who stopped to witness the performance.

After a half hour's vigorous exercise, Mr. Rockefeller returned to his room. Beads of perspiration stood upon his brow and his face had a ruddy color. He appeared in excellent spirits and seemed to enjoy the exercise.

Mr. Rockefeller's adoption of the cure originated by the Rev. Father Knipp is only a part of the general scheme which he has decided to follow in the hope that his health may be restored to normal condition.

THIS POISON MOST SUBTLE

INVENTOR OF A DEADLY SUBSTANCE AFRAID TO PUT IT ON MARKET, FEARING WHOLESALERS MURDER.

KALAMAZOO (Mich.), August 13.—A poison so subtle in its workings that the inventor dare not put it on the market lest widespread death might be the result is in the hands of L. D. Cooley of this city. Although he claims that it is powerful enough to rid a house of all vermin by a single application, Cooley fears that the user might perish in applying the poison. Cooley will not even tell whether his poison is powder, liquid or gas.

Recent experiment attested to by reputable business men show its efficiency. In three restaurants was cleared of flies in three hours. In preparing the death-dealing matter, Cooley was assisted by an experimenting chemist of the University of Michigan. Four chemicals were used, each harmless in itself.

"I will not put it on sale," said Cooley, "for it might become a universal murder agency. It leaves no trace of its use, simply a dead body."

CABLE STEAMER GOES ASHORE

COLONIA, THE LARGEST VESSEL OF HER CLASS IN VERY BAD POSITION OFF CANSO, N. S.

CANSO, (N. S.), August 18.—The cable steamer Colonia is ashore off this port in a bad position. Attempts to float her have failed. It is thought the steamer has been badly damaged.

NEW YORK, August 18.—The Colonia left London August 5th for the purpose of laying a cable for the Commercial Cable Company from Canso, N. S., to Waterville, Ireland, a distance of 2400 miles. She arrived off the Nova Scotia port on August 16th and preparations were made for landing. The end of the cable was taken ashore and the steamer was to proceed east to Waterville, letting out the cable as she steamed to the other side. The new cable is to form a part of the Commercial Cable Company's system.

The Colonia is the largest cable vessel afloat, being of 7926 tons gross register. She is a twin-screw vessel and is built of steel, having been constructed in 1902 at Newcastle, England. The Telegraph Construction and Maintenance Company of London is the Colonia's owner. She is 187 feet in length.

The Colonia was in Honolulu in 1903.

THE WILDER FUNERAL

The following will act as pall bearers at the funeral of the late J. K. Wilder this afternoon, David Dayton, S. B. Rose, H. R. Macfarlane, John Lucas, C. J. Campbell and K. R. G. Wallace. After the services at the Masonic Hall under the direction of John Rothwell, W. M., which are timed to begin at 2:30, the funeral will take place to the Makiki Cemetery where the remains will be deposited in the vault. It is the intention of the family to have the body cremated at some later date.

TOM LAWSON'S DAUGHTER ENGAGED

28 TO MARRY A GRAND-NEPHEW OF JAMES G. BLAINE, A HARVARD GRADUATE.

BOSTON, August 4.—Miss Gladys Lawson of Boston, eldest daughter of Thomas W. Lawson, celebrates her twenty-second birthday today by announcing her engagement to Eben Blaine Stanwood, grandnephew of James G. Blaine. The young people have been friends all their lives. Miss Lawson is fond of animals and outdoor sports, and so is her fiance. Together they have often been galloping over the magnificent estate in Egypt. Miss Lawson on the famous Gypsy Queen, one of the finest thoroughbreds in the world, and her own property. The daughter of the millionaire rows, golfs, swims, plays tennis with equal skill and pleasure, and in all these she found a ready companion in the athletic Harvard graduate. The Stanwoods have a magnificent country estate at Manchester-by-the-Sea, Eben Stanwood is a member of the Puritan and Hasty Pudding clubs, and as fond of athletics today at twenty-eight as he was when he was a freshman ten years ago. The date of the wedding has not been fixed, but it is understood that it will take place some time in October. Miss Lawson is the eldest of four sisters, and is distinguished for her personal charm, as well as for her beauty.
