\$2 A SHARE ASSESSED ON OCEANIC

DIRECTORS MAKE ASSESSMENT IN SPITE OF PROMISES AT THE LAST MEETING.

SAN FRANCISCO, February 21.—The directors of the Oceanic Steamship Company met at a late hour yesterday afternoon and levied an assessment of \$2 per share.

In spite of the promises that had been made to the stockholders less than a month ago, the directors found that the heavy overdraft was still mounting higher, and decided on the assessment as a last resort. How the stockholders will receive the announcement has not been ascertained. The prospect that the subsidy bill would go through Congress relieved for a time the tension of the situation, but when it transpired that the bill was to be held up the clouds began to gather again on the financial horizon.

The assessment calls for \$100,000 on 50,000 shares of the capital stock; but how much of it will be paid remains to be seen. The stock sold in the board were offers to sell at \$2 this morning, yesterday at \$1.75 a share, or less than the amount of the assessment. There but there were no buyers, and no bids were heard of at any price.

WHOOPIING COUGH AND TWO KINDS OF ITCH

WORK OF THE KINDERGARTNERS AND SOME OF THE EXPERIENCES OF THE SANITARY AGENTS.

The regular monthly meeting of the Board of Supervisors of the Free Kindergarten and Children's Aid Society was held this morning. There were thirteen members present. Mrs. Elizabeth Waterhouse presided.

Much of the meeting was devoted to a consideration of the sanitary work of the Association. This has been carried on by Mrs. Thompson who is now to be assisted by Miss Marian Waterhouse. As showing the extent and character of the work done and its importance to the general health and welfare of the city as well as of the individuals benefited, it was stated that a Japanese child was found suffering from Korean itch on one hand, Hawaiian itch on the other, and whooping cough. Itch is very prevalent among the Asiatics, and unless looked after, may become troublesome. Eye troubles are also quite prevalent especially among the Hawaiians, many of whom will not go to the public dispensary. During the month fifteen cases of eye troubles were treated. There are five kindergartens under the control of the Board and about 300 pupils in them. But besides the children in the kindergartens other members of the family come to the kindergarten for treatment. In one case a grandmother was treated.

Among other cases that were encountered, was one of a child who had been severely bitten by a dog. In another case, a child had broken a finger and the parents, being very poor had done nothing except to bind some chopped onions about it. The child was taken to Dr. Waterhouse who set the bone and treated the child.

The physicians and surgeons of the city are very generous in their treatment of these cases, but what is needed above all things is a fund for surgical dressings. Mrs. Thompson says that if she had a fund of \$50 a year for this purpose she could do wonders with it.

This sanitary work of the Kindergarten Association is carried on in places where the Board of Health cannot very well reach. The character of house construction in the poorer districts, the use of mats for beds instead of sheets which are laundered, and the fact that among the Chinese floors are seldom or never scrubbed, makes the spread of itch, tuberculosis and other germ diseases very easy. Mrs. Thompson even declared that she thought no woman should go into these houses to read the bible to the people even, where the floors were not scrubbed.

ALAMEDA HAD QUITE A CROWD

LOCAL BOAT ARRIVED THIS MORNING WITH FOUR DAYS LATER MAIL FROM COAST.

With four days' later mail from the mainland the S. S. Alameda arrived this morning from San Francisco. She experienced a pleasant trip. The vessel left San Francisco February 24. She brought 57 cabin passengers which is a good sized crowd for the Alameda.

Among those who arrived was J. J. Belser of Lord and Belser, the contractor. J. B. Agassiz the contractor who was formerly located in Honolulu arrived with Belser on business.

A. J. Campbell the territorial treasurer returned from a trip to the east in connection with the sale of the Territorial bonds.

Lieut. J. F. Carter, U. S. N. who is to relieve Lieut. Commander A. P. Niblack at the Naval Station, arrived.

G. D. and W. D. Greig of Fanning Island arrived here from a business trip in connection with the sale of their interests on that island.

W. E. Hodges is the purchasing agent of the Santa Fe railroad and is here on a vacation trip.

A. H. Moffitt is the traveling passenger agent of the Oceanic Company.

J. T. Overybury is a mining man from Goldfields. He is here with his wife.

Mrs. P. Owens is the wife of the chief engineer of the S. S. Alameda. She is here for a visit, accompanied by her child.

Mrs. Salter is a relative of Manager Bews of the Hawaiian Hotel.

Joseph L. Thompson is a Southern California mining man who is here for a visit as the Dwight Whiting of Los Angeles.

Miss Power the milliner, returned from a business trip to the mainland.

The Alameda is scheduled to sail for San Francisco next Wednesday morning.

SCHOOL FUNDS SHOW A SURPLUS

(Continued from page one.)

\$10,000, which will do much to carry things along until the legislature meets. Hence, it is argued, though the teachers' salaries are admittedly too low, there is no immediate crisis.

The janitors' pay roll is \$12,500 per month. "Is there a crisis?" repeated Auditor Fisher when asked for his view of the matter. "I don't know. Any figures in my office are public property if you want them, but as to the school proposition, I have no opinion to express."

Superintendent Habbitt is still at work on figures showing the needs of his department and it is claimed that the employment of some new teachers is necessary. The matter is also before Acting Governor Atkinson but in view of the fact that there is a surplus on hand in the fund for support of schools, it is not thought that there will be any immediate action.

THE REFUND BILL FINDING FRIENDS

(Continued from page one.)

pected to have him do. Immediately afterwards I presented the delegation to Chairman Payne, in his committee room. The essentials of the bill had already been gone over with Mr. Payne, and he again expressed his implied favor of the measure. Owing to the rigid rules of the House with regard to the reference of bills, my bill No. 14,016, which was designed for reference to the Committee on Appropriations, could not be so designated, because, although attached to an authorized appropriation, it still carried original legislation. Friendly officials of the House have, however, made additional suggestions of how this matter may be gotten before the Appropriations Committee, after it has been properly acted upon by the Committee on Territories. Representative Bourke Cochran was seen by a member of the delegation, and he pledged his hearty support to the measure. This same gentleman, however, when he present-

ed another letter of introduction to John Sharpe Williams, the minority leader, was met with a sharp rebuff, and the statement that he did not care to even listen to any reasons in favor of this bill, as his mind was already firmly made up against it. We have also been given to understand that Mr. Lloyd will oppose the bill, and it is possible that an effort will be made by the Democratic leader to gather opposition to its passage.

On Monday afternoon, I presented the delegation to Senators Perkins, Warren, Flint and Beveridge, all of whom expressed themselves as favoring my bill.

On Tuesday, our appointment hearing was made before the Senate Committee on Pacific Islands and Porto Rico. Senators Foraker, Flint, Rayner, Pyles, Wetmore and Clapp being present. The main argument was made by Mr. George W. Smith, with brief additional statements by others, as will be shown by the printed hearings. Sentiment in this Senate Committee seemed to be in favor of some friendly action, although some of the drift of their talk was toward cutting down both the percentage and the term of years and applying the entire amount granted to territorial works exclusively. It will be in order to bring our friends in the Senate into line with the proposition now before the House.

On Tuesday evening the entire California delegation in the House were our guests at a dinner at the New Willard hotel. The two California Senators were unable to be present because of previous engagements, but the affair was a most successful one because of the opportunity it afforded for a thorough presentation of Hawaiian conditions, and very gratifying on account of the outspoken support promised us by almost the entire delegation. Congressman McLachlan of the River and Harbors Committee referred in very flattering terms to the work done by Hawaii before their Committee the last session, and Congressmen Smith, Hays and Kahn pointed out several precedents in Congressional action which were more radical than that asked for in the present bill. All the members of the Hawaiian delegation felt that the affair was a very successful one, and it well demonstrated the value of such dinners as a means of creating a direct personal interest in Hawaiian legislation.

On Wednesday forenoon, I presented the delegation, by appointment to Secretary Hitchcock of the Department of the Interior and Secretary Wilson of the Department of Agriculture. The question of extending the soil analysis work to Hawaii and of securing a tobacco expert were thoroughly discussed with Secretary Wilson who expressed his desire to advance both of these matters as rapidly as possible. He, however, emphasized the pressing demand that is made upon the department for its limited number of workers in both these lines, which might delay his taking up either matter in Hawaii for some little time to come. He suggested that it would in some ways be better for the people of Hawaii to select a competent agricultural scientist and send him to Washington, where he could get training on all phases of tobacco breeding and cultivating. He pointed out that the experts here devoted themselves only to one part of the entire subject, and for that reason a man from the island who would get training here in the entire business and could then remain in Hawaii, might be of greater value than the sending out of a single expert for a limited period.

On Thursday, I presented the delegation to Chairman Payne of the Ways and Means Committee, who is the nominal leader of the Republicans in the House. Mr. Payne, while receiving us very courteously expressed his disapproval of our measure, taking the ground that Hawaii contains ample wealth and natural resources to make it advisable for her to get only the same treatment that is accorded the other states and territories. It remains to be seen whether we can bring sufficient pressure to bear upon Mr. Payne, through other House leaders, to change his position. Congressman Rodenberg, Miller, Rowenscock and others have also been met and interviewed.

In the Committee on Territories our bill has been referred to a sub-committee consisting of Congressmen Cole, Capron, Webb, Lloyd and Chairman Hamilton, and I have already arranged for a personal consultation with them in their further consideration of the bill.

On every hand suggestions are met with that either the percentage or term of years, or both, should be reduced. To this we have uniformly said that if any reduction must be made, we ask that it be made in the term of years and not in the percentage rate, although we shall make strenuous efforts to have the bill reported without change as to either one. The fact that my bill calls for action differing from that extended to any other territory has always caused wide comment in both the House and the Senate. It is evident that while we shall have some strong support, there will also be much opposition to the measure.

If the Democratic leader attempts to gather the opposition against us, we shall try to have it made a party issue by the Republicans. But as Mr. Payne and some other Republican leaders do not favor the bill, there are obvious difficulties in having this done. For the present, our efforts are centered on securing a favorable report from the committee while still carrying on our general effort to extend its number of friends upon the floor. After a committee report is secured, we shall then in conference with our known friends in the House, decide on what may be the best plan of campaign to secure its passage.

The appropriation of \$20,000 for the filling in of Quarantine Island has been inserted upon the Urgent Deficiency bill in the Senate, together with an additional appropriation for the quarantine wharf. I have already consulted with the House conferees on this bill and hope to have the item accepted by them in conference, which will make sure its early passage.

GET READY TO GET ON A SKATE

The last finishing touches have been put on at the new skating rink, the skates unpacked and put in condition for use of the many who are only waiting for a chance to show how they can speed along on the elusive rollers. A hand railing has been placed along the walls to aid the beginners in getting used to the sport which will be new to most of the younger generation. The skates are a great improvement over the old ones used here before, being ball-bearing with steel rollers, making it no effort at all to move along at a high speed. Rubber cushions over each axle will make an easy spring, and relieve any jarring. Tony Marcellino has been appointed manager of rink and will look out for the comfort of all both skaters and spectators. A big crowd is sure to attend tomorrow afternoon and, especially in the evening as a band will play inspiring music for the skaters.

CONSULATE WAS ROBBED

The Japanese consulate was robbed early this morning. Acting Japanese Consul Matsubara was the victim. The thief secured entrance to the house by means of a skeleton key. The office of the secretary was entered. A gold watch and chain and \$50 in money was stolen. The police were notified and started to investigate the robbery. The theft occurred between 2 and 3 a. m. it is thought.

COHEN TO THE COAST

J. C. Cohen leaves by the Korea this afternoon for the coast and possibly for New York to make final arrangements for the grand tour of the Royal Hawaiian Band. He will arrange for the lithographing of the posters which will advertise the tour. This will be of good quality. He will also meet Klaw & Erlanger, the greatest theatrical firm in the states.

MAUNA LOA DEPARTED TODAY.

The steamer Mauna Loa department today shortly afternoon for Maui and Hawaii ports. She took a good sized crowd with her.

CLAUDINE TO HILO.
