KELLOGG COMING ON ALAMEDA

ENGINEER WHO IS TO REPORT ON THE NUUANU DAM CABLES DATE OF DEPARTURE.

Mr. Clay Kellogg, the engineer who is to report on the Nuuanu dam, will start for Honolulu on the next Alameda, leaving San Francisco a week from today. He has cabled to Superintendent Holloway that he will take the Alameda and on arriving he will at once begin a study of the plans for the dam and the work done upon it. "We will let the engineer work it out and report," said Holloway this morning, in answer to a question regarding criticisms of the plan for the dam. As to the reason for the discharge of Patterson, he said it was that at present there was no more work for him to do. Some of the work has been suspended, pending a report by the investigating engineer. Reaching Patterson's latest charge that work which is defective and ought to be examined is being covered up, Holloway said that he supposed Patterson was referring to some superficial work that was going on. "The engineers can figure out and we will await their conclusions," he said.

TO COMPEL FILING OF EXHIBITS

ATTORNEY GENERAL'S DEPARTMENT TAKES A NEW TACK UNDER YESTERDAY'S DECISION.

Attorney General Peters this morning began a new proceeding to force the filing of exhibits by corporations doing business in the Territory. It is a petition for a writ of mandamus, and is based upon the decision of the Supreme Court yesterday, in the case of Benson, Smith & Company. Under the new proceeding, it is thought, an order can be secured from the courts directing the corporation itself to file an exhibit, under penalty of contempt. The proceeding which was knocked out yesterday was against the directors individually, and the decision did not settle the main questions of law involved. It settled the fact that the directors of a corporation cannot be fined for its failure to file an exhibit. The petition for a writ of mandamus was addressed to Circuit Judge Robinson and an alternative writ was issued by him this morning. The petition sets forth that the company has failed and refused to comply with the provisions of law with regard to the filing of exhibits and asks the court to direct the corporation to comply forthwith.

LEASES SOLD

Two leases of government lands were auctioned by Land Commissioner Pratt at the Judiciary building at noon today. The first consisted of 26.40 acres of rice land and 18.59 acres of kula land at Anahola, Kauai, offered for five years at a rental of \$208 per year. The lease was bought by Hee Fat, of Waiakalua, for \$301 per year. The second lot was at Kaneohe, Oahu, and consisted of 2.52 acres of rice land and 7.17 acres of kula land. The upset price was \$150 per year and C. Lai Young bought the lease for \$151 per year.

H. A. C. WINS BATTLE OF THE STRONG

Innings 1 2 3 4 5 6 7 8 9

Oahu 0 1 0 2 0 2 0 0 0 - 5
H. A. C. 0 0 4 0 0 1 0 1 * - 6

A large and good natured crowd gathered at the base ball park this afternoon to watch the final struggle of the two leaders for the supremacy of the first season, for the first game today will decide who is to win the championship during the first half of the series.

The grand stand was crowded soon after the gates were opened, and the crowd soon spread to the bleachers. Much rooting was done in advance of the game.

The Honolulu were tendered a tremendous ovation as they took the field for the ten minutes of practice. Their backers were very much in evidence.

The Oahu were given a reception no less hearty as they trotted out. The boys of both teams are looking in fine trim and the game should be a good one.

The pitchers of the two teams have taken the contest very much to heart, but neither could be induced to give an opinion as to the outcome of the game.

The H. A. C.'s had a Chinese band in the grandstand, and it made a deafening noise with tin cans, etc., even before the game began. There were hopes that the row would rattle Pitcher Hampton. It was a new thing in local base ball rooting and created a lot of amusement.

Here is the detailed account of the game:

FIRST INNINGS.

Oahu went to bat and the game began a lively pace at once.

Davis opened for Oahu with a hit to second. He was put out at first. Hampton fanned out. White walked to first. Ringland hit to third. En Sue missed the ball and Ringland got safe to first. White went to second. Evers flew out to right field. Side out with no runs.

En Sue hit to pitcher and died before reaching first. E. Fernandez hit to third and was thrown out the same as En Sue. J. Williams ended the innings promptly by flying out to right field.

WILL HENRY RUN AGAINST BROWN AGAIN?

CIVICS NOT DISPOSED TO SUPPORT CRABBE AND ARE WITHOUT A CANDIDATE FOR SHERIFF OF OAHU—HARRIS BEING PUT FORWARD FOR SUPERVISOR AT LARGE AND CHARLES HUSTACE IN THE DISCUSSION FOR SENATOR.

Will it be High Sheriff Henry against A. M. Brown again?

This is a question which is being considerably discussed in a political way. The Civic Federation, it is said, will not support Crabbe for sheriff and it is without a candidate unless Henry steps into the breach again. Not only is the Federation without a candidate to oppose to Brown, but some of its leaders have gone over to his support. The others are talking of supporting the Democratic nominee if the Democrats put up a man they approve. But the trouble with the Democrats is that they want to put up a man whom the Home Rulers will approve, and it is a hard job to make the Civics and the Home Rulers run together in harness.

High Sheriff Henry says he has no intention of running and in fact will not run again. He did not want to run last time, but was persuaded. Not long before the last campaign he announced that he was not going to run, but things shaped themselves at the last so that he changed his mind. The governor is credited with having done the shaping.

The contest between Brown and

Crabbe is reported to be developing some warm combinations already. The talk of a Brown "machine" which is backed by Jack Lucas, Sam Johnson and John Lane is not new. Now Crabbe is reported to be working up some support for his end, and Aehl, Aylett, Fern and Broad are the men who are said to be prominent in the work. Aehl wants to be supervisor at large. As an opponent of his, the other men are seeking to put up W. W. Harris for supervisor at large, and it is thought likely that the latter will consent to run. Aylett, Broad and Fern are all said to be modestly willing to be supervisors, while there is no secret of Lucas' readiness to take another term.

Charles Hustace, Jr., chairman of the Republican County Committee, is being talked of for the Senate. In fact he is reported to be out for a nomination and to have a lot of backing. However, Charles' accusations against some of the leaders that they are making up personal machines rather than building up the party have made some of them "sore," and he may find the alleged machines bucking him when the convention time comes.

ANOTHER AUTOIST SUED FOR DAMAGES

F. B. WHITIN, THE DEFENDANT IN TWO SUITS FOR DAMAGES—T. A. KAY ONE OF PLAINTIFF.

HILO, June 21.—Visitors at the Volcano House are always welcome, as everybody knows, but Sheriff Keolanui was an exception to the rule last Saturday—not because anyone dislikes the worthy sheriff personally, but because he appeared in his official capacity and his pockets bulged with ominous looking papers.

His quarry was F. B. Whitin, the wealthy Massachusetts man who is at present spending a holiday on the islands. Whitin is a son of the wealthy paper manufacturing family and he is in the placid enjoyment of an income which is said to run into five figures a month. He has automobiles, steam yachts and horses to burn—and he probably would burn them if that operation gave him any satisfaction.

The Sheriff found Whitin and politely handed him notice of two civil actions which have been commenced against him in Honolulu. In one of these T. A. Kay, manager of Halawa Planta-

tion, sues for \$5,000, and in the other Henry Gumpfer, a Honolulu hackman, wants \$5,374.25.

The papers set forth that an automobile belonging to Whitin and driven by a chauffeur employed by Whitin ran into Gumpfer's hack, in which Kay was a passenger, at the corner of King and Richards streets, Honolulu, on the evening of April 21 last. The hack was demolished and Kay's body, according to his affidavit, and the ligaments thereof "were then and there greatly shaken-up, disturbed, distorted and enfeebled and lacerated; and this plaintiff suffered and sustained a severe, painful and dangerous contusion of his left leg, which said leg turned black and is still black." He further "suffered great bodily pain and anguish of mind" and has been unable to properly attend to his duties as plantation manager since.

Gumpfer, it appears, also had his body and the ligaments thereof "greatly shaken-up, disturbed, distorted and enfeebled and lacerated." He wants the additional \$375.25 for repairs and the \$5,000 as pain.

Whitin accepted service but said that he had no knowledge of the occurrence. "I was told that my auto had been in a smash but I was not in it at the time," he said to the Herald. "I have always found my chauffeur reliable."

J. J. Dunne and William Rawlins are acting for the plaintiffs. The hearing is set for the September term in Honolulu—Hawaii Herald.

IS ONE OF ASYLUM'S BAD MEN

HAWAIIAN FROM KONA, WHO BEAT HIS SICK DAUGHTER SO THAT SHE DIED, A DANGEROUS PATIENT, SAYS DR. PETERSON—SPECIAL REPORT MADE TO PRESIDENT PINKHAM A WEEK AGO REGARDING HIM.

The South Kona man who killed his daughter and who is now held in the asylum here for insane, is regarded by Dr. Peterson, the physician in charge, as one of the most dangerous patients in the institution. He is Henry Hall, and he was committed on May 20, four days before the death of the girl. It is, however, probable that her death was a result of beating he inflicted, in an insane effort to beat devils out of her when she was suffering with a fever. Since Hall was confined he has made constant attempts to get out, one of them a mad scramble over a high barbed fence, and has induced friends to take up his case.

President Pinkham about ten days ago asked for a report on the case with the result that on June 16, the following letter was written by Dr. Peterson:

"Mr. L. E. Pinkham, President of the Board of Health.

Sir: Your request for a statement concerning the case of Henry Hall, I am now able to answer.

"He has been with us two and a half weeks.

"The first few days nothing wrong was noticed. Then hallucinations of hearing developed with delusions and

was accompanied by impulsive violence of such a degree that restraints became necessary.

"He is now free in a portion of the grounds, but kept under constant watch, as he is liable at any time to act from sudden and destructive impulse.

"The progress of this case will be reported to you if you so desire.

Yours respectfully,
"CHAS. A. PETERSON,
Medical Superintendent Oahu Insane Asylum."

"Hall's case is of the most difficult kind we have to deal with," said Dr. Peterson. "There is no telling when he will break out,—he is of the kind that may be sitting talking to you and apologizing for some breaking of the rules and suddenly give you a blow in the face. I have had it happen. 'Excuse me please,'—and then a sudden lunge on the jaw before you know what is doing. Such a man has to be watched every moment.

"For the first few days he was here Hall was quiet, and protested that he was not insane and wanted very much to get out. His insanity showed, how-
