

MERCHANTS TO MAKE DEMANDS ON THE PARTIES

THE MEETING IN THE YOUNG HOTEL ROOF GARDEN TODAY DECIDES THAT IT WILL NOT "REQUEST" BUT WILL "DEMAND" WHAT IT WANTS--AMONG OTHER THINGS A TAX COMMISSION, HEALTH FUNDS AND PROMOTION MONEY.

Nearly all the representative merchants and business men of the city gathered at 2 o'clock this afternoon at the Young Hotel to discuss the political situation and decide upon some course whereby the business elements of the town would be represented in the next legislature.

Among those present were F. J. Lowrey, J. P. Galt, E. H. Paris, Willard Brown, D. L. Withington, J. F. Morgan, J. P. Cooke, H. P. Wood, T. Clive Davies, W. M. Giffard, F. L. Waldron, E. D. Tenney, Gerrit P. Wilder, Clarence Cooke, A. N. Campbell, E. O. White, E. F. Bishop, George Angus, E. C. Brown and others.

E. D. Tenney made a motion that J. F. Morgan act as chairman of the meeting. The motion was unanimously carried.

Chairman Morgan appointed H. P. Wood to act as secretary.

Mr. Morgan said that the meeting had been called to give the merchants a chance to be a factor in the coming convention. He spoke of the lack of such action on the part of the merchants.

The question of taxation had come up, he said, and the support of the Promotion Committee was one of the most important measures to be considered.

J. P. Cooke said that to start the ball rolling he would favor the appointment of a commission to look into the tax laws and would draw up a plank to be inserted in the Republican platform. He stated upon being asked that the Democratic party also be asked to insert such a plank in their platform.

Faxon Bishop stated that such a matter might be settled by a petition to the legislature.

J. R. Galt believed that any matter that the merchants should desire could be obtained. He agreed that the plank should be inserted in the platform of the Republican party. He seconded the motion made by J. P. Cooke.

George W. Smith moved to amend the motion by demanding of the Republican party that they insert a taxation plank in the party platform. He stated that such a gathering was in a position to demand. E. D. Tenney seconded the motion.

J. P. Cooke stated that he did not like the word "demand" and thought that the word "request" be used.

Mr. Smith thought that the Merchants should and could demand.

The motion as amended passed as follows: "That we favor that a plank be inserted in the platforms of the different parties providing for the creation of a tax commission by the coming legislature said commission to prepare a report to be submitted at the session following."

President Pinkham of the Board of Health gave the expenditures of the Board of Health for the past year.

Mr. Morgan asked for Pinkham's report by stating that the gathering should see that the Board of Health had a sufficient appropriate for next year.

Chairman Morgan then called attention to the needs of the Promotion Committee.

News Of The Manchuria Cabled To The Coast

HER MEAN DRAFT IS 19 FEET--KOREA BRINGING ANOTHER HEAVY KEDGE ANCHOR.

Cable advices regarding the stability of the S. S. Manchuria have been received by the local agents from the builders of the vessel. The information is of more favorable character than had been anticipated. The information is to the effect that the mean draft of the vessel is 19 feet. This means that the vessel can be lightened until she draws only 19 feet, without any danger of her capsizing. In order to bring her to this draft it will only be necessary to keep a comparatively small amount of water in her ballast tanks. All of the coal aboard the craft is to be jettisoned. The coal is now being put on the decks of the craft and when the time for pulling on her arrives, the fuel will be thrown overboard.

The work with the vessel is progressing as fast as possible. Every anchor is to be reinforced by a second anchor. A 10,000-pound anchor is expected here by the S. S. Korea next Monday. The tug Elen departed at 4 o'clock this morning with the scow Melancthon in tow, for the scene of the wreck.

The dredger Pacific was put on the marine railway yesterday and repairs on her are being rushed. She will go off the ways tomorrow and depart for Waimanalo with the naval scow in tow. The scow is to be used in laying kedge anchors. The damage to the Pacific was not serious. The keel under the propeller and the rudder were damaged.

About fifty-seven natives who went to work on the Manchuria have struck for various causes. Thirty-eight new men were sent in five conveyances this morning to the scene of the wreck to replace the strikers.

Captain Saunders came to the city yesterday and returned this morning to the wreck. He is feeling in excellent spirits. Captain Metcalf has not gone to the wreck yet.

JAP RICE IS BEING HELD UP

DISCOVERED TO BE AFFECTED BY A LARGE WORM--SHIPMENT TO BE FUMIGATED.

The shipment of Japanese rice that was landed here two days ago by the S. S. Siberia has been held up by the local Territorial entomologist. The presence of a worm in the rice has been discovered and Professor Craw has ordered the stuff fumigated. It is understood that the rice worm has been found in previous shipments of Japanese rice, but the shipment on the Siberia appears to have been the first wholesale seizure by the authorities.

DOG SHOW PROVING A SUCCESS

THE DOG SHOW OPENED THIS MORNING AND PROVES TO BE A SUCCESS.

Yes, I went to see the bowwows, and I looked at every one. Proud dogs of every breed and strain that's underneath the sun; But not one could compare with—you may hear it with surprise-- A little yellow dog I know that never took a prize.

Not that they would have skipped him when they gave the ribbons out. Had there been a class to fit him-- though his lineage is in doubt. No judge of dogs could ever resist the honest faithful eyes Of that plain little yellow dog that never took a prize.

Suppose he wasn't trained to hunt, and never killed a rat, And isn't much on tricks or looks or birth--well, what of that? That might be said of lots of folks whom men call great and wise, As well as of that yellow dog that never took a prize.

It isn't what a dog can do, or who a dog may be, That hits a man. It's simply this-- does he believe in me? And by that test I know there's not the compeer 'neath these skies Of that plain little yellow dog that never took a prize.

Oh, he's the finest little pup that ever wagged a tail And followed man with equal joy to Congress or to jail. I'm going to start a special show-- 'twill beat the world for size-- For faithful little yellow dogs, and each shall have a prize.

—Harper's Bazaar.

The dog show is a howling success. One hundred and five dogs and each one howling in a different key. There are big dogs, little dogs, middlesized dogs, black dogs, white dogs, spotted dogs, good dogs, but no poor dogs. A visitor to the dog show is first impressed by the noise and then by the variety of dogs. After a half hour one pulls himself together enough to realize that there are a large number of first class dogs in Honolulu and that the Hawaiian Kennel Club was justified in making the exhibit. Many people were under the impression that a dog show in Honolulu would not amount to much but they will be forced to change that opinion if they visit the old skating rink and take a look at the bow wows.

At ten o'clock this morning the dog show was opened to the public. A large crowd soon gathered and the day was spent in viewing the dogs. Tomorrow the prize winners will be picked and then the dogs will be left on exhibition until Saturday afternoon.

The skating rink is an ideal place to hold such an exhibition of dogs. On all sides kennels have been built which affords the best view possible of the dogs. Some are labeled "Dangerous" but the dogs are for the most part peacefully inclined. Three bull dogs are considered so much of a menace to human life that they are confined in wire netting cages so that it is impossible for them to injure any one.

One of the dogs enclosed in the cages has a history connected with the San Francisco disaster. The dogs are the

POLITICAL WORKINGS

MERCHANTS MEET TO DECLARE THEMSELVES REGARDING CANDIDATES--MAY DECLINE TO PUT UP MONEY UNLESS THE CANDIDATES ARE SATISFACTORY--THE ANTI-HAOLE PROPAGANDA AMONG THE HAWAIIAN VOTERS REPORTED BOOMING.

A meeting of the merchants was called at two this afternoon, to discuss the political situation, from the business community's point of view. Measures to be advocated and possibly men to be nominated are the subjects of discussion, and some important results may come from the meeting.

The men meeting this afternoon are the ones who are expected to furnish the snaws of war, and they want to know whom they are to furnish them for.

One suggestion that has been made is that the financiers of the campaign get together and agree not to put up a cent until the nominations have been made, and not to put up any money

then unless the nominations are satisfactory. This is a plan to stave off some threatened "yellow dog" nominations which combines may rush through the convention.

The situation to some close observers indicates a strong carrying out of the anti-haole programme at the polls this time. Many months ago it was announced that in various secret gatherings, there was being worked up a plan to have all Hawaiians stand together on the platform of voting for Hawaiians. Some of the leading Republicans charge that this has been the real essence of the Lane Sunday meetings of the past six months. It is
