WEEKLY WEATHER BULLETIN
For the Week Ending September 15 1906
Honolulu, T. H., Sept. 17, 1906.
GENERAL SUMMARY.

On Hawaii the number of stations showing a greater amount of rainfall than during the preceding week was, by a slight percentage, more than those showing less. The greatest difference was +1.91 inches at Pepeekeo, while -.71 inch at Hakalau was the greatest deficiency. Peahi and Nahluku (850 ft.), report 2.02 inches, respectively, less rainfall than last week. At the remaining stations on Maui the differences did not exceed .39 inch. All stations on Oahu report less rainfall than during the preceding week, the greatest deficiency being -.56 inch at Kahuku. Kilauea, Kaula, reports .75 inch more rainfall than during the last week; the differences at the remaining stations in Kaula ranged from +.04 to +.20 inch.

The majority of stations in northern and central Hawaii report lower mean temperatures than during the preceding week, while those in the southern portion report higher. The greatest differences occurred in the Waimea, and the interior of the Hilo districts. In extreme western Maui, southeastern Molokai and northern Oahu, the mean temperatures were 1.0 deg. to 1.2 deg. higher than last week's, while the remaining stations on those islands report slightly lower temperatures, the greatest change not equalling 1.0 deg. The mean temperatures on Kaula were lower than those of the preceding week and at but one station, Lihue, did they equal 1.0 degree. In a number of districts the night temperatures are becoming appreciably lower.

The following table shows the weekly averages of temperature and rainfall for the principal islands and for the group:

	Temperature.	Rainfall.
Hawaii	74.0 deg.	1.79 in.
Maui	75.8 deg.	1.00 in.
Oahu	78.6 deg.	0.22 in.
Kaula	78.1 deg.	0.69 in.
Molokai	79.6 deg.	0.19 in.
Entire Group	76.0 deg.	1.28 in.

At the local office of the U. S. Weather Bureau in Honolulu, the maximum temperature was 85 deg., minimum, 69 deg., and the mean, 78.5 deg., .4 deg. higher than the normal for the week, and .5 deg. lower than that of the preceding week. Measurable rainfall occurred on the last four days, and amounted to .42 inch, .03 inch less than last week's, and .14 inch more than the normal. The average cloudiness was 3-10; average relative humidity, 66.7 per cent; and the prevailing direction of the wind was northeast, with an average hourly velocity of 9.1 miles. REMARKS BY CORRESPONDENTS (Note:—The figures following the name of a station indicate the date with which the week's report closed. Comparisons of temperature and rainfall are made with the data for the preceding week.)

ISLAND OF HAWAII.
Puuhoe Ranch (12)—Calm (dry) weather, with .18 inch less rainfall. Total rainfall, .29 inch.—S. P. Woods.
Puakea Ranch (12)—Warm weather prevailed, with strong trade winds, and .49 inch of rainfall, .33 inch less than last week's.—A. Mason.
Kohala Mill (13)—Slightly cooler, fine weather, with 1.11 inches of rainfall, .44 inch more than during the preceding week. Mean temperatures, 74.8 deg.—Joquin M. Souza.
Niihii (13)—Slightly warmer and very warm weather, with light winds, and .27 inch more rainfall. Mean temperature, 75.8 deg.; total rainfall 1.13 inches.—F. C. Paetow.
Honokaa (12)—Slightly warmer weather prevailed, with .31 inch more rainfall. Mean temperature, 75.2 deg.; total rainfall, 0.83 inch.—S. Gundelfinger.
Pauhau (13)—Slightly cooler weather obtained, with .31 inch less rainfall, and high winds during latter part of week. Mean temperature, 75.4; total rainfall, .36 inch.—Pauhau Sugar Plantation Co.
Pauilo (13)—A slightly cooler, windy week, with a fair amount of sunshine, and during the mornings, amounting to .40 inch, .33 inch more than last week's. Mean temperature, 71.2 deg.—C. R. Biacow.
Okala (13)—The nights were slightly warmer, although the mean temperature, 75.4 deg. was the same. The total rainfall was 1.22 inches—the greater percentage of which fell during the nighttime,—and was slightly more than last week's.—W. G. Walker.
Laupahoehoe (13)—Showery nights, and fine days, with light breezes, prevailed. The total rainfall was 1.71 inches, .18 inch less than the preceding week.—E. W. Barnard.
Hakalau (13)—Rain occurred on three days and amounted to 1.79 inches; .71 inch less than last week.—Hakalau Plantation Co.
Hononu (14)—The weather was very warm, with considerable rain, 3.99 inches, .25 inch more than last week's and with very little evaporation.—W. Pillar.
Pepeekeo (13)—Slightly warmer, generally partly cloudy weather obtained, with 1.91 inches more rainfall. Mean temperature, 76.0 deg; total rainfall, 4.48 inches.—W. H. Rogers.
Papaikou (13)—Warm weather prevailed, at times becoming very sultry. The total rainfall 4.33 inches, was .53 inch more than last week's.—John T. Mohr.
Hilo (13)—Warm and showery weather obtained during the week. Mean temperature, 75.2 deg; total rainfall, 3.22 inches.—L. C. Lyman.
Ponahawai (13)—Warm,—although, 1.0 deg. cooler,—rainy weather obtained with slightly less rainfall than during the preceding week. The prevailing winds during the day were northeasterly, shifting to westerly at night. Mean temperature, 72.4 deg; total rainfall, 2.65 inches.—J. E. Gamalolson.
Kaumana (13)—Cooler,—1.1 deg.—sultry and rainy weather obtained, with .68 inch more rainfall, and light variable winds. Mean temperature, 71.0 deg.

Imperial Russian Grandeur In Peril

CZAR AT OPEN-AIR MASS AT CRONSTADT.
In the event of the success of the long expected Russian revolution the Czar's last stand before a probable flight will be made in his beautiful palace at Peterhof, some of the magnificence of which may be imagined from the accompanying view showing the famous lago on garden, the palace being at the far end. The other view shows a mass being solemnized in the open air, attended by the Czar, at Cronstadt, the scene of the recent mutiny which failed.

total rainfall, 3.56 inches.—J. E. Gamalolson.
Kapoho (12)—The week was cloudy, with daily rains, occurring at night and in the early morning. The mean temperature, 74.6 deg., was .8 deg. higher, and the rainfall, 2.77 inches, was .39 inch less than last week's.—H. J. Lyman.
Pahala (12)—High trade winds prevailed during the week. Mean temperature, 74.4 deg.; total rainfall, .26 inch.—H. D. Harrison.
Naalehu (12)—Heavy trade winds prevailed during the last few days of the week. The rainfall, .52 inch, was .33 more than last week's.—G. G. Kinney.
Kealahou (13)—The total rainfall was 1.73 inches, .55 inch less than during the preceding week.—Robert Wallace.
Kealahou (12)—Slightly warmer, generally partly cloudy weather, with .62 inch less rainfall. Mean temperature, 73.2 deg.; total rainfall, 2.93 inches.—Rev. Samuel H. Davis.
Puuwaawa (13)—The total rainfall, 1.15 inches, was .42 inch more than last week's. Very high winds prevailed on one day.—Robert Hind.
Waimea (13)—Clear, dry weather obtained, with .16 inch of rainfall, slightly more than last week's. Cooler, 2.9 deg. with lower night temperature, 72.1 deg.—James Laird.
ISLAND OF MAUI.
Peahi (13)—Several heavy showers occurred during the 7th and 13th. The total rainfall, 1.40 inches, was 2.03 inches less than last week.—G. Groves.
Huelo (13)—Measurable rainfall occurred every day, and amounted to 1.56 inches. Mean temperature, 70.2 deg.—W. F. Pogue.
Nahluku (13)—Pleasant weather obtained during the week. The total rainfall, 2.33 inches, was 3.09 inches less than last week's.—C. G. Jacobs.
Punahoa (13)—High northeast winds prevailed during the daytime. The nights were rather cool, and showery during the latter part of the week. The mean temperature, 79.6 deg., was .2 deg. higher, and the rainfall, .07 inch, .02 inch more than during the preceding week.—J. N. S. Williams.
Wailuku (13)—The conditions remain about the same during the day time, but the nights are getting cooler. Several light showers occurred at night, and amounted to .14 inch, .16 inch less than last week's. The trades shifted to strong easterly winds on the evening of the 12th. Mean temperature, 77.6 deg.—Bro. Frank.
Kaanapali (13)—Warmer, 1.2 deg. cooler, sultry weather, with moderate to fresh northeast winds, and .39 inch more rainfall. Mean temperature, 80.0 deg.; total rainfall, .48 inch.—William Robb.
Kihei (13)—Higher temperatures obtained with clear to partly cloudy weather,—no rain. Mean temperature, 80.4 deg.—James Scott.
ISLAND OF OAHU.
Kahuku (14)—Clear sunny weather obtained, with occasional light showers. The mean temperature, 78.4 deg was 1.4 higher than last week, and the rainfall .16 inch was .56 inch less. The usual high trades prevailed.—R. T. Christophersen.
Ewa (15)—Light rains occurred on two dates and amounted to .20 inch, .10 inch less than last week's. The mean temperature, 78.2 deg., was .8 deg. lower.—R. Muller.
Waianae (14)—The weather has been a little cooler .7 deg. and rain less, .40 inch less than last week's. Mean temperature, 80.5 deg.—F. Meyer.
Waimanalo (15)—Mean temperature, 77.3 deg., total rainfall, .40 inch.—John Herd.
ISLAND OF KAULA.
Kilauea (14)—Continued warm weather, with cloudiness during latter part of week and showers, occurring mostly at night. The mean temperature, 76.7 deg., was .1 deg. lower and the rainfall 1.08 inches, was .75 inch more than last week's.—L. B. Boreiko.
Lihue (14)—Cooler, 1.0 deg. with frequent showers of rain amounting to .68 inch, .04 more than last week's and

rather strong winds prevailed. Mean temperature 77.8 deg.—F. Weber.
Koloa (14)—Slightly cooler, with moderate winds, and light showers daily amounting to .87 inch, .09 more than last week's. The mean temperature, 77.4 deg, was 4 deg. lower.—The Koloa Sugar Co.
Eleele (14)—Not quite so warm this week; but just as dry. The rainfall, .20 inch, was that amount greater than last week's.—McBryde Sugar Co.
Makaweli (14)—Generally clear weather obtained, with slightly lower temperatures, and .63 inch less rainfall. Mean temperature, 80.2 deg; total rainfall, .09 inch.—Hawaiian Sugar Co.
ISLAND OF MOLOKAI.
Mapulehu (14)—Warmer, 1.0 deg. w/

generally clear weather and .19 inch rainfall, .63 less than last week's. Strong easterly winds prevailed on the 11th and 12th. Mean temperature, 79.6 deg.—C. C. Conrad.

PNEUMONIA.
This disease always results from a cold or from an attack of influenza. Chamberlain's Cough Remedy quickly cures these ailments and counteracts any tendency toward pneumonia. It is made especially for these and similar ailments and can always be depended upon. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

PROVIDED FOR.
"Hadn't we better look around to see if we couldn't conduct our factories on a more advantageous system?" asked one of the partners.
"No," answered Mr. Dustin Stax; "there is no need of our bothering. Sooner or later the government will conduct an investigation that will show us any improvements that are necessary."
HIS REASON.
"Why don't you give up business?" "Because," answered Mr. Curran, "with mother and the girls in society, I've got to have some sort of relaxation."

Lunch Boxes and Baskets
