FORMER QUEEN IS REVILED BY FRENCH

DENOUNCE EX-EMPRESS EUGENIE
AS ADVENTURES FOR RECOV-
ERING NAPOLEON'S PROPERTY.

PARIS, June 2.—The ill-feeling of the French masses toward the former Empress Eugenie, widow of Napoleon III, has been strikingly illustrated. The ex-Empress, who since her return from exile has divided her time between the Hotel Continental in Paris, whence she could look over the Gardens of the Tuilleries, where she once reigned supreme, and the watering resorts of the Riviera, brought suit some months ago to recover a large number of articles housed in the French national museums, on the ground that they had been the "personal" property of her husband and were of "no historic and little intrinsic value." The case attracted no attention at the time and practically went by default, but recently when the court decided in the Empress' favor, a tremendous outcry was raised. The popular newspapers took the matter up, the Empress was called an "adventuress," and many of the old stories prejudicial to her fame were revived. The result is that the government in deference to the clamor, has formally entered an appeal against the decision.

50,000 Colonists For California

CHEAP RATES AND CHEAP LANDS
CAUSE A WESTWARD FLOW OF
EUROPEAN IMMIGRANTS.

SAN FRANCISCO, June 1.—In its monthly Bulletin of Progress for May the California Promotion Committee says:

Nearly fifty thousand colonists came to California during the season of cheap colonist rates which ended with the close of last month, in addition to other thousands who came on regular tickets. Reports to the California Promotion Committee, from its Eastern bureau in New York, and other sources, both in this country and Europe, show that many people are coming to make their homes in the State. Representatives of three large European colonies have been furnished with data by the committee regarding California lands, and these colonies will settle here during the coming summer and fall.

There is still excessive demand for labor in all parts of the State, especially in the fruit districts, and several thousand men and women will be needed to harvest and prepare the crops for market. Crop conditions throughout the State, with the exception of apricots, have shown continual improvement. Notwithstanding the excessive floods of early spring in the great central valley, most of the farms have been cultivated and crop indications for small farms and many large tracts have been placed on the market for subdivision.

Industrial conditions in San Francisco have caused temporary depression in all lines in that city, but its bank clearings continue to show an increase over the same period of two years ago.

The following summary for May shows California conditions:
San Francisco building permits, \$6,449,847; San Francisco building permits since the fire, \$69,563,392; Los Angeles building permits, \$603,162.20.

NEW OFFICERS ELECTED.
The following officers for the Kamehameha alumni were elected last night to serve for the coming year: H. J. Auld, president, reelected; J. L. Hopwood, vice president; T. Treadway, treasurer, reelected; M. Hulu, auditor; D. S. K. Pahu, recording secretary, reelected; H. Hanakahi, corresponding secretary, and S. Fukumura, W. Spencer and P. Horne, directors.

KUROKI LIBERAL WITH TIPS.
CHICAGO, June 3.—General Baron Kuroki distributed between \$400 and \$500 in gratuities at the Auditorium Annex before his departure last night for the West. He had been at the hotel a week with his staff.

This money that the General distributed came from the Japanese treasury. He is a poor man, comparatively, and the Emperor pays all his expenses, figuring that it will all come back to Japan in increased friendly relations between two countries.

REED'S BAY SURVEY.
HILO, June 11.—Acting under instructions from the United States government, Surveyor Bert Loebenstein has already commenced a survey of the foreshore and suggested harbor near Reed's Bay, the spot which has been proposed as the new Hilo harbor. He has been taking soundings over the whole of the site and these will be followed by borings for the purpose of discovering the exact nature of the sea floor. If the Reed's Bay site should be adopted the new breakwater will extend well out on the sea-ward side of Coconut island.

HOW THE EARTH'S MOON WAS FORMED

AN INTERESTING ADDRESS ON
TIDES BY PROF. DONAGHJO
EXPLAINS THE MATTER.

A large number of the members of the Hawaiian Engineering Association gathered at their hall in the Kapiolani building last evening on the occasion of the monthly meeting and listened with much interest to a very interesting and instructive address by Professor John S. Donaghjo on the subject of ocean tides. The address was illustrated by stereopticon views.

Professor Donaghjo described the action of the tides and explained in detail the most modern theories concerning them. According to these the origin of the moon is also accounted for, having been formed from a great tide wave developed by the attraction of the sun when the earth was young and plastic in its composition. The lecture also described the methods by which the tides are measured and calculated.

The meeting was presided over by the president of the association, C. G. Ballentyne.

READY FOR BUSINESS.

HILO, June 11.—The plant of the new pineapple canning industry which has been established in Hilo was tested yesterday morning and to the satisfaction of those who have been instrumental in founding the new cannery everything worked smoothly. The machinery was found to be installed without an error and everything ran without a hitch when the power was turned on. The new cannery is on the town side of Waieka river, mauka of the road. The tin for the pineapple cans is coming by the S. S. Enterprise, due this week and active operations will accordingly be begun at an early date.

A Rainier Toast

The burning questions of the day
The papers agitate, they say,
And yet, unnoticed, and unsung
Is one that smacks of foreign tongue;
The "Snark" is truly queer in name,
The Shark is better known to fame,
The "Snark" she sails the bright, blue
sea,
The Sharks look on and murmur:
"Gee!"

Here's to
