CAUSE OF TROUBLE
A NEW YORK CAPITALIST'S VIEWS OF FINANCIAL AND POLITICAL SITUATION.

"The true cause of the financial condition all over the United States has been over-confidence, and the laws governing our currency." This statement was made last night by W. E. Guerin, a New York capitalist, who has been through here many times on his way back and forth to Japan, and who is on his way to Japan now on important business, on the Hongkong Maru.
"When I left New York things began to look brighter, and I think that it will be only a short time before things are much better. A number of people claim that the President's policy has caused the trouble, and I am inclined to think that it is so to a certain extent. There is one thing that I do know and that is this, Mr. Roosevelt will never run again for the Presidency, and if he did he would never be elected. The next president will have to have different views from Roosevelt or he will never be elected. The man that will receive the nomination will be Governor Hughes of New York. The President is beginning to realize that Hughes is the only man that can carry the Republican party to victory. Taft in my mind is not worth anything and his boom has fallen down a good deal, in fact the

A WOMAN'S WRONGS AND A BRAINSTORM

THE PLEA THAT WON A WASHINGTON JURY TO SET MRS. BRADLEY FREE AFTER SHE SHOT AND KILLED UNITED STATES SENATOR BROWN—LETTER THAT LED TO THE RAGEDY—

The cable yesterday announced the acquittal of Mrs. Bradley, the murderer of United States Senator Brown. The following dispatches tell of the success nature of the successful defense:
WASHINGTON, Nov. 20.—A breakfastless, curiosity-mad crowd of women were shivering at the door of the court house at 6 o'clock this morning awaiting an opportunity to get seats in the court room where the Bradley trial is being heard. There was not a score of men in the crowd. The court again today told the spectators that they would be ejected if they demonstrated their feelings. Mrs. Annie Bradley looked worried. Taking a seat she whispered to Judge Powers, a moment later on the stand she identified letters written by Brown to her. She tried hard to hide her emotion while looking at the record of her old love.
The entire morning session was taken up with the examination and identifying of letters. In them Brown several times alluded to her as his "wife."
One letter specifically acknowledged little Arthur as "our" child. It reads: "My own dear wife—Never so dear or near. I am all yours today. 'Cast thy bread upon the waters, it shall return to you after many days.' Your message came this morning, wafting love of my darling from the Pacific as a Chinook wafts its balm over the land. Take good care of our little Arthur. Keep at him until he has the wit and brilliancy of his mother. Remember the quotation: 'Your blood mingled with mine yet shall mount the throne of kings.'"
The story of the killing was told at this afternoon's session. The defendant arrived in Washington December 8 and registered at the Raleigh Hotel. "At that time I did not intend to do violence. It took me nearly an hour to locate Brown's room. On entering Brown's room I was told by the maid that the senator would be back soon. Attracted by a letter on the dresser I read its contents, which caused me much anguish. I left the hotel and walked the streets distracted. I did not eat lunch, and returned to the hotel in the afternoon."
Here the defendant broke down. The trial was delayed for several minutes. She was shown the letter found on the dresser for identification. It was written to Brown by Mrs. Annie Adams, mother of Maud Adams, the actress.
"I went to Brown's room the second time."
"He said 'What are you doing here?' I said 'I came to see you. Why don't you carry out your promise?' He rushed at me."
"Did he say anything?"
"What did you do next?"
"I don't know."
"I did not know anything until I heard a shot. That aroused me."
"What did he do?"
"He called for help."
"When the shot was fired was he

close to you?"
"He had hold of me."
"Had you ever fired a gun before that?"
"Never in my life."
"Mrs. Adams' letter, in part, is as follows:
"Dearest—The world seemed to have another hue, because perchance I have heard from you, which means so much. I must hate with your hate, love with your love, love has ever seemed best. I am overflowing with that sweetest, dearest of human thoughts and feelings for you, you are my all, you see there is room for naught else. I spent Thanksgiving giving thanks for you. I never dreamed it possible, it seems so sweet. I have been fearful of many things and will write my movements at length. Love, dear heart, as ever."
"ANNIE."
The defendant denied that the senator had offered her \$5,000 and a Los Angeles residence and an annuity of \$100 until the youngest child was 21. Judge Powers questioned her again, taking up a number of the defendant's letters to Brown. The letters painted a picture of the defendant's happiness on the farm. Prosecutor Baker was baffled by the defendant's promptness and cleverness in answering his questions which at first looked damaging.
"Did you ever hit the senator with an umbrella, knocking out several of his teeth?"
The defendant tried to evade a direct answer, but finally answered "Yes." She denied that she threatened to blow Brown's head off if he refused to marry her.
When Attorney Baker concluded the examination the court adjourned for luncheon. When the defendant stepped from the stand she seemed to be stronger than at the close of the first day's ordeal. She was under examination 10 hours and 40 minutes.
This afternoon alienists are being examined.
Judge Powers' hypothetical question is:
"First—Mrs. Bradley had two girls insane with homicidal attacks, and that her father is in a sanitarium paralyzed."
"Second—A blow on the head with a hoe when the defendant was 5 years old injured her mentally."
"Third—That women with maternal instincts as strong as the defendant's frequently have delusions that they are being persecuted under certain physical conditions."
"Fourth—Fits of depression or elation resulting from Brown's quarrels and reconciliations unbalanced her mind."
"Fifth—The revelation of Brown's treachery through the Adams letter dethroned her reason."
These were followed by the following questions:
"First—Assuming that these facts are true, could the defendant distinguish right from wrong?"
"Second—Was she mentally responsible?"
"Third—Was she insane?"

nomination will never be offered to him. Governor Hughes has made the best Governor that New York has ever had, and he is a man who does what he thinks is right. No one can dictate to him, where in Roosevelt's case he can be influenced very much by his followers. I want to have it understood that I am not expressing my own views, but I am stating what is the feeling through the United States.
"Taft has made some very sad mistakes in some of his missions and he has certainly made even greater ones in his recent trip to Japan. At one time it looked that he might receive the nomination at the convention next year, but that is not the feeling now. Everything is Hughes, and as it has happened many times before the governor of New York state is the most likely one to receive the coveted honor. If Mr. Roosevelt had retired at the time of his last election he would have gone out with honors, but the conditions have changed now. The Democratic nominee is a dark horse at present, but it will most likely be Bryan again. Hearst has not or never will have the chance that he has spent so much money to get. He will not be even a candidate on his own ticket I don't think. The election has, as it always has done, made business rather slack, but the country is still in a very prosperous condition considering that it is the year before the presidential election. In going back to the financial conditions, the laws governing the Treasury have made to a certain extent a shortage of money in actual circulation. What we want is more coin in the country, as it is now, we have not got enough money to carry on the immense business of the nation. Over confidence, watered stock, improvements that are being made in New York and in other big cities has taken all the ready money to pay the

millions that have to be paid out. When you ask if the crash of the Knickerbocker Trust Company in New York had anything to do with the general slump all over the country I can honestly say that I don't think it had. From what I know personally Mr. Barney did nothing dishonest, and the failure of the Knickerbocker Company had absolutely nothing to do with the general conditions prevailing all over the country. Regarding the conditions in San Francisco which I know a good deal about I would say that every thing is going along very well there. Confidence has been restored, and the rebuilding of the city will go steadily onward unless another terrible disaster should overtake her. Regarding the subsidy bill going through this year I am led to believe as well as everyone else, that the American flag will soon be restored on the seas where it once was, and where it should be now. The Congressmen who voted against it last year will reconsider it this year, and I think they realize that if something is not done at once, the American steamship companies will retire from business, and no true American is anxious to see foreign flags take the place of ours on the high seas.
"I am going out to Japan to look over some of the natural water powers throughout the empire with a view to their future development. There are a number of places which I have in mind which if they were harnessed would be a great thing for Japan. I expect to return to America sometime in the early spring, and will remain at home I hope until the election takes place next year. Conservatively speaking I think that a Republican president will be elected, at least I sincerely hope so, for the good of the country. If a Democrat is elected the good times that have existed for a number of years back will probably be

COAL PILES ARE GROWING

NAVY FINDING PLACES TO STORE MANY TONS NOW ON THE WAY.

There is now twice as much coal in the sheds of the United States Naval station here as there was before the arrival of the three first colliers of the Navy coaling fleet, steamships Strathgarry, Nederland and Crown of Galicia. Sixteen thousand tons were on hand before the Strathgarry brought the first load from the Atlantic coast and the three vessels named have left another sixteen thousand tons here, the Navy now having thirty-two thousand tons on hand. Sixty or seventy thousand tons more, at least, are expected within the next ninety days and have to be prepared for.
The local navy authorities are now fencing in the lot opposite the new Alakea street wharf, back of the works of the Hawaiian Electric Company, near the old fishmarket, and thirteen thousand tons will be stored there. This is the property of the Navy, although not many years ago Admiral Merry transferred it to the use of the Army, the Army later transferring it back.
Eight thousand tons will be placed where the U. S. Marines were quartered up to Saturday last, in the Richard street end of the coal sheds of the navy.
The Davies lot on Richards street, across from the Sailor's Home accommodates fifteen thousand tons and there is still room in the Navy sheds for five thousand tons besides the eight thousand to be put where the Marine barracks were.
Room for another fifteen thousand tons is required and the navy is looking for it.
Dutch S. S. Nederland gets away this afternoon for Newcastle, Australia, to load coal probably for San Francisco. She finished this morning discharging Pocahontas for the Navy.
The S. S. Highland Monarch with about 5,000 tons, is now expected to arrive any day. The Highland Monarch sailed from Baltimore 64 days ago and the Queen Helena from Newport News, 63 days ago. Since the Queen of Galicia was but 53 days from Newport News it will be seen that she has nothing to fear for her record from the next arrivals.

REASON FOR PEACE.
If the white nations can keep from war for ten years more than will be witnessed, the immense gold production aiding it, an accumulated fund that will make the most colossal enterprises possible.—Mexican Herald.

DR. FAIRWEATHER'S SUIT.
Summons has been returned in the suit of Dr. Norman S. Fairweather, a well known dentist of Honolulu, for a separation from bed and board from his wife, Corrine A. Fairweather. According to the plaintiff's bill they were married in December, 1905, but have not been able to get along harmoniously. He charges that his wife has treated him cruelly, has been extravagant and involved him in debt, that she is fault finding and uncertain as to temper, and that she has used bad language towards himself on divers occasions. He therefore prays release at their hands of the court.

DEPARTMENT OF PUBLIC WORKS MAY PLACE IT ON SORENSON'S WHARF.
A plan whereby the steel shed of the old fishmarket, between Alakea and Richards street may be placed on Sorenson's wharf when that wharf has been repaired to an extent ready to receive a shed structure, is being considered by the Department of Public Works of the Territory.
Measurements, according to those who frequent the old fishmarket, have recently been taken by public works employes, and it has been found that, with alterations which will not be very expensive, the old fishmarket shed can be made to fit the Sorenson wharf greatly to the improvement of the latter, concrete piers being used for foundations for the steel pillars.
It was considered possible that the fishmarket steel structure might be used for the new Alakea street wharf, still incomplete, but Sorenson wharf is now receiving attention.
"The probabilities are," said one engaged on wharf structure, who was discussing waterfront improvements on the Alakea street wharf this morning, "that the fine steel shed where the old fishmarket was will be taken down shortly and re-erected, with a few alterations, over the Sorenson wharf on Queen street, which needs some strengthening before it could receive it. Concrete piers would support the pillars. And yet I think the fishmarket shed might better be used for the new Alakea street wharf. With the use of the material in this shed and necessary additions a splendid shed could be built on the Alakea wharf inside of the \$45,000 appropriation."

URNS OVER THE WHARF

GOVERNOR FREAR ARRANGES FOR ARMY TO USE CHANNEL DOCK FOR TRANSPORTS.

President Roosevelt and Governor Frear in consultation in Washington have brought about arrangements whereby the channel wharf here will hereafter be under the control of the Army and used for the docking of U. S. Army transports.
Raymond Brown, Inspector-in-Chief, U. S. Immigration Station, is in receipt of a cable to the effect that this transfer of the wharf and site has been effected.
The immigration authorities, by arrangement with the Navy and the Territory have at times, when conditions rendered it necessary, had the use of the wharf on the Waikiki side of the harbor entrance known as the channel wharf; and the notification comes to Brown for that reason. Other cables have been received by other Federal officers interested.
The ground upon which the channel wharf structure stands is a part of the U. S. Naval reservation, while the wharf and shed thereon are the property of the Territory, having been erected as a quarantine station during the days of the bubonic plague epidemic six or seven years ago.
Some months ago The Star exclusively reported the fact that the Navy Department was ready to turn the land over to the Department of Commerce and Labor, for immigration station purposes or other Federal department requiring its use. The idea then was that the Territory would be indemnified for the wharf and shed thereon.
Under new plans the immigration authorities will not require the site or wharf and developments are such that it becomes the most convenient place for the handling of army transports.
From now on the Naval wharves will be busy with the big fleet of colliers bringing Navy coal and with men-of-war of the Atlantic fleet, about to be transferred to the Pacific.
What arrangements are to be made with the Territory, for the transfer of the channel wharf and shed to the Army, are not yet known, but this was one of the matters discussed between the President and Governor Frear at Washington and a cable received this morning announces that the matter is settled.

A USE FOR THE FISHMARKET SHED
DEPARTMENT OF PUBLIC WORKS MAY PLACE IT ON SORENSON'S WHARF.
A plan whereby the steel shed of the old fishmarket, between Alakea and Richards street may be placed on Sorenson's wharf when that wharf has been repaired to an extent ready to receive a shed structure, is being considered by the Department of Public Works of the Territory.
