IDEALS SMASHED BY MRS. DELAND

DECLARES IDEAS OF MODERN WOMEN ARE MOSTLY WRONG—DOESN'T BELIEVE IN SUFFRAGE

CHICAGO, Nov. 26.—Just about everything that the modern woman is working for met with a classic negative last night from Mrs. Margaret Deland in an address on "The Change in the Feminine Ideal," before the Twentieth Century Club.

It was one of the best dressed and most fashionable audiences that have ever gathered in the rooms of the Fine Arts building. Such views expressed to such listeners and by such a prominent woman as Mrs. Margaret Deland, of Boston, Journalist and author, brought out gasps by the hundred.

Mrs. Deland is in favor of the segregation of vice; believes in the saloon, opposes the Rooseveltian anti-race suicide theory, and would keep women out of the legislature.

"As legislators," and Mrs. Deland, "women would enact laws in violation of those of nature and of God. A question which the new woman should ask herself is 'Would my vote cause human nature to cease being human nature?'"

"These modern women never take into consideration the fact that evil is just as natural as good and that no amount of explanation can ever make a man anything but a man. They would close up the saloons and wipe out the redlight districts. I know from my own experience that the denizens of the redlight districts are not very strongly in favor of segregation. They like to have a wider field and to mingle with people of a higher class."

"Why should we hope to remove temptation from mankind? The thing is impossible. Let the saloon alone and teach young men to avoid it."

"Nowadays the woman's ideal of a family, or the ideal of those who are expressing ideals, seems to be quantity rather than quality. This is at variance with existing conditions and the best interest of the race. The question should be settled by individual fathers and mothers."

"Our present system of divorce is tending toward free love. We need to get back to the old notions of marriage—the 'until death do us part' notion. The new woman regards marriage as merely an incident—something which should not be allowed to interfere with her career. In our mothers' days the three vocations of woman were teaching, nursing and sewing. In the new woman's day these are the only vocations not invaded by women."

"The future of the family rests in the permanent marriage. It is a much more important question than woman suffrage. I am not opposed to woman suffrage, but I am opposed to the suffrage of all women. If women vote it should be under an educational test. To give them the ballot now would only be to multiply existing ballot evils by two."
