METCALF RELIEVES WAR SCARE OVER

SAYS UNCLE SAM WILL REDUCE THE NAVAL FORCE IN ORIENTAL WATERS.

CHICAGO, May 17.—Victor H. Metcalf, secretary of the navy, passed through Chicago late yesterday, en route to Washington from San Francisco, where he had participated in the ceremonies of welcome to the "round the world" fleet.

A most significant statement fell from his lips when he said that not only would the 16 battleships that are to make the sphere girding journey return to the Atlantic coast from the far east, but two other ships of war would come back home with them.

In other words, the "Japanese war scare" has so far subsided that the Washington government believes it safe to reduce Uncle Sam's naval force in oriental waters below what it is now.

"A great navy is a preserver of peace," said Secretary Metcalf. "Diplomacy, of course, is a fine thing, and so is arbitration, but a strong navy backs up a nation's contentions better than a statesman or a diplomat can. A great navy is needed by this country."

NATURALLY CURIOUS.

He—But why did you lead me on to propose if you had no intention of accepting me?
 She—Oh, Clara told me how funny you looked when you proposed to her and I wanted to see for myself.—Chicago News.

WEEKLY WEATHER BULLETIN

For the Week Ended May 16, 1908.
 Honolulu, May 18, 1908.

GENERAL SUMMARY.

The mean temperatures were considerably higher than those of the preceding week at all stations on Kauai, and somewhat higher at the majority on Maui and Oahu, and at those in the Puna, Kau and Kona and the northern portion of the Hilo and the south-central portion of the Kohala districts of Hawaii.

The rainfall was above the average for the week at all stations having a record of ten or more years in the Kohala and Hilo districts of Hawaii, and below the average at all other such stations in the section, excepting Koloa, Kauai.

The excesses were .04 to .12 inch in the Kohala, and .77 inch to 1.52 inches in the Hilo districts of Hawaii. The deficiencies were: Hawaii, .39 to .44 inch in the Kau and Hamakua, .87 inch in the Puna, and .19 inch in the Kona; Oahu, .15 to .54 inch, and Kauai, .22 to .60 inch, excepting an excess of .44 at Koloa.

The greatest amounts of rainfall occurred in the Hilo district of Hawaii, and ranged from 2.83 to 5.94 inches. The amounts, in inches, in the other districts were: Hawaii—Kohala .84 to 1.05, Hamakua .38, Puna 1.26 to 3.00, Kae .06 to 1.13—excepting .00 at Pahala, and Kona 1.27 to 1.39; Maui—Koolau 1.26 to 2.25, Hamakualoa .54, Hamakua-

SAY ASTOR'S ACT IS CONTEMPTIBLE

Jews Are Excluded From Big Apartment House in the City of New York.

MAKES SENSATION IN LONDON

King Edward is Expected Certainly To Be Annoyed At Astor.

NEW YORK, May 15.—Publication of the news that Harry Badgley, manager of the \$5,000,000 Apthorp apartments at Seventy-eighth street and Broadway and owned by William Waldorf Astor, a British subject, would refuse the application of Jews for apartments, excited only passing interest among representative members of this race today.

Prominent Jews were a unit in declaring that Astor has profited pretty well by rentals to Jews since the first Astor came to own a piece of property. There was more contempt expressed privately for the owner of the property than was observed in the treatment of the policy of the management.

More than half of Astor's business and tenement holdings downtown are leased on long terms to Jews. From careful estimates it is apparent that Jews pay him rent on at least \$60,000,000 of his New York holdings. His total annual rent roll from Jews reaches \$3,000,000.

LONDON, May 15.—The news of the exclusion of Jews from Astor's new hotel created a sensation here, as William Waldorf Astor numbers many of the race among his guests at Cliveden and Hever castle. He is on friendly and even intimate terms with several members of the Rothschild family, with whom he has been collecting curiosities through Charles Davis, the Bond street art dealer, who is adviser to King Edward. Davis is a Jew and a frequent guest of Astor.

Henry L. Bischoffheim, Sir Ernest Cassel and the Sassoons being among the most powerful families in English society, are on intimate terms with Astor's family. The king, who is set against racial prejudices, is sure to be annoyed that a man who volunteered for British citizenship should countenance such discrimination.

AMERICAN WOMEN ARE PRESENTED AT COURT.

LONDON, May 15.—King Edward and Queen Alexandra held a brilliant court in Buckingham palace tonight. There was a large attendance, especially in the diplomatic circles, and unusual splendor was given the function through the presence of the dewan of Nepal and a large Indian suite, whose robes were a perfect blaze of diamonds. Their majesties and the officials all wore Indian orders and decorations.

Mrs. Whiteaw Reid, wife of the American ambassador, presented Miss Jenny Crocker of California, Mrs. H. P. Thompson of New York, Mrs. McC. Ramsay of Virginia, Mrs. Cole Scott of Virginia and Mrs. Henry Bacon, widow of the American artist.

SKEEERED.

I hope I'll never be very sick,
 For I'd feel some averse
 To sticking out my coated tongue
 To an enchanting nurse;
 And if she tried to feel my pulse
 I know I should grow worse.

And if she put her arms about
 My neck to raise my head,
 Or said, "I'll lift you to this chair
 While I make up your bed,"
 The blushes I would blush would
 quick

My features overspread.
 Or if she glided to my bed,
 While I writhed wide awake,
 To put a mustard plaster where
 'Twould help the stomach ache,
 I'd shriek at her, I know I should,
 "Go 'way, for heaven's sake!"

If I was very, very sick,
 And was compelled to sup
 My nourishment, held up by her,
 Out of a feeding cup,
 I might get well, but I believe
 My fever would go up.
 —Houston Post.

poko .41 to 1.04, and .00 in the remaining districts; Oahu—Koolau-poko .40 to .96, and .00 to .07 at the remaining stations; Kauai—Koolau .67, Puna .00 to .36 and Kona .02 to 1.48, and Molokai .47. Moderately heavy rains occurred generally over the Hilo district of Hawaii on the 10th and 11th.

There was more rainfall than during the previous week at the majority of stations on Hawaii, and less on the other islands, but the differences were not large—the greatest excess being 3.14, and the largest deficiency 1.10.

Earthquake shocks were felt at 9.20 p. m. on the 10th at Kealakekua (Wallace), and 9.45 p. m. of the same date at Kealakekua (Davis). The following table shows the weekly averages of temperature and rainfall for the principal islands and for the Group:

	Temperature.	Rainfall.
Hawaii.....	70.5 deg.	2.08 inches.
Maui.....	73.8 deg.	0.55 inch.
Oahu.....	75.0 deg.	0.25 inch.
Kauai.....	74.0 deg.	0.46 inch.
Molokai.....	74.2 deg.	0.17 inch.

Entire Group..... 72.08 deg. 1.20 inches.

At the local office of the U. S. Weather Bureau in Honolulu partly cloudy weather obtained, with measurable rainfall on the 10th, amounting to .02 inch, .54 below the normal for the week, and .06 less than during the preceding week. The maximum temperature was 81 deg., minimum 68 deg., and mean 74.9 deg., which is 2 deg. above the normal and 3 deg. lower than last week's. The average daily relative humidity varied from 65 per cent to 70 per cent, with a mean of 68.7 per cent for the week. The prevailing wind direction was E, on the 12th and 13th, and N.E. on the remaining dates, and for the week, with an average hourly velocity of 7.4 miles. The mean daily barometer was normal on the 14th, and above normal .01 to .07 inch on the remaining dates.

J. S. DEPARTMENT OF AGRICULTURE, WEATHER BUREAU.

The following data, covering a period of 33 years, have been compiled from the McKibbin and Weather Bureau records at Honolulu, T. H. They are issued to show the conditions that have prevailed, during the month in question, for the above period of years, but must not be construed as a forecast of the weather conditions for the coming month.

Month, May for 33 years.

TEMPERATURE.
 (18 years 1890-1907.)
 Mean or normal temperature, 75 deg.
 The warmest month was that of 1893, with an average of 76 deg.
 The coldest month was that of 1905, with an average of 73 deg.
 The highest temperature was 87 deg. on the 28th, 1907.
 The lowest temperature was 60 deg. on the 6th, 1902.

PRECIPITATION.
 (Rain 21 years, 1877-94, 1905-7.)
 Average for the month, 2.14 inches.
 Average number of days with .01 of an inch or more, 13.
 The greatest monthly precipitation was 11.29 inches in 1885.
 The least monthly precipitation was 0.18 inches in 1880.
 The greatest amount of precipitation recorded in any 24 consecutive hours was 9.68 inches on the 10th, 1885.

RELATIVE HUMIDITY.*
 Average 9 a. m., 67 per cent; average 9 p. m., 74 per cent (1893-1904.)
 Average 8 a. m., 66 per cent; average 8 p. m., 71 per cent 1905-7.)

CLOUDS AND WEATHER.
 (18 years, 1890-1907.)
 Average number of clear days, 10; partly cloudy days, 17; cloudy days, 4.

WIND.
 (Direction, 23 years; velocity, 3 years.)
 The prevailing winds are from the NE, (1875-94, 1905-7.)
 The average hourly velocity of the wind is 8.5 miles (1905-7.)
 The highest velocity of the wind was 28 miles from the NE., on the 13th, 1905, (1905-7.)

Station: Honolulu, T. H.
 Date of Issue: April 30, 1908.
 *9 o'clock averages from records of Territorial Meteorologist; 8 o'clock averages from Weather Bureau records.

WM. B. STOCKMAN, Section Director, Weather Bureau.
