U. S. Coast and Geodetic Survey tables. The tides at Kahului and Hilo occur about one hour earlier than at Honolulu. Honolulu standard time is 10 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 minutes. The time of high tide is taken from the time of high water at 1:30 p. m. which is the same as Greenwich, 0 hours, 0 minutes. The Sun and Moon are for local time for the whole group.

RHEUMATISM

Build up your nervous system, remove the poison from the blood, and restore perfect blood circulation with Dr. Miles' Nerve, and you will find the cause removed, your rheumatism gone, and your entire nervous system vigorous and healthy. Sold with a guarantee that first bottle will benefit, or your money back.

THE LOG-BOOK

SAN FRANCISCO, June 23.—The American-Hawaiian Steamship Company's steamer Nevada, Captain J. S. Greene, will sail this afternoon for Salina Cruz with a cargo of wine and canned goods. The Nevada was engaged yesterday at Crockett unloading sugar.

BE ON THE SAFE SIDE.

Your physician may be busy or out of town just at the time some member of your family has an attack of colic or diarrhoea. Such cases frequently prove fatal before a doctor can be summoned or medicine procured. No physician can prescribe a better medicine than Chamberlain's Colic, Cholera and Diarrhoea Remedy. It has been in use for more than a third of a century and has never been known to fail. For sale by all dealers. Benson Smith & Co., Agents for Hawaii.

NEWSPAPER ENGLISH.

Professor Thomas R. Lounsbury, of Yale University, who said in a recent interview that the much disputed idiom "none are" is perfectly right, is a hearty defender of what is sometimes called "newspaper English." In his book, "The Standard of Usage in English," recently printed by the Harpers, he maintains that the style of reputable journals is quite as good as the proper conditions allow, if not a little better. Indeed, Professor Lounsbury, whose very practical standard is the usage of great writers and cultivated speakers, seems inclined to permit more latitude of idiom than some editors. One characteristic pronouncement of this critic which many people are quoting is, "Language not only does change, but should change."

WEEKLY WEATHER BULLETIN

FOR THE WEEK ENDED JUNE 20, 1908. Honolulu, June 22, 1908.

GENERAL SUMMARY.

It was cooler than during the preceding week on Kauai and Molokai; in the Hamakua, Hana and Wailuku districts of Maui; in the Koolauloa, Koolau, Honolulu and Waianae districts of Oahu, and on Hawaii, excepting in the southern portion of the Kau district. The changes, on Hawaii, ranged from -0.1 deg. to -1.8 deg., excepting +0.2 deg. at Kau; Maui -0.2 deg. to -1.2 deg., excepting +0.9 deg. in the Kula and +0.4 deg. in the Lahaina districts; Oahu -0.5 deg. to -1.3 deg., excepting +0.6 deg. in the Ewa district; Kauai -0.2 deg. to -1.2 deg., and Molokai -0.7 deg. to -1.0 deg.

PRECIPITATION.

The rainfall was below the average for the week at all stations in the section having a record of ten or more years, excepting at Kapoho, Hawaii, where it was normal. The deficiencies on Hawaii ranged from 0.03 to 0.71 inch; on Oahu from 0.05 to 0.36 inch, and on Kauai from 0.01 to 0.27 inch.

RELATIVE HUMIDITY.*

Average 9 a. m., 67 per cent; average 9 p. m., 73 per cent (1893-1904.)

CLOUDS AND WEATHER.

Average number of clear days, 13; partly cloudy days, 15; cloudy days, 2.

WIND.

(Direction, 23 years; velocity, 3 years.)

The prevailing winds are from the NE. (1875-94, 1905-7.)

The average hourly velocity of the wind is 8.3 miles (1905-7.)

The highest velocity of the wind was 24 miles from the E., on the 27th, 1906, (1905-7.)

Station: Honolulu, T. H.

Date of issue: May 28, 1908.

*9 o'clock averages from records of Territorial Meteorologist; 8 o'clock averages from Weather Bureau records.

WM. B. STOCKMAN, Section Director, Weather Bureau.

her to the Orient. It is under 2000 tons and consists of flour, machinery, papers, rosin and general merchandise.

SAN FRANCISCO, June 23.—One hundred and twenty-three days out from Hamburg, having stopped at thirty ports on its round-the-world voyage, the Kosmos steamer Radames arrived in port yesterday afternoon and was towed immediately to Union No. 2 to discharge passengers and freight. The officers of the Radames, whose first voyage it is to San Francisco, reported an excellent trip, with the exception of the last few days, when off of coast strong head winds were encountered.

The Radames brought thirty passengers from different parts of call, as well as 1900 tons, consisting of coffee, saltpeper, nitrate, sugar and cocoa. Among the passengers were Sir James E. Erskine, Lady Margaret Erskine and Miss Veronica Erskine, hailing from Scotland and en route to Japan on a world tour. Sir James E. Erskine is an Admiral in the British Navy. Other passengers were Robert Haddon, Mrs. Bertha Haddon, Mrs. Maria E. Lewis, Mrs. Helen L. Brown, James Brown, Elizabeth Brown, Samuel Brown, Juanita Arias, Herman Pohl, William Boy, Mrs. Herlinda Bertram.

RAILROADS MOVING RECORD FRUIT CROP.

More Cars Employed in Hauling Fruit Than In Any Previous Year.

California will this year produce one of the largest fruit crops in its history, and the railroads are making corresponding preparations to handle more cars of fruit than ever known before.

It is estimated that nearly 10,000 will be required to move the crop, which would cause a great congestion of traffic if conditions on the transcontinental roads were the same as last year during the blockades. The slump in freight traffic has enabled the railroad companies to handle the fruit in a manner that is pleasing to the growers.

The melon crop of the Imperial Valley in Southern California is beginning to move at the rate of thirty per forty cars a day. This district is but four years old, but 1500 cars of cantaloupes and other melons will be shipped from there this season. The delicious fruit shipments to date this year have amounted to 400 cars, as against 175 cars at the same time last year. Oranges will continue moving for another sixty days at the rate of fifty to one hundred cars a day.

Crops of all fruits are large, with the exception of prunes, in the Santa Clara Valley, which will have comparatively a light crop.—San Francisco Recorder.

TEMPERATURE.

Hawaii.....70.4 deg. 1.13 inches.

Maui.....74.3 deg. 0.65 inch.

Oahu.....75.6 deg. 0.40 inth.

Kauai.....74.4 deg. 0.37 inch.

Molokai.....72.8 deg. 0.49 inch.

Entire Group.....73.2 deg. 0.70 inch.

At the local office of the U. S. Weather Bureau in Honolulu partly cloudy and cloudy weather obtained, with traces of rain on three dates, and measurable rainfall on four, amounting to .11 inch, .05 less than the average for the week, and .10 more than during the preceding week. The maximum temperature was 81 deg., minimum 67 deg., and mean 74.7 deg., 2.3 degree below the normal, and 1.3 deg. lower than last week's. The mean relative humidity ranged from 60 per cent. to 76 per cent. and was 66.7 per cent. for the week. The main daily barometer ranged from .07 to .13 inch above the normal, and the mean for the week, 30.10, was .09 inch above the average. The prevailing winds were E. on the 18th and 19th, and NE. on the remaining dates, and for the week, with an average hourly velocity of 9.3 miles.

U. S. DEPARTMENT OF AGRICULTURE, WEATHER BUREAU

The following data, covering a period of 33 years, have been compiled from the McKibbin and Weather Bureau records at Honolulu, T. H. They are issued to show the conditions that have prevailed, during the month in question, for the above period of years, but must not be construed as a forecast of the weather conditions for the coming month.

Month, June for 33 years.

TEMPERATURE.

(18 years 1890-1907.)
