Homelessness is a virtue that only pretty girls can appreciate.

FUTURE OF PACIFIC MAIL

SAN FRANCISCO, August 7.
—Edward H. Harriman, master mind of the American railway situation, arrived in San Francisco at 6:30 o'clock last night, and is resting at the Fairmont Hotel after his long transcontinental run. He is looking forward to a month's recreation on this fish and game farm at Pelican Bay lodge, on Klamath lake Oregon, and will start for that preserve today.
Mr. Harriman denied that he had any intention of selling his Pacific Mail property to the Japanese, but he said the ruling of the Interstate Commerce Commission on transpacific rates had made the situation serious. He believes Congress will sooner or later enact legislation that will enable the American flag to maintain itself in transpacific business.

TRY IT FOR A DAY.

There is something about the atmosphere of Haleiwa that builds up the system quicker than any tonic one may take. Maybe it's the food and the atmosphere combined; they're both pure and there is plenty of each. The rooms at Haleiwa are mosquito-proof, the service is good and the golf links all that the most enthusiastic golfer could dream of. Take a run down a day, letting Manager Bidgood know if you will remain longer, and see if you are not benefited.

TESTIMONY TANGLED.
Witnesses at yesterday's inquest into the death of the Chinese boy killed at the corner of Beretania and River streets by the auto of E. O. White were confused in regard to which side of the street the accident occurred and an adjournment was taken until 5 p. m. today when the scene of the accident will be visited.

NEW FEATURES AT ART THEATER

The management of the ever popular Art Theater is continually adding new features to the show which is greatly appreciated by the public as evinced by the crowded house nightly. The musical part of the program has been turned over to the Ernest Kaal and his staff of famous musicians, among whom will be Madame Alapai, the sweet-voiced soprano, who will sing the illustrated songs in turn with others in Mr. Kaal's orchestra. The motion pictures for tonight are: "The Adventures," "The Lighthouse Keeper" and "The Charmed Umbrella." In "Dreamland," "Drama of the Revolver" and "The Charmed Umbrella." The songs include, "The Moon Has An Eye On You" and "Neath the Old Acorn Tree, Sweet Estelle."
A very pleasant evening spent is always the verdict of those who attend.

TO THE ROCKPILE FOR HITTING HER

Vasconcelles this morning in police court was awarded six months in prison to consider the impropriety of striking a lady.
Eight Chinese gamblers were each fined six dollars and costs and four Japanese gamblers were each taxed twenty dollars and trimmings.
Chief of Detectives Jack Kalakieia this morning gathered in Joe Star, Portuguese, and Angie Needham and Eliza Jorgensen, Hawaiians, booking them for investigation. He evidently does not think they are leading perfect lives.

COLLEGE FACULTY

With the arrival of most of the instructors from the mainland on Monday next the faculty of the Hawaii College of Agriculture and Mechanic Arts will be constituted as follows:
Professor Gilmore, head of the department of agriculture, with Professor Porter and Mr. Ross as assistants; Professor Young, for the engineering department; Professor Morgan, for the department of chemistry and physics, with Professor Severance as assistant; Professor Pope, for the department of horticulture; Professor Donaghy, professor of mathematics; Professor Babson, professor of modern languages; Miss Hurd, department of domestic science; Miss Chipman, as teacher of ceramics.

The annual meeting of the Chamber of Commerce will be held tomorrow afternoon at 3 o'clock.

KOHALA PROTESTS

AN ANSWER TO THE PETITION THAT THE TERRITORY TAKE MAHUKONA LANDING.

In reply to the petition that the Territory take charge of the landing at Mahukona, which belongs to the Hawaii Railroad Company, a counter-petition was received by Superintendent Marston Campbell this morning. It is signed by a number of the same men who backed the original petition.

In speaking of the matter this morning Campbell stated that he would keep on and make full investigation of the matter, in spite of the counter-petition and would find out exactly what the facts were in the question, then taking action if he found it to be necessary.

The petition reads as follows:
"Hon. Marston Campbell, Superintendent of Public Works, Honolulu:
"Dear Sir:—We, the citizens, Residents and Taxpayers of the District of North Kohala, Hawaii, do hereby protest against the tenor of a petition from the District of North Kohala, bearing date of June 8, 1908, requesting that the landing at Mahukona be made a public landing, for the reasons submitted below:
"There is a road leading from the County Road to the landing at Mahukona. Same was opened up by the Hawaii R. R. Co. at its own expense in January 1907. Any work necessary on said road is a matter to be looked after by the County of Hawaii, and not by Hawaii R. R. Co. This road is conveniently located and ample for all

present need and for the requirements of the public for years to come.
"The condition of the landing, facilities for passengers and the handling of baggage and freight are better today than they have ever been before and are ample for all needs present and prospective. The expense for these facilities have been borne entirely by the Hawaii R. R. Co.
"Every privilege of a public landing has always been extended the public at Mahukona landing inasmuch as no charge is assessed for passengers going over the wharf and no charge is made for any baggage or freight passing over the wharf and from steamers. In any event a shipper or consignee calls on the Hawaii R. R. Co. for the use of any of its facilities, same is furnished and a nominal charge for the service is made.
"We believe, the petition of June 8, 1908, was signed by many who are seldom, if ever, at Mahukona and who understand nothing of the circumstances of the case. Respectfully submitted.
"Kohala, Hawaii, August 8, 1908."
Signed by 46 people.
Another like petition, not quite so precise in its wording and with the signatures of two hundred persons, was also handed in.

NEW PROMOTION COMMITTEE

G. F. Bush and R. H. Trent will succeed F. L. Waldron and W. T. Lucas as the members of the Hawaii Promotion Committee appointed by the Merchants' Association. When the new president of the Chamber of Commerce is elected tomorrow he will appoint two members for that body and then the four will select the fifth member.

WARSHIPS TAKE 40,000 TONS

STRING OF COLLIERIES FROM EAST TO KEEP UP NAVAL COAL SUPPLY AT HONOLULU—PACIFIC FLEET WILL TWICE SWALLOW 12,000 TONS—ATLANTIC FLEET TOOK 16,000 TONS—TO KEEP 50,000 TONS ON HAND.

On Monday next there will be signs of great activity at the naval end of the waterfront. Then will everything be in readiness for the delivery of twelve thousand tons of coal to the vessels of the Pacific fleet which sails from San Francisco on that day for Honolulu, Samoa and back to Honolulu again, and so to Magdalena bay.

The Atlantic fleet of sixteen battleships took nearly sixteen thousand tons of coal. The Pacific fleet will take about four thousand tons less, though eight or ten of the cruisers will take more coal each than did some of the battleships, because of their greater speed and therefore greater coal consumption.

To replenish the supply of navy coal here there will come from the Atlantic coast four steamships, bringing about fifteen thousand tons.

CECIL BROWN GOES AWAY

AT THE HEAD OF A PARTY HE WILL MAKE AN EXTENDED FOREIGN TOUR—WILL BE ABSENT SIX MONTHS—HE DECLARES HE IS STILL OUT FOR THE REPUBLICAN NOMINATION FOR A SENATORSHIP.

Hon. Cecil Brown, president of the First National Bank of Hawaii, leaves tomorrow for an extended trip abroad. He will be accompanied by his brother, Godfrey Brown, treasurer of the Mutual Telephone Co.; Miss Irene Dickson, his stepdaughter, and Miss Ada Rhodes, his cousin. Taking the C-A-S-S. Manuka to Vancouver, the party will cross the continent on the Canadian Pacific railway and proceed to England. They will be absent for about six months.

In answer to a question this afternoon, Mr. Brown stated that his trip did not involve an abandonment of his previously announced candidacy for the Republican nomination for a seat in the Senate.
"If I obtain the nomination I shall run for the Legislature," Mr. Brown said.
"I have friends working for me," he said.

RAILROAD MAKES FINE SHOWING

(Continued from Page One.)
Station of plant written off monthly \$79,769.94
Showing a profit of \$571,638.34
Bond—and other Interest.. 125,779.99
Balance \$445,858.56
Dividends of 9% were paid on the capital stock of \$4,000,000 360,000.00
Leaving to the credit of Net Revenue \$ 85,858.35
The construction of the Wahiawa branch line was financed by an overdraft which at one time exceeded \$125,000. We are pleased to report that this overdraft has been paid in full. Your Company has today no floating indebtedness.
While the records show the business of last year to be the largest in the history of the road, the prospects are that with the Government work at Pearl Harbor and the general increase of all the established industries along the line of the road, the business for the coming year will show a further increase.
The report of Superintendent George P. Denison says in part:
Several miles of additional track will be required to handle the increasing pineapple crop from Wahiawa and vicinity.
New sidings have been put in at Wahiawa, the Thomas Pineapple Cannery at Kalia, at the Lime Kiln in Honolulu, the Lime Rock Quarry at Waianae and at Waimea.
The various buildings along the line are in good condition and no extensive work is expected during the coming year.
In Honolulu the depot should be repainted. A new steel turntable is on hand to replace the wooden one which is worn out.
It is the intention to rebuild the round house, including the floor and pits, of concrete, as owing to the large amount of water used in washing out boilers, the cost of repairs is quite heavy; under present conditions the fire risk is great.
The deepening of the Honolulu Harbor and the greater draft of loaded steamers coming to our wharves necessitated the dredging of the slips. Some 2500 yards of coral and mud were removed from the steamer berth giving a depth of 25 feet of water. The remainder of the slips are to be dredged after the sugar season is over.
The additional conveyors installed in the sugar warehouse has made it possible to handle the sugar with a less number of men and made the labor much lighter for the men employed.
Some repairs to the planking of the wharves will be required during the coming year, and possibly a bulkhead wharf or wall along the harbor line beyond the end of the sugar warehouse.
The locomotives have had the usual repairs. It may be necessary to have one or two more engines to handle the increasing business.
The necessary material to change the air brake system on our cars from straight to automatic is on hand. A considerable number of cars have been fitted with this apparatus and the rest of them will be equipped in the near future. The change from straight to automatic air was made necessary for a better handling of trains on the Wahiawa branch and the heavy freight trains which are run during the larger part of the year.
Ten 30-ton box cars, twenty-five 12-ton pineapple cars and one combination coach have been added to the rolling stock.

On the return to Honolulu from the south the Pacific fleet, cruisers and torpedoed, will coal again, taking another twelve thousand tons or so. This means that between the arrival of the Atlantic fleet here last month and the last departure of the Pacific fleet from Honolulu in October some forty thousand tons of coal will have been taken by American battleships. It is the idea to always keep about fifty thousand tons here and, with the hereafter frequent calling of men-of-war at Honolulu, there will be a constant string of colliers, steam and sail, coming around the Horn to Honolulu with fuel.
With the Atlantic fleet the naval station people made a splendid showing in coaling, a record performance, and they will again demonstrate that they can coal ship with any port in the world with similar apparatus.
