LANTERN SHOWS FOR MISSIONS

Dr. Scudder has in hand a scheme for assembling a collection of lantern slides for the benefit of Evangelical mission stations throughout these islands. Rev. W. D. Westervelt has promised to contribute 1500 slides of his collection, the donation comprising illustrations of Old Testament stories and Bible history. Central Union church is to be the distributing center for the outfit and will raise a fund of between \$500 and \$1000 to pay the

cost and expenses. The slides will be loaned to the missions. It is not thought that it will be necessary to provide lanterns as there is hardly a village in the islands without some resident who owns a lantern. In any exception no doubt a lantern can be sent from town to supply the lack.

THE LAND OF KAPAA

NEGOTIATIONS WITH SPALDING ARE AT AN END AND FREAR CONSIDERS OTHER PLANS.

Col. Z. S. Spalding was among the callers on Governor Frear this morning, accompanied by Manager George Fairchild, of the Makee Sugar Company. When asked the object of the call Governor Frear said:

"Why, I imagine that Col. Spalding called to pay his respects and we talked over old times, the weather and numerous other matters. Among the other matters we incidentally touched on the Kapaa land question. In that matter when the lease expired we sent appraisers to value the lands which they did, and this was made the basis for an offer of exchange. The Makee Sugar Company turned down our offer. We then wrote asking if they would bid on the Kapaa lands if the lease should be placed at auction. They replied that they would not bid up to the upset price we had fixed. "At present we are waiting developments. Our surveys over there are very nearly completed and we will soon have everything in shape for advertising. The land may be leased in small parcels or in large, that will depend on the offers which we receive. "No, we have not any negotiations on at present with the Lihue plantation for the land. They are near by and might have use for it, but I can say nothing definite in regard to that."

QUESTION FOR THE POLITICIANS

Now that the campaign is coming on the various politicians are looking around to see where the sinews of war are coming from. A political campaign costs a good deal of money and there seems to be a prospect that some of the best sources of campaign funds will be cut off. This may be done under the Federal statutes.

The United States laws are very clear on the fact that no corporation which owes its existence to the laws of Congress, may contribute to the campaign funds for any election. This would naturally rule out the larger corporations of this city, who have obtained franchises from Congress. The National banks are specially mentioned in this section.

Another section which is of interest states that no corporation whatever, may give money to campaign funds for any election in which a contest for President, Vice-President of the United States or Representative in Congress takes place. This would apparently rule out every corporation in the city from giving any money for the coming campaign in which a Delegate to Congress from this Territory is to be elected.

SPORT AT 79

Charles Mitchell of the local waterfront is receiving congratulations on account of an article which appears in the Liverpool Football Echo, England, in regard to his father, as follows:

"Ralph Mitchell, or The Professor, as he is more familiarly styled, is one of the best known veteran athletes in this district. In his early days he excelled in wrestling, rowing, swimming, jumping, throwing the hammer, putting the stone and tossing the caber. As a shot he had a big reputation and assisted largely in winning the King of Belgium's cup at Wimbledon, value five hundred pounds. He won outright the Earl of Derby's Challenge Cup presented many years ago to the first battalion, King's Liverpool Regiment. It is as a swimmer and teacher of the art he is best known at the present day and his "life-saving system" has been proved particularly efficacious. It is worthy of mention in connection with the Channel swims that Mitchell was a rare stayer. He was personally acquainted with the great Captain Webb. The veteran was born in 1829 but is quite tough and hale and hearty. He was a Volunteer since 1860 and received a decoration from her late Majesty Queen Victoria for long service."

CANNOT NATURALIZE

SUZUKI'S NEW YORK CERTIFICATE FOR NATURALIZATION IS TURNED DOWN.

Masakechi Suzuki, the Japanese who applied to clerk of the Federal Court Murphy for naturalization yesterday, and who produced a document from the clerk of the Federal Court for the Southern District of New York, showing that he had filed his papers of intention two years ago, was turned down this morning. The matter was taken up with Washington by cable and as the result of the instructions which were received Mr. Suzuki will not become a citizen of the United States unless he can force the matter through an appeal to the courts and he will apparently have little chance in this manner.

Suzuki made his application to the Federal Court for naturalization as the result of an application which he made for work with the United States Engineer Corps at Pearl Harbor. He wanted to get a job as carpenter at the work which is going on at Puuloa and when he made the application was asked if he was an American citizen. He replied that he was going to be and hunted up his papers from the New York clerk and tried to test Murphy. The latter, however, appears to pay a little more attention to the laws of the country than was done in the East and held Suzuki up till explicit instructions on the matter were received, the clerk then refusing to receive his application.

Suzuki stated this morning that he would take the matter up with Consul Saito, but how much satisfaction he will get from this source is doubtful. It is hardly likely that the representative of the Imperial Japanese government in this city will go to any great amount of expense or trouble for one of his fellowcountrymen who has already, in making his application, forsown allegiance to Japan. The applicant himself, is apparently a bright and fairly well educated chap and talks very good English. He wants a job with the government, but as Captain Otwell has always made it a rule to employ only citizen labor on the work which he is doing here, when it is available, it seems that he has small chance.

There was a peculiar thing in the document which Suzuki presented to Clerk Murphy and which is now in the hands of U. S. District Attorney R. W. Breckons. In three different places it shows marks of erasures. This is not thought to be the result of any crooked work on the part of the Japanese, however, but to have been caused by the bungling if some clerk who should never have given him the document in the first place.

EWA TO PAY AN EXTRA

More money is still coming in extra dividends for the holders of sugar stocks. At a meeting of the directors of Ewa Plantation held last Saturday it was decided to pay an extra dividend of two per cent at the end of this month. It is confidently expected among the Ewa shareholders that still another dividend of this description will be handed over before the end of the year.

Since the first of the year Ewa has paid a monthly dividend of twenty cents per share and at the end of this month will have declared dividends for the year of twelve per cent, including two extra payments of two per cent each. This makes a total of \$600,000.

From the past prices of sugar for the year and the prices which should be obtained by Ewa sugar now on the way it is estimated that the plantation will show a clean profit of \$1,000,000. Of this amount it is believed that the directors will pay out \$900,000 in dividends or a total of eighteen per cent for the year. This will mean a continuation of the regular dividend and still one more extra payment of two per cent.

The rise in Oookala has been noticeable of late and is attributable to two reasons. The first and most important is the fact that it seems practically certain that this plantation, which is to be dissolved at the end of 1910, will pay considerably more than the estimate made by the directors at the meeting held on November 23, 1907. At that time it was figured that when the affairs of the plantation were wound up there would be \$13.74 per share left for the stockholders. From the present indication there will be at least \$17 per share and some of the estimates go considerably higher than this.

The other reason for Oookala's rise is in the fact that a special meeting of the stockholders has been called for September 2 for the purpose of redeeming on October 1, 1908, the entire outstanding issue of bonds of the company. The last sale of this stock was at \$10.
