

GREETING FROM GOVERNOR FREAR

The First Regular Wireless Message

sociations by Wireless

FRAZIER.

Through Charles R. Frazier, local correspondent of the United Press, the Governor of Hawaii had the distinction of sending the first regular wireless message to the Pacific Coast. It is printed above. Heretofore wireless communication between these islands and the mainland has consisted in the

FORAKER EXPOSE AND OTHER SCANDALS

(Washington Correspondence Hawaiian Star).
The campaign of 1908 will go down in history as a record-breaker in one respect at least: in no other presidential year has as much mud been slung back and forth as has been in evidence during the past two or three weeks. There have been other campaigns as bitter, notably the campaign of 1896, but not even in that memorable fight were personalities indulged in as freely as this year, nor were public men mowed down by exposure of their corruption.
And yet the campaign of 1908 has only fairly begun. How many more men will be forced into the Down and Out Club before election day would seem to depend upon how much additional evidence William R. Hearst has to offer to the waiting public. For it is due largely to Hearst that the paid servants of law-defying corporations have been shown up in their true colors. It took such a man as Hearst to unearth the evidence.
Appalling as have been the exposures thus far, only good can result, for every man proven to be in the employ of the corporations, be he Senator, Representative, or some minor official, will have to be turned out of office. Moreover, others who are under suspicion, not without cause, will be watched the more closely in the hope that what is now suspicion may be turned into exposure. There are some men Hearst may not be able to defeat, even though he procures evidence, there may be others shrewd enough to have covered their trails, but even if such men remain in public life, they will be handicapped in their effort to protect corporate interests, for they will find themselves robbed of trusted lieutenants, and lieutenants are absolutely necessary to successfully defeat or promote legislation according to the desire of the corporations.
The exposure of Senator Foraker occasioned no surprise, for it has been well known, for years, and beyond all reasonable doubt, that the senior Senator from Ohio was a friend of the corporations, and it was suspected that he was handsomely paid for his services. The only astonishment attending the Foraker exposure, was the discovery that a man of Foraker's adroitness would have carried on a written correspondence of so damaging

POLITICS

WILD PROMISES BY M'CANDLESS

HIS ASSURANCE OF FREE FARMS TO NATIVES WILL GIVE HIM MORE VOTES THAN McCLANAHAN GOT, BUT HE HAS NO SHOW OF CARRYING THE ISLAND OF HAWAII AGAINST PRINCE CUPID.

Nothing would be given out, after the meeting of the Republican Central Committee this afternoon, regarding the case of Kaea.

An adjourned meeting will be held at 4:30.

It is safe to say Kaea's name will be dropped from the representative ticket of the Fifth District. The committee is merely considering the method of doing it.

REPUBLICAN RALLIES.
A Republican rally will be held at Palama pumping station at 7:30 this evening. Good music is provided for.

DEMOCRATIC RALLIES.
Democratic meetings will be held tonight at Joe Aea's house, Waikiki, and at the corner of Liliha and Wylie streets.

SHINGLE ON HAWAII.

R. W. Shingle, of this city, candidate for the House from the Fourth District, returned Saturday from a trip entirely around the island of Hawaii. He states that the general opinion on the island is that McCandless, through the fabulous promises which he makes to the Hawaiians in regard to obtaining homesteads of 100 acres for each of them, will probably give him a better vote than that which McClanahan got two years ago. Nevertheless he states that it is the opinion of all that Prince Kuhio will carry the island.

In speaking of his trip Shingle said: "I made the trip entirely around the island with W. P. Roth and Frank Baldwin, going through Kohala and over the 1907 bow in George Beckley's Stoddard-Dayton and we did not have a mishap of any kind. We met the Governor and his party near Mrs.

Greenwell's at Kealahou, when they were going up to Edwards' vanilla bean farm and to Jared Smith's tobacco plantation. They all seemed happy as could be and Mrs. Newell was keeping along with the rest and feeling finely.

"We followed Link McCandless all the way round and heard of his speeches. His way of getting votes is to promise that every Hawaiian, when he gets in, will be given a homestead of 100 acres for nothing. He also attacks

Cupid, saying that he is in favor of government by commission and would take away the Hawaiians' right to vote. McCandless has apparently gained in strength in Kau and Kona.

"We met Cupid when we got to Hilo and he took our big machine, going back over the same route which Link had traveled and meeting Governor Frear at Pahala, where he exchanged machines with him, taking the Governor's smaller one. It is generally acknowledged by all that Cupid will run very strong and will be far ahead of his county ticket.

"The mill of the Hawaiian Mahogany Lumber Company has been running for the past week, though it is not yet up to its full capacity. The first output of ties will be sent to Hilo at once to be used in the building of the branch track for Contractor Metzger to the breakwater.

"The volcano is magnificent. It is filling up rapidly and is now about 100 feet below the high mark it made when it fell in some time ago. It was then only 82 feet from the top and the marks are shown by the black lava which formed around the sides. The sights to be seen at the crater are magnificent."

FLEET IN HALVES WILL STAY HERE ABOUT TEN DAYS

Official wireless messages from the flagship West Virginia to Captain Corwin P. Rees, Commandant U. S. Naval Station here, received by Isbell at Kahuku last night, announce that the first squadron of the Pacific fleet, the cruisers West Virginia, Pennsylvania, Maryland and South Dakota, and the destroyers Preble, Perry, Stewart and Hull will arrive here at noon tomorrow, the rest of the fleet, three cruisers and three destroyers, following three days later.

Early tomorrow afternoon all the eight vessels arriving will be berthed in the harbor and coaling operations will at once be undertaken. By the time the six remaining warships arrive the first eight will be coaled.

At this time it is expected that the entire fleet will leave here in one body, the West Virginia, Pennsylvania, Maryland, South Dakota, Perry, Preble, Stewart and Hull waiting here until the rest have been coaled, including the cruiser Colorado which may arrive here tomorrow and which comes from the coast to join the fleet.

While October 17 is the date scheduled for the departure of the Pacific fleet from here for target practice at Mag-

dalena Bay, it will be several days later than Saturday next before the fleet gets away for Magdalena, so Honolulu will have nearly ten days of the fleet if not the full ten days expected.

Difficulty in coaling is supposed to be the reason of the delay in the first squadron leaving Pago Pago and the same reason is ascribed the still longer delay of the second squadron, the second squadron probably having had to wait until the first squadron was coaled.

Tomorrow, at noon, Honolulu may look for the first half of the fleet and Friday, at noon, the second half may be expected.

The entire fleet, including the Colorado and the supplyship Solace and the collier Saturn, seventeen vessels, will probably sail for Magdalena Bay a week from Wednesday or Thursday.

STAY OF FLEET.

During the stay of the Fleet, the Alexander Young Cafe will keep open every evening till 11 o'clock.

There are eight passengers for Guam, including Lieutenant Commander James W. Walker, U. S. N., and wife, and cable and naval employees.

For Manila there are 137 cabin passengers and 512 steerage, the latter including 124 men of Battery C, Fifth Field Artillery; 327 casuals, U. S. A.; 99 Marines and 22 Asiatic employees of the Navy.

GIPSY FAIR POSTPONED

It has been decided to postpone the Gipsy Encampment which was to have been held at the Moana hotel tomorrow evening, to next Saturday night. The fact that the date of the big society function fell on the day when the Pacific fleet arrives was the cause of the change, together with the fact that only part of the ships will come tomorrow and the others three days later.

With four days more in which to prepare for the many different features which are to be given the Encampment will be sure of success. Mrs. Tenney, Mrs. Murphy and Mrs. Church are working hard to make the affair the best ever seen here and also one which will prove profitable to the newly organized Humane Society.

TO TOUR HAWAII

Chairman Atkinson of the Republican Territorial Central Committee will leave for Hilo tomorrow, to start a tour of the island of Hawaii, in behalf of the party. The Rev. S. L. Desha and other speakers will accompany him, and speeches will be made all over the island.

TRANSPORT DANCE AT SEASIDE HOTEL THIS EVENING

A dance in honor of the Officers and Ladies on board the Transport Thomas will be given at the Seaside Hotel this evening. A special dinner will be served. The usual cordial invitation to the patrons of the Seaside, local Army and Navy folk, is extended.
