**COUNTY WAGES UP TO SUPREME COURT**

(Continued from Page One.)

presentation of an agreed statement of facts, for all the various contentions included in the vetoes of the Mayor and all the incidents of the progress of the long fight between Mayor and Supervisors would have to be gone into and the copious minutes of the Clerk would have to be boiled down into the statement, and then it might be a month before the Supreme Court would get to a decision on the various points involved. Besides, an agreed statement of facts is not necessarily a real issue and the courts are looking for actual cases and not hypothetical arguments to determine.

An opportunity is now presented to some good philanthropist, and perhaps he had better also be a prophet, to advance money for the pay of the set of City and County laborers he deems the rightful claimants, otherwise, who happens to be right or who happens to be wrong, the laborer, though worthy of his hire will have to wait and then perhaps not get his wage.

Meanwhile there are enough employees engaged to run a City and County and a half, and, to all intents, the work of the municipality is going on apace. Unless the contest is settled within a week the condition of affairs may change and the City and County may be without the natural functions of road repair, garbage removal and the like.

In the City and County offices in the second story of the McIntyre building the telephone people are putting in desk phones most generously, linking the offices so that the County Attorney, for example, may talk with the Mayor or his secretary, the Clerk or the Auditor, the Deputy Attorney or the Engineer; a counter is being installed in the reception room of the Attorney's office; the Mayor and his secretary have taken unto themselves new furniture; extra clerks are working in the City and County Clerk's office and, it would appear everybody has assistance except Mayor's secretary.

The Clerk's assistants were included in the ordinance fixing the salaries of deputies and assistants of elective officers, as nobody up till then had noticed the provisions in the charter which made an invidious distinction between the other officers and the Clerk relative to assistance.

When the approval of the Mayor was discovered to be required for extra help for the Clerk, the items were yet retained because it was felt that the Mayor would probably accede to the Clerk's request for the same staff as the County Clerk had. Confidence in this matter was encouraged by the fact that Mayor Fern had for two years as a member of the Board of Supervisors been acquainted with the size of staff the Clerk's office carried and it was not known that he had ever complained or protested that there were too many assistants there.

To hold back the ordinance to wait the Mayor's pleasure in the matter, according to the Supervisors, would be to give in to his tactics of blocking the business of the Board.

As time passed and the Mayor either neglected or refused to give his decision, the Board had to find a way, as in other matters, to do what it considered to be its business. It therefore passed to publication an ordinance appointing assistants to the Clerk under the following provision of the charter: "Sec. 9. The Board shall: 1. Appoint, when authorized to do so

**JAIL TEN DAYS FOR CONTEMPT**

Uala Napoleon was sentenced by Judge Robinson this morning to ten days' imprisonment for contempt of court in not paying the alimony ordered in his wife's divorce suit. Attorney Lightfoot first made a statement of the case and then the court subjected Uala to an examination. It ended in his committal as stated.

**MAYOR'S SON DISCIPLINED**

Joseph Fern, Jr., the fifteen-year-old son of His Honor, the Mayor of Honolulu, was this morning sentenced to the Reformatory school for a term of two years.

The youth was arrested with two other boys, the trio being accused of stealing a dozen duck eggs from a Chinaman. It is said that the specific charge could not have been proved as to young Fern; but he was sentenced to the Reformatory on a general showing of misbehavior and disobedience of his parents.

Mayor Fern appeared in the court and held a conference with the district magistrate, during which he recommended that his son be taken in hand by the Reformatory authorities.

**REV. BLOOR IS COMING TO HAWAII**

Rev. C. H. Bloor has accepted an important charge in the Hawaiian Islands, and will leave Trinity parish early in January. The Bishop has been in correspondence with Rev. Bloor some time concerning the peering change, and holds open to him two positions—a professorship in an Episcopal college and a church charge—though the rector of Trinity does not know as yet which he will accept.

Rev. Bloor has been in Everett three years as Trinity's rector. Before coming here he was in charge of an Episcopal parish in Alaska, and has many interesting stories to relate concerning his experiences in the far North. He is a great traveler, having crossed the Atlantic more than a score of times and on various occasions he has visited most of the interesting points in the Old World. Rev. Bloor has the distinction of having once earned a scholarship in Sanskrit.

The trustees of Trinity have made no arrangements for a rector to fill the vacancy—Exchange.

The Hawaii Promotion Committee is sending out ten thousand circulars accompanied by letters drawing attention to the contents thereof, which consist of a series of short articles of interest to educators, with the object of imparting correct information about Hawaii and for the further purpose of suggesting a visit to these islands during the 1909 summer vacation, the letters and circulars being sent to the principals of all public, private and other educational institutions of the western States.

**THE GEM**

The efforts of the Gem Theatre in its production of the best of entertaining films that the market can afford, has certainly made a decided hit on the pleasure seeking population of Honolulu.

The theatre is so roomy, airy and convenient, artistic and most of all entertaining, so much so that it is now considered by people who know, the best in Honolulu and this is saying a lot.

The theatre is as yet very young, but it has worked its way ahead in a surprising manner. By persistent studying the little drawbacks they have put the entertaining in a state of perfectness, so that now whoever attends the Gem, can speak only good for it. The films that they show are of the latest and direct from the east.

Messrs. Kubey and Wilder can well be congratulated on their great success.

**WATER SUPPLY**

The Central League of Improvement clubs is calling a meeting for next Friday night, at the Capitol building, to discuss the proposed Honolulu water supply plans put forth by Superintendent Campbell. The call for a meeting is a result of the circular letter sent to the various clubs by the Kaimuki club and it is expected that there will be a general discussion of the water question.

**STEAMSHIP LINE**

LOS ANGELES, December 16.—Two new steamship lines between the Pacific Coast and the Hawaiian Islands are being organized. One is to be incorporated by capitalists of this city, and the other is planned as a subsidiary of Senator Clark's new line, the San Pedro, Los Angeles and Salt Lake Railroad. The projected lines are to make this port their principal coast touching point, and both are designed to take care of the rapidly growing canned pineapple and sugar freight and the tourist passenger traffic between the Pacific coast and Hawaii.

The freight hauls both ways are sufficiently heavy to make either or both lines pay. They will carry hay, grain, foodstuffs and fruit to Hawaii, and bring back cargoes of sugar and pineapples and soe bananas and rice. Although in a tropical climate, Hawaii raises so few oranges that the yearly shipments from the Pacific coast amount to almost \$100,000. The ship-

ments of hay and grain to Hawaii are also enormous.

The Oceanic line, established by Claus Spreckels to run from San Francisco and Australia via Hawaii and New Zealand, formerly ran five boats, three of which were twin screw steamers built by the Cramps in 1900. Because of disappointment in the matter of subsidy that line withdrew three of its boats but still runs one regular steamer to Tahiti and one, the Alameda, between San Francisco and Hawaii every three weeks. This boat is called locally the Honolulu ferry-boat.

The growth of the sugar and particularly the immensely increased pineapple tonnage, necessitated an improvement in steamer service, and the American-Hawaiian Steamship Company began operation between Honolulu and the Pacific Coast, and more recently the Matson Navigation Company put four boats in service between San Francisco and Hawaiian ports, but like the other lines, does not stop at either this port or San Pedro.

This condition of affairs, added to the fact that a new market is developing in the mainland of the United States for railroad ties of Hawaiian ohia, is the reason for the activity of the Los Angeles capitalists and the officials of the San Pedro, Los Angeles and Salt Lake Railroad. Ohia is a particularly tough, hard, native wood. The Santa Fe has ordered for immediate delivery \$2,500,000 worth of ohia ties. The bulk of the ties will come from the forests now being cleared for the cultivation of pineapples.—New England Grocer.
