

HEMENWAY AND CAMPBELL REJECTED

GIFTS FOR CHARITIES

C. M. COOKE MAKES PRESENTS OF \$50,000 EACH TO HAWAIIAN BOARD OF MISSIONS AND YOUNG MEN'S CHRISTIAN ASSOCIATION—OAHU COLLEGE GIVEN \$40,000—HOME PROVIDED FOR WHITE LEPERS AT MOLOKAI.

Gifts of a public nature amounting to over a quarter of a million dollars have been made to various institutions in this Territory by C. M. Cooke, the local banker. The largest amount is of \$125,000 which is placed in trust with the Hawaiian Board of Missions and is divided into sums which run in amounts of from \$50,000 to \$2,500. Oahu College and the local Y. M. C. A. fare very well indeed, the former receiving an endowment of \$40,000 and the latter being given \$50,000. The new Salvation Army Home receives \$3,000 with which to complete the building and \$2,000 with which a home for lepers of Caucasian nationalities is to be built at Molokai. The public library of this city receives a gift of \$6000 and the library in Hilo is given \$2,500 with which to buy books. St. Andrew's Priory is given \$5,000. The \$125,000 which is placed in trust with the Hawaiian Board of Missions is divided as follows: Hawaiian Board, \$50,000; Kawaihahoe Seminary, \$20,000; Mills Institute, \$20,000; Japanese Work of Hawaiian Board, \$20,000; Palama Milk Depot, \$2,500; Kohala Seminary, \$5,000; Makawao Seminary, \$2,500; Wailuku Settlement Work, \$2,500; Mr. Dodge's work in Wailuku, \$2,500. It is understood that Mr. Cooke has made a large number of other gifts of a private character so that the total sum which he has given away at this Easter will reach a very high figure.

JUNKET REFORM IS SUGGESTED BY REPORT

BIENNIAL MOLOKAI TRIP COULD BE CONFINED TO LEGISLATIVE HEALTH COMMITTEES AND THEIR GUESTS—OPPORTUNITY FOR A "BARON" TO BE PHILANTHROPIC—COELHO'S JUMBLING NOT DIRECTLY DEALT WITH—A LEGISLATOR SAYS REMEDY IS WITH GOD.

Representative J. H. Coney, chairman of the health and police committee, this morning in the House submitted a twenty-page, typewritten report on the Molokai inspection and pleasure trip of the legislators and others, made in the S. S. Mauna Kea last Sunday. It was read by first and last paragraphs, the House thus being spared the history of what it already knew all about, the majority having been members of the party. The opening paragraph declares that it was decided that none but legislators, doctors, members of the press, Board of Health and representatives of the executive be permitted to accompany the party. "Later on it was rumored that special guests were to accompany the joint committee and House and Senate were besieged with requests for permission to go along too, amongst them anxious mothers, fathers, sons and daughters of the inmates, whereat many members were moved to hand over their tickets." The report declares: "The suggestion that only members of the health committee of the House and Senate take this trip of inspection, might well be considered on future occasions of this kind." Senator Fairchild talked on financial matters to the inmates of the settlement saying it was the idea of the Legislature to give the people there more comfort and make them more happy. Representative Kamahu told the inmates that he had been refused passage for certain relatives of the inmates because he, Kamahu, was a Democrat. Coelho, responsible for a confusion in regard to the trip that has been much complained of, though the report neglects to say so, told the settlement folk that Kamahu was mistaken. "Nakaleka told how the House had transmitting wireless intelligence, also prescribing penalties for working without a license, the provisions not applying to vessels engaged between island ports or between island and other ports. The license is placed at \$25 per year and can only be obtained on approval of the governor, from the Treasurer.

SAVINGS BANK BILL IS KILLED

THE SENATE. FORTY-FOURTH DAY.
Letters from Secretary Mott-Smith gave lists of bills signed by the Governor.

A letter from Attorney General Hemenway, in compliance with Coelho's resolution, gave the following statement of expenses of the prosecution of Abe, an accused Japanese: Cable expenses, \$96.82; traveling expenses C. A. Doyle, \$572.55; total \$669.37.

Nawahine said he had received the highest number of votes from this district and promised to do his best, going on to tell the settlement people that they "should look to God for the remedy, consider the soul. Time is not theirs, it is God's. Today you are happy and tomorrow dead!" and similar unaccountable declarations. "Committee finds that the Kalaupapa jailor sleeps in a cell with a leper, and recommends this be changed. The bill needs attention. The committee report gives the names of persons who went on the trip. From the list it can be seen that several went out of mere curiosity, having no business in connection with the trip, neither having relatives in the settlement. One was a board of health employee who did no clerical or other work during the visit. A few were wives of Legislators. The Senate invitations included the greater number of people not having business, there being but a very few from the House. Coelho was in charge for the Senate and seemed to be in charge for the whole crowd. A San Francisco News Letter representative was allowed to go and Coelho's bad management resulted in the issuance of no tickets to Star reporters. The report states that a ticket was issued a representative of The Star, whereas it was not, Mr. Logan having arranged to go as a Supervisor, but not going. "Several inmates requested members of the committee to secure a hall for them for moving pictures. We do not recommend that the Territory supply this, but that some Baron who has reaped rich harvests in these islands be philanthropic enough to help them out. A mahind, Dr. Wyllie, gave the lepers a band stand at his own expense and now is a chance for some kamaaina."

Coelho reminded the Senate of Chillingworth's statement when the resolution was introduced that the expenses to the Territory were nothing from direct information. Chillingworth replied that he spoke from direct information. Coelho presented a report of the health committee on Harvey's resolution for removal of certain persons not named from Molokai to Kailihi for examination. It recommended striking out the words "all such persons who are to all appearances free from the disease of leprosy," and insert in lieu thereof the following: "The following persons, namely: Kahale aKua, Pinehaka Kalepa, Ioane Kaimu, Charles Wainui, Nawi, Kaapuni, J. K. Alapai." The same committee presented a report on House bill prohibiting the sale of certain leaf fish, saying the provisions are very proper as a safeguard against the sale of bad fish, and the continuance of the practice now in vogue in the Honolulu markets is a menace to public health and safety, and should not be tolerated. THE SENATE JOURNAL. Woods presented a resolution relative to the work and pay of the clerk and assistants for preparing the Journal of the Senate. Adopted. Another resolution by Brown was adopted, directing the clerk to advertise for

Opium Here For Chinese

BIG SHIPMENT OF DOPE BROUGHT TO ISLANDS BY STEAMER ALAMEDA.

The effect of the law which was recently passed by Congress that prohibits the importation of opium to the United States except for use in medical pursuits, was shown by the shipment of opium which arrived by the Alameda this morning. There were twelve boxes of "dope" in the shipment, each containing about 500 taels, or approximately fifty pounds. The price of the drug, since the new law has been passed, has risen from \$750 per box to \$1250. This is probably the last large shipment of opium which will come to Hawaii except through illicit channels. Even as it is the status of the opium which was received today is in question and it will probably be secreted very carefully by the Chinese to whom it is consigned. The San Francisco Call has the following to say on the subject: "The future action of the federal government will be in dealing with smoking opium found in the United States after today was the cause of much speculation among Chinese importers. Brief telegraphic instructions received from Washington Tuesday by the customs officials were taken to mean that all smoking opium was to be seized and destroyed. Assistant United States Attorney Black is of the opinion however, that the anti-opium law recently enacted by congress does not apply to the opium landed before the law went into effect. Importers have paid \$113,898 for duty in the last week. This represents a valuation of \$292,191, or 18,983 pounds of opium. To pay this tax the Chinese have drained their coffers and they were only able to pay \$10,578 duty yesterday, taking out 1,763 pounds. They attempted to raise more money, but the money lenders were afraid that if the treasury department allowed the opium to enter the pure food bureau of the department of agriculture would order the drug seized as unfit for use. In fact the law is entitled "an act to prohibit the importation and use" of opium. The customs officials believe the department of agriculture will prohibit its use."

JEWELER ARRESTED

H. CULMAN CHARGED BY THE POLICE WITH RECEIVING STOLEN PROPERTY FROM NAWAI.

H. Culman, the local jeweler, was arrested this morning on a charge, sworn to by the police department, of receiving stolen property. It is alleged that he bought a large quantity of valuable Hawaiian coins which had been stolen from J. Oswald Lutted by Peter Nawai, the native burglar captured by Chief of Detectives Leal last week. From what can be learned of the facts it appears that Culman bought the coins from Nawai at a small price and refused to give them up when asked for them by the police department. Several demands were made on him and finally the police took what appears to be the only course left and arrested him. It is understood that Culman will fight the case and that the police department will make just as hard a fight on their side.

Campbell Loses By Two To One

Hemenway Lacks Only One Vote

Below are the results of the Senate's action in executive session on the Governor's appointments this morning. It will be seen that Attorney General C. R. Hemenway, Treasurer A. J. Campbell and License Commissioner A. Lidgate (Hawaii) are rejected, and that action on Land Commissioner Pratt and Surveyor W. E. Wall is deferred. The vote on Campbell was five to ten, or two to one against him. Hemenway was defeated by one vote, seven being for and eight against his confirmation. No action was taken on boards of registration and inspectors of election. The executive session lasted about half an hour. The votes in favor of Treasurer Campbell were those of Senators Smith, Fairchild, Knudsen, Kalama and Chillingworth. Against him were Harvey, Quinn, McCarthy, Woods, Brown, Coelho, Robinson, Makekua, Moore, Baker.

For Hemenway the voters are stated to have been Smith, Fairchild, Knudsen, Kalama, Chillingworth, Baker and Quinn. It is said that the other eight, who opposed Hemenway, are also opposed to Land Commissioner Pratt.

NEW WIRELESS BILL; FOOD PRICES RIGHT; UNDER THE SUN CHURCH

CONFIRMED. Substitute for Shingle's three air license bills entered in House—Molokai settlement provisions are not too expensive—strange Pettit from Kauai—worshippers—Japanese admiral visits the house—furtado's mortgagage redemption killed.

Forty-fourth day. Morning and Only Session. The House hustled through considerable business this morning and at 11:35 adjourned over till 10 o'clock tomorrow morning. Yesterday afternoon there were members who wanted to adjourn over Good Friday, but today is not a legal holiday and there was nothing to interfere with some members getting excited to go to church, if they so desired. SUBSTITUTE BILL FOR WIRELESS. In place of Shingle's several wireless bills, requiring licenses and providing penalties in regard to the use of wireless the finance committee reported, recommending the tabling of Shingle's three bills and submitting a substitute bill providing an annual license for

transmitting wireless intelligence, also prescribing penalties for working without a license, the provisions not applying to vessels engaged between island ports or between island and other ports. The license is placed at \$25 per year and can only be obtained on approval of the governor, from the Treasurer.
