APPROPRIATION BILL NEAR SETTLED

WHAT THE LEGISLATURE HAS DONE

MAIN RESULTS OF THE SESSION

- PROVISIONS FOR IMMIGRATION.
- CONSERVATION OF NATURAL RESOURCES.
- FUNDS FOR VISIT OF CONGRESSMEN.
- SEATTLE FAIR WELL PROVIDED FOR.
- POWERS OF COUNTIES ARE ENLARGED.
- IMPORTANT CHANGES IN LEPER LAWS.
- JUDICIAL PROCEDURE CONSIDERABLY MODIFIED.
- DIVERSIFIED INDUSTRIES ENCOURAGED.

More power to the counties, more power to the Municipality of Honolulu; a nearer approach to decentralization of government and a wider range of public possibilities; a better understanding of public utilities; many cures for sick laws, repeal for bad ones; mending of punctured statutes and general all-round improvement, in the main; such is the epitome of the accomplishment of the Fifth Legislature of Hawaii now drawing to a close and to wind up Wednesday next.

JUDICIARY LAW KILLED

PLAN TO SEPARATE SUPREME AND CIRCUIT COURTS DIES NATURAL DEATH.

One of the departments which will be severely pruned by Governor Frear in the appropriation bill is that presided over by Chief Justice Hartwell. The latter's plans have gone completely astray and while the amount of money which has been set aside for the work is far above that which was calculated on by the administration, the plans have been much confused.

In the reports which were submitted by the Chief Justice of the Supreme Court and the first judge of the local circuit court it was recommended that the Supreme Court and the Circuit Court be separated completely as far as employes go. This plan was also suggested to the Legislature in the Governor's message and was brought before that body in House bill No. 41, House bill No. 163 which contained some departures from the program set down by the Chief Justice, was substituted, however, and was passed by the House. This reached the Senate and has been held up in the Judiciary Committee where it now remains and will remain till the end of the session. In addition to this Governor Frear is said to have signified his intention of using his veto upon it if it is passed.

The attitude which had been assumed in regard to this bill by the Judiciary committee was called to the attention of Senator Fairchild of the conference committee, before the appropriation bill was considered and changes made in that document which will allow the courts to proceed in practically the same manner that they have in the past. One of the changes made, however, is to cut out the higher priced employes in some instances and put in more men at lower pay. In some cases this has been done by substituting two men at \$100 per month for one man who has been doing the same work for \$150 in the past. In this way more money has been used up and more jobs created. Here it is expected that the pruning shears of Governor Frear will find some work to do, which will save money for the Territory.

The reason given by the members of the Senate Judiciary committee for holding up the bill is that it is practically the same as the so-called "balliff act," which was repealed by the Legislature of 1903. If it passed, would give the Circuit Judges power to appoint what officials they saw fit without limit and open the way to a possible abuse, should an unfit man be placed on the bench.

LOAN BILL KILLED AFTER CRAMMING; APPROPRIATIONS PAU

ISLANDS SQUABBLE AND AFFONSO FEELS FOR HAWAII'S NECK—COHEN REFERS TO FOOLISHNESS AND SHELDON OBJECTS—CONFERENCE COMMITTEE'S REPORT ON APPROPRIATION BILL IS ADOPTED WITH TWO DISSENTING VOTES.

An effort will be made in the House this afternoon by the Hawaii members to reconsider the action taken on the loan bill this morning when it failed to pass. Maui members are charged with the killing of the bill and Affonso and others of Hawaii will attempt to resurrect it and take from it the \$75,000 item for repair of the Judiciary building.

The loan bill was killed in the House this morning after many amendments had been made and a move to table had been lost. There was heated discussion over the measure. Affonso declared that there was an attempt to "give it to the island of Hawaii in the neck," and Sheldon objected to Cohen referring to "foolish amendments."

Sheldon warned the House that brotherliness would have to be observed and each island delegation would have to take a little something of the best it could get, of the many things it thought it needed, so that everybody could get in on the bill without making it so heavy that it would be vetoed, or words to that effect.

The bill was lost, 14 ayes and 13 noes, lacking two of a majority.

The House bill providing that certain officers of the government refrain from practicing law was passed on third reading this morning.

Castro declared in this connection that a vote for the bill was a vote against the wishes of the people.

Sheldon thought it restrictions were to be made they should apply to all officers, big and little.

The business of the day not being finished at noon, recess was taken until 2 p. m.

Tomorrow the members of the House go to visit and inspect the Boys' Industrial School on the windward side of the island.

THE CORPORATIONS WERE UNDER FIRE

Echoes of the irrepressible conflict between the corporations and the people on the mainland fumbled more than once in the hall of the Senate Hawaii this morning. The first occasion however pertained to a somewhat old controversy in Hawaii, that of the degree of publicity to which the corporations should submit their affairs. President Smith took the floor to contend strongly against the increased power given to the Treasurer, in a House bill under consideration, for compelling the corporations to expose their internal condition to the public gaze. Senator Fairchild valiantly supported him. Senator Chillingworth was the champion of publicity, but he made a motion that carried deferring the bill until Monday. This motion was accepted with such avidity by the opponents of the bill as indicated that it left the honors of the combat with them. The
