STAR Printing Office
For years the Star's printing office has been a busy place. We have gained a reputation for doing good work at fair prices and doing the job when promised. Few printing offices can make a similar claim. With addition to our plant we are in a better condition than ever to handle commercial printing. If three Linotypes are at your service for book and brief work if you are not a Star customer, send us a trial order; you will be pleased with the result.

29	12:42	1:3	---	6:10	4:54	5:17	6:28	2:09
30	1:43	1:5	---	6:32	6:00	5:17	6:28	2:43

Times of the tide are taken from the U. S. Coast and Geodetic Survey tables. The tides at Kahului and Hilo occur about one hour earlier than at Honolulu. Honolulu standard time is 10 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 minutes. The time whistle blows at 1:30 p. m. which is the same as Greenwich, 0 hours, 0 minutes. The Sun and Moon are for local time for the whole group.

Wyman.

THE LOG-BOOK

The Makura brought in the news that the missionary schooner Hiram Bingham made a fine trip from this city to the Gilbert Islands, arriving thirteen days after her departure from Honolulu. The Hiram Bingham is cruising through the South Seas and the wife and daughter of Captain Walkup, her commander, are expected back in this city via China before long.

The departure of the Pollard No. 1 company for Vancouver by the Makura was the cause of many of their friends making a trip to the Bishop wharf at 5 o'clock yesterday afternoon. Several of the younger members of the company did not go on but will remain in this city and take the Aorangi back to Australia. The Hawaiian band was at the dock when the Makura sailed and played a mixture of airs which were enough to satisfy all nationalities.

The Matson Navigation Company's steamer Lurline, which has been collecting sugar from the other islands, returned to this city last night and will load for San Francisco. She is due to sail from this city on Saturday, taking mail, passengers and freight. She is overbooked with passengers for the Coast, as is invariably the case with Captain Weedon's vessel, which has become one of the most popular ships coming to this port.

Tomorrow morning the Pacific

Mail's steamer Korea, Captain Sandberg, should be off port early, bringing down six days' mail, a large shipment of freight and many passengers from San Francisco. She may get away from here for the Orient on tomorrow evening, though there is a possibility that she may not sail till Friday morning. W. F. Dillingham, the president of the Hawaiian Dredging Company, which is handling the big contract for the dredging of the channel at Pearl Harbor, will be among the passengers.

WEEKLY WEATHER BULLETIN

FOR THE WEEK ENDED MAY 15, 1909.
Honolulu, May 17, 1909.

GENERAL SUMMARY.

The mean temperatures were slightly higher than those of the preceding week generally on Maui, in the Koolaupoko and Waialua districts of Oahu, on Molokai, and at a few scattered stations on Hawaii—the majority of stations on Hawaii reporting slightly lower mean temperatures than last week's. The only changes greater than 1.0 deg., were excesses reported from the N. Kona district of Hawaii, the Koolaupoko and Koolauloa districts of Oahu, central Molokai, and the Hana and southern portion of the Wailuku districts of Maui.

The rainfall for the week was above the average of ten or more years in the Kona, Puna, S. Hilo, southern portion of the N. Hilo, and eastern portion of the N. Kohala districts of Hawaii, and the Makawao district of Maui; and below the average elsewhere. The departures from the average, in inches, in the several districts were: Hawaii—N. Kohala —0.46 to +0.32, Hamakua —0.13 to —0.62, N. Hilo, —0.08 to +1.17, S. Hilo +1.45 to +2.13, Puna +1.30, Kau —0.17, and N. Kona +1.88; Maui—Makawao +0.42 and Lahaina —0.14; Oahu —0.04 to —0.51, and Kauai—Waimea —0.22.

The greatest amounts of rainfall were reported from the central, southern and western portions of Hawaii, and the Makawao district of Maui—the maximum amount reported being relatively small, 5.89 inches. The total amounts of rainfall for the week, in inches, in the several districts were: Hawaii—N. Kohala 0.45 to 2.36, Hamakua 0.18 to 1.53, N. Hilo 1.98 to 3.48, S. Hilo 3.26 to 5.00, Puna 2.43 to 5.89, Kau 0.22 to 2.10, S. Kona 2.51, and N. Kona 3.36; Maui—Makawao 1.37 to 4.07, Hana 0.82, and Lahaina and Wailuku 0.00 to 0.09; Oahu—Koolauloa 0.40, Koolaupoko 0.14 to 0.86, Honolulu 0.16, and Ewa and Waialua trace to 0.02; Kauai—Koloa 0.53 to 1.37, and Waimea 0.07; and Molokai—Molokai 0.03 to 0.81.

There was less rainfall than during the preceding week generally on Maui in the windward and Ewa districts of Oahu, on Molokai, and in the N. Kohala, N. Hilo, Kau, southern portion of the Hamakua and at scattered stations in the S. Hilo districts of Hawaii; elsewhere there was more rainfall than last week's. The greatest excess was 3.13 inches—in the Puna district of Hawaii, and the maximum deficiency 1.82 inches—in the Hamakua district of the same island.

The following table shows the weekly averages of temperature and rainfall for the principal islands and for the group:

	Temperature.	Rainfall.
Hawaii	70.2 deg.	2.40 inches.
Maui	73.2 deg.	0.29 inch.
Oahu	73.5 deg.	0.26 inch.
Kauai	73.2 deg.	0.66 inch.
Molokai	72.2 deg.	0.92 inch.

Entire Group..... 71.8 deg. 1.53 inches.
At the local office of the U. S. Weather Bureau in Honolulu clear to partly cloudy weather obtained, with showers on four dates amounting to 0.16 inch, 0.40 less than the normal for the week and 0.16 more than during the preceding week. The maximum temperature was 80 deg., minimum 67 deg., and mean 73.8 deg., 0.8 deg. below normal, and 0.2 deg. lower than last week's. The mean daily humidity ranged from 62 per cent to 1 per cent, and for the week was 66 per cent. Northeastly trade winds prevailed, with an average hourly velocity of 0.0 miles. The mean daily barometer varied from 30.05 to 30.13 inches, and the mean for the week, 30.10, was 0.08 inch above normal.
