Later Shipping News on Page Five

ability she will sail for the Coast Saturday morning at about 10 o'clock.

The Oceanic steamer Alameda, which should be off port tomorrow morning early, will bring three days mail for this city. She has a good sized passenger list and brings the usual cold storage freight for the local market.

The Lurline, of the Matson Navigation Company's line, is expected to sail from San Francisco for this city tomorrow. She will bring freight, passengers and mail for this city. She will probably leave Honolulu on her return trip to the Coast on about June 26, and will take the mail which would have been taken by the Asia, had she not been taken off this run and started through direct for San Francisco.

Captain Johnson brought in the Hilonian late yesterday afternoon, after a fine trip down from the Coast. The Matson steamer brought a fair cargo which will be discharged immediately in order that the loading of sugar may be commenced. The Hilonian brought back a bridal couple, Mr. and Mrs. J. T. Balch. Mrs. Balch, who was formerly Miss Skelly, has visited Honolulu several times before and is acknowledged to be one of the handsomest brides ever seen in this city. Her husband is the manager of the wireless telegraph company here and always been a great social favorite.

Another passenger who is well known here is J. T. Staff, well known as the "Human Pineapple." He has been connected with the Wahiawa Consolidated Pineapple Company since its organization but has recently accepted a new position as the manager of the Macfarlane Pineapple interest at the Ahuhannu ranch on the other side of the island.

Times of the tide are taken from the U. S. Coast and Geodetic Survey tables. The tides at Kahului and Hilo occur about one hour earlier than at Honolulu. Honolulu standard time is 10 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 minutes. The time whistle blows at 1:30 p. m. which is the same as Greenwich, 0 hours, 0 minutes. The Sun and Moon are for local time for the whole group.

Date	High Tide Large	High Tide Small	Low Tide Large	Low Tide Small	Sun Rises	Sun Sets	Moon Rises	Moon Sets

Heunt, T. Shuna, J. Silva, O. Oleson, C. F. Greenlaw, M. Costello, Mr. Harries.

BOOKED TO DEPART.

Per str. W. G. Hall, for Kauai ports, June 10—Miss Miller, Miss Lydia Miller, P. A. Romane, Mrs. W. Ellis.

THE LOG-BOOK

The Ben Jee, over 130 days out from Leith, may be expected in port at any time. She is said to be a smart sailor and was thought, if the winds favored her, to be likely to make a fast run to this port.

On account of the holiday on Friday the Inter Island Company will not accept freight for the Claudine and Mauna Loa on that day. The steamers will sail on their usual schedule.

The Toyo Kisen Kaisha steamer Chiyo Maru, from the Orient, is due to arrive here tomorrow afternoon at a late hour. She will bring a good sized cargo of freight which will keep the local stevedores at work for the larger part of the night. In all prob-

NERVOUS HEADACHE.

You are tired, nervous; your brain is over-worked—and your head aches. Dr. Miles' Anti-Pain Pills act gently on the nerves, soothing and allaying the irritation which causes the pain in your head, and in a few moments you are entirely cured. 5 doses, 25c. Never sold in bulk.

WEEKLY WEATHER BULLETIN

FOR THE WEEK ENDED MAY 15, 1909. Honolulu, May 17, 1909.

GENERAL SUMMARY.

The mean temperatures were slightly higher than those of the preceding week generally on Maui, in the Koolau-poko and Waialua districts of Oahu, on Molokai, and at a few scattered stations on Hawaii—the majority of stations on Hawaii reporting slightly lower mean temperatures than last week's. The only changes greater than 1.0 deg., were excesses reported from the N. Kona district of Hawaii, the Koolau-poko and Koolauloa districts of Oahu, central Molokai, and the Hana and southern portion of the Waileku districts of Maui.

The rainfall for the week was above the average of ten or more years in the Kona, Puna, S. Hilo, southern portion of the N. Hilo, and eastern portion of the N. Kohala districts of Hawaii, and the Makawao district of Maui; and below the average elsewhere. The departures from the average, in inches, in the several districts were: Hawaii—N. Kohala —0.46 to +0.32, Hamakua —0.13 to —0.62, N. Hilo, —0.08 to +1.17, S. Hilo +1.45 to +2.13, Puna +1.30, Kau —0.17, and N. Kona +1.88; Maui—Makawao +2.42 and Lahaina —0.14; Oahu— —0.04 to —0.51, and Kauai—Waimea —0.22.

The greatest amounts of rainfall were reported from the central, southern and western portions of Hawaii, and the Makawao district of Maui—the maximum amount reported being relatively small, 5.89 inches. The total amounts of rainfall for the week, in inches, in the several districts were: Hawaii—N. Kohala 0.45 to 1.36, Hamakua 0.18 to 1.53, N. Hilo 1.98 to 3.48, S. Hilo 3.26 to 5.00, Puna 2.43 to 5.89, Kau 0.22 to 2.10, S. Kona 2.51, and N. Kona 3.36; Maui—Makawao 1.37 to 4.07 Hana 0.82, and Lahaina and Waialua 0.00 to 0.09; Oahu—Koolauloa 0.40, Koolau-poko 0.14 to 0.86, Honolulu 0.16, and Ewa and Waialua trace to 0.02; Kauai—Koloa 0.53 to 1.37, and Waimea 0.07; and Molokai—Molokai 0.03 to 0.81.

There was less rainfall than during the preceding week generally on Maui in the windward and Ewa districts of Oahu, on Molokai, and in the N. Kohala, N. Hilo, Kau, southern portion of the Hamakua and at scattered stations in the S. Hilo districts of Hawaii; elsewhere

there was more rainfall than last week's. The greatest excess was 3.13 inches—in the Puna district of Hawaii, and the maximum deficiency 1.82 inches—in the Hamakua district of the same island.

The following table shows the weekly averages of temperature and rainfall for the principal islands and for the group:

	Temperature.	Rainfall.
Hawaii	70.2 deg.	2.40 inches.
Maui	73.2 deg.	0.29 inch.
Oahu	73.5 deg.	0.26 inch.
Kauai	73.2 deg.	0.66 inch.
Molokai	72.2 deg.	0.92 inch.
Entire Group	71.8 deg.	1.53 inches.

At the local office of the U. S. Weather Bureau in Honolulu clear to partly cloudy weather obtained, with showers on four dates amounting to 0.16 inch, 0.40 less than the normal for the week and 0.16 more than during the preceding week. The maximum temperature was 80 deg., minimum 67 deg., and mean 73.8 deg., 0.8 deg. below normal, and 0.2 deg. lower than last week's. The mean daily humidity ranged from 62 per cent to 1 per cent, and for the week was 66 per cent. Northerly trade winds prevailed, with an average hourly velocity of 0.0 miles. The mean daily barometer varied from 30.05 to 30.13 inches, and the mean for the week, 30.10, was 0.08 inch above normal.
