POWERS DEALING WITH MANCHURIA

ST. PETERSBURG, October 23.—The situation in Manchuria in respect to the rival claims of Russia and Japan, as well as the claims of the Chinese government for sovereignty actual as well as nominal, has now become a matter for international notice and diplomacy. Yesterday it was reported in official circles here that the Russian government had been addressed in a joint note from the Powers.

This would seem to indicate that the action of the Russian government in Manchuria, in disputing the right of the Chinese government to enter into an arrangement with Japan regarding the latter's rights in respect to the Antung-Mukden railroad concession, is not meeting with the approval of the other interested nations. The protest from America, intimated in the speeches of Charles R. Crane, before his resignation was asked for, is not applied to the Antung-Mukden railroad concession, however, but to the concession to Japan in regard to the Fukamen railroad, to which Great Britain had originally objected. The American objection may or may not be included in the alleged joint note.

The Antung-Mukden concession carries with it certain mining rights for the Japanese, claimed by Russia to be a violation of the Portsmouth treaty and by the other nations as a violation of the open-door understanding.

Nothing official, from any source, has been given out regarding the alleged joint note.

A HOMESTEADER OF HAWAII HAS BIG KICK TO MAKE

EDITOR STAR:—Kindly allow me to narrate to the citizens and taxpayers of this Territory the following extraordinary incident which is one of the many experiences through which the Kaiwiki III Hakalau Homesteaders have to go through.

The other morning while on my way through the beautiful and exquisite mud road which the Territory is building through the Kaiwiki III Homesteads, I had the good luck of finding a Panama hat on the road. Jumping off my horse I picked it up and was surprised to find a lot of hair under it. After due investigation I was horrified to see that the hat belonged to a man.

Under the man was a horse. Both horse and rider had sunk through the mud which is some eight feet deep at places. If I hadn't happened

RESULTS OF QUAKE.

CALCUTTA, India, October 22.—Yesterday a severe earthquake brought death and destruction throughout the Quetta district of Beluchistan, several villages being destroyed and the natives terrified. to come along in time both horse and rider would have perished, and who would have been to blame—why the man who is responsible for the making of those dangerous mud holes.

Now, isn't it a disgrace that when economy should be practiced in every department in this Territory, our Commissioner of Public Lands should deliberately throw away about \$13,000 for making a mud road which is detrimental to the safety of our citizens?

Isn't it an act of incompetence to squander \$10,000 to manufacture mud when there is plenty already?

Hoping that our Legislature will investigate all such acts of incompetence, I remain as ever, AN AMERICAN HOMESTEADER Hakalau, Oct. 9th, 1909.

LOOK OUT FOR THE FORD MODEL

In a few days the Schuman Carriage Company will receive direct from the manufacturers a shipment of the new Ford Model "T" cars, standard design. These cars have already left the factory and may arrive here by any steamer from the Coast next week. Persons wishing to be certain of a car at an early date should call at the Schuman garage and make their wishes known.

The Ford automobile needs no word of praise in these islands, for it is seen and known everywhere. It traverses every street and is to be met with on every country road. The reputation of the Ford is unmarred by failure to keep any promise made for it. It is a first class car for little money. See the new ones when they come in.
