GIANT PUGS MUST SCRAP OUT OF 'FRISCO

REWARD ATKINSON FOR SECURING THE RUSSIAN LABORERS

"The Board of Immigration is considering the question of sending some one to the Azores islands in the near future to look into the question of sending some more Portuguese to work on the island plantations," said Richard Ivers this morning.

"Word has been received from Raymond C. Brown that he will be unable to look into the question himself, as the officials in Washington are not willing to give him any more leave, than the leave he already has. He will return to Honolulu as far as I know some time in August.

"Regarding the bringing of any more Russians I do not think that any more will be brought for some time after the fifty arrive, that will make

the last of the ones waiting transportation from Japan. The board has been considering the labor question very thoroughly for the past few weeks, but nothing definite has been decided. As far as I know now, Jack Atkinson will arrive home this month from the far east."

When asked who would be the man or men appointed to go to Europe to look over the field for laborers, Mr. Ivers replied: "That is a question I am unable to answer at the present time."

It was rumored around the streets this morning that Atkinson would be given a chance to go to Europe in recognition of his services in securing the Russians.

WESTERNERS GET WHAT THEY WANT

(Special Cable to The Star.)

WASHINGTON, D. C., June 15.—The Senate has passed the land bill which allows thirty millions for irrigation.

Western statesmen who want an issue of \$30,000,000 in bonds or certificates to take care of irrigation projects are beginning to worry about getting that much money out of the government at this session.

They are urging President Taft to put his big, strong shoulder to the wheel and help them get the legislation authorizing the issue. The President has favored aid for the western irrigation enterprises for some time, and will be glad to see something done by Congress.

Representative Mondell of Wyoming conferred with the President yesterday about this bond issue and found the executive as heretofore, desirous of aiding the western people to get what they want. There is a disposition on the part of some representatives, however, to place this bond issue in the rear of the conservation bills of the administration, particularly that giving the White House authority to make withdrawals of public lands from entry.

KNOWN THE WORLD OVER.

The world's most successful medicine for bowel complaints is Chamberlain's Colic, Cholera and Diarrhoea Remedy. It has relieved more pain and suffering, and saved more lives than any other medicine in use. Invaluable for children and adults. For sale by all Dealers, Benson, Smith & Co., agents for Hawaii.

INVESTMENTS

Our Stock and Bond Department, through its financial experience and connections, is admirably fitted to handle your financial transactions.

We are members of the Honolulu Stock and Bond Exchange.

JUDGE ANDRADE REPLIES TO VIDA

District Magistrate Frank Andrade, making reference to the letter of Willie Vida published in yesterday's Star, in which letter Vida practically declared that even-handed justice was not distributed in the police court, stated this morning that the case in which Vida was fined for gambling was one entirely different in character as compared with other gambling cases to which Vida evidently had reference when he criticized Andrade's methods.

Kaea, for example, who was mixed up in an important gambling raid some time ago in which Vida was also identified, was, upon the occasion of his last arrest, technically guilty there being, however, certain extenuating circumstances which rendered a small fine sufficient.

In the first place, says Judge Andrade, Kaea pleaded guilty and, after being fined \$40, was granted permission to relate the circumstances of his arrest. Kaea stated, and his testimony was backed by at least one reputable witness, that he had been looking for George Fern, a brother of the Mayor, and had taken an automobile to find him, finding him at the place where he, Kaea, was arrested. Kaea was standing just inside the doorway of the place where gambling was going on and was waiting for Fern to go with him. Kaea was not engaged in the game.

Compared with this, according to the statement made, in an interview this morning, by Judge Andrade, Vida's case was very aggravated. Vida was shown to have been instigating, promoting and conducting a gambling game and inducing people to enter the game for the profit there was in it for himself. Vida was on that occasion fined \$250 and the sentence sustained in the higher court.

Judge Andrade says he dislikes to have anything to say about such matters, but he believes that since Vida is calling for "fair play" in the police court, Vida might make a fair statement of the facts as they existed. Andrade believes that there is no comparison between the two cases referred to.

NEW RICE MILL.

The K. Yamamoto Rice Mill is the largest as well as the finest in the islands. All machinery is of the very latest pattern. The famous Tengu Rice is cleaned at this mill. With the large cleaning capacity they are able to handle considerable outside particular work which they guarantee.

BRIBERY ALLEGATIONS LIABLE TO FADE AWAY

Whether there is any reason for such a state of affairs or not, there appears to be considerable consternation over the simple words let drop by the lips of Supervisor Aylett to the effect that he was offered a bribe of \$1000 to use his supervisory vote in favor of the bitulithic paving proposition for Fort street, of which bitulithic business J. A. Gilman is sole representative in this territory.

Before the Supervisors yesterday afternoon, when the matter was brought up, both City and county Attorney Cathcart and Deputy Milverton appeared to take the stand that there was no use pursuing this line of investigation, on the ground that there was nothing to pursue.

To say that there is nothing to pursue is as much as saying that Aylett is not speaking the truth. Hence there is feeling between Aylett and the official prosecutors, though what that feeling is is hard to define. For Aylett already regrets having said anything at all about the alleged attempt at bribery.

That there is "rotteness in Denmark" somewhere is very evident, and if Aylett has the courage of his convictions he will tell the Territorial grand jury all about it. But he has to see the city prosecution officers first, that they may prepare the grand jury case, and it is said that he has already had an interview with them.

From present indications the whole business will blow over without any definite results, without any indictment and without anybody coming in for anything in the way of substantial blame.

Ahia has either talked too much or has acquired very cold feet since the Star exclusively reported the fact that Aylett had been offered a bribe.

Ahia, who is also a Supervisor, said one thing at one time, telling Attorney Lorrin Andrews at the same time Aylett told Andrews that each and the other had been offered a bribe, and now Ahia says he knows nothing of any attempt at bribery.

So what at first promised to be a sensation is liable to be lost in the misty past of allegedly forgotten mistakes, though to say that

(Continued on Page Eight.)

ONLY INFERIOR RACES GUILTY

Once again the report of the Federal grand jury been deferred.

When the present inquisition took a hand in local matters, it was supposed that the business of the term would be cleaned up with dispatch, but it appears that new matters have been, daily arising, and now it is promised that Friday is the day for the report of the grand jury.

A couple of Russian girls were before the United States District Attorney this forenoon and indications are that two birds are being killed

with one stone; the Federal grand jury and the United States attorney are working along similar lines and, while the grand jury is mainly interested in local business, the gentleman who represents the United States Attorney General here is preparing a report to Washington on the situation as concerning Russian immigrants which will be independent of any local report.

From the indications evident in the lobbies of the U. S. Court, people of every race except the "whites" in Hawaii are immoral.

GREEN OFFICER DEFIES POLICE

There are certain officers aboard United States transports passing through here who are booked for a severe calling-down from Washington unless they get off their high-horses and act decently.

G. A. R. Smith of the Vienna bakery received a black eye, without cause, from a drunken member of the transport Logan's company.

Smith went to the police and swore out a warrant, but the transport officials refused to honor a civil warrant, although the police are eternally doing favors for the transport people, rounding up their drunks and putting them aboard before the ship is ready to sail, when the police might, if they liked, keep the offenders in jail.

The police are courteous in these matters, and the transport people are not.

The Federal authorities, however, have taken the matter up and there

will be no defiance when the United States officials get their clutches on the offender.

Incidentally the green officer who made all the talk on the transport will not benefit any by the transaction. He's new at the captain-quartermaster business and will learn at the expense of his alleged dignity.

A local notice to mariners has been issued by Lt. Commander V. S. Houston, assistant lighthouse inspector, to the following effect. About July 1, 1910, a fixed white lens-lantern light, 40 feet above the water and 34 feet above the breakwater, will be established on the Kahului breakwater about 400 feet from its present end. The approximate geographic position of the light, as taken from Coast and Geodetic Survey Chart No. 4105, will be: Latitude, north, 20 deg. 54 min. 06 sec.; longitude, west, 156 deg. 28 min. 14 sec.

GOVERNOR OF CALIFORNIA WILL STOP BIG FIGHT

(Associated Press Cable to The Star.)

SAN FRANCISCO, June 15.—A sensation has today been caused in this city by the publication of a letter from the Governor of the State to the State Attorney-General in which the Governor directs the attorney-general to take immediate steps to enjoin Jeffries and Johnson from taking part in any exhibition of fighting on July 4 next until the courts have decided whether or not the proposed contest is a prize fight or merely an exhibition of boxing.

If it is a prize fight it is a felony, and will not be allowed, and it will be difficult to show that it is intended to be anything but a prize fight and a fight to a finish at that, as has been the case in every previous affair of a similar nature.

The Governor's instructions go on to say that in the event of there being any difficulty experienced in enjoining proceedings as far as the fight is concerned, then all concerned in the sporting enterprise are to be arrested and prosecuted for promoting an illegal event.

Jeffries' manager declares that he will take the fight to Utah or to Nevada.

(Special Cable to The Star.)

WASHINGTON, D. C., June 15.—Representative Bennett of New York recently sent a telegram to San Francisco authorities to the effect that if the Jeffries-Johnson fight was held in that city on July 4 next, such event would defeat the Panama exposition resolution in favor of San Francisco.

QUEEN TO RULE IF KING DIES

LONDON, June 15.—Premier Asquith has introduced a bill making the queen the regent in the event of the death of the king during the minority of the heir apparent, the Duke of Cornwall.

BERNE, June 15.—Disastrous floods have occurred in Switzerland, Servia and Belgium, many lives being lost.

RETIRE FOR ILLNESS.

WASHINGTON, D. C., June 15.—Senator Lodge has introduced a bill permitting the retirement of Justice Moody on account of illness.

SHIP DECKED FOR WEDDING

John L. Whitmore, superintendent of the Hawaiian Pineapple Co. at Wahiawa, and Miss Edna Thompson eldest daughter of Captain Thompson of the schooner Helene, will be married tonight at the Thompson residence at Kaimuki. The schooner Helene, in honor of the event, is gaily decked with flags of all nations from stem to stern and from deck to truck. Mr. Whitmore has been connected with the Wahiawa company since its organization, and is highly thought of by the officers of the company, as a

very efficient man. The bride is well known among the social set at Kaimuki, and her many friends have not forgotten to remember her with suitable presents. Mr. and Mrs. Whitmore will reside at Wahiawa.

NEW ARRIVALS AT SACHS.
