# LOOK TO AMERICA FOR PEACE

WASHINGTON, June 29.—Consul Moffatt at Bluefields wires the state department that the intervention of the United States to put an end to the war between the forces of President Madriz of Nicaragua and General Estrada, the revolutionist, is desired by the citizens of the republic.

The fighting between the government forces and the revolutionists has been fierce for several days, and the rebels have been gaining in nearly every battle.

President Madriz placed another forced loan a few days ago. Friends of the government advised Madriz to take every necessary step to stamp out the rebellion.

The advisability of intervention by the United States will be considered at once by the authorities here. For some time there has been talk of intervention, but this is the first demand made by Nicaraguans.

The struggle has been going on for many months, and the little republic is being impoverished.

All along it has been generally believed Madriz has had his hands full.

### AIRSHIP FALLS IN FOREST.

DUSSELDORF, Germany, June 29.—Count Zeppelin's great passenger airship Deutschland, which started the world a few days ago by carrying the largest number of passengers ever borne in an airship of any kind, lies a wreck in the Teutoburger Forest after a thrilling battle with the wind.

The crew of thirteen and twenty newspaper men as passengers escaped uninjured.

The wreck was caused by the exhaustion of the Deutschland's fuel and the stopping of her motors. When the machinery stopped the big dirigible was unable to make headway in any direction except to windward, and the crew brought her down as best they could.

The maiden trip of the Deutschland, from Friedrichshafen to Dusseldorf was made June 21. She carried twenty passengers. After that, Count Zeppelin booked passengers regularly. His dirigible was the finest thing of its kind in the world. This was only one of many wrecks of airships built by the Count, and he has spent huge sums in building them.

### THE DEWEY REFLOATED.

MANILA, June 29.—The United States drydock Dewey was floated today and found to be undamaged by sinking a few weeks ago. The Dewey is the largest floating dry dock in the world, and a few years ago was brought around the Cape of Good Hope from the United States.

Her sinking was due to the accidental leaving of some of her machinery in the wrong shape.

### WHITE SLAVERS NOT ORGANIZED

NEW YORK, June 29.—The special grand jury empaneled some time ago to investigate the charges that the white slave trade was being carried on in this city made its report today, that there is no organized traffic in young girls here.

John D. Rockefeller, Jr., was foreman of the jury, and the work of that body has been in progress during the past six months.

The findings of the jury are practically an acquittal of New York, for during the past year or more it has been charged that the white slave trade existed and was controlled by an organization of persons who profited from the selling of girls for shameful purposes.

The report of the jury is considered as an exoneration of other cities as well.

### NO BIG BETS ON RENO BOUT.

## AT THE THEATERS

The Desmond sisters and Sherman Thompson continue to amuse the patrons of the open air theater and are playing to full houses nightly. They appear in refined vaudeville and form a trio that's hard to beat. J. V. Gibson the Australian entertainer appeared for the second time last night and repeated his opening night success. The pictures are always clean and clear and for the price the Park affords the best amusement in the city.

### AT THE EMPIRE.

The Empire will have a change in the vaudeville part of their program tomorrow night and those who have not seen the Royals in their funny farce should do so tonight. The engagement of these talented entertainers is drawing to a close and it will be some time before Honolulu will again be able to see artists of their caliber in vaudeville. All the playlets are of Mr. Royal's own composition. The excellent picture service continues.

### NEW ARTISTS AT NOVELTY.

Tonight there will be a change of pictures at the Novelty theater, and Orton and Leola in a funny school boy skit. They have proved to the Novelty patrons that they are a clever team. "A Class of One" is the title of the skit and it is the most comical sketch that has ever been put on a stage in Honolulu. Mr. Orton's jokes are all original and he made a decided hit with his "Johnson-Jeffries" song. Miss Leola is most becoming as a little school girl taking the place of the absent teacher, and her gowns are without doubt the most gorgeous ever seen here. There will be a matinee every Wednesday and Saturday at 2 p. m.

## ROOSEVELT NOW A REAL EDITOR

NEW YORK, June 20.—Theodore Roosevelt began today the life he has chosen for himself as a private citizen. He has his own ideas of what the country shall do with its ex-presidents, and, after a single day of rest at Sagamore Hill, took up his work today as a contributing editor of the Outlook.

Not even the fact that his son was to be married this afternoon detained him from his desk. The dispatch boat Dolphin, on which Mr. Roosevelt left Oyster Bay late last night with Secretary Meyer as his host, brought him into New York early this morning. He went direct to his office and immediately plunged into the mountain of correspondence accumulated. Two hours later he appeared on the street and was immediately recognized by the crowd. Before he had walked half a block westward toward Fifth avenue he was followed by a throng that blockaded the sidewalk. The sun was beating down with an intensity that made a top hat unendurable. The Colonel plunged for a batter's at a speed that made the crowd behind run to keep up.

As he passed the offices of the publishing house that will bring out his forthcoming book on his hunting trip, he spied a tall portrait of himself, framed in red, white and blue. "That's a dandy, isn't it?" was his comment. A batter was close by. It took the Colonel just two minutes to buy a wide-brimmed straw hat with a black band. Then he footed it at the same amazing speed to his office again.

Editor Roosevelt's business headquarters hereafter will be on the seventh floor of the United Charities building at Fourth avenue and Twenty-second street, where a suite of three rooms has been specially engaged for him.

On the entrance door appears the legend in big gilt letters, "Office of Theodore Roosevelt." The rooms themselves, although business-like in appearance, are furnished with a magnificence unusual for an office building. The suite comprises of a room for Roosevelt's secretary, a room in which visitors will wait, and Roosevelt's own room, large and airy, fronting on Fourth avenue. The walls are newly covered with bronze burlap. The furniture is of mahogany and the desk is a reproduction of George Washington's desk at Mount Vernon. A rich rug of tan, green and dull pink covers the polished floor. Pictures of Washington, Lincoln and a copy of the Declaration of Independence, written in large old English characters, hang on the bronze burlap. If it should

## THE MIRTH MAKERS

Girls, popular music and comedy, comedy all of which is of a refreshing brand, constitute the pulling powers of the Opera House's new species of entertainment, which came to light for the first time Monday night and was repeated to another crowded house last night. It is perhaps the speed at which the comedy moves that recommends it as a laugh provoker and there are some rapid fire situations in "Telephone Girl." There is much hilarity and plenty of novelty and the operetta can be classed as a sprightly summer offering with many good numbers and enough bright dialogue to carry the music.

A the members of the new Casino comedy company have become prime favorites. Miss Maude Rockwell in her two songs is perhaps the star number on the program, yet Elsie Schuyler, Olga Steck, Laurel Atkins and Ethel Canfield make bright spots throughout by their real talent and happy spontaneity. "The Telephone Girl" will be repeated tonight with a change of program promised for tomorrow evening. Stage Director Frank Blair has selected an exceptionally bright and popular vehicle, in which to show his performers, called "The Astronomer."

### 30,000 JEWS EXPELLED.

BERLIN, June 4.—The expulsion of Jews in Russia is increasing day by day, according to the dispatches received by the Jewish Aid Society here. Up to the present more than 30,000 Jews throughout the country have been expelled from the forbidden territory, and not less than 7000 of these resided in Kiev. In most of the cases no notice was given to the people, who were compelled to leave the cities immediately, abandoning their businesses, their houses and belongings.

Dr. Bernard Kahn, secretary of the society, who is in constant communication with Russia, says that small tradesmen and artisans form the majority of those expelled, and it is they who are placed in the most dire straits.

No details have been received of any acts of brutality toward the Jews, however. Streams of emigrants are proceeding to the United States, Canada and the Argentine Republic, and, indeed, wherever they have relatives, but most of them, under the guidance of rabbis, are turning to Oriental Turkey, where Jewish leaders are making arrangements to establish colonies.

MOSCOW, June 4.—The prefecture of police has informed the organizers of the Pharmaceutical Congress, which is to be held here, that Hebrew delegates, who are pharmaceutical assistants, will not be allowed to enter the city.

It is proved that visitors are too insistent there is an auxiliary exit by which Editor Roosevelt may escape through a hidden hall to the street.

With the average girl, father's front porch is merely a short cut to hubby's kitchen. You may forget the man who helped you, but you will always remember the one who hindered you. The average man's wit is always an hour too late. There is a kind of fellow who would like to be kicked by a millionaire.

How many steps an ELECTRIC IRON will save you when sewing.

Instead of taking a garment down to the hot stove to be pressed, you can have the iron right in the sewing room and do the pressing there.

It will save many steps and much time and enable the sewing to go on without interruption, for the iron will be ready for use as often as you need it.
