TO QUIT USING THE RESERVOIR

Work has been begun on the delivery of pipe line to bring water direct to Manoa consumers from the spring which now supplies the Manoa reservoir, with a view to cutting out the use of the reservoir as far as possible. About thirteen hundred feet of pipe line will be laid, to deliver the water directly from the spring into the mains.

One of the principal reasons for the change is that it has been found impossible to keep the water in the Manoa reservoir free from contamination. Like all surface or reservoir water, it is liable to become infected. When the residents get their water directly piped from the spring into the mains, however they will have a pure supply.

Sugar Report Of The Czarnikow-Rionda Co.

A very firm market has ruled during the week, with sellers holding Cubas at 3 1/16c. c.f., basis 96 deg., for last half August shipment, at which price a comparatively large quantity of sugar could have been bought early in the week, but, without any apparent cause, offers gradually diminished, and today barely 76,000 bags of Cubas and Porto Ricos are available. An advance of 1/32c. was established on 10th inst., bringing the spot quotation to 4.39c. on sales of about 30,000 bags Cubas, loading and aloft, at 3 1/32c. c.f., basis 96 deg. Refiners continue in the market at this figure, but sellers are asking higher prices, and yesterday a speculator paid 3 1/16 c. c.f., for 10,000 bags Cuba centrifugals Sept. shipment.

The advancing tendency of our market at a time when the demand for raws in New York is unusually small for this time of the year, because of the strike at two of our principal local refineries, is conclusive evidence of the strong position of sugar for some time to come, and the lack of pressure from Cuba to sell shows that owners of the remaining stocks in the Island are confident of obtaining more for their sugars by waiting. This stand taken by holders of sugar seems a justifiable one, if we take into account the disparity of .78c still existing between the markets here and in Europe, and the small quantity of privileged sugars in sight to meet refiners requirements for the balance of the year.

Receipts at the principal ports of the week were again 4,000 tons. It seems singular that so much sugar should continue to come into sight there, notwithstanding that no estates have been grinding for about seven weeks in those sections of the Island.

In European beet markets there is little change to note, the general tone having been one of steadiness. Today's f.o.b. quotations are: August 14s 10 1/2d; September, 13s 9 3/4d. Next crop: October-December, 11s 9d; Jan.-March, 11s 10d, which show decline on the week of 3/4d and 1 1/2d in present crop, and advances of 1 1/4d and 1d per cwt. respectively in new crop.

The receipts for the week at the three Atlantic ports were 31,861 tons.

The receipts of foreign sugars at New Orleans were 61,600 bags Cubas.

Louisiana—Early reports forecast an output for the coming crop of about 300,000 sugar.

Refined—The market for refined sugars has been steady, with the list prices of all our refiners firm on the basis of 5.15c. less 1 per cent. for granulated. Shipments naturally are somewhat irregular owing to interruptions arising from the strike, but steps are under way making for an early settlement of existing troubles.

Our private cable of date reports two estates still grinding, and weather favorable for the growing crop.

The estates at work are: Nipe Bay and Santa Lucia.

Receipts for the week at the three Atlantic ports, 31,861 tons. Meltings, 45,000 tons.

LARGE BLOCKS OLAA STOCKS SOLD ON STREETS

The feature in stock circles this morning was the report of the sale of large blocks of Olaa yesterday afternoon at \$6. Most of these sales were put through by Giffard & Roth. The blocks were 250, 250, 200, 150 and 95 shares. These sales were on the bid basis of yesterday morning, and, being in such large total amount, indicated strength of the stock. At the close of the session this morning \$6 was still bid for the stock, while some was offered at \$6.125.

Oahu stock was practically the same as yesterday. Between boards there were sales of 50 and 25 shares at \$32.25. On the board this morning there were no more sales, but the stock offered at \$32.25 with \$32.125 bid. This would seem to indicate a weaker market, but the real cause of the apparent depression is probably the general lack of interest in stocks momentarily.

Hawaiian Commercial was in demand, but at reduced figures. Between boards 85 shares sold at \$40.875, and on the board this morning 100 and 25 shares sold at \$40.625. At the close the stock appeared to have edged up a peg, however, \$40.875 being again bid and \$41 asked. Hawaiian Commercial will pay a dividend of 50 cents a share on September 5.

A sale of 50 McBryde was made between boards at \$11.625, after which more was offered at the same, but bidding had slipped back to \$11.25. The last previous sale had been at \$11.75, so that the stock is now quite weak. The cause of the slump is not clear on the surface.

Interesting quotations this morning without sales were: Honokaa, \$18.375 and 18.50 asked; Hutchinson, \$16.75 bid and \$17.50 asked; Pioneer, \$230 bid and 235 asked.

OFFICE CHANGES SOON TO BE MADE

Several changes are to be made around the Stangenwald building as a result of the removal of Castle & Cooke into the Cummins block across the street.

The old office of Castle & Cooke, at the Ewa side of the building, will be occupied for the present by the surplus safes, counters and other office appliances of the corporation.

The stock department, at the extreme Walkiki end, has been taken by James W. Pratt, the auctioneer, who will move his office into it on or about September 15. Mr. Pratt's present office will be used as an office by Auctioneer Smithies, the side-walls being

WATER ENOUGH

It is now September and no notice has yet been issued this year restricting the use of water for irrigation purposes. This is the first time this has happened in a period of sixty-five years.

"There are forty-one feet, nine inches of water in the new Nuuanu reservoir at this time," said Superintendent Marston Campbell this morning, "and we now have good reason to hope that we can pull through this season without having to enforce any restrictions on the use of water."

"I regard this improved condition as directly due to the more careful and conscientious use of water, resulting from the agitation begun by this department over a year ago against reckless waste."

"The figures show that with many more consumers than we had a year ago, consumption is a million gallons a day less. If we get through this year without having to stop irrigation, it will be the first time Honolulu has been able to avoid a suspension of irrigation in sixty-five years. It looks as if our water problem were in process of being satisfactorily solved."

LAND SALES.

E. L. Schwarzberg has sold for the Wilder estate two pieces of land in Manoa valley. A house and lot in the valley were sold to Guy L. Duckworth \$3600, and a house and lot were purchased by Mr. Schwarzberg himself for \$4500.

MANOA INSURGENTS

(Continued from Page One.)

his place, he retired. It was only thus that he "offered to retire and asked Mr. Hemenway to take his place," as the morning press reported his version of the incident.

5. We firmly believe that official ballots were marked and distributed before the polling hour, in favor of the "Andrews-Buffandeau" ticket. We suppose it will be attempted again.

6. Buffandeau has done all possible to prevent our enrolling voters for the coming precinct primary; he has been "out" frequently to us and "in" to applicants for registration on his side; he has "forgotten" the roll, and "left it at home." When he was reported to have said: "I will fool that Manoa bunch; they think they are getting a copy of the roll, but I have another I will spring on them,"—he thereafter refused to let any of our committee see the roll to learn who was enrolled.

7. By Sec. 18, Art. 1 of the rules, the roll book is required to be kept open at the place of the nomination meeting from 7 p. m. until 10 p. m. Buffandeau did not appear with the roll until 7:30 p. m. and refused to remain there with it after 8 p. m.

8. Buffandeau proposed on nomination night that a representative of our committee should check the roll with him the next night, to prevent any claim of his tampering with it after closing. When Steere, Warren and Cooper called the next night and asked for leave to make a copy of the roll, as closed, both Andrews and Buffandeau refused absolutely. These representatives of our committee were satisfied, from the way the roll has been kept, that no mere initialing of pages or names, as Buffandeau insisted was his proposal, would serve to prevent crooked work with it thereafter if crooked work was intended. They therefore asked for leave to copy it, or be furnished with a copy.

Andrews said that the roll was, according to a decision of the county executive committee, a strictly private record, members having no "right" of inspection, and that such a thing has never been allowed in any precinct.

The fact is that the county executive committee has never made any such decision as claimed by Andrews, and could not do so consistently with fairness—the "Advertiser" to the contrary notwithstanding.

Cooper read Sec. 20, Art. 1 of the Rules, requiring candidates to be furnished with copies of the electoral roll as soon as possible after it is made up; and, as a candidate, requested permission to copy the roll. Buffandeau replied, "Well, in THIS case, as soon as possible" will not be before Wednesday." Andrews finally offered to let us have a copy of the roll at once "if we would seal it and promise not to open it before Wednesday"

MONDAY WILL BE GENERAL HOLIDAY

Monday will be a general holiday in the business community.

The banks will be closed, there will be no session of the Stock Exchange, no inter-island steamers will go out, freight for island ports will not be received and no government business will be carried on.

The holiday is made general by the resolution adopted by the Merchants' Association, prescribing the business holiday of the year. Labor Day is mentioned prominently in the list. This schedule was adopted last year, and all members of the Association are expected to live up to it.

Warren asked, "Why not Monday?" to which Andrews replied, "Well, Monday then."

Deeming that our right to have a copy was and is absolute, we declined to receive it under any such limitation, or to initial the roll itself.

When we last saw the roll, August 25th, there were 247 names enrolled; when we finally obtained a copy from Buffandeau at 5:30 p. m. August 31st, there were 227 names thereon. What does it look like?

After we nominated John Kallimapehu for delegate to the county convention, Buffandeau inveigled Kallimapehu into his own house, kept him there until he signed a paper the contents of which he was ignorant although he afterwards believed the paper to be a consent to act as judge of election. The paper he did sign was an absolute withdrawal as a candidate. Thus they sought to disqualify him as a candidate against them. Kallimapehu denied and received back the letter thus obtained from him, having previously also canceled it in writing.

We asked the "executive committee" of our precinct to favor the use of the voting booth at Punahou junction for the election; they named, instead, a Chinese store on Beretania street, close to Buffandeau and Andrews' home and political headquarters. We appealed to the county committee and they recommended the runahou polling booth to the executive committee. Our "executive committee" has, nevertheless, advertised the Chinese shop as the place.

We asked for an opportunity to see the proof of the official ballots, as they are to be printed. They refused. We appealed to the County committee and they recommended that every candidate in the whole election should be allowed to see the ballot before going to press. Will we see it? We do not know.

Last Sunday the "executive committee" of our precinct held a "meeting." There are eight members. THREE of the number only were present. Four had no notice of it or knowledge of what was done.

The "Advertiser" has said that John Kallimapehu was bribed by the liquor people "to sell out to the Manoa ticket" and that he came to the meeting at Hemenway's office at the instance of the liquor people. That is false. He came in response to a message sent from F. E. Steere, our chairman.

The charges that we are working with the "liquor interests," and that we are receiving money from them for our fight; are equally untrue. It is also a new thing, in our experience, to be charged with giving bribes.

The insinuations and bald charges of the Advertiser respecting the good faith and work of our committee,—and our work is certainly the core of the movement against the Andrews-Buffandeau rule—were at first regarded with some concern, as calling, perhaps for some refutation of them from our committee.

They have since grown so viciously untrue that we are constrained rather to let our voters judge between us and that paper, whom they will believe.

gentlemen: Please do not leave the voting for "the other fellow;" we want YOUR vote; arrange to vote, whatever else you do on election day. And VOTE THE STRAIGHT INSURGENT TICKET. Our candidates are:

For delegates to the Territorial Convention: Alfred D. Cooper, Giovanni A. Long.

For delegates to the County Convention: Wm. H. Charlock, Geo. P. Denison, J. B. Ignacio, J. B. Enos, Henry Freitas, John Kallimapehu, Charles Kupahu, Eben P. Low, F. E. Steere, B. von Damm.

Respectfully submitted, F. E. Steere, chairman; C. R. Hemenway, Charles Bon, L. J. Warren, Alfred D. Cooper, S. De Freest, C. C. Rhoads, committee.
