

That Little Hacking Cough

Hard coughs are bad enough, to be sure. But it's often the little, hacking, tickling, persistent cough that means the most, especially when there is a history of weak lungs in the family. What should be done? Ask your doctor. He knows. Ask him about the formula on the label of every bottle of Ayer's Cherry Pectoral. Ask him if this medicine has his full approval for throat and lung troubles. Then do as he says.

JACKSON IN THE FIGHT GAME AGAIN

Nigel Jackson is back again into the fighting game as promoter, having in view a card of five events which he will endeavor to pull off in the Asahi theater on the night of March 4th. Jackson promises that all the bouts will be good ones and that the men he will put together will be fairly evenly matched, at least. He proposes to match Jim Hoao and Fink for the main event of the evening, and will, in all probability have Sareoni and Ward on the list. Sareoni is willing to sign up with Ward, if an agreement can be arranged as to weight, and no doubt this will be reached. Sareoni claims to be able to make 133 lbs. in three weeks' time, but prefers to fight at 135 lbs. Jackson will have a fairly large number of names to select from in making his matches. It would be well if an opponent of some merit could be found for Denton, who was prevented from making a showing last week-end by reason of Price's tactics, for Denton seemed to have it in him to put up a real good showing. Young Simmons of the Thetis would also stand marching again, if an opponent more to his weight and size than Sareoni came along. Though beaten last Saturday, Simmons was by no means disgraced. He made a showing of which any lad might be proud. Jackson will make announcement shortly of what he proposes to do; fans will then be able to weigh the chances of the men he matches.

SPORT NOTES

Arrangements for the field and track meet between the Kamehameha Schools and Oahu College are progressing favorably. Yesterday the McKinley High School would endeavor to organize a team to compete against the other two institutions. If successful in this effort, the meet will be invested with greater interest, as among the High School scholars are several who will make good. The Kams and the Puns have both excellent men in training for the various events, and there will probably be some difficulty in making the necessary choices from among the students.

BICYCLE MEET POSTPONED.

The bicycle meet scheduled for Sunday next has been postponed for a week, representations having been made to the promoters that the prospective competitors had not had sufficient time in which to train for the races. A committee meeting was then held and the postponement agreed upon. From all accounts, there will be quite a list of competitors in the races, though cycling does not number a great many adherents here in the islands.

MARATHON NEXT WEEK.

Next Wednesday at the Athletic Park the marathon between Antonio Kaao, Soldier King, Tsukamoto, Nigel Jackson and C. K. Charlie will be run off, and it is safe to predict that, notwithstanding counter attractions, there will be a packed house to witness the race. The reports which filter through regarding the training of Kaao, Tsukamoto and Charlie are but meager, but they indicate that the Hawaiian and the Japanese, at any rate, will come to the post fit and well. King is training well and Jackson is also hitting the road hard.

THE THIRD GAME OF ASSOCIATION

The third game in the association football series arranged between the Kamehameha school and the McKinley High school was played off at the Kamehameha ground yesterday and, like the preceding matches, resulted in a win for the Kams. The match was fast and for some little time in the opening spell the High School boys had the better of matters, attacking with a vim that nonplussed their opponents. However, the Kams rallied and a goal was scored by Opunui, putting the Kams one up. Though play was keen right up to the whistle the High School failed to pierce the defence of the Kams and when the first half ended the score read 1-0 in favor of the Kams. The second spell was even more in favor of the High School than the first, though Godfrey scored another goal for the home team, while the High School was frustrated at every turn in front of goal.

The game was an interesting one and was keenly contested from start to finish. All-round good play was exhibited but the Kams were better in shooting and in keeping the ball under control. The next soccer game of any note here will probably be between the Kams and the Punahou. The Puns won the League Championship and the Kams the school championship, so that a match between the two teams would be interesting, if only as showing how the Kams might have done had a team from the school been entered as was at one time proposed.

VISIBLE SUGAR SUPPLIES.

Willett & Gray, Feb. 2, report: Total stock of Europe and America, 3,755,970 tons against 3,225,813 tons, last year at the same uneven date. The increase of stock is 529,257 tons, against an increase of 575,087 last year. Total stocks and amounts together show a visible supply of 3,846,070 tons against 3,211,813 tons last year, or an increase of 524,257 tons.

BIG CONTEST FOR STAR NEWSBOYS

From today the newsboys of the Hawaiian Star will be IT, in big letters.

The Star's boys are a smart, industrious bunch; and this paper is proud of everyone of them. They have been successful in the past, and with the coming of the Greater Star their enthusiasm has immensely increased (to say nothing of the enlargement of the inflow of nickels).

In the past two weeks the number of boys selling the Star has doubled, and in a short time the force will be a great deal larger still.

In the meanwhile, and thereafter, the Star's newsboys will be IT—again in big letters.

To explain: The success of the Star's boys on the streets is to be rewarded by suitable prizes.

Lists of the boys of various ages have been made up and they have been given a "try-out" of five days. Their success has exceeded expectations; and before this announcement is read by the public this afternoon the contest between the boys for the five prizes will be on.

The first prize to be competed for is a fine Sterling bicycle. This will be the Grand Prize, as they say at the big, world's expositions. It will go to the boy who, in a straight competition of sixty days, sells the greatest number of copies of the Hawaiian Star.

The second prize will be a fine suit of clothes, from one of the biggest furnishing goods stores in Honolulu. This will be a hummer of a prize, second only to the fine bicycle. The will go to the boy selling the second largest number of Star's in sixty days.

Then, there will be a third prize. This will be something close to every newsboy's heart—a pair of up-to-date boxing gloves. The boy selling the third largest number of copies of the Hawaiian Star in sixty days will be awarded this prize.

The contest must be fair in every respect. No boy will be allowed to take a mean advantage of another in the race for customers. Automobiles and flying machines cannot be used, and no boy will be allowed to sell so many papers that the figures will not fit in the record book.

The race is now on.

FOR PROTECTION OF INVESTORS

With the Legislature in session, the following article from Bradstreet's is commended to the attention of Hawaii's lawmakers. There is need here for legislation to protect the public from wildcat mining and oiling schemes:

"A bill has recently been introduced in the Massachusetts legislature relative to the listing of and dealings in securities of mining companies at the Boston Stock Exchange or the so-called curb market in that city. It provides that such companies shall submit detailed statements of their assets and liabilities periodically to the Massachusetts Bureau of Corporations, and that they shall, every six months, prepare a list of stockholders, which shall be open to the inspection of every stockholder, and that furthermore two-thirds in amount of the stockholders may secure an inspection by mining engineers of their own selection of the property open to public dealings through the listing of its stocks or other securities. The advertisement of a mining company or other enterprise of the same general character for the purpose of selling stock, unless the requirements of the act have been complied with, is made a punishable offense, and these are other clauses fixing the liability of directors for any losses caused by official mismanagement and for investigations by committees of stockholders in case questions arise as to the properties being worthless or in such condition as to render further progress with them hazardous to the public or the stockholders. It would be impracticable, of course, to pronounce any opinion upon the value of some of the ideas embodied in the proposed law, but the general principles involving its submission for enactment in Massachusetts are praiseworthy and might, with great advantage to the investing public, be put into the form of statutes in other states. Something of this kind would doubtless benefit legitimate mining industries."
