INTER-ISLAND

(Continued from page nine.)

ter. He has already taken the matter up with the commissioners in an informal way, according to report. His complaint is that within the last month there has been a great deal of drunkenness in Pabos, which he has traced to Mariano's place and he will ask that the license be revoked or placed in the hands of some one who will conduct the place more carefully.

The matter of the license of the Kau Wine Company will come up, either at the meeting today, or at a meeting to be held tomorrow when the application for a license of the Crater Hotel Company, Peter Lee's new hostelry near the Volcano, will be heard. It is understood that Commissioners Horner and Ogg have investigated the complaint personally and will make a report to the Board.

The matter of the appointment of a liquor inspector for the island will probably be decided either today or tomorrow and it is stated that there are a number of applicants who are apparently well qualified for the position. Harry Overend, formerly the deputy sheriff of Hamakua, and now working for the Board of Health in that district, is one of those most prominently mentioned, the names of George Richardson and O. B. Shipman, formerly supervisor from Kau, also being among the favorites.

For Practice of Law.

HILO, July 27.—Among the arrivals by the Mauna Kea yesterday was a young man of this city, who has just returned from graduating in the law course at the Indiana University. This is Tristan Osorio, the son of J. A. M. Osorio, of this city. He received his degree of A. B. from the Central Normal College, of Indiana, and followed this by taking the law course at the university, graduating with honors and being admitted to the bar of the state of Indiana. He expects to enter the office of one of the larger firms in Honolulu and thus fit himself for an independent practise, which he hopes to take up in this city later on. He was accompanied by Professor A. T. Roll, of the Indiana University, who came out on a vacation trip.

Peter Lee's New Hotel.

HILO, July 27.—The opening of the Crater Hotel, which will be held on Saturday evening, August 5, should be

very largely attended, from the plans which are being made by Peter Lee, the veteran volcano hotel man. He has issued invitations to many to be his guests at dinner on that evening and to join in a dance which will take place later. Those who wish to spend the night will be given accommodations and all entertainment of this kind as well as the dinner will be free.

County Government.

Maul News: That county government is a success has been demonstrated beyond any possibility of doubt. As we have said before, Maui has been especially fortunate in electing men to run this county who have always had the best interest of the people at heart. The other counties, especially Oahu and Hawaii, have not been so fortunate. Just now, over in Honolulu, the present board, which has been looked upon by everyone from the beginning of their term, as a body of politicians pure and simple, has become so open in their avowed intention of making hay while the sun shines, that they have caused the community to rise up and demand a more businesslike policy. The Hawaiian Star, which generally voices the true sentiments of the thinking people, has come out strongly for a businessmen's ticket at the next election, casting aside the old party affiliations, and electing a county government of responsible citizens regardless of whether they be republicans or democrats. This stand is a good one. It would apply equally well if taken up on all the islands, and while we have no such body of ward politicians here on Maui as they are burdened with over in Honolulu, still there is plenty of room for improvement. Political affiliations do not make good supervisors, and there would be no better time to prove this assertion than at the next election when the new county law goes into effect here on Maui. Let us elect men whom we know are capable and far seeing enough to give us the same successful administration of county affairs that private enterprises enjoy and make Maui a model for the other counties to pattern after.

Serious Accident.

WAILUKU, July 29.—Wednesday afternoon, while they were returning from Makawao, D. L. Meyer and Otto Berndt had quite a serious accident. Just as they reached the bottom of the hill from the Makawao Church, a rear tire blew out, and before anything

could be done to stop the machine the wheel was wrenched from Mr. Meyer's hands and the machine jumped the stone wall at the side of the road and landed in the gulch. The machine landed right side up, and this fact alone probably saved their lives. Mr. Berndt escaped with a bruise or two, but Mr. Meyer was severely cut about the face by broken glass, and his chest was badly hurt by the steering wheel hitting him. The car is pretty badly damaged, but they are counting themselves lucky that the accident did not prove more serious. Mr. Meyer is one of the most careful drivers, and he was just beginning to feel at home driving his new Hudson, which he has had only about two weeks.

THE THEATERS

Norton Comedy Company.

There was a distinct improvement about the production of "An American Citizen" at the new Orpheum Theater last evening. The players were thoroughly familiar with their lines, and had the audience been larger it is certain that they would have been able to impart more spirit to their actions. In the circumstances, it must be conceded that the production was a good one. It is anticipated that tonight's production will be even better, for all defects will have been remedied, and as it will be theater night in Honolulu, the attendance will no doubt be more in keeping with the quality of the play.

Eljou Matinee Today.

There was no lack of enthusiasm at the Bijou last night. To make comparisons, it must be admitted that the colored team of singers and dancers, Johnson & Wells, are the head-line new. Their singing and dancing appeal to all, and Johnson's lone dance of the set of quadrilles was grotesque enough to bring forth roars of laughter. In this he scored a distinct hit. His efforts were thoroughly appreciated. Miss Wells was also well received, and she did her fair share in keeping the audience amused.

The Reece Trio were up to the usual standard of excellence last night, and Reece's rendering of "Violets" on the cornet was particularly good. This act has versatility to recommend it.

The musical section is about the best that has ever been seen here, and La Petite Laurie holds the same honors in contortion feats.

The Boardman Sisters had a neat setting for their Indian song, but it would have been more effective had the older member worn a khaki colored coat. A football jersey on such a costume was too original. They have shown great improvement and are winning more applause in consequence.

There will be a matinee today. Doors will open at 2 o'clock, and the performance will begin at two-thirty. The talent that is showing at the houses of the Honolulu Amusement Company will appear at this performance.

Wrestling at the Empire.

There was a large and enthusiastic audience at the Empire last evening, for the wrestling match between Froelicher and Thomas was a big draw. All expected that the bout would be a good one, but none thought that it would prove as interesting as it did. Froelicher made a great showing throughout, but finally Thomas overcame him, and thus robbed Froelicher of his opportunity to take away his money. It took Thomas twelve and a half minutes to put his opponent down, and throughout this time the audience was treated to some exceedingly good wrestling. Thomas has concluded his engagement with the Honolulu Amusement Company.

Barnes & Robinson went well last night. Their witticisms at each other's expense are appreciated by the audience. Their turn is a good one. Gorham & Phillips are just as popular as ever, their change of program having proved better than their opening numbers. The pictures being shown are good. They are well selected, and embrace a variety of subjects.

Savoy Opens Tonight.

There will be a special Saturday night opening of the Savoy this evening. A number of the latest pictures, including dramatic, scenic and comic subjects, will be shown and Miss Lotie O'Malley will appear. She comes here with an excellent reputation, and it is anticipated that she will prove popular in her line. She will sing a number of the latest songs.

White Canvas Oxfords and White Buckskin Oxfords at the Regal Shoe Store.

IMPROVEMENT LEAGUE.

(Continued from Page 9.)

ing that life and death, health and happiness of every one of my friends are dependent to a large degree on the faithful, intelligent and thorough discharge of the Board of Health's duties, I believe that it is necessary that we should demand guarantees that conditions existing before Clean-up Day may not reoccur.

Mott-Smith's Hard Work.

Mr. E. A. Mott-Smith, the president of the Board of Health, has endeavored to fill his important position to his best ability. He has worked hard against many odds, and while acting in a number of other capacities at the same time. He has been trying to serve more than "Two Masters," and I believe that it is now up to the public to say whether or not he should take charge exclusively of the most important part of his work, that of managing the Board of Health. In my opinion the full strength and attention and all the time and ability of a very able man is needed to guard our islands against the constantly threatening invasion of epidemic disease and to guarantee a thorough and efficient management of health affairs. More especially so if we demand that the president of the Board of Health, in addition to his former duties, keep a stricter personal supervision and check on the work of his subordinates than has been customary heretofore.

Wants More Inspection.

I believe that after our Clean-up Day experience, and after our criticism, we should insist on a continual check by the public of this city's sanitary condition and should ascertain from time to time what progress is being made in sanitation. Since we have the needed organization, I propose that in say, six months from date, a general inspection of the city be made by citizen volunteers and reports be prepared to this body on the proper Board of Health blanks. By this method the efficiency of the various inspectors would be clearly shown. Any cleaning up and the improvements of unsanitary conditions to be left to the Board of Health. I believe that the citizens would then be able to see the results of the Board of Health's work under more favorable conditions and would be able to praise where they now are prone to criticize.

If properly organized beforehand, one Saturday should be more than sufficient to do this work, and no business house would need to close, no holiday being necessary.

In addition to the above, I would like to draw your body's attention to the menace to our public health through the supply of surface water for drinking and irrigation purposes furnished in a large part of our city. The late Dr. Day repeatedly drew the public's attention to this very serious state of affairs, and Mr. Marston Campbell has spoken about remedies for years past. I would suggest that your honorable body take up the question of water supply, both with the health authorities and Public Works Department, and urge a speedy solution of this question, a solution *sanjus uno quisque sijnj or su vons experts and the public.*

Respectfully submitted,
B. VON DAMM.

ROOSEVELT STOPS TALKING.

ROCHESTER, N. Y., July 13.—Former President Theodore Roosevelt will not attend the annual encampment of the Grand Army of the Republic, which will be held here next month.

Henry S. Redman, chairman of the general committee of arrangements for the encampment, today received a letter of declination from Colonel Roosevelt, in which the latter said:

"I wish it were possible for my friends to realize my position, not for my own sake, but because they would understand just why I cannot accept all the invitations that come to me. From now on I wish to avoid making any speeches I possibly can avoid, and greatly though I appreciate the invitation to address the forthcoming forty-fifth national encampment of the Grand Army of the Republic, it really is not possible for me to accept."

GOOD TIME COMING.

There is a good time coming to those who go to Haleiwa for their vacation. The cooking is excellent, the bathing as good as will be found anywhere in the world and the golf and tennis facilities equal to the best. There is everything about Haleiwa that is for the good. In accommodations every desire of the guest is studied and sold comfort is the natural consequence. There is always a dance or a hike on the taps at this delightful resort, and the rates are low.
