CASES OLIVE OIL. Cases French Butter, Cases French Chocolate. For sale by WALKER & ALLEN.

BAKERS' EXTRA FLOUR, AND PILOT BREAD. For sale by WALKER & ALLEN.

THE PACIFIC Commercial Advertiser. SATURDAY, MAY 8. From Japan.

The American ship *Lorance*, Capt. Follander, arrived from Yokohama, Japan, on the 4th, having made the passage in 191 days.

The *Matte Banks*, which arrived from the same port two weeks since, also made a fine run of 22 days. These passages show what sail vessels can do.

Both the masters of these ships and all others with whom we have conversed, think that if the China steamers would take this port in their route, they would average 12 or 14 days from Yokohama to Honolulu, and several days shorter through trips, both in going to and from Japan than they now make.

Intelligent shipmaster estimates the saving in coal and wear of ships on the southern route via Honolulu at not less than five or six per cent. of the whole expense. If the old adage "a penny saved is twice earned" is true, this itself would afford a handsome interest on the annual investment.

Allow Capt. Coverly of the *Great Republic* to make one round voyage via Honolulu, and we will guarantee that the results will be such that the Company will abandon the stormy and more northerly line-route.

We are indebted to Commodore Van Reed for a file of Japanese papers, from which, however, we gather no special news. We can find no reference to the new revolution reported by telegraph via London, which we copy below, and think that it must be a false report.

Our dates from Japan are to the 10th of April, later than this, news via London could not possibly have been transmitted. LONDON, April 11.—Later advices from Yokohama say the civil war is raging with increased violence in the Japanese empire.

The Northern party in the hands of the Mikado, and a strong fleet under command of the former Chief Admiral of the Yesso. They made their headquarters on the coast of the island of Honshu, near the city of Yama, important places on the western coast of Nippon, from which they can make incursions to the main land.

NOTES OF THE WEEK. NATIVE RUM MANUFACTURERS COME TO GRIEF—A case of liquor manufacturing and selling was tried before the Police Justice on Thursday morning last.

In which the parties implicated were two natives, named Hira and Kawahara. They were arrested on Wednesday night at their dwelling in Manoa Valley, by a party of policemen dispatched for that purpose, and, together with their still, were brought into town to await their trial.

Upon being examined, Hira acknowledged the offence, attaching the entire blame to himself, and exculpating his companion with a degree of magnanimity not often seen in a criminal. His confession, though effecting the release of his companion, was unavailing in his own behalf, as the Judge saw fit to impose on him the full penalty of the law.

At the station house a quantity of beer, in process of fermentation, was discovered. How long this business has been carried on, has not yet been ascertained, but it is probably of recent origin.

AMONG THE NATIVES—By a letter from Kula, we learn that on Sunday morning the natives on the Wilder Plantation sped something floating in from the sea. With canoes they soon secured it, and found it to be a mass of spermets, nearly pure, the size of a barrel.

Hauling it in on shore they divided it among themselves and are using it for candles. Spermets is found in the head of the sperm whale, and is used in the manufacture of candles. Where this came from no one knows—it may have been lost from some whaler, or it may be the remains of a dead whale.

Among the deaths will be noticed that of JOHN RAY, whom almost every one will remember. He was quite a theatrical genius, and played various parts with almost every company which visited Honolulu, often personating females so closely as to deceive the closest scrutiny.

He was also connected with the stage in California in early years, and generally known as "Johnny Rowe." Among his countrymen and others, he was much esteemed for his goodness of heart and sterling character, in all his dealings with his fellow men.

AMERICAN MINISTER RESIDENT.—The telegraph reports that President Grant has nominated a successor to Gen. McCook, who has been appointed a successor to Gen. McCook, who has been appointed a successor to Gen. McCook.

WASHINGTON, April 11.—A project of Canadian annexation in the settlement of the *Alabama* claims, with the joint consent of England and the United States, begins to attract attention in Government and diplomatic circles.

Some believe it likely to become a reality, and that it will be the result of the various circumstances which have been mentioned in the preceding article, and affording a basis of cordial approval.

ST. LOUIS, April 11.—On the morning of the 11th a severe earthquake, doing some damage, was experienced in Central Indiana.

NEW YORK, April 11.—The *Times* Washington special says the Cabinet are disconcerted over the resolution in the Senate bill to provide for the reorganization of Cuba.

NEW YORK, April 11.—The *Times* Washington special says the Cabinet are disconcerted over the resolution in the Senate bill to provide for the reorganization of Cuba.

NEW YORK, April 11.—The *Times* Washington special says the Cabinet are disconcerted over the resolution in the Senate bill to provide for the reorganization of Cuba.

The Duke of Edinburgh.—The fact that dispatches arrived by the last mail from England addressed to His Royal Highness the Duke of Edinburgh, creates the very plausible inference that this illustrious traveler may arrive here shortly.

The world, and was reported at Melbourne on the 21st of February. After visiting Sydney during the month, it was generally supposed he would go thence via Tahiti to this port and perhaps visit British Columbia before crossing to India.

Nothing definite is known about his movements, and he may arrive next week, or not for several weeks.

The leading illustrated French paper of Paris, *Le Monde Illustré*, in its issue of March 6th, contains a representation of the funeral procession of His Highness M. Kekunua, as it appeared when leaving the palace.

It was drawn by Mous, Marinetti, and is one of the best representations of our local scenes that have ever appeared in foreign illustrated papers, the artists, which, unable to comprehend island costumes and scenery, generally murder men and things indiscriminately.

The illustration, in the same paper, is a perfect representation of the funeral procession, and is a perfect representation of the funeral procession, and is a perfect representation of the funeral procession.

It will be gratifying news to all to learn that Dr. Livingston, the celebrated African traveler, who has been in the interior of that continent for two years past, has been heard from again.

The telegraph reports that he left Zanzibar, on the east coast of Africa, in January, returning overland, via Cairo, to England. We hope the report may prove true.

LOOKING FOR KANA.—Kana was visited last week with abundant showers, which continued through Monday and Tuesday—the first heavy rains that have fallen on that island for six months.

The streams had become so dry that the mills were unable to grind full time, and taro cultivation was suffering from drought.

The *Idaho* left this port on the 23d inst., and probably reached San Francisco on the 3d or 4th inst. If so, she would undoubtedly leave again to-day or Monday, (should it be schedule time.) and arrive here May 20th to 23d.

California Items. The *Republic's* special says the officers of the Union and Central Pacific Railroad, have decided not to have an excursion to the Pacific this summer, not having sufficient rolling stock nor eating accommodations for a large party.

There were seventy deaths in San Francisco during the week ending at noon yesterday, an increase of twenty; eleven deaths from small pox, an increase of eight. Only five new cases were reported yesterday.

The telegraph line was completed from San Francisco to White Pine on the 15th of April. St. Louis, April 11.—The travel on the Union Pacific Railroad is a business—trains engaged five days in advance.

Large numbers are going to White Pine. VICTORIA, April 10.—Her Majesty's ship *Zedon* sailed this morning for Valparaiso, where Admiral Hood is expected to arrive on the 15th.

The *Zedon* will shortly return to England. The *Zedon* will shortly return to England. The *Zedon* will shortly return to England.

It is stated that a number of marines from the Spanish fleet, who were ordered to the interior, were searched for Cuban refugees. They were fired on by Bahama wreckers. The Nassau papers claim that this is an act of war against Great Britain.

NASSAU, April 10.—Andrew Johnson made his first speech in this city today. About three thousand people were present. Johnson thanked them for their attendance, saying his ambition had been to gratify his desire to see the colored people (many of whom were present) under the stars and stripes.

He reminded them that he had declared his belief in the right of self-determination, and that he would support the right of self-determination, and that he would support the right of self-determination.

WASHINGTON, April 11.—A project of Canadian annexation in the settlement of the *Alabama* claims, with the joint consent of England and the United States, begins to attract attention in Government and diplomatic circles.

Some believe it likely to become a reality, and that it will be the result of the various circumstances which have been mentioned in the preceding article, and affording a basis of cordial approval.

ST. LOUIS, April 11.—On the morning of the 11th a severe earthquake, doing some damage, was experienced in Central Indiana.

NEW YORK, April 11.—The *Times* Washington special says the Cabinet are disconcerted over the resolution in the Senate bill to provide for the reorganization of Cuba.

NEW YORK, April 11.—The *Times* Washington special says the Cabinet are disconcerted over the resolution in the Senate bill to provide for the reorganization of Cuba.

The Cabinet has considered the Cuban question, and fully approved of the position of Secretary Fish, but the country must maintain its policy regarding belligerent rights, and expect of foreign Powers. Nothing, therefore, will be done looking to the recognition of the Cuban insurgents.

WASHINGTON, April 11.—In the House, Banks' Cuban sympathy resolution was passed—88 to 24. A bill in relation to the style of a new State Department building was passed.

At 12 o'clock the Speaker addressed the House. A resolution was passed in the House, and a bill in relation to the style of a new State Department building was passed.

The Senate Committee on Foreign Relations has had a lengthy session on foreign appointments. Many of these are regarded as improper and will be rejected. An active opposition against the President's appointments is maintained.

It is probable that several of the nominations for foreign Missions and Consuls will be recalled, owing to strong opposition in the Senate. There is especially an active opposition against the bill for the Brazil Mission, and Carlie for Stockholm.

NEW YORK, April 11.—A Washington special says the Senate has rejected the nomination of Lawrence, Kansas, by a divided vote of 30 to 8, regarded as a triumph for Ross over Pomroy. The former, it is reported, had high words with President Grant in regard to this and other Kansas appointments.

There is no doubt that General Prim will employ all his resources to suppress the insurrection and elevate himself. At the Cabinet meeting to-day the Cuban question was discussed; Secretary Fish still adhering to the doctrine of non-interference.

NEW YORK, April 11.—The *World's* special has the authority of a Senator from the Pacific coast for the statement that an extra Congress will be called within sixty days, undoubtedly for the consideration of the annexation of Cuba, and that an extra session will be called to meet on the 4th of July.

It is generally believed that President Grant is determined on the annexation of Cuba, and that an extra session will be called to meet on the 4th of July. The Senate has rejected the *Alabama* treaty, with only one dissenting voice out of 40 Senators.

The following appointments have been confirmed: J. L. Johnson, Minister to England; Gen. Adam Bader, Secretary Legation to London; Major A. G. Curtis, Pa., Minister to Russia; Major J. O. Hawkins, Col., of Int. Revenue, in San Francisco; Wm. A. Howard, Mich., Minister to China, vice Ross Brown; Thos. H. Nelson, of Indiana, Minister to Mexico; Gen. Adams Bader, Secretary Legation to London; Chas. E. De Long, Nevada, Minister to Japan; Gen. Edw. M. McCook, Governor of Colorado.

The following nominations have not been acted on: H. A. Miller, of Arkansas (or Kansas), as Minister Resident at Honolulu; E. E. James (colored), Minister Resident to Liberia; Frank M. Blakey, U. S. District Attorney for Cal.; Henry T. Sanford, Minister to Spain; William A. Pike, of Missouri, Minister to Brazil; S. Hudson, of Iowa, (colored) Minister to Guatemala; Eben D. Bassett, of Penn., (colored) Minister to Haiti.

By the *Standard* we have papers to the 21st of April, from which we glean a few items: The Senate has confirmed Edward McCook as Governor of Colorado; Charles C. Crowe, of Alabama, Governor of New Mexico; Wm. A. Howard, of Michigan, as Extraordinary and Minister Plenipotentiary to China.

PHILADELPHIA, April 11.—The Navy Yard has received orders for the immediate fitting out of the three monitors ordered by the Government. NEW YORK, April 11.—Minister Motley leaves for England on the 13th of May.

A special despatch from Havana says the British Consul entered an energetic protest against the continuation of the big *Mary Louisa* blockade. The *Herald's* Washington special declares that the Government is making active preparations for war on Cuba.

The *Times's* special says the Government will preserve a strict neutrality. There is no doubt that the Cuban expedition is preparing, but it will not sail from New York—work on the East River docks will be begun on the return of the Commissioners from the west, where they are examining the suspension bridges at Cincinnati and elsewhere. The plans of Engineer Locking are being made and the British Consul in Havana says the Government will preserve a strict neutrality.

WASHINGTON, April 11.—The Senate Committee on Foreign Relations have reported to the Senate, in Executive Session, that during the last three months of the big *Mary Louisa* blockade, the Government has made an expenditure of \$1,000,000. It is expected that the next steamer from Mexico will bring news of the recognition of the independence of Cuba by the Mexican Government and Iloga, to be followed by those of Chile, Colombia and Ecuador.

WASHINGTON, April 11.—Chandler offered a resolution in the Senate directing the President to open negotiations for the settlement of all existing claims against the Government, and the surrender of all the British North American Colonies. Chandler made a lengthy speech in support of the resolution. He said he hoped the proposed negotiations will be made and the peace is secured peacefully; but if England desired war, let it be short, sharp and decisive. The Michigan steamer was captured and the British Consul in Havana says the Government will preserve a strict neutrality.
