

STATE NEWS.

Senator Ingalls has commenced a series of letters in the New York Herald, descriptive of his trip in Europe. Lawrence has 402 in her high school, but 200 of these are in the preparatory department for the state university. The total registration in Leavenworth foots up 6,234, and it is believed that it is the closest registration ever effected in this city. Galena Times: The Galena Lead and Zinc company last week beat the camp on the output of lead; the amount was 77,350 pounds. There are 8,811 school houses in Kansas and 12,260 teachers in active service. There is no use for the stars to try to get away from a state like that. Ellinwood Advocate: Geese, cranes and ducks now abound in great numbers at their usual halting places. Nimrod will be kept busy for several weeks in consequence. A Topeka young man who raises fine game chickens was telling his friends the good qualities of fifty fighting cocks which had just come into his possession, and which he valued at \$5 apiece. Next day he had a "tale of woe" to tell. That night his chicken coop was robbed and the birds were all stolen. Plainville Times: The new school building at West Plainville is nearly completed, and presents an appearance which ought to cause our neighbors on the west to entertain a pardonable pride. When completed it will be one of the best, if not the best, school building in the county, outside of Plainville and Stockton. When Commissioner Taylor closed the books of registration at Kansas City he had 10,043 names enrolled, an increase of nearly 800 over any previous year in the history of the city. The interest manifested in the work by all parties has been very great, and as a result the entire vote of the city has been gotten out. McPherson Republican: There were 199 passengers for Moundridge on the excursion to attend Chester L. Long's meeting. There were twenty-two in the morning. The company called upon the committee to guarantee seventy-five passengers, but McPherson threw in a hundred more for good count. By actual count there were 177 on the excursion train. Junction City Republican: The business transacted at the post exchange at Fort Riley for the past three months has been figured up, and \$1,800 is the sum the enlisted men at Fort Riley and B and K troops, Seventh Cavalry, now at Fort Sheridan will receive as their share in the profits. There is not another exchange in the army that can show up as well. Clifton Banner: Theo. Stout, who is painting Mr. Stewart's new house, met with a very painful accident. In heating some hard oil, it caught fire, and in order to save the house he had to carry the burning oil through a hall and throw it out. In doing this his hands were so badly burned that the skin and pieces of flesh came off while being dressed. His nerve is all that saved the house. Wichita special: Arthur Allen, a prominent citizen and special agent of the New York Life, has been arrested here on a charge of embezzling. Allen was administrator of the estate of P. C. Holmes, and it is charged that he sold the property and appropriated to his own use \$1,734 of the proceeds. The warrant was sworn out by Allen's bondsman, E. R. Powell, president of a bank here. Atchison Champion: At a stone quarry near the brick yards Frank Hayes and other men who are employed at the quarry are finding a great many curious fossils. Some of them resemble snakes and other reptiles, and Mr. Hayes found two specimens that are exceedingly rare. One of them resembles a sheep's horn and the other looks very much like a rabbit's head. These fossils are found underneath a layer of carboniferous limestone. Leavenworth item: As Dudley Herrod, a young farmer about 38 years old, who resides in Fairmount, was returning to his home from this city in a wagon, his horses became frightened and, running away, Mr. Herrod was thrown to the ground and killed. The accident occurred about two miles from the city, and the remains of young Herrod were found by John Swan and Albert Berg, two neighbors, who were also returning to Fairmount from Leavenworth. Greensburg Banner: As J. R. Howard, of Union township, was returning home driving a four-horse team, he met with an accident that resulted in the death of all four horses. He had caught up with another traveler and thought to trot by, turning out at a point where there was an old well. The leading horses spread out on each side and went safely over; but the wheel horses, being held together by the neck yoke, went into the yawning hole, drawing the leaders with them, resulting in the death of them all. KANSAS CHURCHES. Ellinwood Advocate: The Lutherans will build a church east of Ellinwood, near the county line, in the near future. McPherson Republican: The love-feast in the Dunkard church, nine miles east of this city, was largely attended. Over 100 members commended. From Baldwin: President Quayle preached at the college chapel last Sabbath morning. After the service over thirty probationers were received into the church in full connection. At the convention of the Y. M. C. A. at Lawrence the state executive committee was reduced to fifteen members, five of whom are from Topeka. F. E. A. Smith was re-elected state secretary and will be assisted by the usual corps

of assistants. The members of the executive committee and the state executive committee elected consisted of the following gentlemen: S. B. Larimer, W. J. Johnston, T. W. Peers, Dr. Powell, and J. R. Thompson, of Topeka; J. W. Bunn, Ottawa; James B. Husted, Kansas City; W. K. Folks, Wellington; Dr. J. D. Hught, Emporia college; W. E. Hazen, Lawrence; Dr. E. L. Kellogg, Atchison; Smith George, Salina; E. F. Porter, Pittsburg, and Andrew Baird, Wichita. One thousand seven hundred dollars of the \$4,500 estimated to be needed for next year's work was pledged. Y. M. C. A. The eleventh annual convention at Lawrence of the Young Men's Christian association was a most interesting and profitable one. The state secretary's report shows the following summary of work accomplished under the direction of the state executive committee during the past year. Total number associations, 56. City associations, 38. College associations, 16. Railroad associations, 2. Total number active members, 1,954. Total number associate members, 1,860. Total membership, 3,814. Total number men's gospel meetings, 1,558. Total average attendance at gospel meetings, 1,267, as reported by 35 associations. Total number of Bible training classes, 249. Total combined average attendance, 370, as reported by 27 associations. Total number other religious meetings, 566. Total number professed conversions, 178. Total average attendance at rooms, 808, as reported by 19 associations. Total average attendance at gymnasium, 76, as reported by 4 associations. Total number of baths, 29,276, as reported by 9 associations. Total number of boys' departments, 10. Total number of women's auxiliaries, 11. Total number of volumes in libraries, 8,941. Total value of libraries, \$5,760. Total value of buildings and lots, \$110,100. Total value of furniture, etc., \$14,050. Total amount local current expenses, \$30,058.88. Total amount present indebtedness, \$3,456.67. Number of general secretaries, 21. Number of physical directors, 3. Number associates, 9. Number paid men in local work, 32. There have been engaged in state work for the year, besides the state secretary, an acting state secretary, territorial secretary, one office secretary, and one office boy. Thirty-seven men have served as members of the district committee and twenty-two men as corresponding members from the smaller towns. Nineteen thousand, five hundred and seventy-six postals, letters and circulars were sent out. The report of the state executive committee, read by J. D. Husted, of Kansas City, Kan., opened by citing the various changes and advances made by the association in the past eleven years, with special emphasis laid on the work for the coming year. College associations are to receive special attention, railroad and larger city associations to be greatly strengthened. The building movement is to be advanced. That one district conference be held in each district; members urged to attend. Loyalty to the church is urged, and that \$4,500 must be raised for state work, the sum to be expended in the employment of a state secretary, one assistant state secretary, one office secretary, a secretary for Oklahoma and Indian territories, and recommend that Acting State Secretary Smith be elected state secretary. STOCK AND FARM. An Osborne county farmer, John Conrad, threshed thirty-five acres of wheat last week which averaged fifty bushels per acre machine measure. From Chanute: John C. Perry says that the average price per ton he has obtained from his broom corn has been \$80. He has grown broom corn for eight years. He will ship nine carloads to his father, who manufactures brooms at Urbana, Ohio. Junction City Republican: H. Lichtenhan reports having a yield of 40 bushels clean grain per acre from his red Kaffir corn, that the plant seems unhurt by the severe drought, keeping fresh and green; also that the chinch bugs seem to dislike it and that for sweetness and abundant foliage it beats all other fodder plants. Cedar Vale Star: F. M. Bricker, of Sedan, will try feeding cattle again this winter although he has little faith in making much money this time. He has seventy head on shock corn on the Riggler place, west of Colonel Ward's; will finish them up on Mart Floyd's farm, as usual. He will make a short feed this time, not over 100 days. Too many feeders have gone into the country from Kansas City this fall to make the outlook encouraging to him. He thinks feeding on grass in the spring more promising of a paying return on the investment.—G. W. Holroyd made a trip up Cloverdale way, Monday, looking for yearlings. He wants about thirty head if he can get them at what he thinks he can safely pay, but did not find them up that way. He is running fifty two and three in stalk fields, expecting to lot them about the first of January for 120 days feeding.—H. O. Lyster is feeding about ninety head of steers, mostly threes, at his mill near Fern. He is feed on ground stuff, in self-feeders, and thinks he has things arranged about right.—J. N. Floret will winter 1,200 head of cattle lately bought of Mr. Doby. He has bought the corn and millet on Moses Plomondor's place, paying 25 cents for the corn.—Bud Lowe lost two more of his cattle by Texas fever, making four for him this season. Phillip Cooks has lost five cows on the same range. He is convinced that Texas ticks are the immediate cause of the trouble. His cattle are covered with them this year, and he never saw one before. A stray steer from the territory originated the trouble this year. It was run onto their range by parties southwest of them, who were trying to shoot it down, but were poor marksmen.

STATE AFFAIRS

And Capital City News of State Interest. The State Historical society has received a large photograph of Hon John A. Haldeman. He is a life member of the society. The registration of voters in Topeka shows that between 500 and 600 democrats failed to have their names placed on the poll lists. It is a pleasure to step into the state superintendent's office and rest one's eyes on the huge window full of flowers, some rare and all beautiful. The Santa Fe company recently placed an order with the Barney & Smith company for thirty-five chair cars and ten coaches, all with vestibules. Topekaans are feeling good because Professor S. S. Hama, of Chicago, says their high school is the best-governed and disciplined high school he has ever seen. Sheldon J. Woodman, just before leaving for Chicago, presented the State Historical society with a life-size oil painting of John Brown, painted by himself. The state auditor has made settlement with the state university for the monthly expenses. The salary bill amounted to \$5,277 and the miscellaneous expenses to \$1,908. A large number of the friends of Bishop Ninde and family gathered at the First M. E. church for a general handshaking and farewell reception to the bishop before he leaves for Detroit. C. O. Merricks, superintendent of letter carriers in the Topeka postoffice, says, "More people have come to town and been entered in our directory during the past three months, than during the same time for five years." The federal building at Topeka begins to show up in great shape where the improvements are completed. After the scraping, oiling and painting is finished it will present the appearance of a new building. The quarterly payment of pensions is now on at the Topeka agency. For a week or ten days the thirty-five clerks will be kept on the jump to satisfy the claims of the 90,000 veterans, widows and children whose vouchers are issued from this agency. There was some trouble at the opera house at the evening meeting of the people's party. Mrs. Leese's name had been left off the posters and several democrats put on. This angered Mrs. Leese and she left the platform. The audience refused to hear the democrats and called for Mrs. Leese until she returned and spoke, giving democrats a taste of her usual denunciation of southern election methods. Department Commander Greene and Adjutant General Campbell went to Kansas City to meet Commander-in-Chief of the G. A. R., A. G. Weiser and the national president of the W. R. C. and accompany them in their tour through the state. The party went west on the Union Pacific to Salina and returned to Topeka Friday afternoon, at which time a reception was held in the state house, after which they went to Kansas City, Kan. The people's party parade in Topeka was a big success, in so far as length of the procession. When the band leading the line entered the fair grounds gate the last carriage was still on Kansas avenue. General Weaver arrived on the noon train and spoke at the fair-grounds in the afternoon. Another parade was made in the evening, bringing up at the Grand opera house, where Chairman Jones of the democrat state central committee presided, and General Weaver again spoke, followed by others. In the matter of law, the state library now only contains the statutes of the United States and all of the states, but the court reports of the supreme court of the United States and also of each state supreme court. The entire library now contains about 31,000 volumes and the reference department nearly 9,000 volumes, besides 1,200 medical works. It has complete sets of nearly all the periodicals, with Pool's index, thus enabling the seeker of knowledge to find almost any desired subject. There are complete sets of the Edinburgh Review, Penny Encyclopedia and Nature, which are very rare. Nile's Register is also nearly complete. The Review began publication in 1800 and the Register in 1811. Everyone is made welcome and given all the assistance possible in his work. A Local Boycott. A number of the hack-drivers of the city are considerably worked up over what they consider an effort on the part of some of the undertakers of the city to draw them into the fight between the undertakers and J. M. Knight. Several hackmen said that when some of the undertakers settled with them for the month they were told that if they attended any of J. M. Knight's funerals the other undertakers would not hire their carriages for their funerals, nor would they be allowed to take part in them. Topeka's Registration. The registration of the male voters of Topeka exceeds any former registration. The figures by wards are as follows: First ward.....1,604 Second ward.....2,500 Third ward.....1,757 Fourth ward.....1,718 Fifth ward.....893 Total.....8,472 The highest registration prior to this year was in 1888, the last presidential election, which was 8,039. Total registration in 1890, two years ago, was 7,925. The popular supposition that the male registration once reached 9,000 is a mistake. The registration exceeded that figure in the spring of 1891, but this included both men and women.

LATEST NEWS.

Condensed for Convenience of Hurried Readers. The unemployed workmen of London have decided that they will march barefooted through the streets on three different days. The strike of the draymen and warehousemen in New Orleans is assuming serious proportions, and every labor organization in the city is threatening to call out its men. The W. C. T. U., at the Denver meeting, re-elected Frances E. Willard, president; Mrs. Buell was elected corresponding secretary, Miss Pugh, treasurer, and Mrs. Woodbridge, recording secretary. At Yonkers, N. Y., two deputies arrested Charles Augustus Showers, a young forger, who had in the last three months, according to his own confession, obtained from banks all over the country at least \$30,000. Cholera continues unabated in Buda Pesth. At Mazie, I. T., a freight train on the Missouri, Kansas & Texas was wrecked and Engineer Stanton was killed. Genial J. Q. Paddock, who took a course at Elliott's Business College, Burlington, Ia., is now manager for the Armour Packing Co., Wilmington, N. C. The anniversary of the hanging of the Haymarket anarchists was observed at Chicago with a parade in the rain and the dedication of a monument to the hanged criminals. W. G. Peters returned from the Panhandle of Texas and says nearly everything is out of that section that is to come this season. Some few lots of cows are yet to come and the market is full of horn of no steer shipments of note still back. W. H. Sims, the young negro who was recently refused admittance to the Kansas Medical college at Topeka, will bring suit against the faculty of the college for \$5,000. Sims says he was admitted once and then expelled because he is a negro. The new California limited express, which was announced to begin service on the Atchison road November 15, has been postponed, as the arrangements for its inauguration cannot be completed by that time. The fast train will be put on at a later date not yet fixed. The indications are that the winter hog market will be an active and a high one. There seems to be a scarcity of hogs throughout the west, and there are those in the trade who think the winter packing in the west will fall near 1,000,000 hogs short of last season's. The Schuykill, Pa., coal exchange, in calculating the wages and hours of the men of the Schuykill region for the last half of October and the first half of November, have fixed the rate at 8 per cent above the \$250 basis. This is an advance of 2 per cent over last month's wages. Miss Emma C. Sickness, who is at the head of Indian affairs in the world's fair auxiliary, says the Indians are indignant at not being represented or recognized in the exercises at the dedication of the world's fair building, and unless complete representation at the fair is accorded she fears an outbreak. Diego Xermine, a Spaniard, more than 100 years of age, died at Phoenix, A. T. He was a participant in all the Mexican revolutions since 1824, and at one time had a colony in New Mexico and Arizona. He was banished from Mexico, and spent the remainder of his eventful life in Phoenix, dying in a hotel. Everyone agrees that the run of range cattle for this season is rapidly drawing to a close and that from this forward buyers must look more to natives for their supplies. It is said New Mexico and Arizona have no more cattle to come, and the Colorado ranchmen who have been in the past week report but few cattle back in their neighborhood. It is almost certain that the steamer reported foundered north of the North Manitowish islands, at the foot of Lake Michigan, is the big steel steamer W. L. Gilcher, owned in Cleveland. The Gilcher is one of the largest steamers on the lakes, and the largest one ever built in Cleveland. She was rated among the big carriers and has several big cargo records. It is now evident, in spite of all denials, that the pope is not well. Audiences with him have for some time been suspended, and no special encouragement is given to those who are in Rome awaiting an opportunity to see him as to the time when audiences will again be resumed. The advanced age of his holiness is warrant for great anxiety on the part of the church. An accident occurred on the Central Branch of the Missouri Pacific, at Farmington, twelve miles west of Atchison, at 8 p. m. November 1, which resulted in the death of Engineer Halo Wheeler and fatally a cooling fan. The train was on a sidetrack the engine left the track and crashed into the engine of an east bound freight train, with the above result. DO YOU KNOW That Mermod & Jaccard's, of Broadway and Locust streets, St. Louis, Mo., is the largest and grandest jewelry establishment in the world and the lowest priced house in America for fine goods? They will send you free (be sure to write for it) a mammoth catalogue of 2000 illustrations of the most beautiful things in jewelry, watches, clocks, music boxes and silverware, showing how beautiful and cheap they are. For wedding rings and presents, visiting and wedding cards, and Christmas presents write to them. GENERAL MARKETS. KANSAS CITY, November 8. It is too plain to need a demonstration by chart or diagram that Dr. Bull's Cough Syrup is what the people need everywhere, for cure of bronchial and pectoral troubles. It is a sure cure. It is when the turkey is in the oven that the cook studies Browning. Dairymen, stockmen, liverable men and horse-car men unite in saying that no such horse and cattle linnment as Salvation Oil has ever been put upon the market. It should be kept at every stable and stock yard in the land. 25 cts. Of course it is possible for a woman to be "fair and square," but we like her better if she is round. A Canal Reopened. Health is largely dependent upon a regular habit of body. The bowels act as an important canal for the carrying of waste matter of the system. They, together with the kidneys and pores, are outlets for debris whose presence is fatal to the body's well-being. Hostetter's Stomach Bitters is no violent purgative, but a gentle laxative admirably adapted to the wants of the constipated. It cures gripes or wrenches the latestes as all drastic cathartics do, but produces an action akin to that of an effort of nature. Bilelessness, indigestion, with their associated manifestations, costiveness, are speedily and completely remedied by this fine corrective, which also conquers malaria, sick headache, kidney and rheumatic trouble, and checks premature decay. Ball-Playing is a sort of grab game so far as the catcher is concerned. Have You Asthma? Dr. R. Schuffman, St. Paul, Minn., will mail a trial package of Schuffman's Asthma Cure FREE to any sufferer. Gives instant relief in worst cases, and cures where others fail. Name this paper and send address. Stout Lady: Does a bicycle reduce the flesh? Mr. Shimpure (warily): If you buy it on the installment plan it does. BERGMAN'S PILLS enjoy the largest sale of any proprietary medicine in the world. Made only in St. Helena, England. A man's character is like a photographic negative. It is a blank until it has been subjected to the chemistry of circumstance. WARD McALLISTER. Rumor goes that Ward McAllister has been dethroned. He no longer leads the proud four hundred of New York in their onslaught on the Supper-table. Ward is, no doubt, more responsible for dyspepsia than any other man in America. The average man of fashion, with his late hours, hot suppers and his fashion of turning night into day, has, so to speak, no stomach. He can, however, get relief if he will take Laxative Gum Drops, the finest cathartic in the world. These gum drops are put up in the form of confectionery. They contain no taste of medicine; there is nothing of the pill about them; they can be taken like the ordinary gum drops, without a suspicion that they contain a cathartic. They are mild, gentle pleasant and perfectly safe. They are especially suited to people with weak stomachs and delicate constitutions. They are sufficiently strong to affect the most robust. They come in two sizes. Small boxes 10 cents, large ones 25 cents. Get them of any dealer. Sylvan Remedy Co., Peoria, Ill. First Office Boy: He's no newspaper man. Second Office Boy: No? Naw. He's a journalist. He writes wid a gold pen. M. L. THOMPSON & CO., Druggists, Condensersport Pa., say Hall's Catarrh Cure is the best and only cure for catarrh they ever sold. Druggists sell it, 75c. "It was awfully mean to deprive us of our votes that way," said the feminine politician. "How did they accomplish it?" "They got a lot of mice and turned them loose around the polls." Mamma: I haven't seen the kitten to-day. Where is she? Little Dot: I don't know, but I put a blue ribbon 'round her neck this mornin', and I guess she's out showin' herself. Tommy: Did you do much fighting during the war, pa? Pa: I did my share of it, Tommy. Tommy: Did you make the enemy run? Pa: You're right, I did, Tommy. Tommy: Did they catch you, pa? When Visiting Kansas City Stop at the Bronson House opposite Union Depot. First Class in every respect, Rates, \$2.50 per day. Cable cars to all parts of the city pass the door. S. S. S. CURES SCROFULA Mrs. E. J. Rowell, Medford, Mass., says her mother has been cured of Scrofula by the use of four bottles of S. S. S. after having had much other treatment, and being reduced to quite a low condition of health, as it was thought she could not live. Cured my little boy of hereditary scrofula which appeared all over his face. For a year I had given up all hope of his recovery, when finally I was induced to use S. S. S. A few bottles cured him, and no symptoms of the disease remain. Mrs. T. L. MATTHEWS, Matherville, Mo. Outlets on Blood and Skin Diseases, mailed free. SWIFT SPECIFIC CO., Atlanta, Ga. SICK HEADACHE CARTER'S LITTLE LIVER PILLS. Fatally cured by these Little Pills. They also relieve Dyspepsia, Indigestion, and Constipation, and are the best for Biliousness, Headache, and all the ailments of the Bowels. Purely Vegetable. Price 25 Cents. CARTER MEDICINE CO., NEW YORK. Small Pill. Small Dose. Small Price. RUPTURE PERMANENTLY CURED OR NO PAY. We refer you to 2,500 Patients. Financial Reference: First National Bank, Topeka, Kas. Incurable one Method. Written Guarantee to Absolutely Cure all kinds of RUPTURE of both sexes, no matter how long standing. EXAMINATION FREE. Send for Circular. Address THE O. E. MILLER COMPANY, 222 W. 6th Ave., Cor. Van Buren St., TOPEKA, KANS.

DO YOU COUGH DON'T DELAY TAKE KEMP'S BALSAM THE BEST COUGH CURE. That's the way Dr. Fiere's Pleasant Pellets cure. And it's a more important point than you think. It keeps them always fresh and reliable, unlike the ordinary pills in cheap wooden or pasteboard boxes. They're put up in a better way, and they act in a better way, than the huge, old-fashioned pills. No griping, no violence, no reaction afterward that sometimes leaves you worse off than before. In that way they cure permanently. Sore Throat, Whooping Cough, Bronchitis, Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the liver, stomach, and bowels are prevented, relieved, and cured. They're tiny, sugar-coated, granules, a compound of refined and concentrated vegetable extracts—the smallest in size, the easiest to take, and the cheapest pill you can buy, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the good you get. There's nothing likely to be "just as good." FREE ILLUSTRATED PUBLICATIONS. FREE GOVERNMENT PACIFIC R. R. LANDS. SO MORE ROUND SHOULDERS. KNICKERBOCKER. ASTHMA. DENISON JOHN W. DENISON, D. D. EARLY RISERS. GUNS. \$12500 A Month and Expenses. ORPHAN BOY SMOKING TOBACCO. LADIES! Brown's on your Dressing Shoes. FAT FOLKS REDUCED. OPIMUM. ASTHMA CURED.
