

Colorado potatoes at H. Schultz. J. A. Law made final proof last Monday. The finest line of dried fruits in town at Bestor's. Bon-Ton Blended coffee—the best—at H. Schultz. E. W. Priestley has a new well over 100 feet deep. Dr. A. B. Jones has purchased Judge Osborn's residence property. C. C. Bestor is sole agent for Choocolate Cream Coffee—the best on earth. Miss Carrie Davis left the first of the week for an extended visit in the east. W. S. Bowrk, of Wallace, was in town between trains on Monday, on legal business. California canned, and evaporated fruits of all kinds: new crop—at H. Schultz. J. L. Brown came up from Ellis and made final proof on his timber claim last Monday. W. D. Stephens gave us a short though entirely satisfactory call last Monday. A. J. Gullett, of the south side, one of our best citizens, made us a brief call last Tuesday. Rev. Bracken will preach next Sabbath at the Presbyterian church and regularly thereafter. F. S. Diebold's have moved and now occupy rooms over his business house south of the railroad. A. L. Cook, editor of the Gove County Gazette, was in our city last Tuesday and made us a fraternal call. Mrs. R. H. Alexander, of Cameron, Missouri, is visiting with her parents, Mr. and Mrs. H. Schultz. Station Agent Lewis has been having considerable sickness in his family within the last week or so. The Trego county alliance held a meeting last Saturday. Only the elect are permitted to know what was done. The notice to timber culture claimants in this issue is very interesting reading to all who may own timber claims. Don't fail to read it. William Priestley, from Illinois, brother of E. W. Priestley, has been viewing different sections of our county this week with the idea of locating. Mrs. John Sims left Friday evening of last week for Illinois on account of the serious illness of her mother. Her two boys, Robert and Willis, accompanied her. A. L. Foster, of Alton, Illinois, writes that he has spent several months in Trego county and, wishing to keep posted, knows of no better way than to subscribe for the WORLD. Considering location and improvements, the quarter section adjoining Collyer on the north, known as the Chase property, is certainly a bargain. For further particulars inquire at this office. George Brown, a former resident of Trego county, and well known here, especially to the older settlers, died at Jericho, Missouri, on February 2, 1893, of pneumonia. More final proofs have been made this spring than for several years. This is owing to the fact that the seven years—the limit for making proof—has expired and they are compelled to obtain title. From December 14th I will take cabinet photos for \$3 per dozen, your picture on silk handkerchief or twenty-five postage stamp size free with each dozen. Standing photos \$2.50 per dozen without stamp size. Gallery back of Griffin & Holman's drug store. Mrs. L. C. Ross & Co., Ellis. Services were held last Sunday at the Presbyterian church over the remains of Lewis Welch. The church was beautifully decorated and the floral offering by the teachers and children of our public schools was one of the finest we have ever seen. Rev. Bracken officiated. Elder S. S. Beaver, of McAllisterville, Juniata county, Pa., says his wife is subject to cramp in the stomach. Last summer she tried Chamberlain's Colic, Cholera and Diarrhoea Remedy for it, and was much pleased with the speedy relief it afforded. She has since used it whenever necessary and found that it never fails. For sale by Jones & Gibson. The month of April, 1893, will descend into history as an unusually cold month as well as an exceptionally dry one. J. B. Fulton has kept a record of the number of nights that ice was formed as follows: On April 7th one-half inch; 8th one-fourth; 9th three-sixteenths; 12th one-eighth; 13th one-eighth; 14th one-fourth; 15th one-eighth; 16th one-half; 20th one-half. And, we might add, it was pretty tolerable cold the rest of the time. My wife was confined to her bed for over two months with a very severe attack of rheumatism. We could get nothing that would afford her any relief, and as a last resort gave Chamberlain's Pain Balm a trial. To our great surprise she began to improve after the first application, and by using it regularly she was soon able to get up and attend to her house work. E. H. Johnson, of C. J. Knutson & Co., Kensington, Minn. 50 cent bottles for sale by Jones & Gibson.

F. celebration on the 27th, the anniversary of the birthday of the order. —You can buy a better pair of shoes for less money at Bestor's than any place west of Kansas City. —Ellis has a law and order league which is making it uncomfortable for the saloons and joints in that city. —Art. Charvat occupies a room in the Smith building just across the street from the brick building on Main street. —Married—at Collyer, Kansas, April 20th, 1893, by Rev. J. W. Hickman—Andrew S. No encumbrances—all taxes paid—title perfect—warranty deed, Offer wanted. C. G. Conover, 1731 F street N. W., Washington, D. C. —The gentleman who purchased the "Cleveland" opera block, and eight or ten sections of land from J. Word Carson last fall has been heard from again. Last week he purchased (?) two car loads of horses from W. A. Eppler. From a comparison the identity of the purchaser has been fully established. The many cases of rheumatism cured by Chamberlain's Pain Balm during the past few months have given the people great confidence in its curative properties, and have shown that there is one preparation that can be depended upon for that painful and aggravating disease. Honaker Bros., Lorain, Ohio, say: "Mr. Moses Price, of this place, was troubled with rheumatism for a long time. Chamberlain's Pain Balm has cured him. He says that the Balm has no equal. For sale by Jones & Gibson. —Married—at the residence of W. E. Tiltou by Rev. T. Bracken, on Wednesday, April 19, 1893—Miss Rose Morton and James Walker. The bride is one of Trego county's most amiable and accomplished young ladies. The groom is one of our most prosperous and intelligent farmers. They are to be mutually congratulated and their many friends wish them a long, useful and happy life together. —Mrs. Laldridge, of Denver, had been visiting in Hill City and took the Denver flyer at this place last Saturday evening for home. She was accompanied from Hill City by Misses Elsie McClure, Ada Lovelady and Clara Gurney, and they were escorted by Messrs. George Mitchell, George Lovelady and Bert Williamson. When Mrs. Laldridge's train pulled in the whole party went on board to bid Mrs. Laldridge good bye. And right here is where the trouble began. Before the adiens were said the train pulled out with the whole party aboard. A couple of them managed to get off, although with imminent peril to life and limb, and the rest were carried to Collyer, 14 miles west, where they hired a carriage and drove back to Wa-Keeneey, arriving here in the early hours of the morning. The people living along the Hill City line are accustomed to having trains stop as long as the passengers desire at each station, and these victims thought the U. P. Cannon ball on the main line would do the same thing, and here is where they made a serious mistake.

—For fine syrup go to H. Schultz. —W. F. Cross, of Glencoe, called the first of the week. —W. A. Eppler sold 70 head of cattle last Monday to Bruce Furbeck. —Mets & Gibbons have a new "ad" this week. Read it and profit thereby. —Messdames C. C. Yetter and B. Mapes, of Oqallab, were shopping in our city last Tuesday. —Mrs. George Baker entertained a number of guests Thursday evening, in honor of her son George and Miss Lillian Thorne. —Rev. Bracken was chosen as a delegate to the General Assembly which meets in Washington next month. This will probably delay, for a few weeks, the removal of his family to Wa-Keeneey. —There is a certain business man in this town who abhors profanity and says he does not remember that he ever swore in his life. He can't truthfully make that statement since one evening last week. He was trying to purchase an article from one of our stores and the clerk was endeavoring to persuade him that he had just what he wanted. "Put it back," was the customer's abrupt reply; it is dam-aged. The more Chamberlain's Cough Remedy is used the better it is liked. We know of no other remedy that always gives satisfaction. It is good when your first catch cold. It is good when your cough is seated and your lungs are sore. It is good in any kind of a cough. We have sold twenty-five dozen of it and every bottle has given satisfaction. Stedman & Friedman, druggists, Minnesota Lake, Minn. 50 cent bottles for sale by Jones & Gibson. —A good man in Wa-Keeneey on last Sunday night. The scriptures say that rain descendeth alike upon the just and un-just and a certain fulfillment. The former class, we are glad to know, have their share of this good thing so much needed. We forlorn mortals of the hazy sort of the latter class may hope for our share soon.—Hays City Sentinel. We greatly admire our brother's humility and resignation, as well as his knowledge of the scriptures. You are right. It was a good rain. The only fault that could be found was in the quantity—about three drops to the square foot. —It sometimes becomes a little drolly in western Kansas, but usually at the season of the year when our staple crop doesn't require much moisture. Long continued dry spells at this time of the year are very uncommon and are just as likely to occur in other states and, in some, more so. But there is one thing in Kansas that never fails us and is a thing of joy forever. We refer to our skies. Brighter, clearer, deeper, never bent over earth. Our sunrises are unrivalled for their pomp and he that is up betimes witnesses a miracle of transcendent beauty. (We are testifying from personal knowledge.) Our noonday skies are darkly, deeply, beautifully blue, and for our skies at sunset, no pen or painter's pencil can do them justice. The skies of Italy are not to be compared to those of western Kansas for gorgeous beauty, or at times for that soft, dreamy haze, when the atmosphere seems thoroughly impregnated with the dust of gold. Such a day was experienced last Wednesday and they have been by no means rare during the present spring. —A young lady, in this neighborhood, who has become weary of a life of single blessedness, is desirous of changing her name and sharing her ample fortune. While we are not conducting a matrimonial bureau department in connection with this paper, we acceded to the request of our fair young friend and place her many charms and virtues before the public. As regards her personal appearance, she is considered by competent judges as very beautiful. She is of medium height and symmetrical proportions, and stately as "Junio"—Hair like the glossy wing of the raven; eyes as dark as midnight, and brighter than the brightest star that twinkles in the heavens, and prevented from dazzling all on whom she looks, by the long sweeping lashes with which she shades their brilliancy. She is as accomplished as she is beautiful, plays and sings divinely. Speaks French, Italian, German; reads Hebrew, Latin, Greek—and in the English language is unrivalled; she is amiable, good, kind and affectionate; has an abundance of good humor; is witty, fascinating, pleasing in conversation; in a word she is perfection. She can wash, bake, sweep and perform the whole catalogue of domestic duties. She dresses in the most becoming but least costly style; is not a slave to fashion. Would be willing to yield everything to the superior intelligence of a husband. Of course this is just the kind of a wife our young men are all looking for but it is only reasonable to suppose that something will be required in return. But few would be entirely satisfied with less than we have presented. But what have you to offer? Young men, whose highest ambition in life seem to be to wear the latest style of a coat or a hat; smoke cigarettes and talk silly nonsense to the girls need not apply. It will require more. Young men who swear and drink and loaf on the streets will not be considered; neither will the young man who has no ambition to know anything, who perhaps could not tell the name of the governor of his state or the member of congress from his district; who has no burning aspirations or an indomitable will to be a man among men. Come, now, what many characteristics do you possess that will make you worthy of such a partner for life? We would like to hear from you. —Yes, we did prevaricate a little last week, but it was entirely unintentional, we hasten to assure the Omniscient. There were ten mistakes in that little five liner of yours, Amos, instead of nine as heretofore stated. We say emphatically that there were not less than ten. Some are claiming an even dozen but we like to be safe. As to the very serious charge made

by one of the Clydesdale editors of our highly esteemed, though often supremely ridiculous, contemporary: "He tried to lead people to believe the WORLD had a circulation of \$4,000," we confess that we made an awkward blunder in omitting one cipher, thus making it read 4,000 when we fully intended to say 40,000. To make such a mistake is extremely embarrassing to us without having the Omniscient tell it all over the state—to his 250 readers. You ought to apologize for that, dear Amos. It is funny how much even a cypher will represent sometimes! And in this connection allow us to add, parenthetically, that we shudder when we think what might become of the alliance in this county if you, dear Amos, should be omitted. But we will let that pass now, only saying that we are humble and willing to be forgiven. Come over and see us. We have a nice tin horn with four holes in it and you may blow in it as long as you choose. But we will let that pass now. Besides you were right—we did prevaricate just a little and we meant 40,000. Now just one word, dear Amos, regarding mistakes: We, too, make mistakes; a great many—never made ten in five lines though; that absolutely breaks the record; and right here we cannot refrain from suggesting, that if you would adopt the Josh Billing's style, it would be much easier for you and Josh would not be "in it" a great while. Think this over carefully. No previous training will be necessary in your case for nature has been so very lavish with you along this line. Believe me, dear Amos, that if the provocation was not very great we would not refer to any mistakes you might make—the game is too small for us—and besides, as your friends say, "you are improving" under our gentle castigations. From a careful computation we are sure that in twenty-five years you can write more than five lines and not make more than ten mistakes. As you aptly remarked, dear Amos, "figures don't lie." And right here an idea strikes us—no it doesn't hurt, we are used to it and it doesn't affect us like it did you last week when you wrote that dark and diabolical plot that was batched by three or four arch conspirators in the black and gloomy recesses of some back office. But to the idea. Why don't you favor the new system of spelling by sound? Your natural qualifications would enable you to forge right to the front and you would become president of the organization without an effort. This is a brilliant idea. Think it over. Don't mention it, you are entirely welcome. Before we close we are requested to inquire what has become of that stock of "milliner" goods which "have partly" arrived. Some of our people are getting quite anxious to know when they will arrive. Shame, isn't it, that railroad corporations are so soulless as to deliver goods in that condition? While you are about it please explain what deep and hidden intendo was contained in your very valuable paper of this week's issue when you say "the him" was building a new gravel walk etc. Of course, we understand it, but some are unreasonable and there is considerable excitement in regard to it. Better issue a supplement and ease the public mind in regard to these matters. You can then explain your explanations at length next week. No, dear Amos, we don't desire any controversy with you, but locals are so very scarce that we sometimes grasp a very trifling subject for "fillin" only. Besides if you will take the trouble you will remember that you commenced these little pleasantries, that your fool friends (?) patted you on the back and led you to actually believe that we were "like the boy you (the calf) run over"—nothing to say. The fact is, my dear Amos, your intentions are good—excellent. But you don't out a wide enough swath, and your friends ought to so inform you. Your Shakespearean eclythe is entirely too dull for your work and you ought to know it. And now, dear Amos, "it is hard to give you up," but we are through—unless you cause us to change our mind. Let us be friends—of the Damon and Pythous sort—hereafter. You can borrow anything we have in our office except the office towel—you might break that—and we have plenty of old plate matter that would improve your editorials. We have used them two or three times but they are all right—for you. Accept our sincere thanks in conclusion. We had nearly a column of space and nothing to write about and you have helped us very materially. City Council Proceedings. The matter of continuing the night watch was left to the discretion of the mayor.

The Honorable Commissioner of the General Land office, by circular dated March 30, 1893, referring to the above act of congress, directs registers and receivers of local land offices as follows: Under this enactment parties may make final proof without showing the existence of the quantity of trees on the land at the time of their doing so, as required under the previously existing law, provided that it be made to appear in the proof. 1. That the trees, seeds or cuttings were in good faith planted according to the requirements of the timber culture laws as amended by the first section of the act of March 3, 1891, before mentioned. 2. That the trees, seeds or cuttings so planted, and the land upon which they were so planted were in good faith planted, were in good faith cultivated for at least eight years in manner prescribed in timber culture laws. 3.
