Protection to Labor and Industry.

A tariff which protects American labor and industry and provides ample revenues has been written in public law. We have lower interest and higher wages; more money and fewer mortgages. The world's markets have been opened to American products, which go now where they have never gone before. We have passed from a bond issuing to a bond paying nation; from a nation of borrowers to a nation of lenders; from a deficiency in revenue to a surplus; from fear to confidence; from enforced idleness to profitable employment. The public faith has been upheld; public order has been maintained. We have prosperity at home and prestige abroad.—President McKinley.

A prejudiced Democratic judge and jury have convicted another innocent man who they claimed had a hand in the murder of William Goebel. Howard, who was given the benefit of a mock trial, was "found" guilty last week and given the death sentence—just as was expected before the trial began. Gov. Taylor was requested to return to Kentucky for trial, which he refused to do, knowing full well that he would not be given a fair hearing. Secretary of State Powers was the first man tried for Goebel's murder and was convicted. Then came Howard's trial and he suffered the same fate and it would be folly for Gov. Taylor to return as he would stand convicted the moment he touched Kentucky soil.

Thirty-six years ago last August, there assembled in Chicago the representatives of the Democratic party, and they declared then as now that the government was carrying on a vindictive, horrible, imperialistic and totally hopeless war and that the perfidy of the president was wholly at fault, and he, spattered with the blood of his countrymen defied humanity and disgraced the name and smirched the fame of America. The notorious Vallandigham, whom Lincoln had ordered out of the country on account of his treasonable utterances, was the master spirit of the convention. There is no difference between the Democratic party of today and the Democratic party of thirty-six years ago; still this upstart who heads their national ticket is going over the country today repeating the sayings of the martyr president. The Democratic party from its organization has been a menace to the welfare of the country and will be so long as it is controlled by such reckless agitators as William J. Bryan and others of his ilk.

Senator Teller, of Colorado, still clings to Bryan, but this is what he said in a speech at the convention of the silver Republican party at Colorado Springs, Sept. 8, 1898, in regard to the Philippines: "These islands are in the line of the great commerce of the world. They are worth millions to us, and we can hold them without any disadvantage to us. We can hold them so they will be a glory to us, and a glory to the people over whom we extend our flag and our Re-

publican institutions. I am willing to trust this great problem to the American people and we shall make no mistake if we say to them: 'We have put our flag here, we have buried our dead here and by the eternal flag shall stay while the Union lives.'

Senator Beveridge's audiences listen to his speeches on the Philippines with unusual interest because they realize that the Indiana statesman is telling them of what he has seen and investigated, not merely of what he has learned from hearsay. The man "who has been there" always commands a respect and attention that is not given other instructors.

COMMITTEE. Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

It is estimated that Roosevelt spoke to 125,000 Kansas people last Friday and Saturday while passing through the state. Large crowds were waiting at every stop and much enthusiasm was manifest.

The Gaylord Herald says that when a fusion nominee wants to withdraw from the ticket he has to notify anywhere from three to half a dozen "committees" and it is so much trouble that quite a number of them prefer to stay on and be licked at the election.

Editor Watterson, of the Louisville Courier-Journal, said of Bryan in 1896: "He is a dishonest dodger. He is a daring adventurer. He is a political fakir. He is not of the material of which the people of the United States have ever made a president. Nor is he of the material of which any party has ever before made a candidate."

In 1803 when the Louisiana purchase was made, the government took charge of the newly acquired territory without asking the "consent of the governed." They not only gave no consent but were strongly opposed to this change of masters, but they were "purchased and delivered" (as our anti-imperialistic friends would say) by the man who penned the Declaration of Independence.

Ex-President Cleveland intimates that he gave advice to the American people for eight long and perilous years, and that he has nothing further to offer.

H. C. Rupenthal, a Russell boy who is on his way to the Philippines, in a letter to the Russell Record, says in part: "The sneaking, cowardly Filipino in the United States should be made to cease giving aid and comfort to his brown-skinned but no blacker-hearted brother in the south seas. I would try for treason such men as Atkinson and others of his stripe, and if the hangman's knot did not end his raving at least the dungeon should reach his anarchist bauble from wall to wall to fall only upon his own prejudiced ears."

A Pop orator, says the Galena Republican was about to begin his speech when the sound of a drum was heard approaching. "What's that?" asked the orator, and when informed that it was the Salvation Army he made a break for the back of the stage and was about to jump off when the chairman said: "Hold on. What's the matter with you?" "I don't want to speak to those fellows" said the orator; "I have no speech to suit them." "Why," said the chairman, "the Salvation Army will harm no man." "Salvation Army," shouted the orator. "Hell, I thought you said Grand Army."
