Death of Grandma Sellers.

On Wednesday afternoon at about 3 o'clock Mrs. B. Sellers died at her home after a lingering illness. She had suffered from Bright's disease for many years and this with other complications was the cause of her death.

Mrs. Sellers was born in London, England, on October 13, 1837, and her age at the time of her death was 68 years, 5 months and 23 days.

In 1865 she united in marriage to Benjamin Sellers, and in 1866 came to America, and located in the state of Illinois. In 1880 the family located in Wa-Keeney and have remained here to the present time.

Mrs. Sellers was a quiet home loving woman and was in every sense a perfect lady, she was kind and loving and gentle and these traits were exhibited even on a bed of sickness when she was suffering great physical pain.

She was a member of the Episcopal church having united with that denomination when a little girl. She died in Christian faith and her death was a triumphant one, for her life was so lived that when her last honors came she was prepared to go. She was the mother of six children four of whom survive her. She was a faithful wife, a loving mother and a kind friend, and though her life was lived more or less quietly yet a good woman has been removed from our midst, and there will be many who will miss her greatly. Her husband and four children were constantly with her during her long and painful illness and every thing that loving hands could do was done for her, but without avail.

On Friday afternoon at 2 o'clock the funeral was held from the Methodist church and the services conducted by Rev. Lee of Manhattan. The interment took place in the Wa-Keeney cemetery.

The WORLD with many friends extends sympathy to the bereaved family who mourn her loss so deeply and hope that time will soften their grief and help them to bear their sorrow.

For wear and tear and light running the JONES HEADER has no equal.

And the most productive wheat belt in Kansas purchased 212 Jones Headers in '98; 126 in '99; 81 in 1900, all from John Schlyer of Hays. This is a positive conclusion that men who have raised millions of bushels of wheat and raised their land from \$30 to \$40 and \$50 per acre, certainly know how to choose a Header that would last and do the work.

The fifth and last number of the Wa-Keeney Lecture course will be given Saturday, March 18, and will be a lecture by Hon. Lucian Edgar Follansbee. Speaking of Follansbee the Hubbell (Nebr.) Standard says: "From beginning to end every listener was held spell-bound and thoroughly enraptured, sometimes convulsed with merriment by bright flashes of wit, at other times held in breathless silence while the speaker led them by beautiful climaxes, to the sublime heights of oratory. Mr. Follansbee is certainly a magnetic speaker and has a great power over his hearers."
