WHEN HUSKING TIME COMES.

Husking time's not far away
And you won't feel half so gay
When you think of all that corn that's going to rot
So you'd better hustle round
See where Hardman can be found
Let him figure for a corn crib in your lot.

That cribbing's strong and hard
Down at Hardman's Lumber Yard
And they're going to make it cheap without a doubt
So hasten into town
With your span of gray and brown
When the estimate is made you'll haul it out.

Mrs. Blazek and son came over twenty miles to do their trading with Joe Bachura.

The boys of town enjoyed an interesting and lively game of ball, Sunday afternoon.

The dance at Big Creek hall drew a large crowd from all parts, and all report a good time.

The Bohemians intend to organize a "Western Bohemian Brothers Lodge" November 3d, at Joe Bachura's store.

Dr. Wickizer, optician, will be in Collyer on his regular visit Wednesday, October 30. Eyes examined, glasses fitted.

Mrs. Fouts' new house is fast nearing completion, and this shows how safe and prompt the insurance handled by our banker is.

A box social and program will be given at the Morell school house Friday evening, November 15. Everybody come and bring boxes.

We hope the monument man will not come along and erect one for the town with the inscription "dead" on it for a while at least, but this will certainly be our doom before long if someone does not scare up some enterprise or other—open a merry-go-round would relieve the monotony of charcoal and ashes.

BIG CREEK.

Wheat is coming up nicely. This is nice weather for threshing.

Frank Kutina is threshing up in the Hixson neighborhood.

Some of the farmers along the creek have had a tussel with the Russian thistles.

Mr. and Mrs. A. S. Peacock spent last Sunday visiting with B. E. Furbeck and family.

R. Owen and wife, F. Schwanbeck and wife, Adolph Schwanbeck and wife and Gilbert Crocker and wife took dinner Sunday with Mr. and Mrs. Bob Kirk.

We are getting our new school books one by one. This changing of school books is a graft pure and simple, and the people of Kansas pays the fiddler to the tune of several thousand dollars.

Ralph and Charlie Kristoff and W. D. Austin attended the Stimits sale at Bosna, Thursday. Everything sold well. It was my first visit to Bosna. It is a thriving village on the banks of Downer creek. Mr. Biebler, postmaster and mayor, has erected a fine livery stable and is doing a rushing business. Space forbids us speaking of the rest of the enterprising people of the city, but will say it is one of the nicest towns in the county, with the exception of Voda.

A little cooler the front end of the week.

David Carr and brother Thos. made a tour of inspection of our phone line last Monday.

Our school teacher, Miss White, made a trip home Saturday, returning the same day.

R. L. Bailey has been cutting cane seed up in Franklin township the last week. He turned the platform angle irons of his header upside down which raised the platform about six feet. It elevates cane seed into a header box nicely.

Thos. Ryan expects to move his family to Brownell in a couple of weeks. Riverside township will lose a good citizen when Tom leaves. Miss Grace expects to leave for Lindsborg, Kan., where she will study music, as soon as they get domiciled in their new home.

Uncle Billy Ryan returned from Kansas City last Saturday where he has been attending the cattle show. Uncle Billy says when the boys all got there, viz: himself, Ben Hicks, Frank Meserve, Bert Juvenal, Joe Halblieb and Thos. O'Toole, that the town authorities had to tie their bull dogs up. He says the K. C. crowd is awfully slow and if the afore named crowd had offered them any impudence they, (the sextetto) would have politely organized and ridden the K. C. crowd on rails up Grand Ave.

E. F. Sullivan, optician, October 29.

A surprise party arrived at the home of Mrs. S. Moore Wednesday, October 23, the occasion being her (?) birthday, and a pleasant time was reported. It was a hen party.

OBITUARY.

Lewis Wagner was born Oct. 25, 1846, in Heidelberg, Saxony, in the German Empire and came to America in 1873 locating near Dexter, Iowa.

He was married to Hannah Anna Housewert near Earlham November 2, 1876. To this union were born seven children, three sons and four daughters, all of whom are living save the third son who died in infancy.

In 1889 he moved with his family to Ogallah, Kansas, near which place he died Oct. 19, 1907, at the age of 60 years, 11 months and 26 days.

He had been in poor health for the last fourteen years, suffering from asthma and was forced to take to his bed Sept. 20 last, and grew gradually worse until death relieved him. The immediate cause of his death was dropsy.

Mr. Wagner was a very industrious man and one of the substantial citizens of the neighborhood. His farm was finely improved and kept up in first class order. He was a man of the strictest business integrity, one of those men of whom it is often said that "his word was as good as his bond." He will be greatly missed in the neighborhood.

Last Saturday evening between nine and ten o'clock the inhabitants of our town were startled by what they supposed was an explosion of dynamite in the hands of some fellow bent upon giving the people a scare, but it was soon learned that it was the cement building in I. T. Purcell's yard which contained the acetylene gas plant. Gas had escaped in the vault and Mr. Purcell went to the cellar to start a fire in the furnace, and as soon as he struck a match a pipe connecting with the cement building and full of the escaping gas immediately ignited and in an instant followed to the vault with which it was connected and in less time than it takes to tell it the building was blown to pieces. The jar could be felt by many who were at home saying that windows rattled and foundations shook. The building also contained the gasoline engine and pumping apparatus which was used for the water supply. The engine and pump were not damaged, but the gas plant was entirely destroyed. The loss will probably be in the neighborhood of five or six hundred dollars. Fortunately no one was injured or none of the other property near the building destroyed. A new plant will be erected at once.

Dr. WICKIZER, Optician.
