Chas. Hoar on Trego County Students in Kansas University.

Some of the men who will make the Wa-Keeney of the future are now in Kansas University. They are there to get the theoretical part of the education which will some day make them the successful men in Western Kansas.

At present there are six Trego county students in the university and they are all from Wa-Keeney.

Thomas F. Countryman is the oldest of the Trego county men in school, and has been here the longest. Countryman is a second year man in the law school, and has already had two years in the college of liberal arts and sciences. His success as a lawyer is already assured by the fact that he is making good in all his cases, and is known as a debater. He is on the Washburn debating team this fall, having been one of the three men chosen to take the affirmative of the question, Resolved: "That Kansas should extend the same suffrage rights to women as to men."

Chas. P. Hoar is a Trego county boy, although he now resides in Lawrence. He is a Junior in the college, has had two years in the engineering school, and is president of the Mandolin club, and a member of several of the musical organizations of the university.

Guy Jones, who is a son of Representative Jones of Trego county, is a Freshman in the engineering school, and is particularly noted for taking in all the shows and going to class regularly.

Walter Burnham, Sophomore engineer, has re-entered school after dropping out last term on account of sickness. "Pete" ranks well in all his classes and will doubtless put up many a sky-scraper in Wa-Keeney after he graduates.

And now come the "grafters"—M. B. Galloway and Robert Rinker. Bob Rinker is at present holding down two grafts. He is student agent for the Lawrence Steam Laundry and steward of the Sunflower Boarding club, at 1328 Ohio street. Bob is a Freshman in the college and a very popular and successful young man.

Last, but decidedly not least, comes "Mit" Galloway. Mit always has been and always will be a hustler. When he first came here to school about five years ago he became university agent for the Lawrence Steam Laundry, agent for a big medicine book firm in Chicago, agent for draughting instruments for the Keuffel Esser Co., of New York, and steward of a boarding club. Galloway takes medicine. Everyone on the "Hill" knows Mit and likes him. He is a collector of rare ability, and his initials—M. B. were interpreted to mean "Master Bill-collector."

"THE LADY WITH THE CIGARETTE"

seems to be attracting considerable attention here of late, just as if she was a new comer among us. Despite his feigned surprise, most every man in Trego county has at some time or other made her acquaintance, and it invariably has been in the dining room of some "swell" hotel, where things are permitted that in less pretentious places would bring the police. However, lest your better half begins to inquire to closely into the dim and distant part of your checkered career, we will change the subject by announcing that we have the largest enclosed lumber shed in Trego county, where we keep at all times a large and well assorted stock of the best grades of dry lumber, lime, post cement, plaster cement, shingles, cedar and oak posts and poles, and make lowest possible prices.

We also wish to announce we are overstocked with good, clean coal and are making a reduction of from fifty cents to a dollar a ton on Pennsylvania Anthracite, Rock Springs lump, Maitland, Lafayette, Matchless lump and Electric lump coal. Let us figure with you on your wants and save you some money.
