

Proclamation of the President of Costa Rica, announcing the close of the war.

President Mora has issued a proclamation announcing the close of the war, of which the following is a translation:

San Rafael Mora, President of the Republic, to the Costa Ricans—Fellow-Countrymen: The war is ended. Beloved peace comes back to us with the conquerors of filibusterism.

There are no longer filibusters in Central America. The few hundred of them that exist, unarmed and surrendered are under the sanctity of our protection and clemency.

Delivered from her proud invaders, Nicaragua is restored to existence under the entire will of her children. May the Supreme Being inspire and protect them: Until her complete organization, our faithful allies of Guatemala, San Salvador and Honduras will remain in the interior, whilst our garrisons guard the steamers and forts on the line extending from the mouth of the great lake to the bay of San Juan on the Atlantic.

Costa Rica will never patronize fratricidal parties or rancid usurpers. She will exact guarantees of Central American peace, integrity and union, she will endeavor to extinguish that revolting spirit, which has been the greatest of our enemies, that the legally constituted authorities may be sustained, and in every case she will perform her national duty.

Let us remain armed. Let us fortify ourselves more and more, so as to meet the future with confidence.

Already our brethren are being restored to their families, to their peaceful friends, which they have so well known how to defend.

Sons of the capital, of Cartago, Heredia, Alajuela, Liberia, and Puntarenas: Sons of the whole Republic! come together and join yourselves to me that we may receive them as you deserve. I count upon your generosity, your good citizenship, your spontaneous contributions, to pay, without delay, those brave who have so heroically earned their pay.

Let us all prepare our tribute to succor the necessities, to smooth the sufferings, to reward the virtues of those noble sons of the country who have sacrificed everything to their venerated altar. May our prosperous Union never be altered, and may its example be imitated every time that it becomes necessary to fight for the honor and independence of Costa Rica.

San Jose, May 8, 1857. JUAN R. MORA.

Crops in the West. We have just returned from a tour through the West, diagonally through this State, crossing the Southern portion of Indiana and Illinois, thence through the central and Northern portions of Indiana and Ohio, home. The season is backward, but for grass and the coarser grains considered all the better for that. Grass promises a great crop.

Wheat in Ohio is good, much better than for many years. It is hard telling what an average crop is in Ohio so frequent are the failures or partial failures of late. In Indiana and Illinois we find winter wheat good in the South and almost a total failure in the North, but the farmers have resown with spring wheat which promises an abundant yield.

Illinois alone will raise wheat enough to bread half the States of this Union. Corn is backward but looks well in all these States. If it matures, of which there cannot be much doubt, there will be a world of it.

The breadth of grain exceeds by a large per cent., any former year, induced by the unprecedented high prices. Every farmer and owner, and even speculator, has used his utmost exertions to save all he could, that he might reap proportionately. No one can travel the country now and not wonder what is to be done with the vast crop now growing.

The farmers of the West have just completed their planting, and are now marketing the balances of their last year's Corn crop. The Patent Corn Shellers we found everywhere in motion in Illinois, and the market towns full of teams, flooding the warehouses with this great and ever reliable staple. We spent several days with the farmers, and never saw them in better spirits.—Cleveland Plaindealer.

We copy the following incident from a letter in the Times: Those who have any sympathy for Gen. Walker in his fall, unless they are lost to even the common sentiment of humanity, will have their sympathy somewhat modified on becoming acquainted with the following facts, which I have from a high official source—a gentleman who cannot be mistaken in what he relates: On the 30th day of April, while Gen. Walker was negotiating his capitulation, knowing that he was to surrender the next day, one of his soldiers, contrary to a general order, went outside of his lines: He shortly after returned, having only gone out to get a bottle of agnate. Walker called him up, when he acknowledged his fault and prayed for forgiveness. "If you have any message to send to your friends," said Walker, "in his mild, but sarcastic way, "you had better prepare it, for at sundown you die."

Punctually at sunset a platoon of soldiers was drawn up for the execution, and just as the order was given to fire, the soldier appealed to his comrades: "Boys, you wouldn't shoot a fellow soldier for such a thing as that, would you?" They raised their rifles and fired over his head. The poor fellow broke and ran, when he was brought to his knees by Lieut. Col. Rogers, an Irishman, who figures in the list I send you, by a pistol shot. Stepping up to the man while in this position, Rogers placed his revolver at his forehead and blew out his brains! May be there isn't a hell. There ought to be, if there is not.

"ONE AT A TIME."—A letter from Washington, thus elucidates the administration policy as to Cuba:—"The speech, or rather a short report of the speech, of the Hon. Jefferson Davis, lately delivered at Vicksburg, was shown to Mr. Buchanan the other day, probably with a view of sounding the old gentleman on the Cuba question.—"One at a time," said Old Buck—"one at a time. We have the Central American question on hand now; then the New Granada affair comes up, and so on.—Cuba can wait; she must take her turn." Mr. Buchanan then carefully folded the paper, and handed it back to its owner.

The Charleston (S. C.) Mercury says that "if Kansas is not surrendered to the North before Mr. Buchanan's four years of service shall transpire, he will be as powerless as Mr. Pierce."

THE DRUGS.—But the truth is, there belongs to a dweller on the borders of the Kingdom of Death, a peculiar rank, a peculiar worth, and the man believes that the whispering of spirits from the mystic land reaches the ear which bows itself to them—on this account, the wise and the strong of the earth listen silently, like disciples, and piously, like little children, to the precepts that are breathing forth from dying lips.

The Greatest Medical Discovery of the Age, is Ayer's Cathartic Pills. They don't help complaints, but they cure them. One Box has cured Dyspepsia. Three Boxes have cured the worst cases of Scrofula. Two Boxes have cured Erysipelas. One Box always cures the Jaundice. Three Boxes are sure to cleanse the system from Bile—often less than one does it. Two Boxes have completely cured the worst of ulcers on the legs. Small doses seldom fail to cure the Piles. One dose cures the headache arising from a foul stomach. Strong doses often repeated expel every worm from the body. They should be given to children, who are more or less afflicted with this scourge. As a gentle Physic they have no equal. One Box cures enlargement of the Liver. Half a Box cures a Cold. They purify the Blood, and thus strike at the foundation of every disease. As a dieter Pill there is not their equal in the world. They are purely vegetable, and can do no harm; but do accomplish an unaccountable amount of good.

Prepared by Dr. J. C. AYER, Practical Chemist, Lowell, Mass., and sold by all Druggists and dealers in medicine throughout this section. GREAT SALE OF LOTS, AND Fourth of July Celebration, AT WHITE CLOUD, K. T. THERE will be, on the FOURTH DAY OF JULY, 1857, a LARGE SALE OF LOTS, and a FOURTH OF JULY CELEBRATION, at the above-mentioned City. GENERAL DONIPHAN will deliver an address on the occasion. All of the citizens of Kansas, Nebraska, Missouri, and the rest of the West, are invited to be present. Northern Kansas and Southern Nebraska embrace one of the richest, most beautiful and healthful sections of country in the Union—indeed, so portion of the globe, exceeds the above region in richness, and in natural advantages and resources. White Cloud, having a fine site, a splendid Rock Landing, and being the most Western and accessible point on the Missouri River, in the Territory, must command the trade and business of this rich and extensive region. It is the key to all of Northern Kansas and Southern Nebraska; and such being the case, it is destined to be, at no distant day, a large City. The Proprietors of the City have, at the recent Land Sales, procured, by purchase of the General Government, a perfect title to the land embraced in the town site, and good and undivided titles will be given, on the day of sale, to all who may purchase. Terms of Sale—One-third Cash, and the remainder in six and twelve months. An excellent Band of Music has been engaged for the occasion, and a Free Barbecue will be given by order of the Directors of the WHITE CLOUD CITY COMPANY. June 11, 57, 1857.

AYER'S PILLS Are curing the Sick to an extent never before known of your Medicine. INVALIDS, READ AND JUDGE FOR YOURSELVES. JULIE HAULL, Esq., the well known performer, at Chestnut Street, Philadelphia, whose chief assistants are found at almost every fair, says: "I have seen many a better family medicine, for common use, than any other white pill medicine. Many of my friends have realized marked benefits from this medicine, and I am convinced that it is a most valuable remedy for the various ailments of the stomach and bowels, and is not only effective, but safe and pleasant to take. I can truly say that I feel pleased to be able to recommend this medicine to the sick, and to see it so generally used." The venerable CHARLES WARDLAW writes from Bristol, Pa., July 10, 1857: "I have taken your Pills with great benefit, and I can truly say that I feel much better than I have done for some time. I have used your Pills for several years in my family, and I can truly say that I feel pleased to be able to recommend this medicine to the sick, and to see it so generally used." Dr. J. C.
