Scrofula, or King's Evil,
is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it produces the most serious and dangerous diseases in any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial diseases, low living, disordered food, impure air, birth and filth, and the depressing virus, and, above all, by the venereal infection. Whatever its origin, it is hereditary in the constitution, descending from parents to children, and is the most fatal of all diseases, as it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."
Its effects commence by deposition from the blood of corrupt or vitiated matter, which in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which renders the blood, depresses the energies of the system, and produces various diseases, not only suffer from scrofulous constitutions, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in nature, are still rendered fatal by this taint in the system. Most of the consumption which devastates the human family has its origin directly in this scrofulous contamination; and many destructive diseases, such as cancer, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.
One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must remove the blood by an alternative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,
the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedies that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofulous constitutions, but all affections which arise from it, such as ERYSIPELIS, ROSE, OR ENTERTAINERS, PIMPLES, PUSTULES, ETCETERA, BLINDNESS, BOILS, TUMORS, TETTER, AND SALT RHEUM, SCALD HEAD, HEADACHES, RHEUMATISM, SPYLLICITIS AND MERCURIAL DISEASES, DROPSY, DYSENTERY, DERLITIS, AND, INDEED, ALL COMPLAINTS ARISING FROM VITIA- TION OF THE BLOOD. The popular belief in "impurity of the blood" is founded in truth. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which no health is impossible in contaminated constitutions.

Ague Cure,
FOR THE SPEEDY CURE OF
Intermittent Fever, or Fever and Ague,
Remittent Fever, Chill Fever, Dumb
Ague, Periodical Headache, or Bilious
Headache, and all the various forms of
fever for the whole class of diseases originating
in the miasmatic poison of Ague, caused by
the Malaria of malarious countries.

No one remedy is louder called for by the necessities of the American people than Ague and Ague Cure. We are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents the disorder must be of immense service in the communities where it prevails. Prevention is better than cure, and the patient who takes the risk which he must run in violent attacks of this baleful distemper. This "Ague" expels the miasmatic poison of Ague from the system, and prevents the development of the disease, if taken on the first approach of its preliminary symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Ague and Ague prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittent fever, or Ague, or malarious, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison of Ague, but also arises from its irritation, and is now being discovered for the speedy and certain cure of Intermittent fever, or Ague, or malarious, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are as healthy as if they had never had the disease.

STAR OF THE PRESS,
1861.
"GREAT IN MONTHS OF WISDOM GROWER."
THE NEW YORK MERCURY
FOR THE NEW YEAR.

In accordance with a time-honored custom, the publishers of The New York Mercury make the opening of a New Year the occasion for issuing a comprehensive prospectus bulletin. Although the patriarch of the weekly press (being now in its twenty-third year), The Mercury retains the fire and vigor of youth, as well as with the wisdom and dignity of mature years. Presenting, as it does, the *crème de la crème* of literature—scrubbed with the entrancing master-pen of the greatest of our age, and embellished with the brilliant wit and humor of the sharpest pens of the time—abundantly garnished with the rarest gems of native poetry—overflowing with thoughts that breathe and words that burn!—it is a perfect freedom from anything calculated to wound or repulse the most sensitive moralist or class of people—it has been for years the ally, the teacher, the monitor, and the welcome guest of hundreds of thousands of American homes.

The publishers and proprietors of The New York Mercury have made the motto of its columns: "Here shall you gaze with his eagle's flight, Risk deep-shadows shaking from his plumes of light," and during the present year (1861) its grand, imitable array of writers—whoes united talents will be the most beautiful and popular engravings ever issued in this country. It is done on steel, in fine lines and stipple, and is printed on heavy plate paper, 30 by 25 inches, making a most choice ornament, suitable for the walls of either the library, parlor or office. Its subject is the celebrated scene of Sir John Falstaff receiving, in Justice Shallow's office, the recruits which have been gathered for his "ragged regiment." It could not be furnished by the trade for less than five dollars.

THE NEW YORK WEEKLY TIMES.
Single Copies \$2—Two Copies for \$3—Five copies for \$5.
The Cheapest and Best Family and General News Paper in the United States.
THE NEW YORK WEEKLY TIMES is a large and elegantly printed quarto sheet, of eight pages, or forty-eight columns—devoted to Politics, Literature and General News, and intended to be the BEST as well as the CHEAPEST Family Newspaper in the United States.
The first aim of the TIMES is, and will always be, to keep its readers thoroughly and reliably posted up as to everything which may happen of general interest, in any part of the world. Its comments are full and freely upon all topics of importance in every department of public action, and always in the interest of Freedom, Order and the Public Good. While its influence will be generally conservative, it advocates every measure of just and beneficial Progress, and resists the increase, extension, or perpetuation of Slavery, as of everything else incompatible with the highest welfare of the whole of humanity. While it reports promptly all intelligence of general interest in every department of human activity, it never panders to vicious tastes, and excludes from its columns everything that might render it unsafe or improper for general family perusal. It seeks to promote the general welfare by urging the claims of
Education, Morality and Religion,
upon the masses of the people; and in all its discussions, it endeavors constantly to be guided and controlled by the spirit of
Moderation, Patriotism and Common-sense.
In its correspondence, both Foreign and Domestic, the TIMES is confessed to be superior to any other American Journal. Its Reports of Congressional and Legislative proceedings, of Financial, Commercial and other matters, of important Legal and Criminal Trials, and of whatever may have special interest for the great body of the community, are full, prompt and reliable.
Special attention is devoted to full, accurate and trustworthy reports of the
Live Stock and Produce Markets,
for which a special corps of Reporters is maintained.
A Literary Department will also be kept, embracing
Standard Novels and Tales,
and miscellaneous selections of the highest interest.
The Agricultural Department, is compiled from a variety of sources, many of them inaccessible to the American reader, and furnishes valuable information to the Farmer and Gardener.

PROSPECTUS OF THE WEEKLY NATIONAL REPUBLICAN.
WASHINGTON, D. C., December, 1860.
The undersigned have commenced the publication, in this city, of a weekly newspaper, called the National Republican.
It is printed on a large sheet, 27 by 42 inch, and is furnished at the low prices stated below.
It will contain all the original matter of the daily National Republican, with the exception of local news not interesting to country subscribers.
It will give full reports of the proceedings of Congress, and of the other departments of the National Government.
It will contain all the news of the day, foreign and domestic, markets, &c., &c., as well as all original correspondence, and all parts of the country. The miscellaneous departments will receive special attention, and in all respects, the effort will be made to establish the character of the National Republican as a
FAMILY PAPER.
In politics, the paper will be Republican, sustaining the incoming Administration of Mr. Lincoln, but disclaiming, however, any pretension to be the organ of the President elect.
There is no other Republican paper in the District of Columbia, or the vicinity of it, and it is believed that recent events have opened to such a paper an important sphere of useful effort. The time has come, when the actual administration of the Government upon Republican principles will explode the misrepresentations which have made those principles so distasteful to the South.
But it is not only here, and in this vicinity, that we hope to make it useful. To the whole country, we offer a journal which will discuss national politics from a national standpoint, and which will be read and preserved from patriotic duty by any over-weighing personal interest.
