GEN. ANGELES FAMED AS MILITARY GENIUS IS SUMMARILY SHOT

CARRANZA FIRING SQUAD EXECUTED HIM EARLY TODAY—BROUGHT FAMOUS FRENCH "75" GUN TO PERFECTION

El Paso, Texas, Nov. 26—(By the A. P.)—General Felipe Angeles, Mexican revolutionary leader and famed throughout the world as a military genius, was executed by a Carranza firing squad at Chihuahua City early today, following his conviction with two companions on charges of rebellion against the Mexican government, according to telegraphic report from Chihuahua City this morning.

General Angeles was sentenced to death by four Carranza generals in the Teatro De Los Heroes (Theatre of the Heroes) at 10:45 last night. He was immediately taken from the building through a rear entrance to await execution, which was set for 7 a. m. today. This is the time he was shot, according to the report reaching here.

General Angeles apparently was entirely unmovable as sentence was passed. Throughout the trial the military leader, famous among military men of the world as the man who brought the French 75 millimeter gun to perfection and made it admittedly the best piece of artillery ordnance in the world, had presented a smiling countenance to his accusers.

Russ Soviet Sent Him Funds

Dudley Field Malone Admits He Received \$1,000 From Martens.

AMBASSADOR GOT CASH FROM RUSSIA

New York, Nov. 26.—Ludwig G. A. K. Martens, self styled ambassador of Soviet Russia to the United States was again the principal witness called before the Lusk Legislative Committee investigating Bolshevism today.

The "ambassador" admitted yesterday that he was supplied with "money and advice" from Russia. He declined to tell how the money reached this country.

Martens said his office expenses and salaries, amounting to \$1,200 weekly, came direct from the Soviet. A "friendly agency" outside the United States enabled him to receive contributions of \$90,000 in spite of the blockade, he said.

Speaking of his financial ambitions, Martens said that in addition to negotiating for nearly \$10,000,000 worth of shoes and canned goods for Soviet Russia, he also intended to peddle \$50,000,000 worth of automobiles and to organize a banking syndicate to pay off \$100,000,000 in Russian bonds floated by the former Czarist regime and by the Kerensky provisional government. Lenin and Trotsky, he said, had not repudiated this obligation although empowered to do so by the congress of Soviets.

Dudley Field Malone, former collector of the port of New York, whose name was introduced at the hearing yesterday by Martens, appeared at the session. He informed newspaper men that he had not been asked to pay opinion to address the committee in order that he might "clear" his name.

He admitted he had received \$1,000 from Martens. This he said, had been for professional services rendered when he had examined contracts which already had been placed by the "embassy" with American concerns for purchase of goods to be shipped to Russia.

He said he was glad of this "employment," especially as his fee had been paid quickly, and that he saw nothing wrong in it.

New Bill Provides For Two Irish Parliaments

MOST HOPEFUL SIGN OF AGREEMENT IS SILENCE OF SIR EDWARD CARSON TENDS TO CONCILIATION

London, Nov. 26.—A new home rule bill setting up two parliaments in Ireland, with a council or senate of forty to be chosen by the two, will probably be introduced in parliament within the next two weeks. Daily sessions are being held by the cabinet committee in charge of the measure, the subject under discussion at present being finance, which is in charge of a sub-committee under the chairmanship of J. Austen Chamberlain, chancellor of the exchequer.

Control of customs has always been a point of sharpest difference when other home rule schemes have been debated and was one of the rocks on which the Irish convention was shipwrecked. Control of police is another knotty point.

The most hopeful sign of an agreement is the silence which Sir Edward Carson, the Ulster leader, has preserved since the latest Irish kite was flown. Sir Edward has not issued any mandates to the Ulster volunteers "to keep their powder dry," while the presence of two hitherto staunch Ulster leaders, Walter Hume Long and Baron Birkenhead, on the committee against Ulster is tending toward conciliation.

TRIED TO SELL \$300 COAT AND WERE ARRESTED

Actor and Wife Held Under \$1,000 Bond for Theft

While trying to dispose of a \$300 mink coat in Waterbury yesterday afternoon, Henry and Joyce Bier, of 118 Clinton avenue, Hoboken, N. J., were arrested by Detective Jack Gerrity, of this city, charged with stealing the garment from Helen McCarthy, of 1048 Main street.

The man and woman were arraigned in the City court this morning on charges of theft, and the case was continued until Saturday. Bonds were fixed at \$1,000 for each prisoner.

The couple became acquainted with Miss McCarthy about two years ago, when they roomed at her house. Monday afternoon they called on their former friend, and Mrs. Bier became infatuated with a mink coat which Miss McCarthy recently purchased. While the woman kept her hostess' attention in the kitchen, Bier secured the mink coat and left the house.

Proceeding to Waterbury Mr. and Mrs. Bier attempted to sell the garment, but only succeeded in arousing the suspicions of the Waterbury police. A telephone call to Bridgeport summoned the local police, and Detective Gerrity placed the couple under arrest a short time later. They were brought back to Bridgeport last night.

Bier claims to be 19 years old, and says he is an actor. He has played in vaudeville in this city. His wife gives her age as 16, and is also said to be a vaudeville performer.

Washington, Nov. 26.—A definite and final statement on behalf of the government in the coal wage controversy will be made to the operators and miners late today by Fuel Administrator Garfield.

While neither Dr. Garfield nor members of the cabinet would say what the cabinet's decision was, it was reported that the fuel administrator had won his point for an increase of from 20 to 25 per cent in miners' wages as against the 31 per cent proposed by Secretary Wilson and agreed to by the miners.

Steps to meet the situation until something like normal production had been restored were under consideration by the fuel administrator's central coal committee, with an order prohibiting the manufacture of coke designed as the first move in the nation wide campaign.

The controversy in the cabinet centered around the proposals of Fuel Administrator Garfield that in computing wage increases the advances made to all miners in the central competitive field be taken into consideration and of Secretary Wilson that the increase to pick miners be the basis.

Mr. Wilson's proposal was supported today by John L. Lewis, acting president of the United Mine Workers, who said the calculation of wage advances since 1913 should be based on rates throughout the country and not merely in the central competitive field.

Pick mining has been taken as a basis of every wage contract, including the 1917 Washington agreement, Mr. Lewis said. Taking issue with the operators' statement that only 20 per cent of the miners in the central territory use the pick, Mr. Lewis said the number of men in Pennsylvania, Ohio, Indiana and Illinois on the pick and machine work were practically equal.

In the country as a whole, he continued, about 45 per cent of the total tonnage produced is dug out with a pick, but as high as 60 per cent of the total number of employees are on pick work. This disparity was due, he said, to the high productivity of machine methods.
