

DEATH TOTAL FROM LONDONDERRY HAS NOW REACHED EIGHT

TROOPS PROTECT PRINCIPAL STREETS—ASSISTANT DIRECTOR OF ROYAL IRISH CONSTABULARY AND FOUR CONSTABLES ARE ATTACKED WITH GUNS AND BOMBS.

Londonderry, June 22—(By the Associated Press)—Civil war continued today with one more death, bringing the total to eight. Troops were protecting some of the principal streets, but firing terrified the citizens and kept them indoors. General suffering was expected if deliveries of food-stuffs were not resumed soon.

Mall from the morning train was taken to the postoffice by a military escort, but was permitted to remain there undelivered, as the postmen feared to venture on the streets. Cross-channel sailings were suspended. Several boats lay in the harbor awaiting an opportunity to discharge, which was impossible with firing going on about the docks.

Sandbags and other barricades were thrown up by the Unionists and Nationalists. The rival factions marched about carrying arms openly. One crowd wrecked a saloon on the water front and what intoxicated the crowd did not drink were thrown into the street. The crowd dispersed after the police had charged several times. William Kane, who died an hour after being shot, stated he was held against a wall by a man and shot. Two non-combatants who were proceeding along the street were shot. The funeral of Edwin Price, who was killed Saturday night, was held today. He came from the United States to join an Ulster regiment during the war.

Dublin, June 22—An automobile carrying the assistant director general of the Royal Irish Constabulary and four constables was attacked with revolver fire and bombs while enroute from the Amiens Street Station to

Dublin Castle today. Assistant Director General Roberts was severely wounded in the head by a bullet, and the driver of the car was shot in both legs. No arrests were made. The motor was met with a fusillade of bullets when passing under a railway bridge, but the badly wounded constable driver continued at the wheel until an uninjured companion returned the fire. After the shooting had gone on for some time the assailants threw two bombs.

A railway strike now is regarded as inevitable. Most of the Irish companies hitherto have turned a blind eye to the refusals of the men to handle munitions trains and thereby avoided a strike, but Premier Lloyd George's attitude makes it plain the government will press the companies to accept munitions traffic and as the men outside Ulster will not handle munitions and troop trains, a conflict is looked for.

A driver of a train which was stalled at Cloughjordan because the railwaymen refused to take it further with armed policemen aboard, has been summoned to Dublin and the expectation is that this action will lead to trouble.

Some leaders of railway workers here declare the premier's attitude is a "bluff" and that the government is too afraid of English labor to give it effect. The railroad workers' refusal to run munitions trains now extend to the point of declining to carry either soldiers or police and even rifles.

Food difficulties attending the strike would affect England which gets enormous supplies of Irish produce while Ireland is self-supporting. An authoritative contradiction is given to the widely published statement that the government contemplates a general round up of Sinn Feiners and extensive operation of martial law. Raids and arrests will only be relative to specific crimes.

Earthquake Leaves Disaster In Wake

Los Angeles, Cal., June 22—A survey today of the damage done by an earthquake last night indicated that Inglewood, ten miles southwest of here had suffered severely.

Twenty-one business buildings were destroyed there, the town was a tangle of light and gas and scores of dwellings were seriously damaged. Many plate glass windows in Los Angeles were shattered, several buildings were otherwise damaged and persons were injured by bricks shaken from chimneys.

San Pedro, Long Beach, Santa Monica and Venice reported minor damage. The death of William Shipley of Los Angeles, a beach resort, was attributed to the earthquake. He jumped from an automobile after the tremor and fell dead from heart disease.

The shock which caused the damage was followed by three slighter tremors. The front walls of the Inglewood hotel, a theatre, an undertaking establishment, a real estate office, three grocery stores, the town was a tangle of light and gas and scores of dwellings were seriously damaged. The steeple of the Episcopal church toppled into the street and the buildings occupied by the Citizens Savings bank and the First National bank of Inglewood, virtually were destroyed.

DRUGS WORTH \$250,000 SEIZED

New York, June 22—Drugs worth \$250,000, two revolvers, a sword and a club were confiscated by the police in raids today on two dwellings in Brooklyn. The drugs were purchased from crews of vessels arriving from Europe and that large quantities were sold in Philadelphia.

SHRINE SESSION ON IN PORTLAND

Portland, Ore., June 22—The imperial shrine session opened today with a prospect for fair weather and with the city crowded with shriners from every section of the nation. A parade was scheduled for this afternoon with the city band, a patrol and marching organization in line. The imperial potatoes' ball will be held tonight.

STRAUS VISITS SEN. HARDING

Washington, June 22—At the invitation of Senator Harding, Oscar Straus, prominent in the League to Enforce Peace and a supporter of Herbert Hoover at the Chicago convention, conferred with the Senator today. Mr. Harding also had an engagement to meet a delegation of women suffragists from fifteen states, who planned to urge him to exert his influence to obtain final ratification of the suffrage amendment.

TO CALL STANLEY ON BILL OFFICIALS WATCHING STRIKERS

Loewith Says He Must Give Explanation.

John C. Stanley, president of the Board of Police Commissioners, will have to make some explanation to the sub-committee on police affairs of the Board of Apportionment before the \$17,000 requested by Mayor Wilson to pay the Burns detectives, is arranged for by the Board of Apportionment, according to Sigmund Loewith, senior member of the board, this morning. "We have been unable to locate Mr. Stanley," said Mr. Loewith, "and we want to have a talk with him in relation to where the \$17,000 is to come from. We are told Mr. Stanley is out of town. The Board of Apportionment adjourned last week subject to the call of the chair and there will be no call until Mr. Stanley is seen."

Mr. Loewith suggested at the last meeting of the board that the \$17,000 be taken from the police department appropriations. This could be done, he said, by transferring money appropriated for new policemen. Twenty-four were asked for and the money was provided, but now that there is a shortage of money he believes the money could be obtained by postponing the appointment of new policemen.

The mayor when he made the request for the \$17,000 asked that funds of the Department of Public Works be transferred so the bill could be paid, but the members of the Board of Apportionment are opposed to his plan. They believe the money will have to come from the police department.

REPORT ON ROOMING HOUSES

Sanitary Conditions Are Found To Be Very Bad.

In an investigation conducted into sanitary conditions at the Spanish rooming and boarding houses in 313 State street, yesterday afternoon, C. Howard Dunbar, chief of the Sanitation Division of the Board of Health, submitted a report of his findings at the above place in a fifth condition. There are only two baths to meet the needs of the 40 men. There is no hot water in the building and the dishes are washed in cold water which is claimed by health officials to be very unsanitary. The ventilation throughout the entire building is very poor and reeks with bad odors. Many of the men have been in the habit of expectorating on the floor.

A general cleanup has been ordered by the Department of Health officials. According to Chief Dunbar's report he found that there were 40 roomers being quartered in the double house and seven women, two of whom are married and five unmarried. The women are employed as waitresses and some of the roomers who also board here. The women live in the same building as the men. The proprietor of the place is Jose Vines.

The house which is a two-story brick building is divided into two separate tenements. There are two rooms on the ground floor and four on the second floor. In one of the rooms on the second floor there are five men sleeping in the one room. There are no toilets on the ground floor and only one to each tenement on the second floor. Both toilets were found to be in a filthy condition. There are only two baths to meet the needs of the 40 men. There is no hot water in the building and the dishes are washed in cold water which is claimed by health officials to be very unsanitary. The ventilation throughout the entire building is very poor and reeks with bad odors. Many of the men have been in the habit of expectorating on the floor.

HADLEY OUTLINES REORGANIZATION

Readjustment of Fraternity System Presents Difficulties.

New Haven, Conn., June 22—Yale Alumni in East Chapel today heard from President Arthur T. Hadley many details of reorganization of the various departments and their future effect. Right Rev. Frederic W. Keator, '30—Bishop of Olympia, Washington, presided at the meeting.

President Hadley said that the year just closed had been a successful one in spite of cost of living, mental unrest which followed the war and the many problems of reconstruction. The college course has been changed more than the student personnel. To President Hadley's mind the most gratifying feature of the new system of a freshman faculty and a common course of freshman studies was that it gives the faculty members opportunity for advancement.

Mr. Hadley went step by step through the readjustments in courses. He mentioned material and physical changes in the university plant, and in many ways reviewed for the graduates his stewardship of the year.

Contradictory Reports on Men Out and Effect on Freight.

Washington, June 22—Strikes of railroad employes are being watched closely by government officials but they are relying upon the recognized union heads to bring about the return of the strikers.

Philadelphia, June 22—Railroads and striking yardmen today made contradictory claims as to the number of men out and the effect of the strike on freight. Strike leaders declared that 4,000 men on the Pennsylvania, the Reading and the Baltimore and Ohio were idle and that freight traffic, especially in the Pennsylvania and Reading yards, virtually was at a standstill. Embargoes on all except perishable freight and coal for public utilities were in effect on all three roads.

The Pennsylvania and Baltimore and Ohio declared all their yards were operating nearly 100 per cent. normal. The Pennsylvania yesterday said, 1,151 employes were out but that there was no weight congestion in its yards. The Reading claimed only four hundred men had quit while the Baltimore and Ohio reported a negligible number out.

Several nearby towns reported accession to the ranks of the strikers today, including several hundred freight handlers at Norristown. Strike leaders declared a general walk out would result on Friday unless the railroad movement was handed down a satisfactory decision.

William J. Tracy, state mediator, said he would offer to mediate whenever a favorable opportunity appeared. Governor Spang planned to discuss the strike today with officials of the state department of labor.

The railroad strike apparently has been checked in this city, although strike leaders say a big walkout will come on Friday. According to railroad officials, some of the strikers returned to their posts today and there was a slight improvement in the movement of freight.

Baltimore, June 22—An official of the Pennsylvania Railroad estimated today that between 35 and 40 per cent of its striking yardmen were back at work, while the Baltimore & Ohio reported that 60 per cent of its men were still out.

New York, June 22—Although the new railroad strike has spread to the southern section of New Jersey, to Syracuse, N. Y., and New Haven, Ct., most railroad managers here declared today that they did not believe the movement would affect New York City to any great extent.

Edward J. Armstrong, chairman of the Eastern Railwaymen's Association, predicted, however, that the strike eventually would reach this city. He said a meeting of the association would be held tomorrow in Jersey City to consider plans for combatting the walkout.

HIT BY TRUCK DIES INSTANTLY

Michael Jankura Knocked Down While Playing Ball.

John Jankura, 25 years old, of No. 112 Bell street employed at the Salt's Textile plant was instantly killed while playing ball in the road on Kossuth street near Seymour street when he was struck by an automobile truck that was being towed by another truck from the Kossuth street.

Jankura in company with two fellow employes was playing ball in the road and after missing the throw ball he gave chase. Evidently he did not see the second truck that was being towed and when he bent over to pick up the ball he was struck by the front wheel of the truck on the head. His scalp was badly lacerated and one of his eyes was nearly torn off. Witnesses turned in a hurried call for the ambulance but when Dr. B. J. Burns arrived he found the man beyond medical attention and removed the body to the morgue.

The first truck was driven by Daniel Wildman of 903 Park avenue and bore the license number 18035. The second truck which was being towed was driven by John J. Brown of 119 Willard street. Both truck drivers were employed by Walter M. Stowe Trucking Co. of 903 Park avenue. Both drivers were arrested and are being held in bonds of \$1,000 each, charged with manslaughter.

FEHRENBACH IS NOW CHANCELLOR

Berlin, June 22—Official announcement that Konstantine Fehrenbach has been appointed chancellor presages the construction of a Bourgeois cabinet.

A coalition of the German people's party with the Clericals and Democrats is expected to thrive because of the "benevolent neutrality" promised by the government's platform will affirm that it proposes loyally to carry out the Versailles treaty.

TROOPS ARE ON GUARD

Wounded Officers Are Expected To Recover.

Waterbury, Conn., June 22—Strike conditions here seemed to have taken a turn for the better today. Luigi Scalamano, President of the New England Workers' Association, the body of unskilled workers of the brass factories who have been on strike for ten weeks, issued a notice to the strikers that married men would be permitted to return to work, while single men must remain out.

This action on the part of the one man who has had much authority over the unskilled strikers is expected to decrease the number of unemployed by many hundreds. It may have no immediate effect, however, on the strike of the machinists in the factories. The latter are now receiving strike benefits and claim to be able to stay out indefinitely.

There were no gatherings on the streets near the factories this morning and an observer would not note anything out of the ordinary, except that at several places state guardsmen were on duty. The entire city battalion of the guard was still on duty, being called upon for night for protective service. Details were at the armory, around the electric light plant, and at the municipal buildings. The rest were held in reserve at the armory.

There have been no street disturbances or striker gatherings since the one at noon yesterday in which shots were fired. A hospital bulletin this morning stated that the condition of Police Lieutenant Richard LeRoy and of Lieutenant John J. Bergin of the Scovill Co.'s force was much improved. Both men are expected to recover. They were shot in the riot. Half a dozen other persons were treated at the hospital for injuries caused by flying missiles, and it is thought that a large number of strikers were attended by their fellows for minor hurts.

Liberto Liso, the man alleged to have shot both Lieutenant of Police Richard LeRoy and Lieutenant John J. Bergin, denied having shot either of the police officers, in an ante-mortem statement made to Coroner John T. Monzani, at St. Mary's hospital yesterday. He did admit, however, that he had a gun and that he fired some shots in the air. When brought to the hospital Liso wore a holster attached to his belt. He stated to the coroner that his gun was shot out of his hand. This statement was corroborated by the fact that a bullet hole was shattered in the left side of his right hand, and the handle of his gun was broken as the result of a bullet having hit it.

Also told Coroner Monzani that when the police started to move the crowd yesterday one of the policemen pushed him and he took out his gun and shot into the air. The police place little credence in the ante-mortem statement, saying they have positive proof that Liso cut LeRoy and fired at Bergin.

Seven men alleged to have taken part in yesterday's rioting were before the police court today, charged with assault with intent to murder. They were fined at \$10,000 in each case and all cases were continued until Friday.

PEOPLE ARE FOR THIRD PARTY

Borah Asserts Move Is Being Watched Keenly.

Salt Lake City, June 22—There is a growing desire among the people of the United States for a new political party and any movement in this direction will be watched with keen interest, declared Senator Borah of Idaho, Republican, who was a visitor in Salt Lake City today on his way home for a vacation.

He attended a mass meeting given under the auspices of the Committee of 48 but declined to make any statement before the audience. "The success, however, of any third party," he said in his statement, "depends entirely upon the platform it adopts and candidates it places in nomination. It is a difficult matter to successfully launch a party as the slightest mistake in the beginning marks the doom of the venture. If those advocating another ticket lean too far toward either the reactionary or the radical their efforts will prove futile in spite of the fact that the present is the opportune time offered in many years for breaking away

JUDGE GRANTS THREE DIVORCES

Judge Howard J. Curtis in the Superior court today granted decrees of divorce to Lillian J. Olsson from Walter Raymond Olsson from the grounds of intolerable cruelty. To Blanche M. Malinowski he granted a divorce and custody of her six year old son, from John Joseph Malinowski on the ground of intolerable cruelty.

On the ground of infidelity Judge Curtis gave Henry B. Garrison a divorce from Winifred E. Garrison and in the case of Francisco Aurichio against Raziella Aurichio he dismissed the complaint on the ground that the plaintiff had not proved jurisdictional facts.

ASSERTS MCADOO TO BE NAMED WITH OR WITHOUT CONSENT

FEW DEMOCRATIC CHIEFS YET AT SAN FRANCISCO—DISCUSS ELEMENTS THAT WILL SHAPE PARTY PLATFORM—RUMBLE OF "WET" AND "DRY" MANOEUVRES.

Kansas City, Mo., June 22—Burriss A. Jenkins, clergyman and newspaper publisher, issued a positive statement today that the name of William Gibbs McAdoo would be placed in nomination before the Democratic convention in San Francisco with or without his consent.

Doctor Jenkins had been selected to make the speech before Mr. McAdoo issued a statement declining to allow his name to be placed before the convention. "Whether I nominate Mr. McAdoo, or whether someone else does," Dr. Jenkins said today, "this matter is certain—his name will be placed in nomination at San Francisco."

Dr. Jenkins said that he had been informed by Thomas B. Love, Democratic national committeeman, from Texas, who yesterday travelled across Kansas with the Alabama delegation to the national convention, that eighteen out of the twenty-four members of the delegation insisted that the name of the former secretary of the treasury should be laid before the convention.

New York, June 22—W. G. McAdoo today wired Burriss A. Jenkins, Kansas City clergyman and newspaper publisher, requesting that his name not be suggested for the Democratic presidential nomination. The message was sent on receipt of news that Mr. Jenkins had announced Mr. McAdoo's name would be placed in nomination at San Francisco with or without his consent.

San Francisco, June 22—While hotel lobbies began today to take on the appearance of a national political convention, only a few of the Democratic chiefs who will figure prominently in the party's quadrennial gathering next week had reached the city. Preparations of the municipal auditorium for the convention was well advanced but there was much discussion as to elements that would be involved in shaping the party platform and there was strikingly little talk about candidates.

ANNOUNCE DRIVE AGAINST RADICALISM

Washington, June 22—Armed with broadened powers provided in the recently enacted alien exclusion act, Department of Justice officials today announced a new drive against radicalism.

Orders have been issued for a strict watch on the activities of those who preach radical doctrines or assist in spreading such theories while themselves refraining from actual anarchistic activities. The "theoretical" and the "parlor Bolsheviki" are to be especially objects of the campaign. Provisions of the new act have greatly widened the scope of the department's power to rid the country of aliens who stir up discontent with guarded revolutionary doctrines.

Advocacy either of sabotage or opposition to all organized government by aliens of their organizations is sufficient to bring them within the new law, according to the department's legal authorities. Sabotage in this connection is construed by the department to mean opposition to the administration of the government, and aliens who publish writing advising against organized government are liable to deportation, it was said. The financial resources of radical associations are being carefully scrutinized, officials declared and it was thought that the income of many will be cut off by the new law which prohibits the giving or loaning of money to anarchistic organizations. Purchase of "red" bonds will come within this category, it is believed.

RETURNS FROM WESTERN TRIP

Seward B. Price, executive secretary of the Chamber of Commerce, returned last night from a five weeks' trip in the Middle West where he was on a committee that has been working on the National Public School problems.

Following a conference in Washington called by Philander C. Claxton, Chief of the National Board of Education, to discuss the school crisis, Mr. Price in company with other members of an executive committee made a tour of the larger cities of the Middle West and made a study of the existing conditions in the various cities. Of the 722 cities in the country that were invited to join in the study of the school problems, 300 have taken the first step in the campaign by submitting reports as they found them in their towns.

In a comparison of this city and other cities of similar size in the west, Mr. Price said that Bridgeport is woefully lacking in commercial civic organizations which should not be, as Bridgeport has advantages that should create the feeling of bigger, better and busier Bridgeport.

WOUNDED MAN RESTING EASILY

Broulx Suicides After Shooting Police Inspector.

Waterbury, Conn., June 22—Police Inspector John H. Donahue, who was shot by Arthur Broulx of Biddeford, Maine, last night while in the police station, was resting easily at the hospital today. His wound is a serious one. Broulx killed himself after wounding the officer.

The two men with Georgianna Rheame, who Broulx said was his wife, were in the police station together after an investigation by the detective department into a complaint by Broulx that the woman had taken \$500 from him. She denied Broulx's accusation and there was an exchange of words during which the man menaced the woman. Inspector Donahue moved to protect Miss Rheame, when Broulx drew a pistol, shot the officer, shot at and missed the woman, and then killed himself with a bullet in the head.

Broulx upon demand, during the argument, produced a certificate purporting to show his marriage to Miss Rheame, although it bore the name of Aurora Boudain, and was dated at Biddeford in 1914.

TRADE BALANCE IS 17 BILLION

Washington, June 22—(By The Associated Press)—Since the beginning of the war in 1914, the United States has rolled up a trade balance of approximately seventeen billion dollars against the world. This exceeds by several billions of dollars the total balance in favor of the United States from 1875 to 1914.

Department of Commerce figures today show that the trade balance in favor of the United States in the fiscal year ending June 30, 1916, it was \$2,125,559,375. During the preceding year the total was \$3,530,693,209.

PHYSICAL TEST NOT NECESSARY

School children between the ages of 14 and 15 who wish to work during the summer vacation are not required to pass a physical examination before they can be employed, according to Health Officials of the city. The Bureau of Health officials has been flooded with applicants during the past two weeks who were misled into thinking they must pass a physical test before going to work. All that is necessary for them to do is to obtain a working certificate from C. N. Hall, the local agent of the State Board of Education which does not call for a physical examination at the Welfare Building.

They must, however, secure a birth certificate at the Vital Statistics Bureau after they have made application to Mr. Hall. Those children between the ages of 14 and 16 who are looking for permanent employment must pass the physical test given at the Welfare building and be classified as to the nature of the work they are fitted for.

During the month of June there has been about 60 of the latter applications made which is below the average of other months when they run from 80 to 100 made. The yearly average of children who go to work between the ages of 14 and 16 is 5,000.

Three local nightmen who were arrested last night for overcrowding their machines had their cases nolledd upon the payment of \$2 in the City Court this morning. The men are, Ermino DiFazio, of 89 Lindley street, Peter Petro, of Park avenue and Louis Narkewich, of 1144 Hancock avenue.
