

point is this: By their communication they attempt to mislead the public. Every single individual among them is a Democrat of the most virulent type, and have always been such.

Here where these individuals are known it would be regarded as a strange freak of nature if they were always true to their principles, unless it is one of the schemes to bolster up the sinking fortunes of the Indiana Democracy.

It is not surprising that more such stuff from the same class of men, the Republicans will carry Kosciusko county by 1,500 majority for Harrison, Morton and protection.

The Difference.

"England and Wales with 27,000,000 population, with free trade and the markets of the world, had, in 1880, 87,940 paupers kept at the public expense. United States, with 50,000,000 population, with protection and a splendid home and a respectable foreign market, had, in 1880, 88,000 paupers kept at the public expense.

Alleged Political Favoritism.

Indiana's leading business men have been compelled by the city prosecutor to remove the names of men and firms who were removed from the handsome cloaks of two or more Washington street merchants.

Blaine's Optimum.

Between you and me, Sumner, I am inclined to believe that the world is getting better and more desirable as a place of residence. It is hard to believe, tolerably healthy and taxes are low.

Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. It is the ordinary kind, and cannot be sold in competition with it.

BUSINESS AND POLITICS.

Mr. Wamamaker Buys Where He Can Buy Cheapest—Higher Protection Wanted. Mr. John Wamamaker makes the following answer to the Philadelphia Record, relating to himself and other American merchants manufacturing and buying goods in foreign countries.

"The only rule governing our buyers is that they must find the best at the lowest price, always giving preference to American manufactures, quality and price being equal.

"For proof of this, the millions of dollars worth of goods that we import annually and the many millions more brought in by other imports, almost all of which could be made in this country.

"These goods are not bought abroad because we prefer Germany, or France or England, but because our workmen will not work as cheaply and do not choose to live in the squalid hovels of the old countries, and, therefore, the goods cannot be made to compete with foreign prices.

"The present protection is evidently not enough, and there wouldn't be all this influx of merchandise. A lower protection is often no better than none, if it is to be of any use.

"Because I want to shut out foreign goods and favor a sufficient tariff to create in this country all we need, I am upon the electoral ticket that stands for higher protection.
