

NO ONE IN NEED OF A NICE DRESS OR NOBBY BUSINESS SUIT, SHOULD THINK OF BUYING UNTIL HE HAS FIRST SEEN THE GRAND VALUE WE ARE GIVING IN MEN'S SUITS AT \$15.00

No one in need of a nice dress or nobby business suit, should think of buying until he has first seen the grand value we are giving in

MEN'S SUITS AT \$15.00

They surpass anything ever shown the people of Hoosierdom at the price. The patterns and styles are too many to even attempt to enumerate; all we would do, is advise you to call and see them. They are made and trimmed with the very best of material, and would cost you from \$8 to \$12 more a suit anywhere outside of our stores. As to fit, our usual Tailor Fit guarantee goes with each sale.

TO-MORROW we will open the straw-hat season by offering 100 dozen Boys' and Children's Straw Hats, slightly damaged by dampness, at 25c. THIS WEEK ONLY we will offer 400 Sailor Suits for little ones, from 3 to 11 years of age, for \$1.93. WEDNESDAY, one day only, we shall offer 100 dozen Unlaundered Linen-bosom, Reinforced front and back white SHIRTS -AT- 37c. each. Not more than three to any one person and none to dealers. See what the same shirt would cost you elsewhere.

INDIANA'S LEADING CLOTHIERS, FURNISHERS AND HATTERS W. T. WILEY & CO. Nos. 48 & 50 North Illinois Street.

GREAT SLAUGHTER SALE Dress Goods, Silks FOR THREE DAYS ONLY. MONDAY, TUESDAY AND WEDNESDAY. We will offer our entire stock of dress goods and silks at great sacrifice prices. We must have more room for our immense stock of wash goods, and have decided to close out our wool dress goods at less than manufacturers' prices. Remember this sale is for three days only. Call early for best selections.

ARITHMETIC. "The Science of Numbers." ADDITION TO OUR STOCK OF KNOWLEDGE IS SOMETHING WE REQUIRE. SUBTRACTION OF THE CHAFF FROM THE SOLID GRAIN REQUIRES COMMON SENSE. MULTIPLICATION OF IDEAS FINDS A BASIS FOR THE DEVELOPMENT OF THE MIND, AND A DIVISION OF OPINION AMONG A BODY OF MEN REQUIRES AN EVENLY-BALANCED HEAD AND A STRONG WILL TO RECONCILE THE DIFFERENCES OF OPPOSING FACTS.

FOSTER & SON Merchant Tailors, 20 N. Illinois St., Bates House. NOW IS THE TIME To get your PICTURES FRAMED from choice Mouldings, in the latest styles, on short notice, at HUNTERS' MART, 94 East Washington Street.

W. T. WILEY & CO. Nos. 48 & 50 North Illinois Street.

FRENCHMEN NOT PLEASED

Action of the Powers in regard to the Exposition looked upon as an insult.

The Foreign Embassadors Will Not Be Present at the Opening, Owing to the Combined Pressure of Germany and the Clericals.

Proposal to Constitute a Court to Decide the Land Tenure Question in Samoa.

An Incident That May Involve Switzerland in a Grave Dispute—Bismarck Finds It Necessary to Secure Help for His Schemes.

THE PARIS EXPOSITION.

France Indignant at the Action of the Other Powers in regard to Its Opening.

LONDON, May 4.—The French officials are in a state of indignation not unshared with indignation at the action of the various powers with regard to the opening of the exposition. Owing to the combined pressure of Germany and the clerical element, even the Belgian minister has been ordered to absent himself from the opening ceremonies on Monday, and the result is that charges d'affaires will represent all the foreign embassies and legations save that of Russia. The wives of all the embassadors and ministers, however, with the exception of the Baroness von Mohrenheim, wife of the Russian ambassador, will witness the great spectacle, including the passage of the President from the trocadero, under the Eiffel tower, to the central hall.

GENERAL FOREIGN NEWS.

Bismarck Secretly Negotiating with Dr. Windthorst for Support of Certain Measures.

BERLIN, May 4.—The ferment of discontent among the government groups has increased since the peremptory closure of the Landtag. The reopening of the Reichstag will be signalled by attacks on the government, in which a number of National-Liberals will join with the Progressives and Centrists. The members of the Landtag expect the new income-tax bill, promised last week, to be the subject of a motion which will be tabled before the adjournment of the House. Prince Bismarck preferred to drop the bill and close the House, being advised that the motion would not be relied upon. Avoiding a simultaneous conflict in the Landtag and the Reichstag, the Chancellor now concentrates his efforts against the opposition in the Reichstag, and is secretly negotiating with Dr. Windthorst. That able tactician is anxious to bargain for the full value of the Centrist support of the government bills relative to the press and the insurance of aged workmen.

THE CONVICTION OF MR. CONYBEARE.

LONDON, May 4.—The Radicals have given notice that they will support the motion to be made in the House of Commons on Monday night by Mr. L. Athery-Jones, Gladstonian member for Northwest Durham, to adjourn for the purpose of interrogating the government regarding the conviction of Mr. Conybeare, a member of the House of Commons, who was recently convicted of a crime which has been delayed by a variety of circumstances. To-day's telegrams, however, indicate that the likelihood of such a motion is very remote. It is believed that progress has been made within the last twenty-four hours. Miles of walks covered with bright-colored awnings have been laid out, and the work on the finished flowers have been planted in every spot available; hundreds of magnificent palms spread their leaves aloft, and acres of grass have been cleared off to the outward appearance very little in the way of preparation remains to be done. The restaurants are all in readiness, and the noted London caterers, Spices & Pond, have dispatched from every special train with hundreds of trained bar-maids to dispense refreshments in five-story houses allotted to the firm on the exposition grounds. The girls are under the immediate supervision of an experienced matron who orders must be promptly obeyed. There will be a number of restaurants in the building, each of a separate grade.

THE SAMOAN CONFERENCE.

The Land Tenure Question and German Demands for Indemnity Considered.

BERLIN, May 4.—A committee of the Samoan conference had prepared the draft of a proposal to constitute a court to decide questions of land tenure in Samoa. The court is to consist of a representative of each of the interested powers and two Samoese. Complications connected with existing tenures threaten to impede progress until the committee relegates the settlement of the questions to be proposed to the court. Messrs. Sewall and Brandeis have been present daily at the sittings. Mr. Sewall proved the untenable character of a number of German land claims, and further showed that the extent of land claimed by foreigners as bought or ceded was in excess of the area of the islands. Mr. Brandeis gave evidence on the validity of the German land titles, and said he desired to be heard on the losses of German planters. The committee declined to consider such losses as involving a question of indemnity. Dr. Kramel, of the land tenure committee, conference, which was accepted. The German representatives consented to the appointment of Mr. Buckingham as American secretary to the conference.

THE HURRICANE IN TAHITI.

San Francisco, May 4.—The news of the terrible hurricane which occurred in Tahiti last March, and which threw down trees and houses, is confirmed to-night by the captain of the schooner City of Papeete, which arrived here this afternoon. The schooner was compelled to put to sea during the hurricane in order to avoid being driven on shore.

MR. O'BRIEN AND HARRINGTON TO BE RELEASED.

DUBLIN, May 4.—Orders have been issued to the prison authorities for the release from jail of Mr. O'Brien and Mr. Timothy Harrington. The Dublin Telegraph says it has authority for the statement that Mr. O'Brien will be released unconditionally. It also says that Mr. Harrington refused to go to London unless in prison garb and closely shaved.

MINERS LOOKED OUT AT EVANSVILLE.

EVANSVILLE, Ind., April 4.—All the coal operators in this city, with the exception of John Ingle & Co. and the Sunnyside Mines, closed their mines against the miners to-day. They said that the miners were taking a reduction of 60 cents per ton for mining. This they refused to do, and operations have been suspended.

LOGANSPORT, IND., MAY 4.—QUINCY A. MYERS, Republican, and WILLIAM F. CULLEN, Democrat, have been nominated for the office of Mayor.

THE TIN-PLATE INDUSTRY.

The Consolidated Chicago Steel Mills Will Attempt to Establish It in This Country.

CHICAGO, May 4.—The consolidation of the North Chicago rolling-mills, the Union Steel Company, and the Joliet Steel Company, it turns out, is intended not only to facilitate the production of all sorts of iron and steel forms, but also to develop a new industry in this country, the manufacture of tin-plate. "We are much nearer the manufacture of tin-plate than people suppose," said Mr. Orrin W. Potter, president of the North Chicago Rolling-mill Company, in the course of a conversation on the subject. "The first steel rail made in America was made in Chicago," said Mr. Potter. "I was present at the ceremony. I expect the first tin-plate turned out in America to be turned out in Chicago, and I expect to be present at the ceremony. The North Chicago Rolling-mill Company, or rather its legal predecessor, made the one, and it, or rather its legal successor, will turn out the other. The difficulties which confront us at the first epoch were not so paralyzing as those which confront it now. It succeeded then, and it will all the more easily succeed."

WILL CAUSE TROUBLE.

The Expulsion of Inspector Wohlgenuth from Switzerland Assuming a Serious Aspect.

BERNE, May 4.—The arrest in Switzerland, and the expulsion from that country of Police Inspector Wohlgenuth, has suddenly assumed a serious international aspect. The Emperor presided at a ministerial council on Thursday, at which it was decided to demand an explanation of the affair from the Swiss government. The North German Gazette declares that Herr Wohlgenuth was sent to the canton of Aargau in the legal prosecution of his duties as police inspector of Mulhouse, and was arrested at the instance of Socialists who were known to be a secret provocateur against the German police. The North German Gazette significantly adds: "The countries bordering on Switzerland must protect themselves against revolutionary efforts, which the Swiss officials both tolerate and promote."

GENERAL FOREIGN NEWS.

Bismarck Secretly Negotiating with Dr. Windthorst for Support of Certain Measures.

BERLIN, May 4.—The ferment of discontent among the government groups has increased since the peremptory closure of the Landtag. The reopening of the Reichstag will be signalled by attacks on the government, in which a number of National-Liberals will join with the Progressives and Centrists. The members of the Landtag expect the new income-tax bill, promised last week, to be the subject of a motion which will be tabled before the adjournment of the House. Prince Bismarck preferred to drop the bill and close the House, being advised that the motion would not be relied upon. Avoiding a simultaneous conflict in the Landtag and the Reichstag, the Chancellor now concentrates his efforts against the opposition in the Reichstag, and is secretly negotiating with Dr. Windthorst. That able tactician is anxious to bargain for the full value of the Centrist support of the government bills relative to the press and the insurance of aged workmen.

CASES OF SUSPENDED ANIMATION.

Dr. Tanner Relates Incidents of Their Occurrence and Savagely Scores Physicians.

CHICAGO, May 4.—Dr. Tanner, the famous faster, is in this city. He is interested in the question of suspended animation, and this led to a conversation with him in regard to the case of the young woman, Wilhelmina Stahl, of Jefferson Park, whose body showed no signs of decomposition when buried yesterday, though according to scientific tests she had been dead ten days. Dr. Tanner said: "There is positively only one sure test of death, and that is decomposition, and an advanced stage of that. Any other test applied by a physician is absolutely untrue, and proves nothing. I have seen a doctor who had been waiting on Miss Stahl until the tibial artery to show the relatives that circulation had stopped, and to prove conclusively, as they supposed, the death of the patient. Well, now, if that girl happened to have been in a trance—as we say, suffering from suspended animation—how long, so soon as she revived she would bleed to death in a few minutes, and the doctors who perpetrated that, and who were so sure of their own infallibility, I take it that I may say on this subject would have little weight, because the enlightened public is aware of the utter unreliability of the tests which a person is dead. The cases of suspended animation in which the facts were discovered too late are entirely too numerous to mention. I have seen a case here, this young woman in Jefferson Park, who had been apparently dead nine days, and still no sign of decomposition appears. It will be easy for President Harrison to see that it is from some cause decomposition has been kept off. Life is all that would do that outside the use of embalming fluids, which are now used around the world. Here, this young woman in Jefferson Park, who had been apparently dead nine days, and still no sign of decomposition appears. It will be easy for President Harrison to see that it is from some cause decomposition has been kept off. Life is all that would do that outside the use of embalming fluids, which are now used around the world. Here, this young woman in Jefferson Park, who had been apparently dead nine days, and still no sign of decomposition appears. It will be easy for President Harrison to see that it is from some cause decomposition has been kept off. Life is all that would do that outside the use of embalming fluids, which are now used around the world. Here, this young woman in Jefferson Park, who had been apparently dead nine days, and still no sign of decomposition appears. It will be easy for President Harrison to see that it is from some cause decomposition has been kept off. Life is all that would do that outside the use of embalming fluids, which are now used around the world. Here, this young woman in Jefferson Park, who had been apparently dead nine days, and still no sign of decomposition appears.
