TARIFF DETAILS. Progress Made by the Senate Yesterday—Minor Amendments.

WASHINGTON, Aug. 5.—The Senate met at 10 a. m. and immediately proceeded to the consideration of the tariff bill, the pending item being paragraph 107 on page 19, "cylinder and crown glass polished."

Mr. Berry of Arkansas addressed the Senate on the general subject of tariff legislation from the Democratic point of view. Mr. Wilson of Iowa replied to Mr. Berry and expressed the discomfort which he always felt at hearing a Senator discuss a subject in regard to which he had so small an amount of definite information as that Senator evidently possessed in reference to the subject of protection.

On the other hand the enemies of the bill, including the agents or representatives of the beer and whisky interests, are very busy, and to-night they claim that they can defeat the conference report. They say that the least they can do is to secure another conference and kill it.

From the best information that can be gathered, it is believed that a sufficiently large vote will be cast against the bill to secure another conference and kill it.

Four More Battles in Which the Guatemalan Troops Were Badly Defeated.

Such Is the News from Libertad but Dispatches Received in the City of Mexico Give Numerous Conflicting Reports.

SALVADORIAN SUCCESS. Guatemalans Defeated with Heavy Loss in Several Engagements.

LA LIBERTAD, Aug. 5.—Four more battles have been fought by the Salvadorians against the Guatemalan troops within the territory of Guatemala. Eighteen hundred soldiers under the Salvador-General Santiago Contreras made an attack on the artillery of Gen. Cayetano Sanchez, with an equal number of Guatemalan troops, about thirty-five miles from Matucuescuinta, in the department of Santa Rosa, about forty-eight miles from the capital city of Guatemala, the night of Aug. 1.

By daylight the Guatemalan troops had been reinforced by additions from the capital. Gen. Gabriel Barrios, formerly chief of President Barrios's staff, Gen. Contreras saw the Guatemalan reinforcements coming along about four miles away and, hastily rallying the Salvadorians, he rushed to make another attack upon the disabled troops of Barrios. The attack was successful, and the Guatemalan troops were captured by the victorious Salvadorians. The Guatemalan troops now numbered close upon 2,500 men, and the Salvadorians, seeing themselves somewhat outnumbered, made a strategic movement toward a little village called Santa Barbara, captured the place without encountering any resistance, threw up earthworks, entrenched themselves in the city, and dispatched couriers for reinforcements from the Salvadorian territory, within forty miles from the capital of Guatemala.

The principal Salvadorian troops, numbering 6,000 men, under Generals Martinez and Antonio Ezeta, invaded the departments of Jutiapa and Chimalua against General Solares and Teller, defeating them in two battles with heavy loss. The Salvadorian troops are now located on the boundary line between these two departments, about thirty-six miles from the Salvador frontier.

WAR NEWS VIA MEXICO. CITY OF MEXICO, Aug. 5.—A dispatch from San Salvador says that General Treviño, at the head of the Guatemalan revolutionists, has taken Chiquimula, near the capital, and that the loss of this place has obliged the Guatemalan government to concentrate its troops toward the capital.

A Guatemalan dispatch says it is untrue that an attempt was made to assassinate President Barrios, and denies that the revolution is of importance. The dispatch also says that Minister Misener's correspondence has not been tampered with, and that the Minister has for days been in free communication with the United States government.

A special dispatch from Guatemala says the diplomatic corps has offered to negotiate in the interests of peace; that the offer has been accepted, and that it is expected a peaceful settlement will be arranged within a few days. President Barrios says he will not resign, and that he prefers death to surrender. Dispatches received by the Mexican government confirm the probability of the intervention in behalf of peace of the foreign diplomats in Central America.

President Ezeta's only terms are the recognition of his government and the non-interference of other powers in the interior of the government of Salvador. The press in Chiapas frontier are that everything is quiet.

COMMERCIAL EXCITEMENT AND DISQUIET STILL PREVAIL IN BUENOS AYRES. BUENOS AYRES, Aug. 5.—Notwithstanding the fact that the insurrection here has terminated, great excitement prevails throughout the city and the disquiet continues to increase. Senator Lastra, the leader of the party which supports General Mitre, who was formerly President of the republic, has been offered a seat in the Cabinet, but he declines to accept it. It is rumored that a new issue of \$50,000,000 in paper currency will be made. A bill has been introduced in the Chamber of Deputies providing for a forced currency. The national bank has resumed payment. The houses are still closed, and the panic is still in commercial circles continues. The press is forbidden by the government to comment on the crisis. The premium on gold is 209 per cent. The rates of exchange are falling. A dispatch received at Valparaiso says that Dr. Juarez Celman, the President of the Argentine Republic, has presented his resignation to Congress, giving as a reason the political and financial difficulties through which the republic is passing. He has been succeeded, the dispatch adds, by the vice-president, Dr. Pellegrini.

MADMAN'S BLOODY WORK

A Wealthy Vermont Manufacturer Carves Up a Couple of Chambermaids.

NORTH ADAMS, Mass., Aug. 5.—The deed of an evidently insane man startled the occupants of the Mansion House this afternoon, when two of the chambermaids were seriously stabbed by a man who had stopped in the house last night. Screams were heard by the people down-stairs issuing from the second and third stories. On rushing up they found Rosanna Cain, a chambermaid, lying in a pool of blood on the second floor. Proprietor Jos. Ryan hurried up to the third floor. He found another chambermaid, Carrie Halberg, lying wounded on the floor, while the perpetrator stood at an open window preparing to jump out. Ryan sprang forward to prevent him, when he was set upon with a large open knife. A fierce struggle ensued, the madman making several terrible but ineffectual blows at Ryan's breast. Officer Parrow was soon on hand, and his appearance quieted the maniac, and he immediately consented to go with him, saying: "You are an officer. Now I'm safe."

Rosanna Cain was found to be severely and dangerously slashed about the lower limbs. She lies in a critical condition. Carrie Halberg was cut about the legs and arms, but not dangerously. The perpetrator of the bloody deed is Frank Tiffany, aged fifty-eight, of the firm of Tiffany Bros., large knitting-goods manufacturers, in Bennington, Vt., and a member of one of the wealthiest families in Bennington. He arrived in town last night from Onset Bay, where he had been the past few days attending a spiritualist meeting, which doctrine he professes. He obtained a room at the Mansion House, nothing out of the way being noticed about him when he came to the hotel. He was seen to walk him, but without a vest, but nothing more was heard until the fracas this afternoon.

Tiffany claims that they looked him in a dark room, would give him nothing to eat and guarded him with a revolver and had also built a scaffold on the side of the window, and that they were going to hang him. He said he was obliged to use the knife as he was entirely surrounded and had to fight his way out or be killed. Inquiry shows that previous to going to the hotel he had been to stores asking permission to sleep as he was afraid to go to a hotel as the girls always wanted to shoot him.

YOUNG EDITOR'S SUICIDE. I. A. Langdon, of Cicero, Appears at Kokomo in a Dazed Condition and Cuts His Throat.

KOKOMO, Aug. 5.—Last Saturday night a stranger got off the train at this place in a dazed condition. As he could give no intelligent account of himself the police took him to jail. He remained in the same condition Sunday and Monday and nothing could be learned concerning him. To-day he attempted to commit suicide in the county jail, cutting two frightful gashes in his throat and nearly severing his life. Another editor of the paper composing rule that had escaped the observation of the officers when searching his clothing.

The man seemed to recover his senses after his rash attempt, when it was ascertained that his name was I. A. Langdon, of Cicero, Hamilton county, formerly publisher of the "Cicero News." He also conducted papers at Arcadia and Atlanta. Surgical aid was summoned, but it is believed the injuries are fatal. His wife and child and mother came up from Cicero this evening, and are now at his side. Langdon is thirty years old.

WHY CHRISTIAN HAUSER, DEMOCRATIC TRUSTEE AT LA PORTE, DROWNED HIMSELF TWO WEEKS AGO.

Special to the Indianapolis Journal. LA PORTE, Ind., Aug. 5.—In making their annual settlement with the different township trustees the County Commissioners to-day discovered a shortage of \$4,500 in the accounts of the late Christian Hauser, Democratic trustee of this (Center) township. The shortage was at once made good by the administrator of the deceased's estate.

Two weeks ago Hauser was supposed to have accidentally drowned himself in Pine lake, near here, but the development of the shortage confirms the suspicion of that time. It is asserted that Hauser used the funds to pay security debts. Knowing that he must soon settle with the commissioners, he chose to commit suicide rather than face the disgrace of not making good what he appropriated.

Many Ejectment Suits.

ST. PAUL, Aug. 5.—Congressman John Lind came to St. Paul to-day on behalf of the settlers around New Ulm, who stand in some danger of losing the lands which many have cultivated for a generation or two. The lands are claimed by the railroad—the Winona & St. Peter and the St. Paul & Sioux City—and there are now a number of ejectment suits against the settlers pending in the courts. In the neighborhood of 20,000 acres of land are involved.

STATE MILITIA IN CAMP. Numerous Heat Prostrations—More Satisfactory Rations—A Little Excitement.

SOUTH BEND, Ind., Aug. 5.—The heat during the time for the parade to-day was very intense, and had its effect upon the entire brigade. The First Regiment suffered most from the heat, and lost five men, three from Company H, of Mount Vernon, and one each from Companies B and C. In the Second and Third regiments only one man was prostrated. None of the cases is considered dangerous, but as a means of precaution all of the sick men have been excused from duty.

The food, which caused so much dissatisfaction last year, is much more satisfactory than it was then. Quartermaster Pope has taken special pains to secure good and sufficient provisions. For breakfast, this morning, coffee, hard-tack, pork, canned-beef, bread, potatoes, baked in the coal, and canned baked beans were served. Dinner was the same, with the addition of boiled rice.

The monotony of camp life was broken this afternoon by an exciting fire. A huge pile of fence-rails caught fire, and the quarters of Company M were in danger of being destroyed. The cry of "fire" went through the entire camp, and soon five hundred men were on the scene. The fire was extinguished with but small loss. Guard duty in the P. M. is a mere formality, the officers having placed the men on their honor not to violate the rules. After that hour the strictest silence is maintained. Company C, First Regiment, of New Albany, is the largest in the camp, numbering fifty-seven men.

TO COLONIZE NEGROES. J. Milton Turner Deals with Very Large Figures in Dilating Upon His Mexican Scheme.

ST. LOUIS, Aug. 5.—J. Milton Turner, an attorney, will leave for New York to-day to arrange the details of his plan for colonizing negroes in Mexico. He says the plan is being promoted by a firm of coffee-dealers in New York who have a capital of about \$5,000,000. "The purpose of the firm," he said yesterday, "is to put the negroes to raising coffee and sugar. They own about 21,000,000 acres of land, which will be divided among the colonists. No rental will be charged for the land and the firm will furnish a means of support for the negroes till they can get their grounds under cultivation and become self-sustaining. They are willing to spend \$2,000,000 to receive a large number of applications from negroes who are anxious to go. These applications come from all parts of the country."
