Coming Commencement Exercises at DePauw—Personnel of the Ball Team—Gossip from the Leading Colleges of the State.

DE PAUW UNIVERSITY.

Programme of Commencement Exercises—Last Week's Social Gatherings—Base-Ball. Special to the Indianapolis Journal.

GREENCASTLE, April 17.—The ensuing commencement exercises at DePauw University will possess a number of interesting features. The exercises will begin Saturday evening, June 4, with the graduating exercises of the preparatory school. On the following day (Sunday) Dr. John will deliver his baccalaureate sermon, to be followed in the afternoon by the university address of Chancellor C. N. Sims, of Syracuse (N. Y.) University. The regular Sunday evening exercises of the Indiana Methodist Historical Society will close the exercises of the day. Monday, June 6, Dr. Buchtel, of the class of '73, will address the music and art schools. The festival of the School of Music will take place at night. Tuesday will be class day. The planting of the class ivy in the campus will also take place on that day. Addresses will be delivered before the law and theological schools, the latter by Dr. Ford C. Iglehart, class of '67. The class of '67 will hold its reception at 9:30 P. M. Wednesday, June 5, with the alumni and Columbian day. The Columbian bowler and tree will be planted with appropriate exercises. The alumni jubilee will be held in Meharry Hall, at the residence of Dr. Hagan, of the class of '45. President John will then confer the university degrees. Over fifty men and women will bid adieu to college life.

Numerous social gatherings and receptions mark the advent of more inviting weather. The Delias gave a very enjoyable party, Friday evening, in the hall, which was attended by the following named ladies: Misses Lino, Bayse, Kato and Marie Polk, Jennings, Clearwaters, Jacques, Hart, Bennett, Neal, Gertrude, Mikos and Mrs. Wilkerson. The Sigma Chi gave a reception the same evening, at their hall, in honor of Misses Fielding and Cayler, Indianapolis. The Gamma Chapter of Alpha Phi fraternity will receive their gentlemen friends on the evening of the 20th, at the residence of Dr. Bassett. Invitations are also out for a reception at Women's Hall, to-morrow evening, to the junior and sophomore classes. The Theta Alpha Club was entertained yesterday afternoon by Miss Kate Hammond.

Ford ranks next to Greencastle in the number of students enrolled at DePauw. Miss Lou Concher, who has just returned from the Missouri school, makes the fifteenth person, nine of the number being members of that school. It is proposed to hold a reunion of all Indiana students who are residents of Peru in this city on the 7th of May. Representatives are expected from nearly every college in the State. The national convention of the Phi Kappa Psi fraternity will be held at Cincinnati April 21 and 22. The DePauw chapter will be represented by O. M. Stewart, '92; George B. Lockwood, '94; Ed J. Emmert, Charles J. Downey and Charles Hodel.

Mr. Dorsett, of the Beta, and Mr. Hornbaker, of the Record, are attending the Chicago meeting of the Western College Press Association. The athletic spirit received a fresh impulse from Prof. Waldo's lecture on "Asceticism vs. Athletics" in the evening. The players have been agreed upon by manager Sims and Captain Paule, as follows: Tompkins, McMillen, Minor, Greene, Fulse and Orton. The remaining three will be either Matson, Walker, Whitcomb, Arthur or Watkins. The last of the interfraternity ball games was played yesterday. The Sigma met the Delta with varying fortunes until the last two innings, when the Sigma won by a score of 6 to 3. Monday the Phi Delta defeated the Delta by a score of 10 to 2. The sophomores have challenged the freshmen to a game to-morrow. The Purdue will meet the DePauw club here next Saturday. Professor Goodrich will accept a prize to the best student in composition. Four of the competitors are women.

Several recitals by the DePauw Rowley and Smith are announced for this week. Several members of the music faculty will assist. Miss Rowley will add an illustration of the national character in music. In the theological department the event of the week was the lecture by Dr. Halstead on "The Relation of the Minister to the Social Problems of the Day." Mrs. W. C. De Pauw has made another substantial donation to Florence Hall in the shape of a cabinet of Evansville. J. S. Graham, senior of Northwestern University, Miss Nellie Connor, of New Albany, with Misses Foucher.

INDIANA STATE UNIVERSITY. A New Society of Greeks, Sigma Nu, Has Established a Chapter. Special to the Indianapolis Journal. BLOOMINGTON, Ind., April 17.—The interesting event in college circles during the past week has been the formation of a chapter in Indiana University of the Sigma Nu fraternity. For some time preparations have been in progress, and the new members of the organization made their first appearance in the chapel Friday morning. The names of the charter members are, H. J. Gartner, '92; A. H. Yoder, '93; Frank

Knepfer, '98; C. G. Krauskoff, '93; Frank O. Beck, '94, and H. C. Sampson, '95. This will be the Beta Eta Chapter, and is the fourth active chapter of Sigma Nu. After the chapter was organized the members, with their women friends, were banqueted at the home of Mrs. Miller. A splendid menu was spread, and Charles Cottingham acted as toastmaster, and the following responses were made: "Spirit of Fraternity" A. D. Dorsett; "Beta Zeta," A. M. Bellfield; "The Fraternity," Mary Horn; "Beta Eta," Charles Jakes; "Beta Eta," A. H. Yoder; "The New Venture," Ida Reed. The charter members of the Indiana University chapter are excellent men, and the fraternities join in wishing Sigma Nu much success.

Dr. Ross has received a telegram from President Jordan, of Leland Stanford University, offering him a position in his special department in that institution. It is understood that Dr. Ross has already accepted the position at Cornell. The trustees of Indiana University, a few days ago, offered him \$2,000 per year if he would remain here, but he declined the proposition. The declination contest, and also the contest in oratory, will be held at the college chapel on Saturday, June 4. There will be a number of aspirants in both contests, and there promises to be quite a spirited entertainment. The national convention of the Phi Kappa Psi meets at Cincinnati this week. The Indiana University chapter is to be represented by Sanford Foster and Linneus Hinds, of the class of '87, of this city, who go as an alumni delegate.

Up to the present the enrollment for the spring term shows an increase over that of the winter term of seventy-three new students, and it is evident that before the term closes the attendance will reach five hundred or more. This will make a new building for chapel exercises an absolute necessity, if the students are expected to meet together at any one time. As it is now this is almost an impossibility, and the next Legislature will be appealed to for aid in this respect. Among the new fraternity members the Delta has initiated H. W. Moore, of the class of Owensburg, and E. Spaulding, freshman, of Paoli. The Kappas have initiated Miss Clark and Miss Blanche Wicks. The annual Baldwin prize essay announced a year ago is now due. The subject for discussion is "The Merits and Demerits of the McKinley Land Act of 1890." Indiana University will be represented in the contest by Messrs. Frudenberg and Haggarty, and their productions have been forwarded to the committee for decision. The prize is open to all the colleges in the State.

MOORE'S HILL COLLEGE.

Commercial Students Elect Officers and Adopt the National Colors—Special to the Indianapolis Journal. MOORE'S HILL, Ind., April 16.—The desire for class and special organizations still continues. The latest movement of this kind was the organization last Saturday of the commercial students. There being quite a large number of this class, they deemed it proper to be up with the spirit of the times. The following represents the result of the election: President, Frank Cloud; vice-president, Bertha Robinson; secretary, George Ross; treasurer, Frank Hiatt; critic, Rosa Hazen; reporters, Frank Cottingham, Della Griffith, Charles Reeves. With just loyalty to their country, they have adopted for class colors, red, white and blue, and lest any confusion might occur the word "commercial" is printed on the ribbon. Their purpose is to advance this department.

On Tuesday evening the Photozeteans introduced a new feature in their regular meeting. In order to help those students who are looking forward to the legal profession, a "mock trial" was held, and presented the chief feature of the session. A large number of the newcomers are uniting with one of the literary societies. The Phi Kappa Psi has had six accessions—Mary Dixon, Vansyco, Spence, Berkshire and Summerfruit.

The Phi Kappa on Friday evening installed the following: President, E. A. Wood; vice-president, Frank S. Matby; secretary, John L. Brown; assistant secretary, H. Worth; treasurer, Walter Meeds; critic, Alfred Ross; chaplain, Lucian Harris; sergeants-at-arms, J. C. Wood.

Owing to the large attendance of normal students, the Pedagogical Association starts out with renewed life. Two members of the faculty present subjects to-day. The theologians have not met for some time, but are planning for a meeting in the field of practical theology. They have arranged to hold regular services for the benefit of the poor in the Dearborn county almshouse. The work will be divided among theological and other students by regular rotation, as they shall arrange. Dr. Booth, in the absence of the pastor of the M. E. Church, Rev. Stambaugh, will, two of the students, filled the pulpit morning and evening.

The orchestra is meeting regularly, preparing for commencement. This organization furnished highly acceptable music for the different programmes of commencement exercises last year, and will constitute a prominent feature in this year's music. Next Thursday evening Prof. J. A. Carnahan, principal of the Columbus schools, will lecture before the college students. Dr. J. W. Martin gave his first lecture on "Theory and Practice" Thursday afternoon. Professor Bigney lectured at "Sparta" Friday evening. Friday evening he will lecture at Bellevue. The science and mathematical departments are taking advantage of the spring weather, the scientists in fishing and botanical study, and the surveying class in field work.

CENTRAL NORMAL COLLEGE. The Delicate Class Growing in Interest—Special to the Indianapolis Journal. CURRICULUM TO BE ENLARGED NEXT YEAR. DAYTON, Ind., April 17.—President Joseph gave his sixth lecture on religious last Monday evening to the Christian associations. The special topic was Buddhism. Miss Dorsey lectured before the Oratorical Society on Wednesday evening. Although a member of the faculty for a short time only she is winning warm words of praise. Her class of girls in Delicate is large and her work interesting. There are some changes announced in the curriculum for next year. A professional teacher's course and a philosophical course will be added. The commercial course will be strengthened by a short-hand and typewriting course. Every one is anxiously waiting to hear Riley. The prospects are for a very large hour. Professor Hargrave's eyes are improving, though he must perhaps wear glasses all the time. His eyes were injured, it is thought, by gas while working in his laboratory. His speaking talks to students have been fewer on that account this term and have been much missed. Miss Kate's morning talks from the Scriptures at general exercises are so enjoyed by the most valuable part of the college body. Miss Reynolds will resign her place in the faculty to attend Bible college, preparatory to such work. It is safe to predict a bright future for her work. The senate was formed the first Monday in the term by the scientific class. This is done each year by the class with the best results and smoothest sailing. E. Assistant Superintendent Glascock, class '84, together with another visitor, was here the first of the term. Miss Josie Stewart, of Alabama, will deliver the annual address this year. There are seven Bible classes in the college this term. The law class is the largest in the history of the school. Professor Clark takes a just pride in the class and its work. Frank Wagner contemplates attending the Boston School of Art next year. He is now teacher of the work here.

ROSE POLYTECHNIC. Athletic Association Passes a Rule Against Gossiping Visiting Hall-Players. Special to the Indianapolis Journal. TERRE HAUTE, Ind., April 17.—At a recent meeting of the R. P. I. Athletic Association it was agreed to discontinue "gossiping" of visiting ball-players, and yesterday the new rule was put into practice. No cries or cat-calls intended to "rattle" the visiting pitcher were heard. Cheers and college yells are held to be proper and allowable. Wabash got much applause for a good hit or a double play. Rose has not forgotten the shameful way she was treated at Crawfordsville last year. She is here, but there is no hard feeling. The committee in charge and the "Polys" in general did all in their power to make the visit of the Wabash men pleasant and

WABASH COLLEGE.

agreeable. The teams and positions, not having been mentioned before, were as follows: For Wabash—McClure, 1b; Green, 1. F. Duckett, 2b; Martin, 3b; Johnson, 3b; Wood, c. F. Becker, s. c. Adams, r. f. For Rose Polytechnic—Wenzel, 1b; Wood, 2b; Hadden, p. Rose, 3b; Anderson, 2b; Anderson, c. F. Bailey, s. c. Tinsley, r. f.

Smith umpired for Rose Polytechnic Institute and Erickson for Wabash. Dr. and Mrs. Eddy will be "at home" to the three upper classes Friday evening from 7:30 to 11:30. Prof. J. A. L. Waddell, of Kansas City, a practical engineer and bridge-builder, as well as a teacher, lectured to the senior and junior classes last Monday morning and afternoon. His subject was chiefly bridge construction and designing, illustrated by numerous fine drawings. At a recent meeting of the executive board and officers, some statements were made that created a wrong impression and placed Rose in an unfavorable light before the other colleges. It is but fair that the same be corrected. The matter was brought up by the Wabash delegate, and the executive board and officers had had first place in the events on field day 1890, except the tug of war; that we got the latter because there was no other team to pull against ours, and so we won the championship by a scratch. This our delegate immediately denied, saying that while the tug of war was not held, the other events were held, and we were called on to represent the college here in the championship. As recorded as follows: Rose, ten; Wabash, seven; DePauw, two. If this does not give me a clear title to the championship for field day, 1890, we are anxious to learn what will.

NOTRE DAME UNIVERSITY. All Anxious for the Base-Ball Contest with Ann Arbor Thursday—St. Mary's Paper. Special to the Indianapolis Journal. NOTRE DAME, Ind., April 17.—In consequence of the three most important days in the holy season of Lent, Good Friday, Holy Saturday and Easter, classes were discontinued in most of the courses during mornings of the first two days and visits to the church were made. The passion was read in the refectory on those days, and, as usual, silence was observed at meal time. It is not generally known, but it is a fact, nevertheless, that the university has no spring or Easter vacation. Classes are called and recitations heard, and neither are broken in upon by a week's relaxation for study. A small team, bringing the football to the eyes of parents and students, was recently printed in the Scholastic. The item, which it probably had a depressing effect on a few of the students, no doubt, but it is a fact that the school is doing well for nothing is gained and considerable is lost by the spring vacation.

A student contest in modern history between the classes from Brownson and Carroll halls ended in a victory for the latter. These halls have been exhibiting their ability at hand ball and being almost as good at that as they are in retreating dates and incidents in history, they vanquished their opponents. In the first contest they won by a narrow margin of three-fourths, the general average being 70 to 78. At hand-ball their superiority was an at every stage of the game, and they piled up 300 points while their opponents were struggling to attain 163.

The Rosa Mystica, the paper edited by one of the graduates of the university, St. Mary's, made its appearance last Sunday. It is exclusively the graduates' production, and judging from the commendations bestowed on the present number, occupies the high rank which it occupies in our neighboring institution of learning. The prose and poetic contributions were very creditable.

Nothing is now talked of except the game with Ann Arbor next Thursday. The team has been taking needed out-door practice whenever the weather permitted, and although the men cannot be said to be in condition to play "the game of their lives," they are showing some improvement in the work. It is whispered by some among those who are in the inner sanctuary of base-ball affairs that Ann Arbor will be the victor in the present contest, but never had. On what grounds they put forth such a pleasing picture the boys decline to say. The Michigan collegians, it is understood, are of the opinion that they will lead-pipe chin on the game. They may go back to their college a trifle less light-hearted. Contrary to all expectations, the big hand ball game, which was held Thursday, on account of the religious ceremonies, but will come off next Thursday morning.

BUTLER UNIVERSITY. General Third-Term Gossip from the Classic Halls in Irvington. Special to the Indianapolis Journal. IRVINGTON, Ind., April 17.—The "preps" and "freshies" are all livelier in anticipation of coming class promotions. The seniors, with dreamy visions, wander about humming softly to themselves. They were pleasantly entertained by the Misses Johnston Friday evening. The juniors assisted them to while away the hour, and added greatly to the pleasure of the occasion. The Y. M. C. A. singing, accompanied by visiting students and Professor Wilson, spent Sunday at Bloomington. Irvington's new minister, Rev. Frazer, was tendered a reception at the home of Mr. Thompson Wednesday evening. Literary work in the societies is beginning to revive. Saturday afternoon the Demia Builders held their inaugural. It was well attended and a fine program was given. Next Tuesday evening the Pythonians will follow suit. Prof. John Tuttle, Shakespearean reader from Indianapolis, has been engaged to entertain their friends and visitors.

Professor Grammm has devoted the last two weeks to examination and classification of students in physical training. His system is thorough, and the work is growing in favor among the students. At a meeting of the Athletic Association Friday evening the members of the team, who are back in the championship foot-ball game for the past three seasons, was chosen captain. The team has held every year back in the championship foot-ball game, and their fondest expectations were realized. It was with a feeling of regret that the students learned of Professor Hay's resignation. Professor Brown has been granted a year's leave of absence. He will spend the summer at Crawfordsville, and will return to his school in the fall. Mr. H. Schell, of '90, at present instructor in Irving College, California, will conduct the Greek department while he is away. A two-year theological course has been added to the curriculum.

EARLHAM COLLEGE. Summer School to Be Established, Commencing in June—Saturday Night Lecture. Special to the Indianapolis Journal. RICHMOND, Ind., April 17.—The one great topic of discussion in the college circle the past week was that of Earlham's summer school, which was officially announced last Thursday. The prospect is that a summer school will begin shortly after commencement and continue some five or six weeks. The plan will be one similar to that carried out by all the Eastern institutions in their summer courses. Special attention will be paid to those lines of study best fitted for teachers. There will be a regular instruction in many of the college departments, in order that regular attendance may be made by those who are unable to attend the regular department. There will be a series of daily chapel talks on a programme of bi-weekly lectures. A bulletin making a full announcement of the various programmes is now ready for the printer, and will be in the hands of the public the coming week. Prof. Harriet Farnham, who has been an instructor in the preparatory department for two years, will not be in the college next year. She will sail from New York on the 20th of June, spending the summer in England and Switzerland; then some time will be passed at Leipzig in the study of German and mathematics. The commencement exercises are weighing heavily upon the senior, for it must be completed and handed in by the 23rd of May. Prof. C. W. Hodgins, professor of history, will be absent next year. He will spend his off year in a special course in history and philosophy at Cornell University. During his absence Earlham's chair of history will be filled by Prof. Don C. Barrett. Base-ball has led the campus events the past week. The practice games are disclosing some excellent material among the new students. Maddock, Taylor, Sanders and Mendenhall are among the leaders, and they have a score of good followers. Yesterday afternoon Earlham's old pitcher, W. Martin, was in the box, and pitched a lively game against the second college nine. The senior held his record behind the bat, while Sanders and Maddock made a good showing as battery for the other team. The freshmen contest in declamation will be held the first Monday in May and is in charge of Professor Moncrief. L. C. Hoppel has offered a prize for the best oration on "The Suppression of the Slave Trade," the Great Question of the Day." The prize is offered very late in the year, yet it is possible that some aspiring student may attempt to win it.

WABASH COLLEGE. President Tuttle's Successor Soon to Be Named—Alumni Gossip. Special to the Indianapolis Journal. CRAWFORDSVILLE, Ind., April 17.—The executive committee held a meeting last Wednesday evening, and among other things under consideration was a successor for President Tuttle. There were three names prominently mentioned, and it is likely that one of these will be chosen. It is understood that one of the men resides at Cedar Rapids, Ia. Rev. Joseph F. Tuttle, D. D., president of Wabash College, was born March 12, 1818, at Bloomfield N. J. At the age of ten he entered Newark Academy, and at fourteen his father removed to Ohio, where he lived on a farm four years. He entered Marietta College while Dr. Joel Lindsey was president, and graduated in 1841, the valedictorian. He then entered Lane Seminary while Dr. Lyman Beecher was in charge. In 1843 he was a tutor at Marietta. After one year he was released to preach, and he has since that time been engaged in the ministry. He has held the pastorate of arts he recited his first poem, entitled "The Aztec Sacrifice." In April, 1845, he was ordained and installed pastor of the Central Presbyterian Church at Cedar Rapids, Ia. He remained there two years, and removed to Rockaway, N. J., where he remained two years. He then removed to Susan C. King, at Rockaway, in 1847. He has contributed several articles to magazines, and is the author of several volumes. The commencement exercises were held at D. D. upon President Tuttle, being the first person receiving this degree from the trustees of this college. He was elected president of Wabash in 1861, and en-

WABASH COLLEGE PUREST AND BEST LESS THAN HALF THE PRICE OF OTHER BRANDS + POUNDS, 20¢ + HALVES, 10¢ + QUARTERS, 5¢ SOLD IN CANS ONLY.

tered upon his duties in May the following year. When the war commenced over half the students enlisted, but President Tuttle never once lost hope, and succeeded in bringing up the institution to its present high standard. This being Easter Sunday the afternoon chapel exercises at Wabash College were of special interest. They consisted of Scripture readings of appropriate character, accompanied with music from the glee club and orchestra. The Yanderbijl program last evening, and Prof. J. H. Ransom read a paper on "John Dalton—an Epoch." The Wabash Athletic Association has sixty-five members. The new suits for the base-ball team are of navy blue, with white trimmings and white stockings. The team is composed of good material, and with practice, encouragement and a united effort to make the team a credit to Wabash, this college can carry off first honor.

Frank M. Fox, who is expected to preach by the Crawfordsville Presbytery, J. M. Douglas, '90, was licensed to preach, and E. D. Randolph, '91, has been taken into the pastoral charge of the church. He attended the Union Theological Seminary, Charles Ranch, a Wabash student, is also under the care of the presbytery. The new suits for the base-ball team have been forwarded to the proper officers of the 110 commissioned high-schools in this State, calling attention to a free scholarship for the male graduates having the highest grade in his class, and also to the fact that these graduates are admitted to the freshman class. This makes an annual saving of \$10 to such persons who avail themselves of this offer.

Professor Smith is conducting a series of lectures in chemistry at a Chicago university. Monday evening Prof. A. B. Millford will read a paper on "Beowulf, the Saxon," before the Indiana Literary Association. He will be accompanied by his wife, and they will be the guests of John Cleland and wife, remaining over Tuesday in order to see the wedding of Dr. E. R. Lewis. President Tuttle and H. H. Ristino, treasurer, attended the meeting of the Crawfordsville Presbytery at Rockport Tuesday and Wednesday. The Phi Delta Thetas captured Gerard, Horn, of Marion, is now a Phi Kappa Psi. The Beta Theta Psi gave a dance Friday evening. The glee club will give a concert Monday evening at the Crawfordsville Y. M. C. Hall, appearing in gowns and mortar boards.

PURDUE UNIVERSITY. The Faculty Threatened with Base-Ball Fever—Insecticide and Fungicide. Special to the Indianapolis Journal. LAFAYETTE, Ind., April 17.—Purdue is well pleased with the result of Saturday's game, thank you. May others go away leaving their scalp, as did the Butlerites, is all we ask. Nine members of the faculty, including assistants, are frequently seen on the campus with ball, bat, gloves and other trappings for which the ball-player finds use. Many questions arise as to the meaning of their appearance. Is it to inspire and encourage our column, is it for healthful exercise, or is it an attack of base-ball fever? It has been rumored that they are forming a faculty nine, and will make a desperate effort to outdo the seniors in a five-inning game on field day. J. D. Moore, a graduate of '88, has recently entered to complete a post graduate course in the department of entomology. Professors Anne Van Holland and Winthrop E. Stone will spend their summer in Germany. J. W. Kingdon, who was with us last year, has been elected to an editorship on the Niagara Literary Magazine at Princeton. George Ade, '87, now of the Chicago Daily News, attended the ball game Saturday. J. S. Wright, '92, has been selected as chemist for E. Lilly & Co.'s chemical and drug house, Indianapolis. Flower culture is now a feature of Prof. Troop's classes. He has thirty-five young women with the varieties of the various mode of cultivation, fertilization, etc., of all our greenhouse plants. Such has never occurred here before and it proves quite a success. In the horticultural department they have just planted 125 varieties of potatoes, forty peas, thirty onions, one hundred cabbages and other vegetables. The department is making a special study of insecticide and fungicide, to prevent rusts and rots of fruits.

FACTS FOR THE STIMULATED AND PEPPER. TOPKAY, Kan., April 17.—The Capital today publishes its twelfth monthly mortgage statement taken from the records of the offices of the registers of deeds. The amount shows a decrease in the mortgage indebtedness in forty-two out of the 106 counties reporting, of \$300,067. The total indebtedness, \$1,551,122, or \$400,000 over last month. The net reduction of mortgage indebtedness for the month throughout the whole State is estimated at \$588,000. Reports from 229 counties in 91 counties show the proportion of their stock held by farmers and proportion of deposits owned by farmers. The amount of stock held by the farmers is 15 per cent. out of a total of \$11,284,455. The aggregate deposits are \$21,404,625, of which farmers own \$9,000,273. All banks reporting state that the deposits of farmers during the year have increased to a gratifying extent and many report that they have doubled.

PATTI'S NEPHEW IS SAVED FOR HIS MISTAKINGS. MARIETTA, Ga., April 17.—Alfred Barill, the nephew of Patti, who has returned to his wife to escape the vengeance of Dr. Horne, said yesterday: "I only know that I feel like a school-boy who has just been punished and is glad the chastising is finished. I am happy, though, and Mrs. Barill is too. I am sorry for all that has been done, and shall remain with my family the rest of my days. I am not half so black as I have been painted, and all will be right soon. The net reduction of mortgage indebtedness for the month throughout the whole State is estimated at \$588,000. Reports from 229 counties in 91 counties show the proportion of their stock held by farmers and proportion of deposits owned by farmers. The amount of stock held by the farmers is 15 per cent. out of a total of \$11,284,455. The aggregate deposits are \$21,404,625, of which farmers own \$9,000,273. All banks reporting state that the deposits of farmers during the year have increased to a gratifying extent and many report that they have doubled.

COMMENDABLE. All claims not consistent with the high character of Syrup of Figs are purposely avoided by the California Fig Syrup Company. It acts gently on the kidneys, liver and bowels, cleansing the system effectually, but it is not a cure-all, and makes no pretensions that every bottle will not assist.

FACTS FOR THE STIMULATED AND PEPPER. TOPKAY, Kan., April 17.—The Capital today publishes its twelfth monthly mortgage statement taken from the records of the offices of the registers of deeds. The amount shows a decrease in the mortgage indebtedness in forty-two out of the 106 counties reporting, of \$300,067. The total indebtedness, \$1,551,122, or \$400,000 over last month. The net reduction of mortgage indebtedness for the month throughout the whole State is estimated at \$588,000. Reports from 229 counties in 91 counties show the proportion of their stock held by farmers and proportion of deposits owned by farmers. The amount of stock held by the farmers is 15 per cent. out of a total of \$11,284,455. The aggregate deposits are \$21,404,625, of which farmers own \$9,000,273. All banks reporting state that the deposits of farmers during the year have increased to a gratifying extent and many report that they have doubled.

PATTI'S NEPHEW IS SAVED FOR HIS MISTAKINGS. MARIETTA, Ga., April 17.—Alfred Barill, the nephew of Patti, who has returned to his wife to escape the vengeance of Dr. Horne, said yesterday: "I only know that I feel like a school-boy who has just been punished and is glad the chastising is finished. I am happy, though, and Mrs. Barill is too. I am sorry for all that has been done, and shall remain with my family the rest of my days. I am not half so black as I have been painted, and all will be right soon. The net reduction of mortgage indebtedness for the month throughout the whole State is estimated at \$588,000. Reports from 229 counties in 91 counties show the proportion of their stock held by farmers and proportion of deposits owned by farmers. The amount of stock held by the farmers is 15 per cent. out of a total of \$11,284,455. The aggregate deposits are \$21,404,625, of which farmers own \$9,000,273. All banks reporting state that the deposits of farmers during the year have increased to a gratifying extent and many report that they have doubled.

COMMENDABLE. All claims not consistent with the high character of Syrup of Figs are purposely avoided by the California Fig Syrup Company. It acts gently on the kidneys, liver and bowels, cleansing the system effectually, but it is not a cure-all, and makes no pretensions that every bottle will not assist.

CLEVELAND'S Baking Powder One rounded teaspoonful of Cleveland's Baking Powder does more and better work than a heaping teaspoonful of any other. A large saving on a year's bakings. A pure cream of tartar powder. Used in the U. S. Army and by teachers of Cookery. Cleveland's is the standard, it never varies, it does the most work, the best work and is perfectly wholesome.
