THE START, THE FINISH. Standard books of reference are the first essential in the formation of a library. See the display in our west window.

THE BOWEN-MERRILL CO. DEEP-WELL WATER. All Indianapolis Will be Drinking It Sooner or Later—Three Successful Wells.

The Indianapolis Water Company is greatly pleased with the three deep wells it has recently sunk near the water-zalery. "These wells," said Mr. Heckman, "go down to a depth of 235 feet, and the water comes out of the rock. The three are flowing into the gallery at the rate of two million gallons a day. One of them is a ten-inch well, and the other two are eight inches each in diameter. The water rises in them to within six or eight feet of the surface, and they flow into the gallery at fifteen or twenty feet below the surface, with about a seven-foot head. These wells, at this great depth, are wholly cut off from any chance of surface pollution, being separated therefrom by any number of layers of hard-pan. They were put down by an experienced gas-well driller, and in the fall we shall put down four more, with still more to follow later on. There can be no doubt whatever of the purity of this water supply."

BARTENDER'S TRICK. How He Soothed the Ruffled Feelings of People with Whom He Collided. Last night, about 8 o'clock, a man, driving a buggy very fast down Delaware street, turned suddenly on Massachusetts avenue and ran into a phaeton containing some ladies. The spokes in two wheels were knocked out, and the phaeton came near being upset. The man stopped, came back and was very courteous, saying that if they would have their vehicle repaired and allow the repairer to send him his bill to him he would cheerfully pay all damages, at the same time handing them a card bearing the name of a well-known physician of this city. Just at this time a friend happened by and ejaculated: Hello, what are you doing here, calling the man by his right name. The two friends departed at once in some confusion. A later report locates the courteous citizen of means on South Illinois street as a bartender.

Overcome by Heat. Thomas Sullivan, living at 509 East Georgia street, and employed as a laborer by the Citizens Street-railway Company, was overcome by the heat yesterday afternoon and dropped on the pavement in front of Spiegel & Thoma's factory, on South East street. He was taken to the station-house in the patrol-wagon. Some difficulty was experienced in ascertaining his residence, as he was unable to speak himself, although he made great efforts to do so. Powers & Murphy's ambulance was called and removed him to his home.

FURNITURE at Wm. L. Elder's. Got the Headache? Serves you right! Why don't you drink a pure beer like "Home Brew." On tap everywhere. Bottled only by J. Bos. Telephone 1623. \$3.75—Chicago—\$3.75.

Big Four, World's Fair route. The Board of Safety is considering the advisability of selling engine-house No. 7, on Maryland street, and rebuilding further east, probably near Alabama, where the house would be near the new jail and police station. The old house has not room enough, and the ground is valuable for business purposes.

NO CONFIDENCE IN BAILEY

Board of Works Not So Sure the City Attorney Is Right as He Himself Is. At Any Rate, It Will Do the Sewer Business All Over Again—Wants a Switch on Alabama Street—Other City Affairs. As announced in yesterday's Journal the Board of Public Works held a consultation with City Attorney Bailey yesterday morning before the regular session and decided to rescind all action already taken with reference to the Mississippi, Merrill and Washington-street sewers. Filmer & Seibert were the lowest bidders on two of the contracts and William Bossert on the other, and at noon yesterday they were notified as to what action the board had decided upon. The sewer bids in question were opened one day last week. The three contracts, taken together, will form the biggest amount of public work ever let at one time, by the city, the estimated cost of the work amounting to \$400,000. It was the first time resolutions had been drawn for main sewers under the new charter, and the first work contemplated in accordance with the recommendation of sewer expert Rudolph Hering, of New York. It was a big undertaking, and the preparation of the specifications and resolutions was submitted to City Attorney Bailey. Bids were advertised on the three contracts, and in a few days thereafter the representatives of large contracting firms from all over the country began to flock into the city. They examined the proceedings from start to finish, and on the day when the bids were opened by the Board of Public Works not a single outside company had submitted a bid. The board expressed no surprise, but was doubtless disappointed. That morning it was ascertained that Bruner, Froese, sewer contractors, did not bid because they had been advised in a written opinion by their attorney, Ferdinand Winter, that the preliminary proceedings had been irregular and the work might be enjoined by property-owners against whom an assessment was made. The irregularity pointed out by Mr. Winter was that the resolution did not contain a description of the territory to be assessed, or, at least, there was nothing to show that a description was a part of the resolution. City Attorney Bailey, who claimed all the time that the resolution was regular, yesterday advised the board to rescind its action and begin the work anew, as a wise endless litigation might ensue. Both Filmer & Seibert and Mr. Bossert would have accepted the contracts had they been awarded under the proceedings already had, but believing that they would have come out all right, but they are just as well satisfied with the action taken by the board. Mr. Filmer stated that he had been notified by a property-owner, whose assessment would be heavy, that he would seek to enjoin the work. The board will at once reconsider for bid, and about twenty-five days time will be lost in so doing. The board is now fully impressed with the fact that the plan of assessing the cost of a main sewer provided by the city charter is both cumbersome and costly. Individual notices must be served on each property-owner affected. The assessments must be made in the same manner as condemnation proceedings, and when the main outlet of the sewer system is built every piece of property in the city is benefited and the cost of serving notices will amount to \$10,000 or \$15,000. President Condit thinks an amendment to the charter should be secured as early as possible. A committee has already been appointed to present needed amendments to the charter to the Legislature, and this, among other matters, will be submitted.

Asking for a Switch. Mr. H. T. Conde, of the Conde Implement Company, called on the Board of Works, yesterday morning, to ask permission to lay a switch across Alabama street, from the Big Four tracks to the company's property, on Alabama street. This property, it was stated, had been purchased two years ago, with a view to building thereon a warehouse to cost \$30,000, and at that time it was not known that the city had contracted with the Big Four company to lay tracks on Louisiana street and build the Virginia-avenue viaduct. It was further stated that if the company was not allowed to put in the switch its property will greatly depreciate in value, as it was purchased for the special purpose of erecting a warehouse, and a big price was paid for it. Mr. Conde also said that the tracks of the switch would be made to conform to the grade of Alabama street, and that the grade of the tracks would be so made that it would not be necessary to have engines cross Alabama street; that the cars would either be moved by hand or by horses. The board took the request under consideration.

Will Not Vitate the Contract. The other day the board asked the city attorney for an opinion on its right to enter into an agreement with a property-owner to cut into a pavement, he agreeing to keep the part of the street cut in repair for the time prescribed, and if, in so doing, he would release the contractor from his obligation to keep in repair all the portion of the street not included in the special agreement. His opinion is that the city has such a right, and that it would not release the contractor from his obligations. After the Paving Company. The board yesterday morning sent the following letter to the Western Paving Company: Report is made of the bad condition of the asphalt pavement on the east side of Illinois street, between Washington and Market streets. Holes are in the pavement and water runs into the cellars. You are hereby instructed to make all proper repairs within ten days. The bad condition of the pavement is no doubt due to the standing of hacks on the street, due to the Democratic Campaign.

Improvement Resolution. The board yesterday adopted the following improvement resolutions: For grading and bowldering the first alley east of College avenue, from Lincoln avenue to Irwin street; for grading and graveling the roadway and sidewalks of Holloway avenue, from Valley Drive street to Central street; for grading and graveling the first alley south of Fletcher avenue, from Reid to Williams street.

Throwing Out Bad Material. Last week City Engineer Mansfield condemned 250,000 bricks that were to have been used in the South Meridian-street pavement. They were too soft. He also condemned several car-loads of broken stone intended for the concrete base in the Pennsylvania-street improvement, and some that was intended for Massachusetts avenue. All such material is closely inspected.

West Market. Some months ago notice was served by the owners of the West-market ground upon the city to vacate the premises by Aug. 9. That time has passed but the city has not vacated. The Board of Safety strongly suspects that the notice to vacate was prompted by a desire for a higher rental, and is talking of moving the market to a lot on Washington street, west of California street.

Washington-Street Improvement. Fred Kneller complained to the board yesterday of the condition of East Washington street, from Noble street to State avenue, made by the water, gas and street-railway companies and sewer contractors. Street-sprinkling Inspector Bushong was instructed to ascertain and report the companies responsible for the bad condition of the street.

Muskingum-Street Contract. Yesterday morning City Engineer Mansfield sent to the board a tabulated statement of the bids for the improvement of Muskingum street, from New York to Michigan, and the contract was awarded to the Capital Paving and Construction Company, at \$3.75. There were several bidders. May Sell Engine-House No. 7. The Board of Safety is considering the advisability of selling engine-house No. 7, on Maryland street, and rebuilding further east, probably near Alabama, where the house would be near the new jail and police station. The old house has not room enough, and the ground is valuable for business purposes.

Municipal Notes. The street commissioner was ordered to clean South Alabama street as soon as possible. The street commissioner was instructed to look after the drainage in first alley east of Virginia avenue from Pine street south. Three women called on the board yesterday to ask for the improvement of Fendley-pike. The board cannot improve it, as it belongs to a railroad company. The board ordered the city engineer to prepare papers for grading and graveling the roadway and sidewalks of Chestnut street, from Central street to the city limits. Will Cumback, jr., complained to the board of the condition of the gutters on Alabama street, above Fort Wayne avenue. Referred to the street commissioner. Several names of the new street signs were mentioned about the board's office yesterday morning. They are satisfactory, and the work of getting them out will be pushed.

Messrs. August Tamm and James H. Deane, committee on grounds for the Labor day demonstration, were before the board yesterday, and were granted permission to use Garfield Park on Labor day, Sept. 5. Property-owners representing 1,840 front feet yesterday remonstrated against the improvement of the sidewalks of College avenue from Eleventh to Seventeenth street. They claim that the sidewalks are not needed in the petition. Councilman Kassman was on deck yesterday morning. He complained of the drinking fountain at Washington street and began to look into the city street commissioner. He also called the board's attention to a petition for a sewer in Ohio street and asked for its removal. He says he wants Arsenal avenue improved next year and wants a sewer put in first. It was referred to the city engineer.

PATROLMAN DAVIDSON SUSPENDED. Board of Safety Will Investigate His Shooting of Fields. Patrolman Davidson, who shot Joe Fields Tuesday evening, while attempting to place him under arrest, has been suspended, pending the investigation by the Board of Public Safety, upon charges preferred by acting Superintendent Quigley. Davidson is suspended under Rule 103, which contains among other things the following question and answer: Q.—Under what circumstances may a policeman use his pistol? A.—He should never draw or attempt to use his pistol except in extraordinary cases, such as in the actual defense of his own or another's life, or in the defense of his property, or in active pursuit of escaping criminals, charged with great crimes, as murder, burglary, arson, etc. Q.—Under what circumstances may a policeman use his pistol? A.—He should never draw or attempt to use his pistol except in extraordinary cases, such as in the actual defense of his own or another's life, or in the defense of his property, or in active pursuit of escaping criminals, charged with great crimes, as murder, burglary, arson, etc.

FOREMEN CUTTERS. State Organization of Tailors Formed—National Meeting in January. The custom foremen cutters organized yesterday a State association, to be known as the "Custom Foremen Cutters' Association of Indiana." The meeting was held at the Bates House. The organization starts out with a membership of twenty-eight, including representatives from Indianapolis, Richmond, Peru, Noblesville and other cities. The object is better acquaintance and the benefit to be gained by interchange of views. Officers were elected as follows: President, A. K. Lewis, Peru; vice president, Thomas P. Egan, Indianapolis; financial secretary and treasurer, John E. Pelz, Richmond; recording and corresponding secretary, W. E. Sawyer, Indianapolis; Trustees, Joseph Kern, Richmond; Walter Swiggett and Gus Rosberg, Indianapolis. The meeting closed last night with a banquet, at which speeches were made and songs were sung. F. J. Callivan, of this city, sang "The Harp that Once Through Tara's Hall." The association will meet again at the Bates House on the national meeting of tailors in this city.

SMASHED BY A MOTOR. Buggy Caught on the Illinois-Street Track and a Woman Injured. Last night about 9 o'clock the street cars on the North Illinois-street line were blocked for about half an hour on account of an accident at Twentieth and Illinois streets, where a colored man and woman named Baker tried to drive across the track before the car made the crossing. The two saw the car coming, loaded on its way to Fairview Park, in time to have stopped. Motorman Hagerman, however, let his car slide into them, breaking the buggy all to pieces, and throwing both of its occupants to the ground. The woman received a bad gash in the head, but the man was not hurt. Dragged by a Car. Yesterday morning, while at work re-laying the street-car tracks on Pennsylvania street, John Gallagher was caught in the wheels of a motor and dragged a considerable distance. He was badly injured externally and internally. E. Tanner & Buchanan took him to his home at No. 39 Johnson street.

Here's a Heap o' Happiness. Marriage licenses were issued yesterday as follows: Wm. J. Jennings and Cora E. Bradley, Edward F. Brinkmeyer and Lizzie Danmeyer, Frank Brown and Jesse Logan, Charles Brown and Carrie Chavia, William H. Page and Lida S. Purcell, Albert C. Rosedale and Ida M. Smith, Thomas J. Wimeran and Rose Ryser, Calvin G. Udell, jr., and Edna A. Buck, Louis M. Melon and Carrie C. Thompson, Ernest Green and Katie Hagerty, Robert Robinson and Elenora Hays, Patrick Coleman and Bridget Finn, Louis J. Liebrich and Len. Nicholas, David E. Burton and Eliza McCormick, Louis Kehl and Lucy Durrett.

Sold by druggists. 25 cents a bottle. Only \$3.75 to Chicago. Via the popular Monon route, the dining car line.

FREE LECTURE AT PLYMOUTH CHURCH.

"The Drink Problem and Its Solution" to Be Discussed by a Distinguished Scientist. Dr. John Wherrell, of Kansas City, Mo., will deliver a free lecture at Plymouth Church Thursday evening, at 8 o'clock, on "The Drink Problem and Its Solution." Dr. Wherrell is a lecturer of rare ability, and the public will doubtless avail themselves of the opportunity to hear this distinguished scientist discuss a question of such vital importance as the solution of the drink problem. We clip the following from the Kansas City Gazette of Jan. 23, 1892: "Dr. John Wherrell, the discoverer of the Wherrell cure for drunkenness, has been personally known to the editor of the Gazette for at least twenty years. Probably no man is better known among the educated people of the State than Dr. Wherrell, more familiarly known as Professor Wherrell. He was one of the original members of the Kansas Academy of Science, and the printed transactions of this society bear record of his labors in the department of botany, chemistry and physiology. As a lecturer, he is a scholar, and as an experimental physiologist in certain lines of work, he has few equals. His moral character is above reproach, and his intellectual ability commands the respect of all who meet him."

CHICAGO AND RETURN—ONLY \$3.00. Milwaukee and Return Only \$4.00. August 20, 1892. On the above date the L. E. & W. R. R. will run one of their popular-priced excursions to Chicago and Milwaukee and return via Michigan City and steamer, leaving Indianapolis at 9:30 p. m., arriving at Chicago on Monday, Sunday, Aug. 21, at 8 A.
