

FREEDOM OF CHRISTIANS

Liberty of Judgment that is Permitted by the Best Religious Teachings.

Rev. A. N. Thompson's Sermon at the Seventh Presbyterian Church—Proper Intermingling of Business and Religion.

Rev. Arthur N. Thompson, pastor of the Seventh Presbyterian Church, preached, yesterday morning, on the Christian's freedom, "To be free, and yet walk worthily."

Mr. Thompson spoke of those acts in life which lie in a field between the inherently bad and the inherently good, which a Christian has to decide upon for himself.

There is a principle of certainty. If we are unable to bring ourselves to the place where there is no doubt as to the right or wrong of any practice or habit, so long as the doubt remains so long as the Christian deny himself. Let every one be fully persuaded in his own mind.

Self-denial or charity for the conscience of others, the compromise of individual principles for the sake of the world, the discharge of a duty, but in the thoroughfare of a city he is brought into relations where he must abridge his conduct.

The gospel goes so far as to say that we, as Christians, are so closely bound together that the one family, one household, one faith, other destinies than ours hang upon our careers.

Why, if we are made children of God, are we not to be like him? He is the image of the Father, and we are to be like him. The result of the soul from the power of his will be greater if that struggle takes place in this world.

Loyalty to the kingdom of Christ is a principle that which none could be more imperative, and we are to be like him. The result of the soul from the power of his will be greater if that struggle takes place in this world.

Religion and Business. The Rev. M. L. Wells, at the Grace M. E. Church, gave his congregation valuable hints and advice last night on "How to Make Money" and "The Relations Existing Between the Christian Religion and the General Business of the World."

Frank Webber, a bartender, living in the rear of 739 North Mississippi street, was arrested last night by patrolmen Simpson and Lyons, and was slated at the police station for assault and battery with intent to kill.

When seen last night Mrs. Webber was very weak from excitement and pain, and seemed greatly alarmed, lest her husband should be released on bond and return to the house and renew his dastardly attempt to take her life.

passengers, and the latter knew nothing of the robbery until it was over. The amount of money secured cannot be ascertained, but it probably did not exceed \$8,000, as the train is made up at Burton, only twenty miles west of here.

The robbery was committed by four farmers, living in the vicinity of Douglas, Butler county, and it seems was expected. Sheriff Nipp, of Cowley county, was informed that such a scheme was on foot by the fifth man, early in the week, and while he could not discover when the robbery was to take place, he had a posse in waiting.

As soon as he got wind of the hold-up, he pounced on the outlaws. The robbers were new at the business, but they did their work like professionals. The only mistake they made was holding up the wrong train, for had they robbed the west-bound instead of the east-bound train, they would have secured a large amount of booty.

The Michigan Central track has sunk several inches and the company has been watching day and night. The cause of the sinking of the earth is not positively known, some claiming it is caused by the carbolic gas which others say it is due to defective timbering in the mine.
