

EFFORT TO MAINTAIN RATES

Western Lines Will Attempt to Formulate a New Passenger Agreement.

Success of the Scheme Depends, However, on the Attitude of the Chicago & Alton—East-Bound Shippers.

Chairman Caldwell has called a meeting of the lines in the territory of the Western Passenger Association for Tuesday, Dec. 13, at Chicago, for the purpose of canvassing the situation and securing an absolute maintenance of rates, as well as establishing safeguards against demoralization from outside influences.

Both the Erie and the Philadelphia & Reading are sending their New England business over the New York & New England road, and Hamilton & Dayton would be carried so far that the latter would take control of the I. D. & W. the 1st of January.

East-Bound Shippers from Chicago. East-bound shipments of freight from Chicago last week aggregated 81,854 tons, against 61,818 for the previous week.

East-bound shipments of freight from Chicago last week aggregated 81,854 tons, against 61,818 for the previous week, an increase of 19,936 tons, and against 93,975 for the corresponding week last year, a decrease of 12,121 tons.

Personal, Local and General Notes. H. C. Parker, local manager of the Lake Erie & Western, is in Chicago attending the meeting of the Central Traffic Association.

R. C. Blackwell, general superintendent of motive power of the Chicago & Alton, has been elected president of the Railroad Club of New York.

There were transferred over the Belt road in the week ending Jan. 1, 1893, 1,003 car-loads of live stock.

Rates on fifth-class freight, west-bound, will be advanced, Dec. 1, to 1 cent per one hundred pounds. Sugar and other heavy groceries come under fifth class.

J. C. Hicks, superintendent of the Big Four terminals, has located his office in the second story of the Peoria & Eastern freight depot, on South Tennessee street.

W. H. Fisher, general passenger agent of the Columbus &ocking Valley road, is in the city. Mr. Fisher is developing a business on this line which is surprising to his associates.

W. S. Wing, auditor of passenger accounts of the Union Pacific, has resigned, and will be succeeded by C. S. Stebbins. It is understood that Mr. Wing's resignation took effect Dec. 1, 1892.

An official of the passenger department of the Chesapeake & Ohio who was in the city yesterday states that the passenger earnings of the line will this year exceed those of 1891 nearly \$200,000.

The gross earnings of the Indianapolis, Decatur & Western for November were \$4,822 below those of November, 1891. There was an increase in passenger earnings and a decrease in freight earnings.

The earnings of the Monon during November were \$252,538, an increase of \$10,000 over the same month last year of \$250,500. From Jan. 1 to Nov. 30 the earnings were \$3,015,639, an increase of \$453,617.

I. J. Scott has been appointed superintendent of track and structures on the Cincinnati, Hamilton & Dayton, vice J. F. Porter, resigned, to take the position of chief of the establishment of Proctor & Gamble, Cincinnati.

A. W. Quackenbush, who recently resigned the position of superintendent of machinery of the Alton road, has been appointed superintendent of the St. Louis, Cape Girardeau & Fort Smith, with headquarters at Cape Girardeau, Mo.

The improvement of the statement that H. S. Ives had secured the controlling stock of the Ohio Southern road is shown in the fact that he was said to have purchased \$2,000,000 of the stock to secure control, when the whole issue of stock is only \$1,384,000.

The report that the Philadelphia & Reading, the New York & New England and the Boston & Maine are taking steps to practically shut out the Vanderbilt and the Erie lines out of the portions of New York & Maine reaches, is met with a pronounced denial.

President McKee, of the Terre Haute & Indianapolis, seldom shows any disposition to be indignant, but the manner in which he has acted on the new Union Station Terre Haute has worn out his patience, and the contractors are now leaving from him in no uncertain manner.

Joseph Ramsey, jr., general manager of the Big Four, is soon to retire and E. J. Peck, general superintendent, will be succeeded by F. E. Rose who will be appointed general superintendent, and H. L. S. Bean superintendent of transportation. This is not official, but is from a source deemed reliable.

few months since it was patented. The securing of it by Woodard as president and general manager of the company is looked upon as a fortunate circumstance, so long has been identified with the name of high standing.

A railroad attorney said yesterday he was very confident that the deal between the Indianapolis & Eastern and the Philadelphia & Reading, Hamilton & Dayton would be carried so far that the latter would take control of the I. D. & W. the 1st of January.

A superintendent, when speaking of the low rates paid to telegraph operators, said that in many cases it was not enough. He then made a statement which he said he knew to be correct. There is a point on an Indianapolis road where the man acted as agent and telegraph operator, his salary being \$15 per month. He was required to give a bond of \$300.

A Pennsylvania official yesterday: "Why any man should fight the Indianapolis & Eastern Voluntary Relief Association, I cannot understand, as the employees, not the company, are certainly benefited by it. Within the last four years accidents have occurred on the Indianapolis division in which lives were lost, and in each case the company was held responsible. It is practically impossible for the benefit they receive from the association. A. L. Beard, the Indianapolis official, said that he had been in the organization in October last, and he has paid out but \$2.75. The official said he wished the company would pay the same to the employees who were compelled to become members of the association. It is optional with any employee whether he become a member or not."

AMUSEMENTS.

ENGLISH'S-DIXEY IN "MR. DOBBS."

Henry E. Dixey will always be to those who go to see him simply Dixey, and nothing more. Perhaps that is why people flock to gaze at him. His "Mr. Dobbs, of Chicago," which he generally terms "a fantastic operetta," has been practically published over for the benefit they receive from the association. A. L. Beard, the Indianapolis official, said that he had been in the organization in October last, and he has paid out but \$2.75.

The track of the Toledo, Wabash & Ohio road is so near completion that on Jan. 1 scheduled trains will be put on. The new road will be operated by the Pennsylvania Company in connection with the Northwestern Ohio, which runs from Mansfield to Toledo. It bids fair to be a great coal-carrying road.

The Nickel-plate is making a much better showing of earnings the last quarter than in any time in its history. A gain of 50 percent is shown in net earnings, and with the same amount of fixed charges the surplus of the last quarter was \$70,000, against \$13,000 in the corresponding three months of 1891.

What Philosopher is Right?

First Philosopher—It is an unfortunate country in which man accumulates \$5,000,000.

Second Philosopher—It would be a more unfortunate country in which a man accumulates \$7,000,000.

Which of these two sentiments is right? So far as human genius has been able to solve any problem, the civilized society, the second philosopher alone talks like a man of wisdom.

Has Found His Place.

It may be in the nature of news, if not a surprise, to state that the Rt. Rev. Roberts, late editor of the Phoenix, prohibition organ, later editor of the Telegram, Republican organ, is now one of the editors and proprietors of the Alliance, O. Leader, Democratic organ. If Brother Roberts were as versatile mentally as he is morally, he could edit the Phoenix, the Telegraph and the Alliance.

They are covered with a tasteless and soluble coating.
