DOUBLE TRAGEDY AT MASS.

John Brady Kills His Wife and Then Commits Suicide.

OAKLAND, Cal., March 18.—John Brady shot and killed Mary Brady, his wife, and then committed suicide this morning in the Church of Immaculate Conception, in this city. Brady and his wife had been separated about two years. He was much distressed, and appears to have harassed her a great deal. This morning Brady went to mass, arriving after the services. She entered the church and knelt down to pray near the altar. Brady entered and took a seat behind her. She appears to have been praying. Suddenly Brady drew a pistol and, placing the weapon to his wife's head, pulled the trigger. The woman was instantly killed. Then Brady pointed the weapon toward his own body, firing the ball through his right lung. Meanwhile the noise of the shots had attracted a crowd to the church to see what was going on. Brady placed the pistol to his head and blew out his brains. Brady was about thirty-five years old, and his wife was about the same age. They were once well to do. Since their domestic troubles Brady had been very depressed, and he was probably deranged.

MAY BE TROUBLE YET

Removed Denver Police Commissioners Admit a Truce Only.

Governor Waite Says the Next Time He Calls the Troops There Will Be No Back Down—Cripple Creek Fiss.

DENVER, March 18.—General McCook today withdrew the federal troops from this city to Fort Logan. The proceedings against Mayor Van Horn and Police Commissioners Rogers, Barnes and Mullins for contempt of court in having violated the injunction issued by Judge Graham on behalf of Messrs. Orr and Martin, the commissioners removed by Governor Waite, will come up before Judge Glenn tomorrow morning, Judge Graham having gone on a vacation. The hearing will probably be postponed until after the case in the Supreme Court, submitted by Governor Waite for the purpose of ascertaining who are legally entitled to act as commissioners, is disposed of. It is set for hearing tomorrow afternoon. The situation is still critical, for Orr and Martin, acting on the advice of their counsel, declare they will not be governed by the opinion of the Supreme Court, but will insist on holding office until the matter is decided in a regular manner in the case pending in the District Court. Their attorneys, Wells, Taylor & Taylor, today definitely decided they would not take part in the argument, and the hearing, they say, will be ex parte and not binding. It is even doubtful if the Supreme Court will give an answer to the question of the validity of the removal. Even if the Governor will renew his attempt to evict the police department by force, speaking of the issue presented to the Supreme Court, Governor Waite said: "I feel that I am right, and I have no doubt that the court will do justice to the cause. If I ever again call out troops against the people of one thing I am sure the force will be large enough to do the work. If I have any doubt as to the power of the National Guard to carry out the law, I will call on the unorganized militia of the State to our assistance."

ALL QUIET AT CRIPPLE CREEK. CRIPPLE CREEK, Col., March 18.—Everything has been quiet here today, and it is now thought that the likelihood of serious trouble, since the miners, however, are desperate men, and not a few of them went through the horrors in Coeur d'Alene, as they have often admitted. The troops of the National Guard did not arrive in town until 8 o'clock this morning, and when they went into camp at the foot of Second street, on a large plot of vacant ground, they were as dirty a set of men as ever came off a march. Instead of being over from Midland on coaches and hacks, as had been intended, General Brooks decided that it would be better for the men to march. The decision was reached after the receipt of the dispatch from the city that there was a possibility that the miners on Bull Hill would attempt to ambush the troops in some narrow defile. The commanding officer did not know but that this information was correct, but in reality it was without the least foundation. The miners have done nothing but sit in camp. Adjutant General Tarsney and Brigadier General Brooks were their headquarters in the Palace Hotel.

GOVERNOR WAITE'S VISIT. A hospital has been opened in a large building in the upper town, and will accommodate five inmates, but none of the cases are of a serious nature. A large number of business men visited the National Guard camp today. The situation was fully explained to the officers by the chief of the National Guard. When six weeks ago the House of Representatives passed the bill, Governor Waite by telephone, and explained the situation to his chief as fully as possible. Governor Waite then advised that a conference with the miners and authorities of Altman be held. This was agreed to on all hands. The Sheriff said that the miners on Bull Hill should come down from the hill and return again without molestation. It means that he will not attempt to serve any warrants on the men to-night unless they are in the city.

MARTIN ALEXANDER, Mayor of Altman, and John Daley, the deputy sheriff of the town, were arrested in this city and placed in the city jail in the forenoon. John Alexander, president of the Miners' Union, was also arrested. A few hours ago the men were taken to the county jail at Colorado Springs. There was an incendiary fire in town last night, which was quickly put out, and a large charge of giant powder was exploded on Battle mountain, shaking the shaft houses at the Independence and Portland mines, but doing no great damage.

ALL FOR THE TRUSTS

Sugar and Whisky Can Get Anything from the Senators.

Lobbies of Both Monopolies Working Hand-in-Glove, and "Stand In" to the Scandal of the Nation.

WALL-STREET BUCKET SHOP

Stevenson's Friends Plan to Pull Down the Plum in 1896.

Tariff Bill Will Not Pass Before Next August—Some of the Tricks of the Pension Reformers.

SPECIAL TO THE INDIANAPOLIS JOURNAL. WASHINGTON, March 18.—That the Sugar Trust is the controlling action on the sugar schedule of the Wilson tariff bill there can be no doubt. Shortly after the market closed yesterday a telegram was received here from New York stating that "something is about to take place in Sugar, the Trust is arranging for a lift." Other dispatches related how members of the Trust had been in conference and had advised their friends as to "something about to occur." Whether the Senate Finance Committee closed its work yesterday afternoon it was stated that its action on refined sugar, announced some day ago, had been "revised and made clear." An examination of the bill shows that the duty on refined sugar has been almost doubled from the figures fixed recently, made an eighth of a cent of a pound on the lower grades, and the committee has agreed to make certain the repeal of all commercial treaties with countries producing sugar. This is even more than the Sugar Trust demanded. It is more, in reality, than it gets at present. The most remarkable feature of it all is that what the Trust was yesterday preparing for and was wired here from New York could not be learned in Washington, so closely was it sealed up in the finance committee room and confined to Trust representatives. It is stated that the Sugar and Whisky trusts have pooled issues, are dividing expenses, and that their lobbies are inter-changeably working for the other's interest. It looks as if the trust scandals had only begun.

ADLAI'S BOOM.

Scheme to Capture a Big Delegation to the Convention in 1896. Special to the Indianapolis Journal.

WASHINGTON, Ind., March 18.—Before the close of the present session of Congress there will be organized a thorough Stevenson boom for the coming election. The Vice President's schooner is to be launched on the presidential sea in a way which, it is believed, will win Illinois Democrats are not engineering this boom. It is to be managed by Southerners. "General" Stevenson has conducted himself during the silver discussions in such a way as to win the Democratic believers in a free silver policy, while President Cleveland has driven the silverites away from him. Stevenson is not in any sense the presidential candidate of Grover Cleveland, or any of his followers. The politics of the two men run at right angles. Most of the Illinois Democrats in Congress are "cuckoos," and for that reason they are not working the Stevenson boom. This arrangement is driven by the Vice President, "star the country" during the coming campaign. He will especially look after the South and the West. He will attempt to defeat the Populist scheme for capturing that section and keep the South solid. In return he will give a solid Southern delegation in the convention of 1896. The Vice President will speak also in Ohio, Indiana, Nebraska, and the far Northwest. It is the intention to give him a special train, a number of assistant managers, and a large staff of agents. The plan is to have a regular "barnstorming" tour, which is to land the presidential nomination two years before the election. The reasons why certain Democratic Senators are anxious to have the tariff bill soon passed.

SHOUTER VOORHEES.

His Talk About "Rushing" the Tariff Bill Simply Gush. Special to the Indianapolis Journal.

WASHINGTON, March 18.—Again manufacturers throughout the country are pouring letters and telegrams in to Congressmen, inquiring when the Wilson tariff bill will be finally acted on. This is probably the most difficult question now propounded respecting the proceedings of this Congress. Republican leaders in the Senate and Democratic members of the Senate finance committee are frank to confess that the question cannot be answered. Chairman Voorhees continues to talk about "rushing" the tariff bill into law. He is giving almost daily statements to the effect that the bill will be passed within so many weeks. His object is to impress the country with the idea that he is using superhuman efforts to dispose of the measure, so as to throw the blame for exhaustive debate or any delay on the minority. But Chairman Voorhees, in fact, does not believe the bill will be passed within so many weeks. His object is to impress the country with the idea that he is using superhuman efforts to dispose of the measure, so as to throw the blame for exhaustive debate or any delay on the minority. But Chairman Voorhees, in fact, does not believe the bill will be passed within so many weeks. HOOSIER PENSION CASE.

Action of the Committee on Bretz's Bill for Washington Hoisop. Special to the Indianapolis Journal.

WASHINGTON, March 18.—At Friday night's session of the House, which was devoted to pension legislation, the question of pensioning those Hoosiers who enlisted in the Indiana Legion to repel the invasion of John Morgan was thoroughly discussed. The question was precipitated by Mr. Bretz's bill "To place on the pension roll, subject to the conditions and limitations of the pension laws, the name of Washington Hoisop, late of the Marengo Light Guards, Indiana, Legion, the said Hoisop having received injuries in the bushes and on the committee on invalid pension, through Chairman Martin, proposed an amendment to the bill, striking out the word "legion" and inserting the words "in a rate proportionate to the degree of disability from such gunshot wound in the forehead, as may be shown by the medical report, and if it is absolutely necessary to make a prediction at this time, it is that the Wilson tariff bill will not be out of the way before the latter part of August."

HERMOSILLO, Mexico, March 18.—Mail agents just received here from Topolobampo, via Guaymas, state that the dissension which has prevailed in that American co-operative colony during the past several months has resulted in a large number of the colonists withdrawing from the settlement. The location of a new colony in the rich valley of the Yaqui river, in the State of Sonora. It is reported here on other authorities that about 2,000 of the members of the Topolobampo colony has mysteriously disappeared. No arrests have been made.

Big Machinery for Niagara. BOSTON, Mass., March 18.—The General Electric Company has signed a contract to furnish \$10,000 worth of machinery for the Cataract Central Electric Company, of New York. The Thompson-Houston Company is to furnish the motors and equip the station at Niagara.

TOPOLOBAMPO SCANDAL. HERMOSILLO, Mexico, March 18.—Mail agents just received here from Topolobampo, via Guaymas, state that the dissension which has prevailed in that American co-operative colony during the past several months has resulted in a large number of the colonists withdrawing from the settlement. The location of a new colony in the rich valley of the Yaqui river, in the State of Sonora. It is reported here on other authorities that about 2,000 of the members of the Topolobampo colony has mysteriously disappeared. No arrests have been made.

Shot by a Glass Blower. POSTORIA, O., March 18.—Perry Newhouse, shipping clerk of the Seneca glass works, was accidentally shot by Peter Miliken, a glass blower, today and fatally wounded. Newhouse acts as watchman at the factory on Sunday and went to Miliken's house, drinking. Miliken was shot.
