STORM IN YANKEELAND. New England swept by an April blizzard.

BOSTON, April 9.—Not until this afternoon did the storm which has been raging in this city and vicinity since late Saturday night clear up. Since late night it snowed continuously, and melted fast, and there is not more than three inches of snow on the ground. The telegraph and telephone services in every direction have been badly crippled, and to many of the coast towns all wires are down. A large fleet of storm-tossed vessels are in the harbor, vessels coming in last night and this morning report terrific winds and seas outside.

Worst in Over Half a Century. ST. JOHNS, N. B., April 9.—In over half a century a storm to equal the one now prevailing, which commenced last night, cannot be recalled. Since daylight the wind has blown a hurricane and snow has been falling. All traffic has been suspended, and the steamer New Brunswick, which should have sailed this morning for Boston, was held up in the harbor and the public schools are closed and the streets are deserted. All vessels in the harbor and all the waterways are closed, and the railroads are in safety, and no disasters are reported.

Snowstorm in the Northwest. ST. PAUL, Minn., April 9.—The snowstorm that set in last night continued all day, but the snow is rapidly melting. No reports are received from the Northwest, but it is believed that the storm is in safety, and no disasters are reported.
