BROAD RIPPLE'S SCHEME.

It Will Incorporate and Have a Franchise to Hang Up.

Attorney Spencer, representing the town of Broad Ripple, presented the plans for the proposed incorporation of the town to the County Commissioners yesterday. It is proposed to locate the corporation line at the intersection of the Westfield gravel road with Central avenue. This is the route being fought for by the three street-car companies, as soon as the Ripple is incorporated the franchise may be granted by the town, but the rest of the board aligned on to the scheme yesterday, but have no means of preventing the incorporation.

The Bridge Will Not Be Stolen.

President Mason, of the Citizens Street-railroad Company, with a number of property owners living between Haughville and the Michigan-street bridge, called on the commissioners yesterday in reference to the bridge franchise. President Mason assured the board that the company had no intention of slipping up on the county and capturing the bridge after night, but he urged the granting of a franchise. He thought that if the question came to a dispute in the courts it would probably be held that the bridge belonged to the city. The property owners agree to construct a dyke along the river between Michigan and New York streets and the Citizens company is willing to stand half of the expense incurred in keeping the bridge in repair so long as the company may use it. The commissioners promised to consider the matter.

Anti-Liquor League.

The Anti-liquor League of Indiana will hold a mass meeting in Y. M. C. A. Hall to-morrow, beginning at 10 o'clock and continuing all day. The meeting is in connection with the good citizenship meetings now being held at Tomlinson Hall by the Rev. John G. Woolley. The president of the league, the Rev. E. T. Swaney, will preside. Addresses are expected from Dr. C. C. Moore, of Kokomo; Judge J. C. Ryan, of Clayton; Judge R. N. Lamb, Col. Eli F. Ritter and Revs. F. C. Dewhurst, C. W. Ryan, R. Whitney, T. J. Coultas, G. A. Carstensen. The Rev. John G. Woolley will also be present and address the meeting. The meeting is in the interest of a pure ballot, and all persons desiring to see the Christian people take an active part in politics are invited to attend.

The Man Who Lingered Long.

Con Cunningham, the newly-appointed inspector of immigrants at Port Huron, Mich., will come to Indianapolis from Crawfordsville to take up his residence. He says his new duty will only take a few days of his time each year at Port Huron. Cunningham is the man who went to Washington on March 4, 1893, until the administration, if it saw, gave him a place to get rid of him.

Furniture at Wm. L. Elder's.

A DAY TO BE FIXED

Board of Works Will Not Consider Desultory Remonstrances.

City Attorney's Opinion—Final Action on a Portion of New Jersey Street Improvement.

Remonstrances against the improvement of New Jersey street were considered by the Board of Works again yesterday afternoon. On the advice of City Attorney Scott they decided that the three persons who signed the remonstrance against the south portion, who it was claimed by the opposition, had no right to sign, had a legal right to remonstrate. That defeated the improvement from Washington street to Massachusetts avenue, and it will be sent to the Council. The other remonstrance was declared insufficient, and the board took final action, confirming the resolution to improve the north part of the street, from Massachusetts avenue to Fort Wayne avenue.

The board asked City Attorney Scott for an opinion in regard to the consideration of remonstrances presented after the first declaratory resolution was adopted. Below is the opinion in full.

"In response to your further inquiry with respect to remonstrances against street improvements and supplemental communication to you on that subject of March 23, 1894, I submit the following: "Under section No. 73 of the charter there are two periods during which property owners may remonstrate. The first after publication of the notice of the resolution upon the day fixed by such notice. At this time all persons who are affected by the proposed improvement are entitled to remonstrate, whether they reside upon the street or not. The second period when remonstrances may be made is during the period of ten days following your action upon the resolution, confirming or modifying the same. During this period only resident freeholders upon the street or streets affected by the improvement are entitled to remonstrate. The remonstrance, if any, which may be presented during the first period and prior to your action confirming or modifying the resolution has no further effect after you have taken such action.

"After taking final action upon such resolution, you should thereafter consider any such remonstrances as may be presented to you within ten days after such final action by resident freeholders upon the street or streets affected by the improvement. The board heard remonstrances from persons interested in the resolution providing for paving with asphalt the roadway of Ash street, from Lincoln avenue to Seventh street. A remonstrance against the improvement, which remonstrance was to be considered in effect unless said street was to be improved by paving with asphalt the roadway from Seventh street to Eleventh street. Personal remonstrances were heard by the board against the improvement. Those appearing to remonstrate desired that the street should first be sewered and water mains laid. The board ordered the Indianapolis water company to lay a main in Ash street from Lincoln avenue to Seventh street. The city engineer was instructed to prepare papers for constructing a sewer in the street. The board deferred the taking of final action on the improvement.

POLICE APPOINTMENTS.

Probationers Given Places—Additions to the Eligible List.

The Board of Safety held its regular meeting yesterday morning. The members considered the grades made in the examination of the Democratic applicants for positions on the police force and placed the following on the eligible list: R. F. Walker, Terry Moore, Thomas F. Dugan, James McCarthy, L. W. Fields, Theodore Grubb, Ezra Hamilton, William Rogers, James Cronin, James Heidelein, George W. L. Wallace and Jesse J. Settle. At a special meeting next Thursday night the board will appoint ten Democratic police officers.

Harry Deshong, a Democrat, who was recently dropped from the force for inefficiency, reinstated Commissioner White preferred the former charges against Deshong, but he yesterday announced that he had an infraction had been done. The board let the contract for repairing the No. 9's nose wagon to John Gueldehofer at \$2,000. On recommendation of Superintendent Powell the appointment of the following patrolmen was confirmed: six days' probation: Frank P. Hunter and Jacob D. Kurtz, appointed Jan. 31, and Leonard S. Frazar and William Holtz, appointed Feb. 2. Special police powers were given to Patrick Kelly, for the House of Good Shepherd and the Hebrew cemetery. James S. Frazier, a freeman, who was suspended some time ago for visiting a gambling house was before the Board of Safety yesterday morning. He was told that the board could do nothing for him as the company to which he had belonged is now out of service. This morning the day police officers will appear in summer uniform, in compliance with an order issued by the Board of Safety yesterday.

INTO NEW TERRITORY.

Manufacturers' Gas Company Want to Lay More Mains.

The Manufacturers' Natural-gas Company yesterday petitioned the Board of Public Works to lay mains as follows: Beginning at the first alley east of Illinois street, in Georgia street, to lay a six-inch main to Pennsylvania street, south in Pennsylvania street to second alley south of South street, west in that alley to Meridian street, west in Meridian street to Garden street, west in Garden street to Mechanic street and north in Mechanic street to East Georgia street, south in Liberty street, a four-inch main south in Liberty street, from the east end of the eight-inch main to Georgia street; a four-inch main south in Cook street, from the above eight-inch main to the Indiana Bicycle Company's factory. Later in the day the company asked permission to lay mains to the street-car company's power house India to West Indiana by way of Harding street. The petition was referred to the city engineer.

HOME-AVENUE ASPHALT.

Contract for It Let—The Usual Two Bids Received.

The following bids were made yesterday for paving with asphalt Home avenue, from Pennsylvania to Delaware: Warren-Scharf Asphalt Paving Company—Blue oolitic curb, \$1.25; stratified limestone curb, \$1.00; Parkhurst curb, \$1.00. The Western Paving and Supply Company—Blue oolitic curb, \$2.50; blue oolitic curb, \$2.50; Parkhurst curb, \$2.50. The board awarded the contract to the Western Paving and Supply Company.

Cleaning Up the City.

The street repair gangs will be doubled in a few days. Commissioner Fisher now has about twenty-five men and a dozen teams at work. By next Monday he expects to have that force doubled. The funds available just now for this purpose do not justify this increase as it cannot be kept up during summer, but the Mayor and the Board of Works deem it necessary, in view of the danger of smallpox now threatening the city.

Sidewalk Case Appended.

City Attorney Scott and his deputies are now at work on the necessary papers to appeal the Big Four sidewalk case to the Supreme Court. Mr. Scott considers this step absolutely necessary, as under Judge Brown's ruling the city has no control whatever over the sidewalks, because a state law provides a punishment for such cases in towns and villages. Judge Brown's ruling makes all the city ordinances controlling the use of sidewalks void.

"Egypt" Still Cries Out.

Another petition for the relief of "Egypt" was filed with the Board of Works yesterday. This time it is to open West Indiana street, from its present eastern terminus

to Leonard street, 150 feet east. This is in the nature of a counter petition. It is thought by the petitioners that the opening of this street will defeat the opening of Lincoln lane to Shelby street. No action was taken.

Resolutions for Brick.

The Board of Works yesterday adopted the following improvement resolutions: For paving with brick the first alley north of North street, from Illinois to Meridian street; for the paving with brick the roadway and sidewalks of Pearl street, from Helen to Missouri street.

Fixed Day for Remonstrances.

Hereafter all remonstrances against improvements must be filed with the Board of Works on the day set for hearing them or they will not be considered. The board yesterday made this ruling so as to avoid hearing any arguments on remonstrances except on the day set by them.

To Widen Eighth Street.

The city engineer was instructed by the Board of Works yesterday, to prepare plans for the opening of Eighth street to a uniform width of forty feet, from Mississippi street to the first alley west.

Final Action Postponed.

Final action was postponed yesterday on the resolution for the vacation of the first alley south of Meridian street, from Alabama street to the first alley east of Alabama street.

Only One Bid Received.

There was only one bid on the sewer in Tennessee street yesterday and the Board of Works deferred action. W. Callen & Co. offered to do the work for \$1.50 a lineal foot.

MRS. LEASE IN TOWN

The "Mary Yellin" of Doggerel Verse on a Hoosier Campaign.

She Thinks Kansas Will Give Women Suffrage This Fall—Her Row with the Governor.

Mrs. Mary Ellen Lease, of national fame, and incidentally of Kansas, is in the city. She arrived last evening, and will begin a stumping tour in the interest of the Populist party at Franklin to-day. Ten meetings have been arranged, and the campaign will last two weeks. She is at the Bates House. Mrs. Lease, about whom so much has been written during the past year, is a tall, rather plain, dark-haired woman with an unusually pale face, which gives some evidence of the intelligence and force that have contributed largely toward making her a central figure in Kansas politics. Her sombre black dress and dark hair, as yet untinged with gray, lend an additional pallor to a face devoid of color. She has a suspicion of the conventional "bangs," but does not appear to foster them to any extent. Her forehead is high and she wears a silver comb. Mrs. Lease talks like a woman thoroughly devoted to the cause she has espoused, namely, that of the Populist party and woman suffrage. She is graceful in speech and manner, and in conversation with a Journal reporter last evening said she anticipated great results from her meetings in this State during the coming two weeks. "I shall return to Kansas May 1," she said, "to take an active part in the work preliminary to the Populist State convention, which will, I think, be held in June. The politicians want a late convention, but the people want an early one, and the latter, you know, are apt to have their way about it. You see we vote on the woman's suffrage amendment to the Constitution next fall, and I want to see Kansas having a plank in the Populist platform favoring it. There are calls for me in many States, and I am not at all put to advantage from now until election day outside of my own State, and I will remain there, for it is a most important election to me. Ever since Cleveland's blundering administration and the do-nothing policy of the Democratic party, I have been a devoted adherent of the Populists in Kansas, and will be a large factor in the approaching success of our party in that State, and in other States. I feel that only one thing can defeat us, and that is a coalition with the Democrats. This some of the Populist politicians who will never look beyond to-day are trying to bring about, and if they succeed it will be a disaster to the cause. "How are you getting along with the Governor?" was asked. "I am not at all pleased with his failure to 'fire' me from the State Board of Charities," replied Mrs. Lease, laughingly. "has been marked by not doing much for the cause. Why, he appoints them to office without even my solicitation, and, apparently, not at all in the interest of the State. The victory I won. He found I was pretty firmly entrenched, and has now taken another tack. A meeting of the board May 1 will necessitate my return to Topeka in two weeks. I guess thinks Indianapolis a beautiful city. She was here last fall during a Populist meeting. Last evening she heard a volley talk at Tomlinson Hall, and in speaking of the liquor question, said it was one thing in politics that didn't bother her, and that was a man who would talk to her out there," said she, "haven't seen whisky for so long that they wouldn't know me any more. She referred with a laugh to the notoriety given her by the story concerning her alleged knowledge of Masonry, and said that every man she knew wearing a Knight Templar charm she fully expected to give her the Masonic grip, but she shook hands with her. Mrs. Lease remarked that she had thought she was aggressive until she met and knew that she was not. She was known to come to the conclusion that she possessed a great deal of Christian forbearance and fortitude.

KILLED IN A SEWER.

John Kennedy Meets Accidental Death at Ray and Michael Streets.

John Kennedy, aged twenty-three years, a laborer employed on the sewer at Ray and Meikel streets, was instantly killed, yesterday morning, about 7:30 o'clock, by the falling of the carrier, loaded with dirt, upon his head. The carrier runs on a track on a long treadle work, and is moved to and fro by a rope. Connected with this carrier is a wooden roller. The carrier had been filled, and was on its way to be emptied, when the roller became disconnected, and the carrier, falling a distance of 20 feet on Kennedy, striking him full on the head. Kennedy was standing on some cross beams when struck, and was knocked to the bottom of the sewer, a distance of six feet. Fellow-workmen rushed to his side, but found that life was extinct. A verdict of accidental death. Kennedy's body was removed to his home, No. 183 West South street. He was a native of Ireland, and had been in this country but a short time.

A Rush for the Ice Cream.

Car No. 508 of the College-avenue line struck a delivery wagon of William Ballard, ice cream dealer, yesterday afternoon at the corner of Liberty street and Massachusetts avenue. Refrigerator cans fell with a crash to the pavement and ice cream was strewn around in chunks. The small boys gathered in mobs soon after, but much to their sorrow the hot sun rays rapidly melted the cream, which ran in rivers of milk to the gutters.

Workhouse Prisoners Rearrested.

Upon the release of William Thomas, William Mason, George Thompson, Albert Williamson and William Jamison from the workhouse yesterday, where they had been serving a thirty-five days' sentence, they were rearrested and placed in the county jail by patrolman Mitchell on charges of petit larceny. They are accused of having stolen cigars and liquors worth \$15.75 from James J. Stephens, a saloon keeper at Franklin street, on the night of March 12.

Funeral of Mrs. Herbert Clark Emery

The funeral services for Mrs. Mary Martindale Emery were held yesterday afternoon at the residence of her parents, Mr. and Mrs. E. B. Martindale, Rev. M. L. Haines read a few selections of Scripture and made a prayer and remarks. The burial took place in the city cemetery. There were six brothers—Lynn B., Charles, Robert, Clarence, John and Elijah B. Martindale, Jr.

TO PROTECT STREETS

Sewer and Water Connections in Advance of Improvements.

Council Will Consider an Ordinance Making This Compulsory—A Petition for Annexing West Indianapolis.

At the regular meeting of the Council, last night, the Mayor in a communication recommended that the Council pass an ordinance compelling property owners to make all gas, water and sewer connections before the streets are permanently improved. The communication was referred to the committee on streets and alleys, with instructions to report an ordinance embodying the suggestions at the next meeting. The charter gives the Council power to pass such an ordinance, and then if the property owners do not make the connections the city may have it done and assess the cost against the property.

The finance committee reported favorably the ordinance appropriating \$1,000 for an "erroneous assessment fund," and it was passed, Messrs. Puryear and Young voting against it. Mr. Young thought the assessment bureau should be held responsible for its mistakes.

The committee on public health reported against the ordinance creating the office of plumbing inspector, and taxing the plumbers to pay his salary. They did not think that the Council had a right to levy a special tax for that purpose. The ordinance was referred back to the committee, with instructions to get the opinion of the city attorney on its legality.

The petition of Irwin Brothers asking the privilege of exhibiting their show in the city for three days in May without license in consideration of the fact that they had spent so much money here during the winter, was referred to the committee on ordinance, with instructions to report at the next meeting.

Mr. Young presented a petition signed by four hundred residents of the West Indianapolis in favor of the annexation of that suburb. It was referred to the committee on streets and alleys, with instructions to report at the next meeting.

The councilmen who voted against the Alabama-street improvement do not want the improvement to go out that they are against the improvement of streets. They sent the following communication to the Council last night:

"We, the members of the Common Council who voted against the Alabama-street improvement do not want the improvement to go out that they are against the improvement of streets. We are for the improvement of most streets, as it has both of the natural-gas companies' main lines, besides the artificial gas and water mains, the street will be torn up more or less all the time on this account. The property holders petitioned for what we think is a good road, namely, the cedar blocks laid on a broken stone foundation, instead of asphalt. If they had merely remonstrated against improving the street we should have sustained the Board of Works. There was no politics in this or threats from Alabama-street property owners causing us to vote as we did. But as over two-thirds of them asked for cedar blocks instead of asphalt, we voted as we did."

This communication was signed by the following: W. H. Cooper, George W. Shaffer, John Puryear, A. A. Young, J. R. Allen, John A. Schmid, Henry Magel, Oliver M. Murphy, Ed. G. Stott.

TO REVOKE ONE LICENSE.

Superintendent Powell Will File a Report with the Mayor To-day.

Yesterday Superintendent Powell was busy preparing his report to Mayor Denny in regard to the Sunday violation of the saloon law. The quarantine took his attention so much of the day that he had not yet reported completed, but will do so to-day and give it to the Mayor. It is unofficially known that he will report at least one case with a recommendation that the license be revoked, and probably as many as four other cases. Last night he had not given over all the various reports sufficiently to know what his recommendations would be. While the saloon keepers generally observed the law last Sunday, there were some of them who could not resist the temptation to sell a few drinks. The evidence the police could get against them was not sufficient to convict them, if the case was to be brought to the Criminal Court, but it was sufficient to convince the officers in several cases that the law was being violated. It is very probable that the Mayor will revoke at least one license to-day or to-morrow.

Two Carloads of California Wines.

This is what my cellar now contains, the choicest ever brought to this market. I handle none but the best and stoke my reputation on their absolute purity. Sold by the case, box, gallon, bottle or glass. Fancy trade solicited and parties supplied. Julius A. Schuller, No. 26 North Meridian street, sole agent in this city for Homebrew extra champagne, which took first premium at world's fair.
