

ANOTHER PREDICTION

MR. HARRIS SAYS THE TARIFF BILL WILL PASS THIS WEEK.

Other Members of the Senate, However, Are Not as Optimistic—Condition of the Peach Crop.

WASHINGTON, June 17.—Senator Harris said when the Senate adjourned yesterday that the tariff bill would pass the Senate by next Saturday, and when Senator Aldrich, the leader of the opposition to the bill, was asked what he thought of Mr. Harris's prediction, expressed the opinion that it should not be realized.

WASHINGTON, June 17.—Senator Harris said when the Senate adjourned yesterday that the tariff bill would pass the Senate by next Saturday, and when Senator Aldrich, the leader of the opposition to the bill, was asked what he thought of Mr. Harris's prediction, expressed the opinion that it should not be realized.

PEACHES WILL BE SCARCE

The crop almost ruined in the Princeton district, and the report of the statistician of the Department of Agriculture for June says that a glance at the percentages of condition of peaches on June 1 is sufficient to show how disastrous the season has been thus far.

Table showing percentages of condition of peaches on June 1 for various states: New Jersey (100%), Delaware (100%), Maryland (100%), Virginia (100%), Georgia (100%), North Carolina (100%), Michigan (100%), California (100%).

WASHINGTON, June 17.—The report of the statistician of the Department of Agriculture for June says that a glance at the percentages of condition of peaches on June 1 is sufficient to show how disastrous the season has been thus far.

Gold Certificates Proposed.

WASHINGTON, June 17.—The issuance of gold certificates at a low rate of interest has been proposed by Subsecretary Jordan to the banking committee of the House as the most effective means for stopping the export of gold.

Oleomargarine Law Violated.

WASHINGTON, June 17.—The treasury officials are in almost daily receipt of information showing that the law of Aug. 2, 1883, as to the sale of oleomargarine is being violated by dealers in all parts of the country.

How T. M. B. Remains.

WASHINGTON, June 17.—The body of the late Hon. Thomas M. Bayne was taken to Pittsburgh to-night, leaving this city at 7:30 over the Pennsylvania road in a special car, accompanied by Mrs. Bayne, Hon. John Dalzell, Hon. William A. Stone, Mrs. Martine Stone, sister of the deceased, and Mrs. Ewing, wife of Gen. Charles Ewing.

Sheepmen's Losses Review in the Senate.

WASHINGTON, June 17.—Senator Sherman was congratulated by many of his associates on the floor of the Senate yesterday on the fact that he had reached a

term of service in the Senate equal in length to that of Senator Benton, whose service here began in 1817.

WASHINGTON, June 17.—Secretary Hays Smith will recommend in a few days that all the topographers of the United States geological survey be placed under civil-service rules.

LAN INTO AN ICEBERG

NARROW ESCAPE OF THE ANCHOR LINE STEAMSHIP ETHIOPIA.

Large Hole Knocked in Her Bow—Quick Trip of the Yacht Vigilant from New York to Scotland.

GLASGOW, June 17.—The Anchor line steamer Ethiopia, Captain Wilson, from New York, June 2, reported yesterday as having been damaged in collision with an iceberg, has arrived here. She has a large hole in her bow. The accident occurred on the afternoon of June 6, and the water began to pour in through the hole made in her bows. Orders were given to clear away and lower the small boats, preparatory to abandoning ship, but before the tackles were cast off from the davits Captain Wilson had pumps placed near the spot and soon found that the steamer was making comparatively little water. The order to lower the boats was countermanded, and the crew ordered to build an artificial bulkhead. This was done and the bulkhead was covered with canvas, which greatly checked the inflow of water.

On board the Ethiopia were the racing yacht the American yacht Vigilant, which arrived at Gourock yesterday. Two of these yachts were used in the construction of the artificial bulkhead. Nobody was injured, but the cargo sustained a little damage. The action of the officers and crew in the Ethiopia at the time of the collision and afterwards was highly praised by the passengers, and a purse of \$5 was given to the crew for their prompt action in the ice. The fact that the Ethiopia into the iceberg on the afternoon of June 6 proves that it was the same berg that was seen by the Vigilant on that day.

The average distance per day made by the yacht Vigilant in her quick trip from New York was 204 1/2 miles. The greatest distance sailed upon any one day was 253 miles, on the eighth day. A large iceberg was passed in latitude 43° north and longitude 49° west. The iceberg was seen at 10:30 a. m. on the morning of June 14, in fourteen days eight hours, the captain said. A representative of the Associated Press boarded the Vigilant yesterday and was cordially received. After exhibiting the log of the days' runs, which were 87, 22, 159 and 246, Captain Jeffrey said he passed an iceberg two hundred feet high and two miles long. The Vigilant sailed quite close to it, and all on board considered it to be the finest spectacle they ever witnessed.

Loss of the Whaler James Allen.

NANAIMO, B. C., June 17.—The steamer Wilmetta, arrived here from Dutch Harbor. She brings a meagre account of the loss of the American whaler James Allen, which was wrecked off Alaska island, eight hundred miles west of Alaska. May 11. The steamer Dora took two of the crew from Bonen island, June 7. The men were in a starving condition, their only food being the walrus blubber. The rock of Alaska island and sank almost immediately. The captain and first mate were killed, but the second mate, who was on one of the boats for Unalaska, are still missing. The United States patrol Petrel was sent to search for the missing men, but belonged to San Francisco. The captain's name is not known. He was drowned with the crew. The second mate is among the missing men. The Allen had on board at the time of the wreck a \$45,000 cargo for whalers up north.

Movements of Steamers.

NEW YORK, June 17.—Arrived: Alecto, from London; Manitowish, from London; Gothia, from Stockholm; Rugia, from Hamburg.

OBITUARY.

William Hart, a Noted New York Landscape Painter.

MOHNT VERNON, N. Y., June 17.—William Hart, a noted landscape painter, who for many years has been prominent in the art world, died at his residence on Chester street, this city, to-day. The artist's work has rapidly faded in health. His death resulted from heart trouble. Three children survive him, and with Miss Clara Hart, a grandchild, they succeeded to the large estate. The funeral will occur on Wednesday, and the burial will be in Greenwood.

Gen. John Ellis.

DENVER, Colo., June 17.—Gen. John Ellis, of Columbia, Mo., died at the home of his daughter in this city last night of old age. General Ellis was a pioneer and took an active part in the Seminole and Mexican wars, as well as in the rebellion.

"Mrs. Winslow's Soothing Syrup"

Has been used over fifty years by millions of mothers for their children while teething, and the latest scientific analysis shows that it softens the gums, allays pain, cures wind colic, regulates the bowels, and is the best remedy for diarrhoea, whether arising from teething or other causes. For sale by druggists in every part of the world. Be sure you get the genuine "Soothing Syrup" with a picture of Mrs. Winslow on the wrapper.

The Best California Wines

At Schuler's, 108 North Meridian street.

THE BLUES WON BOTH

MILWAUKEE LOST TWO GAMES AT KANSAS CITY YESTERDAY.

St. Louis City Took Two from Minneapolis—Grand Rapids Defeated by Toledo—To-Day's Game at Home.

KANSAS CITY, June 17.—Before a crowd of 7,000 spectators the Kansas City "Blues" played and won two games of ball from the Milwaukee "Brewers" this afternoon. The first game was an exceedingly close and interesting one, which required ten innings to decide, the home team finally winning in the tenth by a streak of heavy batting which sent in four runs, Donahue's timely home-run drive over the fence bringing in two of them. The second game, which was started immediately after the conclusion of the first, was not so lively or well-contested, the home team taking a good lead in the first inning and maintaining it to the finish.

St. Louis City Wins Two. ST. LOUIS CITY, La., June 17.—The home team won two games from Minneapolis to-day. The first was an easy victory. The second contest was an exciting one. In the eighth inning the "Millers" made five runs off Cunningham and tied the score, but he redeemed himself in the ninth by hitting the ball which scored the winning run. Parvin pitched a good game. Score of first game: R. H. E. St. Louis City... 0 0 3 1 1 4 0 1 4 1 7 3 Milwaukee... 0 0 0 0 0 0 0 0 0 0 0 0

Toledo, 3; Grand Rapids, 2. TOLEDO, O., June 17.—Rain stopped today's game in the last half of the seventh inning, after the home club had added two to its lead. The visitors had two men out, a man on second and two strikes on the batsman. Sharp playing characterized the game and runs were made by timely bunching of hits. Attendance, 5,700.

WANTED PROTECTION.

Dr. Mary Walker at the Springfield, Mass., Police Station.

SPRINGFIELD, Mass., June 17.—Dr. Mary Walker, clad in a Prince Albert coat, black trousers and a silk hat, walked into police headquarters in this city last evening and applied to matron Mallory for protection and applied to matron Mallory for protection and applied to matron Mallory for protection.

AN ISLAND ON STILTS

It Will Be Called Atalantis and a Site Has Been Selected on the Cholera Banks Off New York.

NEW YORK, June 17.—From a window of the building at the southwest corner of Union square flutters a blue flag with a red border and a white star in the center. Just such another flag floats from a buoy miles from the nearest shore, and designate that the waters and sea bottom for a league around, and all that in them or on them lies, is and belongs to Atalantis. For Atalantis is the newest station of the earth, and of the waters underneath the earth as well, and its consulate is situated at 3 Union square, in witness whereof all may see the flag with the single star.

SCHEME OF GOTHAMITES TO ESTABLISH A LITTLE REPUBLIC.

THE BUILDINGS.

The new republic is to stand on big cylinder piles filled with cement. The buildings will cost between two and three million dollars. A series of structures are contemplated, but not more than one will be built this summer, or until people say how they like the idea. The first of the series will be a pavilion built in the form of a square, two stories high in the main and three in the towers. The floor space of the two main stories, of the fishing pavilion below and of the promenade on the roof, will contain 22,800 square feet. The building will be 400 feet square, constructed entirely of steel, iron, glass and tiling. The interior will be designed to accommodate 10,000 people. The second story will be elevated about thirty feet above the level of the sea, so as to be out of the reach of encroaching waves. The first story will be a grand amphitheater, the second a ballroom, the third a dining room, the fourth a billiard room, the fifth a library, the sixth a reading room, the seventh a smoking room, the eighth a billiard room, the ninth a billiard room, the tenth a billiard room.

The building will be 400 feet square, constructed entirely of steel, iron, glass and tiling. The interior will be designed to accommodate 10,000 people. The second story will be elevated about thirty feet above the level of the sea, so as to be out of the reach of encroaching waves. The first story will be a grand amphitheater, the second a ballroom, the third a dining room, the fourth a billiard room, the fifth a library, the sixth a reading room, the seventh a smoking room, the eighth a billiard room, the ninth a billiard room, the tenth a billiard room.

THE BUILDINGS. The new republic is to stand on big cylinder piles filled with cement. The buildings will cost between two and three million dollars. A series of structures are contemplated, but not more than one will be built this summer, or until people say how they like the idea. The first of the series will be a pavilion built in the form of a square, two stories high in the main and three in the towers. The floor space of the two main stories, of the fishing pavilion below and of the promenade on the roof, will contain 22,800 square feet.
